TESTING PROGRAM**

January – December 2013

**THE CWW FIRE FIGHTER  
TESTING PROGRAM**

The Fire Training Institute of Schoolcraft College, in collaboration with the Schoolcraft Testing Center, administers a pre-employment certification test. This test evaluates the written and physical ability qualifications of fire fighter candidates. **All CWW applicants are required to take our CWW written and CPAT tests.** Successful completion of testing validates a candidates's ability to perform the critical reading and physical skills needed for entry level positions.

**WRITTEN TEST**

The written test measures work-related performance factors and basic fire fighter knowledge.

**PHYSICAL ABILITY TEST**

The Candidate Physical Ability Test (CPAT) is a sequence of eight separate events, requiring progression along a predetermined path from event to event in a continuous manner. The pass/fail sequence was developed to determine fire fighter candidates' ability to perform essential simulated tasks consistent with fire fighting. A description of the CPAT Test will be provided at registration.

Two forms must be submitted at the time of the physical test:

Forms will be provided at time of registration.
