Economics - 2012-2013 CATALOG

If you watch or read the news, chances are you're bombarded by terms such as unemployment, inflation, recession, interest rates, supply and demand. We recognize these buzzwords but do we really know what they mean? Courses in economics can help deepen your understanding of such concepts. Do you want to own your own business, make money, or just get a better understanding of how the world works? If so, you might start with a course in economics. It's bound to be challenging but hard work is your investment. Your return is quality education.

WHY CHOOSE A COURSE IN ECONOMICS?

Because...

- You can never remember the difference between micro and macro.
- You plan to have your own company one day.
- You plan to major in business at a university.
- You want credits that may count toward your associate degree.
- You want to earn credits that may transfer toward a four-year degree.

Economics courses are identified by the prefix ECON.

For More Information

Visit www.schoolcraft.edu where you can view course and program information, schedule a campus tour, apply for admission, register for courses, and request more information.

Contact the Admissions and Enrollment Center at 734-462-4426 with additional questions.
