Sociology 2012-2013 CATALOG

As a discipline, sociology involves the study of human social behavior. That means it's concerned with economic, social, political and even religious customs as well as the problems of racism, sexism and crime that trouble us as a society. Our courses deal with many of those complex issues-and may just offer you insight to what rules govern our behavior in groups. Our Social Problems course considers racism, sexism, poverty, crime and family stability. Principles of Sociology looks at culture, socialization, social institutions and social change. Other courses examine marriage, urbanization, social and cultural trends and the importance of community. Won't you join us?

WHY CHOOSE A COURSE IN SOCIOLOGY?

Because...

- You want to better understand why and how our world functions in societies.
- You want to better understand what influences our cultural traditions of marriage.
- You want to better understand social problems such as racism, sexism and crime.
- You want credits that may count toward your associate degree.
- You want credits that may transfer toward a four-year degree.

Sociology courses are identified by the prefix SOC.

For More Information

Visit www.schoolcraft.edu where you can view course and program information, schedule a campus tour, apply for admission, register for courses, and request more information. Contact the Admissions and Enrollment Center at 734-462-4426 with additional questions.
