Psychology - 2012-2013 CATALOG

Why do people do what they do and think like they think? Psychology offers insight into the fascinating arena of human behavior. We offer courses in human relations, general psychology, child psychology, the psychology of aging and the psychology of adjusting to the personal and social environment. Your introduction to psychology might lead to a career in a mental health field or a deeper understanding of what motivates people. You certainly can apply your expanded understanding of human behavior and mental processes in fields such as education, nursing, medicine, law, business and communications. Whatever the case, be sure to check our course offerings.

WHY CHOOSE A COURSE IN PSYCHOLOGY?

Because...

- You want a better understanding of human behavior and mental processes.
- You want insight to personal relationships.
- You want credits that may count toward your associate degree.
- You want credits that may transfer toward a four-year degree.

Psychology courses are identified by the prefix PSYCH.
