MIAT students wishing to use this articulation agreement addendum must show proof of successful completion by submitting official transcripts from MIAT to Schoolcraft. Students can transfer in only one of the above programs, but not all. Students may choose between the Associate in Applied Science in Aviation Management, the Skill Certificate in Aviation Management, and the Associate in General Studies degree. Students should note that a maximum of only six (6) elective credit hours are applicable to the Skill Certificate in Aviation Management.

Students are still required to complete fifteen (15) credit hours at Schoolcraft prior to the credits applying to the selected Schoolcraft program and pay a $25 fee. Students should be advised that articulated credit may not be transferable to another institution.
