### Engineering 2011-2012 CATALOG

Nearly everywhere you look and nearly everything you see, touch or use in your everyday life has been influenced by engineering. Whether in the design phase, the research phase, the production or manufacturing phase, the delivery phase, or in problem-solving, the application of physical science and mathematics—engineering—played a role at some point. Engineering courses offered by Schoolcraft College provide students with the opportunity to explore the engineering principles and their application in the various fields of engineering and engineering technology as well as gain knowledge in specialized areas of statics, dynamics and mechanics of materials.

### WHY CHOOSE A COURSE IN ENGINEERING?

#### Because...

- You want to explore career opportunities available in the vast field of engineering.
- You are creative, detail-oriented, inquisitive, innovative, and a problem-solver.
- You want to learn more about how things work.
- You want credits that may count toward your associate degree.
- You want credits that may transfer toward a four-year degree.

Engineering courses are identified by the prefix **ENGR**.

#### For More Information

Visit [www.schoolcraft.edu](http://www.schoolcraft.edu) where you can view course and program information, schedule a campus tour, apply for admission, register for courses, and request more information. Contact the Admissions and Enrollment Center at 734-462-4426 with additional questions.

**Schoolcraft College**
