New Student Checklist

All the steps that lead to registration take place in the McDowell Center and are listed below:

- Apply for admission. Complete an application for admission and submit it to the Office of Admissions. You can also apply online at www.schoolcraft.edu. Your Student Number is: __________________

- Visit our campus. Call 734-462-4426 to schedule a guided campus tour. You also can view a virtual tour of campus at www.schoolcraft.edu.

- Submit transcripts. Send your high school transcripts or GED scores and any official college transcripts to the Office of Admissions.

- Explore financial aid and scholarship opportunities. Apply online at www.fafsa.ed.gov and list the Schoolcraft College code—002315.

- Send in your ACT or SAT scores or take a placement test. If you have taken an ACT or SAT test within the last three years, send your scores to the College. If not, placement testing is available in the Assessment/Testing Center. Call 734-462-4806. Sample placement questions are available at www.schoolcraft.edu/assessment.

- Participate in orientation. Orientation is available on campus or online at www.schoolcraft.edu. Visit or call the Counseling Center at 734-462-4429 to make arrangements.

- Meet with an advisor or counselor. Visit or call the Counseling Center at 734-462-4429.

- Register for classes. Register online, call 734-462-4800, or visit the Registrar’s Office.

- Choose a payment method. Pay for classes online, by phone at 734-462-4449, in person at the Cashier’s Office, or by using FACTS, a tuition management plan. Payment arrangements must be made the same day you register.

- Get a student identification card at the Office of Admissions. Bring picture identification and a copy of your current class schedule.

- Enjoy your classes and have fun!

# Accreditation

Schoolcraft College is accredited by The Higher Learning Commission of the North Central Association, 30 North LaSalle, Suite 2400, Chicago, IL 60602-2504; phone 800-621-7440; fax 312-263-0456 or access the Commission’s Web site at www.ncahigherlearningcommission.org.

Schoolcraft has the following programs that have state and national approval and accreditation:

- The Children’s Center is accredited by the National Association for the Education of Young Children (NAEYC). For more information regarding accreditation, call 800-424-2460.

- The Criminal Justice Associate Degree with Academy program is certified by the Michigan Commission on Law Enforcement Standards (MCOLES). For more information regarding accreditation, call 517-335-0918.

- The Health Information Technology Associate Degree program is accredited by the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM), in association with the American Health Information Management Association (AHIMA). For more information regarding accreditation, call 312-233-1131.

- The Medical Assisting Certificate program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) on recommendation of the Curriculum Review Board of the American Association of Medical Assistants’ Endowment (AAMAE). For more information regarding accreditation, call 312-553-9355.

- The Nursing Associate Degree and Practical programs are approved by the Michigan Board of Nursing. For more information regarding accreditation, call 517-335-0918.
It is the policy of Schoolcraft College that no person shall, on the basis of race, color, national origin, gender, age, marital status, creed or handicap, be excluded from participating in, be denied the benefits of, or be subjected to discrimination during any program or activity or in employment.

Any questions concerning the application of, or grievances for, Title IX of the Education Amendments of 1972, which prohibits discrimination on the basis of sex, and Title VI of the Civil Rights Act of 1964, which prohibits discrimination on the basis of race, creed, color or national origin should be directed to:

Welcome to Schoolcraft College

You have selected one of the finest colleges in the Midwest.

The College was established more than forty years ago by the people of five contiguous communities to create an opportunity for you to grow intellectually and to strengthen your economic independence. We share a common goal; we want you to succeed.

Schoolcraft continues to be an inviting environment. We believe that it would be difficult to find faculty and staff more willing to assist you, an array of services more comprehensive, or a more technologically-equipped college anywhere. The totality of the experience creates your best opportunity for success.

This is the place to develop, refine and use the tools of knowledge. This is a place to learn and enjoy the experience.

Conway A. Jeffress, Ph.D.
President
Foundation Board of Governors

The Schoolcraft College Foundation is a non-profit corporation dedicated to raising funds to support Schoolcraft students with financial needs and College projects beyond general fund resources. Philanthropy at Schoolcraft College transforms lives by enabling students to achieve educational excellence. The Schoolcraft College Foundation is led by the Board of Governors comprised of 21 civic, business and community leaders drawn from and near the Schoolcraft Community College district.

Schoolcraft Development Authority

The Schoolcraft Development Authority was established by Schoolcraft College to direct College land development activities. The Board of Directors is composed of nine members.

William Brunton  
Philip N. Cascade  SC Board of Trustees  
James B. McKeon  
Robert R. Nix II  Vice President  
Jill F. O’Sullivan  President  
James Polkowski  Secretary/Treasurer  
Lita Masini Popke  
Barbara Scharmen  Recording Secretary  
John J. Walsh  
Patricia Watson  SC Board of Trustees  
Conway A. Jeffress  Ex-Officio
**The College**

**Mission**
Schoolcraft is a comprehensive, open door, community-based college. The mission of the College is to provide a transformational learning experience designed to increase the capacity of individuals and groups to achieve intellectual, social and economic goals.

**Overview**
Schoolcraft carries out its mission by offering a variety of educational programs, providing a vibrant campus life for students and visitors and making the campus available as a community resource.

**Educational Offerings**
More than 30,000 people each year take part in a learning experience sponsored by Schoolcraft College. They do so at the main campus in Livonia, the Radcliff Center in Garden City and online. These educational offerings include traditional college courses that grant credit, non-credit continuing and professional education courses and training/consulting services for business and industry. Traditional offerings include freshman- and sophomore-level courses in more than 60 academic disciplines, transfer agreements with dozens of four-year colleges and universities and career-oriented certificates and associate degrees.

Continuing education courses focus on the arts, business and computers, health and fitness, professional development and personal development.

Corporate Training works with clients to develop training plans, provide instruction and facilitate training, either at the College or the business location. Clients can choose to offer the instruction to their employees as full-credit classes or in shortened, non-credit modules.

Business services encompass small business/entrepreneurial training and government contracting assistance.

**Campus Life**
The College offers numerous student activities and student clubs, as well as concerts, theatrical performances, special events and intercollegiate athletic programs.

Students also are engaged in service learning, honors studies and peer tutoring. They publish an award-winning newspaper, host art shows featuring student work and volunteer with local charities.

The Waterman Wing of the VisTaTech Center features student gathering spaces, laptop computer connections and a high-quality food court to serve commuting students throughout the daytime and evening hours.

**Community Resource**
Many of Schoolcraft’s instructional and meeting spaces are available for use by local businesses, groups and organizations. Between outside groups using the campus as a meeting place and dozens of Schoolcraft-sponsored events, more than 100,000 people come to campus each year for a variety of activities, making Schoolcraft a hub of community life.

The VisTaTech Center embodies Schoolcraft College’s dynamic, on-the-move spirit. VisTaTech’s classroom, training, meeting and event spaces are the perfect venue for meetings, events, conferences and seminars. Visitors to the American Harvest Restaurant or Main Street Cafe can enjoy cuisine prepared by culinary arts students in some of the nation’s newest, most advanced teaching kitchens. Henry’s food court, also located in the VisTaTech Center, serves great food at low prices daily to students, employees and the community.

**Core Purpose**
Everything Schoolcraft College does, from educational offerings and campus life to its role as a community center, is geared toward fulfilling the institution’s core purpose: To increase the intellectual and economic capacity of the individuals, corporations and communities it serves.
Admissions

Office of Admissions
McDowell Center Room 240
734-462-4426

Schoolcraft College provides a friendly and supportive environment where you can prepare for your future and meet a diverse group of people. Schoolcraft College’s open door policy supports our primary purpose of making higher education available to individuals interested in, and capable of, extending their education beyond high school. There is no charge to apply for admission to the College.

General Admission Criteria

• High school graduates and applicants who present a high school equivalency are considered for admission.

• Non-high school graduates at least 18 years old may be admitted if their high school class has graduated. These students may be asked to take the General Education Development (GED) Test or meet other requirements based on individual needs.

• Non-high school graduates younger than 18 years old will be considered for admission based on assessment testing, recommendations from their high school principal and interviews with the Dean of Student Services and/or the Director of Counseling and Career Services.

• Students still attending high school or home-schooled students may take College classes at the same time if they present a recommendation from their high school counselor/principal or home-school official. See High School Dual Enrollment and Special High School Enrollment sections for more information.

Exceptions to the criteria above can be made by the Dean of Student Services. Admission to the College does not guarantee admission to all courses and programs of study. Special admission requirements must be met before a student is accepted into any limited enrollment program.

Admissions Process

Students seeking admission are requested to submit the following to the Office of Admissions:

• Completed Schoolcraft College Application for Admission, available in print or on the Web.

• Official high school transcript(s).

• Official college transcript(s), if applicable.

Transcripts are valuable assessment and course placement tools. Credits for courses taken at other colleges and prerequisite waivers can be evaluated for transfer if students provide official high school and college transcripts.

All applicants will receive materials describing their admission status. Admitted students will receive information on assessment testing, orientation, academic counseling and registration requirements and procedures.

Assessment

Schoolcraft College’s goal is to place students in courses that will maximize their academic success. All students who plan to enroll in credit courses participate in assessment testing for English, math and reading to assess their appropriate course level. To satisfy the assessment testing requirement, applicants should submit ACT scores that are not more than three years old to the Office of Admissions. Students who have not taken the ACT test may take alternative assessment tests given by the College.

Foundation Courses

Students who score below the collegiate level on English, math or reading assessment tests, or who require instruction in basic skills to meet prerequisites for their selected curriculum, are required to complete all basic courses within their first year of study. Foundation courses also may be taken by students who wish to review and strengthen their skills. Descriptions of the following foundation courses are listed in the catalog:

- BIOLOGY 050
- CHEMISTRY 051
- COLLEGIATE SKILLS 050
- MATH 045
- COLLEGIATE SKILLS 053
- MATH 047
- COLLEGIATE SKILLS 055
- MATH 053
- ENGLISH 050
- MATH 055
- ENGLISH 055
- PHYSICS 051
- ENGLISH AS A SECOND LANGUAGE 051
- ENGLISH AS A SECOND LANGUAGE 052

High School Enrollment Options

Schoolcraft College offers high school students opportunities to attend college while still in high school. Two options are High School Dual Enrollment and High School Special Enrollment.

High School Dual Enrollment

Public high school students who have completed at least the tenth grade may apply for dual enrollment at Schoolcraft College under the Postsecondary Enrollment Options Act of the State School Aid Act. Dual enrollment applications are valid one semester at a time and only during fall and winter semesters or spring sessions. Applications are available at the student’s high school or from the College. To be processed, the application must have a list of approved courses and signatures of the student, parent and school principal. In addition, a College counseling appointment is required. Schoolcraft College will bill the school district for tuition and fees. Students are responsible for the portion of charges not covered by their school district. Additional requirements are specified on the Schoolcraft College high school dual enrollment application. Requirements are subject to change in accordance with state legislation.

Special High School Enrollment

Public or private high school students who have completed at least ninth grade, or home schooled students who have completed the equivalent of ninth grade, must work together with their counselor to identify a course they want to take for high school and/or college credit. These students may apply to Schoolcraft College as special high school applicants. Students are admitted for one semester at a time under special high school enrollment. Applications are available at the student’s high school or from the College.
To be processed, the application must have a list of approved courses and signatures of the student, parent and high school counselor/principal or home-school official. In addition, a College counseling appointment is required. Students are responsible for all tuition and fees.

Readmission of Former Students
Former students, in good academic standing, should make an appointment to see an academic counselor. During this appointment, students can revise their educational plans and discuss current course offerings. If it has been longer than two years since the student last attended the College, he or she is asked to complete a free Application for Admission and Readmission form before registration.

Former students who were academically dismissed from the College must petition the Dean of Instruction for readmission. See the Academic Policies section of this catalog for details.

Guest Students at Schoolcraft College
Students attending another college may enroll at Schoolcraft as guest students. Guest students may register for a course(s) without taking assessment tests or meeting with a counselor, unless they so choose. Students attending another Michigan college or university must submit a completed Michigan Uniform Guest Application. Out-of-state guest students must submit an Application for Admission and indicate their desire to be a guest student. The application is valid only in the semester for which it is authorized. Guest students pay all tuition and fees, as applicable, and are not eligible for financial aid funds. If guest students submit a regular application for admission and do not indicate their guest-student status, they may be required to follow the same registration processes as new students.

Guest Students from Schoolcraft College
Students in good standing (minimum 2.0 grade-point average) currently attending Schoolcraft College may request a Michigan Uniform Guest Application from the Registrar’s Office to attend another college. The Schoolcraft College Registrar must approve courses taken at another college.

International Students Including Commuting Canadians and Non-Native English Speakers
For admission to Schoolcraft College, an international student must submit the following:
1. A completed, signed Application for Admission.
2. Official school transcripts.

To be issued the necessary visa documents, an international student including commuting Canadians must:
1. Submit a completed international student packet.
2. Demonstrate a sufficient level of financial support, with documentation verifying the availability of funds.
3. Provide a copy of a valid passport identification page.
4. All applicants whose native language is not English must demonstrate adequate knowledge of written English. A minimum Test of English as a Foreign Language (TOEFL) score of 500 on the paper test, 173 on the computer-based test or 70 on the Michigan English Language Assessment Battery (MELAB) is currently considered proof of English proficiency.

International students should contact the Office of Admissions at 734-462-4426, the Counseling Center at 734-462-4429, or visit the Schoolcraft Web site, www.schoolcraft.edu, to obtain an international student packet and Application for Admission.

F-1 visa students must maintain full-time enrollment to fulfill United States Citizenship and Immigration Services (USCIS) requirements. All new students must follow College assessment testing and counseling requirements and attend International Student Orientation. In addition, proof of health coverage is required. Students are admitted for fall and winter semesters and spring and summer sessions. Also, non-credit classes are available through the English Language Institute.

Obtaining and maintaining your visa status is your responsibility. Schoolcraft College is authorized to issue visa documents for foreign nationals to obtain F-1 student status either by changing their current visa status if they are in the U.S. or by obtaining an F-1 visa through a U.S. consul outside of the U.S. If you are in the U.S. with another visa status, you must be sure that your current status allows full-time study. For example, a visitor status (B-2, B-1, WT or WB) does not allow full-time study. Also, someone with visitor status who applies to change to a student status while in the U.S. is not allowed to begin full-time study until a change of status to the F-1 is approved by the USCIS, usually a two- to three-month process. Please consult with our International Information Specialist in the Counseling Center at the earliest opportunity to determine what steps you must take to maintain a valid visa status during your studies at Schoolcraft.

Non-Native English Speaking Students
All students whose native language is not English will be required to take assessment testing.

Campus Tours
A campus tour provides an excellent opportunity to learn about our academic programs, meet our faculty and see our facilities. Campus tours are offered at both the Livonia campus and the Radcliff Center in Garden City. Contact the Office of Admissions at 734-462-4426 or admissions@schoolcraft.edu to schedule your visit to the Livonia campus. Contact the Radcliff Center directly at 734-462-4786 to schedule a visit.

Culinary tours highlight how to apply to the Culinary Arts and Culinary Baking and Pastry Arts programs. They also include a tour of the culinary kitchens. Contact the Office of Admissions at 734-462-4426 or admissions@schoolcraft.edu to schedule your visit.
Financial Aid

Office of Financial Aid
McDowell Center Room 260
734-462-4433

A college education is one of the most important investments you can make. Schoolcraft College understands that students often need help to finance their education. Financial aid programs can provide students with options that may assist them with educational expenses and in achieving their educational goals. There are two basic categories of financial assistance: need-based and non-need-based aid. Need-based aid uses a formula to determine a family’s financial strength and eligibility for a program. Non-need-based aid does not use the financial strength of the family, but may take into consideration other factors such as grade-point average. All programs, criteria and funding are subject to change without notice. Additional information on financial aid may be found on the following Web sites:

schoolcraft.edu/aid - Financial Aid page at Schoolcraft College
ed.gov - U.S. Department of Education (Student Guide, FAFSA)
fastweb.com - Scholarship Search
wiredscholar.com - Scholarship Search
students.gov - Gateway to the Federal Government
nasfaa.org - National Association of Student Financial Aid Administrators
finaid.org - Financial Aid Information Page (includes scholarship searches)
mapping-your-future.org - A guide to careers, schools, financial aid and entrance and exit loan counseling
michigan.gov/mistudentaid - Michigan Department of Treasury Student Financial Aid
salliemae.com - SallieMae home page (student loan information)
collegeispossible.org - A resource guide for parents and students

Financial Aid Programs

The following section provides brief descriptions of the financial aid programs available at Schoolcraft College. Enrollment requirements vary by program, and may range from less than half-time to full-time enrollment each semester. Awards are made based on meeting eligibility criteria, satisfactory academic progress and the availability of funding.

Scholarships

Scholarships do not have to be repaid and are primarily based on academic achievement. Students should consult the Scholarship Book in the Office of Financial Aid (OFA), Student Activities or the Radcliff Center main office. The Scholarship Book contains current scholarship offerings, criteria and deadline dates for each semester. In addition to those listed in the book, the following scholarships are available.

Michigan Competitive Scholarships
This state scholarship provides up to $1,300 per academic year to students who achieve required scores on the ACT exam, demonstrate financial need and enroll in an eligible Michigan college or university. The Michigan Department of Treasury determines eligibility and award amount.

Michigan Merit Award
This state scholarship provides a $2,500 award, $1,250 awarded in each of two years, to graduating high school seniors who meet Michigan Education Assessment Program (MEAP) High School Testing scores and other criteria as determined by the Michigan Merit Award Board. Those students who meet the criteria, as determined by the State of Michigan, for the middle school MEAP exams may be eligible for additional funds of up to $500.

Schoolcraft College Athletic Scholarships
Contact the Athletic Department at 734-462-4400, ext. 5324 for information.

Schoolcraft College Institutional Scholarships
The OFA awards a limited number of scholarships each academic year to students who demonstrate financial need. Awards are made on a case-by-case basis and no application is required.

Schoolcraft College Trustee Award
This scholarship program is available to entering fall semester first-year students who graduated the previous June from select area high schools. By the deadline date, students must submit a Trustee Scholarship Application, seventh-seventh semester high school transcript reflecting a minimum 3.0 grade-point average and their ACT scores. Students must register for at least 12 credit hours each semester, and the scholarship may be renewable for the second year of study if credit hour and grade-point average requirements are met by the end of the spring session.

Schoolcraft College Foundation Scholarships
Through generous public and private scholarship donations, the Schoolcraft College Foundation helps students reach their educational goals. Community members and organizations are encouraged to establish scholarships and endowments honoring special persons or groups while assisting Schoolcraft College students. In general, most scholarships require a 3.0 cumulative grade-point average and enrollment in at least six credit hours. Eligibility criteria, award amounts and deadline dates vary.

Schoolcraft College Faculty Academic Scholarships
These scholarships are available to students who have earned 12 credit hours at Schoolcraft College, have a minimum 3.0 grade-point average and meet individual departmental scholarship criteria. Faculty committees establish scholarship requirements and select the recipients of these awards. Students must enroll in at least six credit hours.

Women’s Resource Center (WRC) Scholarships
Women’s Resource Center scholarships are available to those who may or may not qualify for federal or state financial aid. The WRC works vigorously to ensure scholarship opportunities are available for all women, with a special emphasis on adult women returning to school. Scholarship information is available at the WRC.
Grant Programs
Grants do not have to be repaid and are based primarily on demonstrated financial need.

Federal Pell Grant (FPELL)
This federal grant program is for students without a bachelor’s degree in an undergraduate program who demonstrate exceptional financial need. Each academic year the federal government determines award eligibility and amount. The current range is $400–$4,050. Enrollment requirements range from less than half-time to full-time depending on individual eligibility.

Federal Supplemental Educational Opportunity Grant (FSEOG)
This federal grant program is for students without a bachelor’s degree in an undergraduate program who demonstrate exceptional financial need. The award is determined by the College and is based on funds available each year. Enrollment requirements range from less than half-time to full-time depending on individual eligibility.

Michigan Educational Opportunity Grant (MEOG)
This state grant program provides up to $1,000 per academic year to students with demonstrated exceptional financial need. Students must enroll in at least six credit hours per semester and have been continuous residents of Michigan for 12 months.

Michigan Adult Part-Time Grant (APTG)
This state grant program provides up to $600 per academic year to students with financial need who enroll for three to eleven credit hours per semester, are considered independent students according to federal guidelines and have been out of high school at least two years (other than GED). The award is determined by the College and is based on funds available each year.

Michigan Native American Tuition Waiver
Michigan residents who are Native North Americans and are certified one-quarter blood quantum by their tribal association may be eligible for tuition assistance funds. Information and requirements are available through the OFA. The OFA determines eligibility.

Tuition Incentive Program (TIP)
This state grant program provides funding for tuition and mandatory fees to students who graduate high school or earn their GED by the age of 20. The Michigan Department of Treasury, through Family Independence Agency Medicaid records, certifies eligibility for each recipient. TIP pays for a maximum of 24 credits each academic year. Allowable costs are limited to resident tuition, registration fees and instructional equipment fees. Students must enroll in at least six credit hours per semester.

Women’s Resource Center (WRC)
Special Populations Program
The Special Populations program, administered through the Women’s Resource Center (WRC), has funds available for single parents, displaced homemakers and persons in programs considered nontraditional for their genders. This assistance is granted for tuition, textbooks and child care. Contact the WRC at 734-462-4443 or visit the office in the McDowell Center.

Student Employment
Student employment requires the student to work to earn the award. Work-study students are placed in jobs on campus, and their wages are paid in part by the work-study program. Student employment under these programs is limited to 20 hours a week. To be eligible, students must demonstrate financial need and register for at least six credit hours per semester.

Federal Work-Study
This work-study program provides funds for part-time employment on campus.

Student Loans
Student loans are borrowed money and require repayment. Because these loans are a form of financial aid, students are required to apply for financial aid (Free Application for Federal Student Aid or FAFSA) before a loan request can be considered. Loan request forms are available online on the Financial Aid page. Schoolcraft College recommends students request loan amounts they will realistically be able to repay. The approved loan amount is determined by the student’s financial need, other financial aid and outside resources, program limits and loan amount requested.

The school, not the lender, determines student eligibility for a federal student loan. If reasons are documented and explained to students in writing, the OFA may decline to certify an otherwise eligible loan application. In addition, a loan may be certified for an amount less than that for which the student would otherwise be eligible.

To be eligible for a student loan, students must enroll in at least six credit hours each semester. In addition, students need to make satisfactory academic progress at Schoolcraft College and, therefore, loans may not be approved for students on financial aid probation. Interest rates, repayment terms and borrowing limits vary with each loan program. Repayment on these low interest educational loans begins after a student stops attending school on at least a half-time basis. Entrance counseling is required before processing a student loan request. In addition, all students with loans must participate in exit counseling upon leaving Schoolcraft or when their enrollment falls below half-time status.

Federal Stafford Loan
These low interest loans are made by a bank, credit union or other lender. To receive a Subsidized Stafford Loan, the student must demonstrate financial need. Interest on subsidized loans is paid by the federal government during periods of enrollment, deferment and during the six-month grace period preceding repayment. Unsubsidized Stafford Loans have the same terms as a Subsidized Stafford, except the loan is not based on demonstrated need, and borrowers are responsible for interest during periods of enrollment and the six-month grace period preceding repayment. Interest rates on both these loans are set annually and currently capped at 8.25 percent.

Federal PLUS Loan
Federal PLUS Loans are for parents who want to borrow money to help pay for their dependent children’s education. PLUS loans are not based on demonstrated financial need; however, the student must first apply for need-based aid before applying for a PLUS loan. The interest rate is variable, determined annually and currently capped at 9 percent. Parents who have no adverse credit history may apply for PLUS Loans.
Michigan (MI) Alternative Student Loan
The MI-Loan program is not based on demonstrated financial need; however, a student first must apply for need-based aid before applying for this loan. Loans range from $500 up to the full cost of attendance. Information and applications are available by contacting the Michigan Higher Education Student Loan Authority online at www.michigan.gov/mistudentaid or by calling 1-888-643-7521.

Veterans

Veterans Affairs Office
McDowell Center Room 275
734-462-4400, ext. 5213

Students attending college under the provisions of the G.I. Bill (Chapters 30, 32, 35, Title 38 and Chapter 1606, Title 10) are entitled to all privileges and are responsible for complying with all Schoolcraft College regulations. All financial obligations, including payment of tuition and fees, must be paid on the scheduled dates. An advance payment program to help defray the cost of registration is available to eligible students who apply at least six weeks before the beginning of the semester.

Approved veterans who are attending under Chapter 31 (Vocational Rehabilitation) are not required to pay tuition and fees at the time of registration. Veterans under this program are required to contact the Schoolcraft College Veterans Liaison in the Counseling Center before registering.

The Veterans Liaison helps students apply for VA educational benefits and operates as a contact person between the student and the Veterans Administration.

In compliance with the Department of Veterans Affairs, Circular 20-76-84, the College has developed the following standards for progress. Each student must conform to these standards to be eligible for Veterans Administration Educational Benefit Certification:

- All students receiving various educational benefits must have their class schedules approved by a counselor or the Veterans Liaison.
- A Request for Certification must be filed with the Schoolcraft College Veterans Liaison each semester.
- All changes of address, curriculum and withdrawal from courses shall be reported immediately to the Veterans Liaison.

All veterans have the same rights and responsibilities regarding conduct and disciplinary action as other students.

Veterans and their dependents are encouraged to contact the Veterans Liaison in the Counseling Center in the McDowell Center for information about VA educational benefits.

Financial Aid Application Process

Students should apply for financial aid each academic year they wish to be considered for aid. Applications are processed year round, but students are advised to file applications as early as possible to receive notification of eligibility before tuition payments are due. This usually means filing in the early spring for the upcoming academic year.

The Free Application for Federal Student Aid (FAFSA) is available on January 1 for the next academic year. For the 2006–07 academic year, apply on or after January 1, 2006 for summer and fall 2006, and winter and spring 2007.

Applying for Financial Aid

1. Complete and submit the Schoolcraft College Application for Admission. The application is available online or from the OFA. While you do not have to be admitted to Schoolcraft College to apply for financial assistance, aid is not awarded until you have been admitted to the College and have a student number.

2. Complete and submit the FAFSA or Renewal FAFSA.
   - Online at www.fafsa.ed.gov. If you are unable to access the Internet, you may pick up a paper application from the OFA.
   - Indicate Schoolcraft College’s code (002315) on your FAFSA. This permits the OFA to access your financial aid results electronically. If you are thinking about transferring mid-year, indicate your transfer institution first, then Schoolcraft College.

3. Approximately one week (Web application) to four weeks (paper application) after you submit your FAFSA, you will receive a Student Aid Report (SAR). The SAR recaps the information you submitted on your FAFSA.
   - Read the Information Summary, review your SAR for accuracy and submit any changes to the Department of Education with our school code added to it.
   - If you provide an e-mail address, the Federal Processor will communicate with you via e-mail. Otherwise, correspondence will be by mail.

4. Schoolcraft College will request additional documents, if necessary.
   - If selected for verification, you will be required to submit income documentation and a verification worksheet. Your SAR will alert you if you have been selected for verification.
   - Other information may be requested as determined by the OFA.
   - Respond immediately to all requested information.
5. Eligibility for financial aid assistance cannot be determined until all requested documentation is on file. Students are notified in writing or by e-mail of their eligibility status. Files are reviewed based on the date of completion. Files are complete when the student has submitted all requested information. See the following priority dates.

Applying for financial aid early gives students the best chance of having an award determination in time for the start of classes. Those applying after the priority dates may not have their eligibility determined in time for the start of classes.

6. Inform the OFA of changes in financial or family circumstances, such as loss of employment, death or disability of a family wage earner, divorce or separation. You may qualify for a re-evaluation of your financial aid information.

---

**Financial Aid General Information**

**Rights and Responsibilities**

Financial aid guidelines, rules, requirements and consumer disclosures are on the College Web site at [www.schoolcraft.edu/aid](http://www.schoolcraft.edu/aid) in the College catalog and on page two of the Award Letter. Materials sent to students from the OFA and its service providers may include information regarding requirements. All award and eligibility requirements are subject to change without notice. Financial aid applicants and recipients are expected to review these requirements and follow the policies and procedures established by the OFA, the College and the financial aid programs.

**Eligibility for Financial Aid**

Eligibility requirements vary from program to program. Financial aid program awards are determined and disbursed in compliance with established federal, state and institutional requirements and guidelines. In addition to meeting program eligibility requirements, students must adhere to College policies and procedures.

**Financial Need**

Financial aid programs were developed on the premise that the student and spouse, if married, or the student’s family, have the primary responsibility for financing a college education. Financial aid is available to supplement the student’s and family’s resources. Most aid dollars are awarded on the basis of a federal need analysis formula established by the U.S. Congress. The formula measures each family’s ability to pay for college expenses and is calculated using all the questions and answers on the Free Application for Federal Student Aid (FAFSA). The result is the student’s Expected Family Contribution.

The following formula is used to determine an individual student’s need for financial aid: Cost of Attendance—Expected Family Contribution = Financial Need. Students may be awarded up to their total need from various financial aid programs. Depending on eligibility, an award package can be any combination of grants, scholarships, work-study and loans. The student can accept or reject all or any part of the award package.

**Selection of Recipients**

In addition to program eligibility requirements and financial need, students are selected to receive financial aid based on deadlines and maintaining satisfactory academic progress. Schoolcraft College awards financial aid in the following order, depending on the student qualifications: 1) grants, 2) scholarships, 3) work-study, 4) student loans.

The OFA determines the type and amount of each award. The type and amount of award are based on a variety of factors including financial need, outside resources, class attendance, enrollment status, dependency status, program limitations and the availability of funds. When funds are limited, awards may be granted to applicants who meet all requirements and have a complete financial aid file.

**Cost of Attendance for Financial Aid**

Using rules established by the U.S. Congress, the College sets cost of attendance allowances in order to determine financial aid. These reflect modest book, travel, room, board and miscellaneous allowances as well as average tuition and fee charges. In certain circumstances, if applicable, it may reflect costs related to dependent care, a disability and loan fees.
**Typical Cost of Attendance for a Full-Time Student**

</table>

Figures are based on 2005–06 academic year costs and subject to adjustment due to changes in law and College Board of Trustee policy. Actual costs will vary from student to student.

**Transferring to Another College**

Students planning to transfer to a four-year institution should contact that institution’s Financial Aid Office for financial aid requirements, deadline dates and application procedures. Students usually begin the application process in January or February for the following September. Students who transfer from one institution to another within the same academic year will have their aid prorated based on use at the first institution attended. Financial aid is generally not transferable from one institution to another. Students must complete the award process at each institution attended.

**Transfer Scholarships**

Colleges and universities award many scholarships to graduates of Schoolcraft College who plan to transfer to their institutions. Scholarships are awarded on the basis of academic achievement, financial need or other specified criteria. Contact the college to which you plan to transfer or the Schoolcraft College Counseling Center for information on transfer scholarships.

**Attendance at Multiple Institutions**

Students may not receive financial aid at another institution and Schoolcraft College concurrently. Students will be responsible for any over awards and will not be eligible for further aid until the funds are repaid.

**Study Abroad**

Students may be eligible for federal assistance for attending a study abroad program that is approved for credit by Schoolcraft College. Contact the OFA to determine individual eligibility.

**Class Attendance**

Students need to attend their class(es) to establish and maintain financial aid eligibility. Instructors record the attendance of all students each week. The OFA is notified of the financial aid students who never attend or stop attending classes. Not attending a class(es) affects the amount of aid a student is receiving now and in the future. Nonattendance usually results in the student owing money to the College.

**Withdrawals and Refunds**

The College’s tuition and fee refund policy is 100 percent refund through the end of the schedule adjustment period for each semester. The $35 registration fee is non-refundable. See the Credit Class Schedule each semester for specific refund dates. Students initiate a refund by completing the Refund Request form available in the Registrar’s Office. Students who drop classes and receive a 100 percent refund may have their financial aid adjusted and may owe money to the College.

See the Credit Class Schedule each semester for specific withdrawal dates. Students initiate a withdrawal by completing the Drop form available in the Registrar’s Office. Students who withdraw from class(es) receive a W grade. The grade of W does not adversely affect the student’s grade-point average. However, a W is considered attempted and not completed and does adversely affect the student’s completion rate. See the Academic Progress Policy.

**Complete Withdrawal (Return of Title IV Funds and Unearned Financial Aid)**

When a student completely withdraws or walks away from his/her classes before completing at least 60 percent of the semester, federal law requires the College and sometimes the student to return a percentage of the Title IV funds received by the student. Title IV program funds include Federal Pell Grants, Federal Supplemental Educational Opportunity Grants and Federal Stafford Loans.

The number of days students have attended during the semester determines the amount of the students’ earned Federal Title IV funds. Earned Title IV financial aid may be used to pay for institutional charges of tuition and fees, or used toward non-institutional expenses such as room and board, books, supplies and transportation.

Unearned Title IV funds must be returned to the federal government. The College must return a portion of the students’ unearned aid. Students will owe the College for any resulting unpaid institutional charges (tuition and fees). In addition, students must return to the federal government a portion of unearned funds received in excess of tuition and fees. Students will be ineligible for future financial aid at any college or university if the unearned funds are not repaid to the U.S. Department of Education.

Contact the OFA for current Return to Title IV Funds schedules and examples.

**Taxes and Financial Aid**

Taxability: Generally, grants and scholarships are tax free if they are used for qualifying tuition and course-related expenses. Course-related expenses, such as fees, books, supplies and equipment, must be required of all students in a course of instruction to be used as a qualifying expense. Questions regarding tax issues should be directed to the Internal Revenue Service (IRS) or your tax preparer.

Tax Credits: The 1997 Taxpayer Relief Act created two tax credit programs for college students. The IRS provides the requirements for the Hope Tax Credit and the Lifetime Learning Credit programs. Questions regarding tax issues should be directed to the IRS or your tax preparer.

Individual Retirement Accounts: The Taxpayer Relief Act allows early withdrawals from IRAs to pay for qualified higher education expenses. It also established the nondeductible Coverdell Education Savings Account (also known as Education IRA). Consult the IRS guidelines or your tax advisor to determine eligibility for these programs. Questions regarding tax issues should be directed to the IRS or your tax preparer.
Schoolcraft College Financial Aid
Academic Progress Policy

In addition to meeting individual financial aid program requirements, students have to make satisfactory academic progress toward completing a degree or certificate program to receive aid. Federal regulations require that the policy includes reviewing enrollment periods for which students did not receive aid, as well as the semesters students did receive aid.

The following guidelines describe the requirements necessary to maintain financial aid eligibility at Schoolcraft College.

1. Eligibility Requirements—A student must:
   • Successfully complete at least 67 percent of all Schoolcraft College credit hours attempted or be a first-time student at Schoolcraft College.
   • Have a cumulative Schoolcraft College grade-point average of at least 2.0.
   • Along with transfer credits, not have attempted more than 90 credit hours or 150 percent of the student’s official Schoolcraft College academic program requirements.

2. Evaluation of Eligibility
   Eligibility is determined when a student applies for financial aid each academic year and/or upon student request. Applicants who have not made satisfactory academic progress are notified by mail.

3. Probation
   Financial aid applicants who do not meet the eligibility requirements will be granted a probationary period of financial aid to move toward acceptable grade-point average or completion rates. Students who fail to make satisfactory academic progress after the probationary period will have their financial aid withdrawn until they meet the standard or have an acceptable appeal. Loans are generally not awarded to students on probation.

4. Appeals
   A student whose financial aid has been terminated may appeal in writing. All appeals should include appropriate documentation. Extenuating circumstances considered for appeals include personal illness or accident, serious illness or death of an immediate family member, or other circumstances beyond the reasonable control of the student. Students in extended credit-hour programs and/or second-degree programs may submit appeals. Acceptable documentation includes letters from a physician, attorney, social service agency, parole officer, or an obituary notice, divorce decree and/or academic records. The student will be notified of the appeal results in writing. Appeals can result in a) denial of reinstatement, b) reinstatement of the student’s eligibility, or c) a probationary period.

5. Reinstatement
   A student may be reinstated after meeting one of the following conditions. Classes taken at institutions other than Schoolcraft College are not considered for reinstatement purposes.
   • The student has taken, without funding from the OFA, at least six credit hours and has passed those six credit hours. The student will be given probationary aid for the balance of the academic year.
   • The student has taken, without funding from the OFA, enough credit hours to meet the grade-point average and completion rate requirements. The student will be reinstated without probation.
   • The student meets the grade-point average and completion rate requirements after the probationary period. The student will be reinstated without probation.

6. Grades and Successful Completion
   Credit hours attempted include all grades recorded on the transcript of 4.0 through 0.0, W, NC and I *. Repeated courses are identified as NC on the transcript and are considered as credit hours attempted. Successful grades are 1.0 through 4.0. Unsuccessful grades are 0.0, W, NC and I. Unsuccessful grades are considered attempted and not passed for purposes of determining satisfactory academic progress.

   * W = Withdrawal, I = Incomplete, NC = No Credit – repeated course

7. Audit and Credit by Exam
   Classes taken for audit or credit earned by exam are not considered when determining financial aid eligibility.

8. Repeat Courses
   Students may repeat failed courses or courses in which the student does not attain the minimum grade required for their program. However, excessively repeating courses is discouraged and could affect financial aid eligibility.
Academic Support Services

Career and Transfer Center
(formerly Career Planning and Placement Center)

McDowell Center Room 205
734-462-4421

The Career and Transfer Center provides a comprehensive array of services and resources to help students learn about career, employment and transfer options. Services are designed to help students incorporate all phases of their educational experience from exploring careers, selecting a major and seeking student employment opportunities, to making a smooth transition from Schoolcraft College to a four-year college or university. Students who need assistance for career planning, job placement or college transfer services are invited to visit the Career and Transfer Center located in the McDowell Center. Licensed professional counselors, specializing in career counseling, and professionally trained personnel are available to assist students in the following areas:

Career Counseling
- Decision making.
- Career choices.
- Interest inventories.
- Skills identification.
- Values clarification.
- Choosing a major.

Students can stop by or call to make an appointment with a career counselor.

Transfer Services and Resources
- College catalogs and brochures.
- Schedule of four-year college visitations.
- Information on admissions and transfer requirements.
- Equivalency information.
- MACRAO transfer agreement information.
- Other special partnerships and articulation information.
- College applications.
- Transfer scholarship information and applications.
- Transfer events.

Career and Employment Guidance
- Assistance with locating career information.
- Salary information.
- Future employment trends.
- Resume development.
- Effective interviewing skills.
- Job seeking skills.
- Computerized research using Discover, Open Options and the Internet.

Employment Services
- Career and employment fairs.
- Job listings database.
- Internet-based employment searches.

Assistance is available on a walk-in basis for most services.

Counseling Center

McDowell Center Room 275
734-462-4429

The Counseling Center provides quality services and professional staff to assist students in developing meaningful education, career and personal plans that are compatible with their life goals. Counselors are available by appointment or on a walk-in basis. Schedule early for best results. The Counseling Center can help you with:

Academic Choices
- Selecting a major or program of study.
- Creating an educational plan.
- Understanding certificate and degree requirements.
- Developing a strategy for selecting courses.
- Preparing to graduate.
- Making plans to transfer.

Personal Life Choices
- Managing the stress of school, work and personal commitments.
- Using time-management skills to create an effective balance.

Career Opportunities
- Identifying and clarifying career goals.
- Connecting to resources for in-depth career counseling.
- Enrolling in a career decision-making course—HDS 110.

Transfer Planning
- Connecting with representatives of four-year colleges and universities.
- Obtaining transfer guides.
- Using articulation agreements between Schoolcraft College and four-year colleges and universities.
- Providing guidance in selecting a transfer institution.

New Student Orientations
Student orientation programs are designed to provide essential information and help ease the transition to college for new students. The Counseling Center provides orientation sessions including an online format. All entering students must complete an orientation session before registering for classes. Students can call the Counseling Center to arrange a convenient time for orientation or click on www.schoolcraft.edu.
The Registrar’s Office provides registration services to students for traditional and continuing education programs. Registration at Schoolcraft College generally takes place three times a year, starting in July for the fall semester, late November for the winter semester and April for the spring/summer sessions. The Credit Class Schedules contain appropriate registration information.

The Registrar’s Office is responsible for maintaining all student academic records. Other office services include enrollment verifications, student loan deferment processing, transfer course evaluations, guest application processing, certifying students’ eligibility for graduation, and the commencement ceremony.

The Registration Process

Any student—new, returning, readmitted, dual, transfer and guest—may register online at [www.schoolcraft.edu](http://www.schoolcraft.edu) using WebAdvisor or by touchtone phone, 734-462-4800.

- New students are eligible to register after they have taken the assessment tests and met with a counselor.
- Students designated as official guest students by the Admissions Office may register at the time all students register.

Students are expected to register during the official registration periods. Students may register after the completion of the official registration periods up to the midpoint of a course with the written permission of the instructor. Students may not register past the midpoint for any course. It is College policy that students with financial obligations to Schoolcraft College will not be allowed to register until the obligations have been paid or cleared.

For detailed information regarding phone, online and in-person registration, consult the Credit Class Schedule, which is published online at [www.schoolcraft.edu](http://www.schoolcraft.edu) before the start of each semester’s registration period. The Schedule is also available in Registration, Counseling, Admissions and at the Radcliff Center.

Course Schedule Changes

Students are expected to complete the courses in which they are registered. If a change is necessary, students must file a Drop form at the Registrar’s Office, or send a letter or fax to the Registrar’s Office requesting the drop or withdrawal. The date this form is received or the postmark on the envelope is the student’s official drop date for the course. Drops also may be processed online via WebAdvisor or by touchtone phone. Please review the Credit Class Schedule to see the last official date to drop a class.

Added Courses

Students may add courses until the last date of the Drop/Add period. Please see the Credit Class Schedule for those dates. Courses added after this point require written permission of the instructor or division chair. Open Entry/Open Exit courses have flexible beginning and ending dates. See the Open Entry/Open Exit section on page 37 in this catalog.

Dropped Courses

For courses officially dropped within the refund period, no grade will be reported or recorded on the official College transcript. If the course is officially dropped after the refund period through mid-course, a grade of W will be recorded.

Official withdrawals/drops are allowed through four-fifths of the course, i.e. the 12th week of a 15-week semester course.

If students do not officially withdraw/drop, the instructor will assign an appropriate final grade (4.0 through 0.0) in relation to total course requirements achieved.

Withdrawal from College

To completely and officially withdraw from all courses, students must complete a Drop form at the Registrar’s Office. Withdrawal also may be requested by letter or fax. The date this form is received or the postmark on the envelope is the student’s official withdrawal date. Withdrawals also may be processed online or by touchtone phone.

Tuition and Fees

Tuition and fees must be paid in total at designated times (see Credit Class Schedule) each semester or session and may be paid by cash, check, Visa, Discover or MasterCard, or charged to approved financial aid. A tuition payment plan, administered by FACTS Management Company, also is available. The plan allows students to pay their tuition and fees in several installments. Installment payments are payable via credit card (MasterCard, American Express and Discover) or via electronic withdrawal from a savings or checking account. There is a separate enrollment fee for the tuition payment plan administered by FACTS Management Company.

Resident and Nonresident Status

Residency status determines the tuition rate students are charged.

- A resident student is one whose legal residence is within the College District. The College District includes the public school districts of Clarenceville, Garden City, Livonia, Northville, Plymouth-Canton and part of Novi. Students may be asked to certify residence status at any time while attending the College. Students are charged tuition based on the address on record in the Registrar’s Office. Students who move and change their residency status, but do not report the change, will be charged the appropriate tuition rate. Resident status is determined at the beginning of each semester.
- A nonresident student is one who resides outside the College District.
- An out-of-state student is one whose legal residence is beyond the boundaries of the State of Michigan.
- International students (F-1 or other immigrant visas) who are admitted to the College are considered out-of-state residents for tuition rates, regardless of length of residency within the district or state.
- Visa holders who are resident homeowners and long-term residents may be eligible for a residency status review. Information on residency status reviews for visa holders is available by contacting the Office of Admissions.
- The legal residence of unmarried students under 18 years of age is that of their parents or guardian, regardless of where the student may reside. For those older than 18, the legal residence is that city in which residence is permanently maintained.
• The Registrar will review questions about resident and non-resident status. Students who change their legal residence must complete a Change of Address form in the Registrar’s Office. Students may be asked to provide one or more of the following items as proof of resident status:
  • Valid driver’s license.
  • Official communications from public utilities.
  • Property tax receipt.
  • Other proof the College finds acceptable.

Course Fees
Schoolcraft College requires students to pay course fees to cover the cost of special materials, equipment or other specialized support. The course fees are listed in the current Credit Class Schedule and are in addition to other fees, including the registration fee. Generally, course fees range from $10 to $45 per course, but a few, such as music and culinary arts, are higher.

Students are required to purchase their own textbooks, supplies, personal attire (i.e., lab coats, clinic shoes, etc. as required by courses), special equipment and tools. Most of these items may be purchased at the College Bookstore.

Company-Paid Tuition and Fees
The College will invoice companies for students’ tuition, fees, books and supplies if the companies authorize the College to do so in a purchase order or authorization letter. Authorizations are required each semester. Contact Student Accounts, 734-462-4400, ext. 5362, for additional information.

Senior Adults Tuition Waiver
Students 60 years and older may take credit classes at Schoolcraft College at 50 percent of the resident tuition rate. Refer to the Tuition Rates and Fees table in the current semester Credit Class Schedule. For Continuing Education and Professional Development classes, a reduced course fee is specified for each course and is listed in schedules and brochures.

Before registering, senior adults should visit the Registrar’s Office on the Livonia campus, or the Radcliff Center office to complete the senior adult identification card. To qualify for a tuition discount, proof of senior status is required. The College accepts a birth certificate, driver’s license or the Michigan State Identification Card available from the Secretary of State.

Tuition Refund Policy
Refund dates for credit class tuition and fees appear in the current semester Credit Class Schedule. Before the beginning of each term and until the end of schedule adjustment, students receive 100 percent refund. The $35 registration fee is nonrefundable. After the end of the schedule adjustment period, there are no refunds. Refunds to students who drop credit courses or withdraw completely from the College are made in accordance with the current Credit Class Schedule. Refunds for payments made with Visa, MasterCard or Discover are made by check, rather than as charge-card credits. Allow three to four weeks for refund processing. Refund checks are mailed directly to students.

Refunds are made by the Office of Finance and Business Services only after students drop the class(es) and complete the Request for Refund form. Students whose classes are canceled by the College may receive a 100 percent tuition refund or select another open section and pay any added fees. Consult the Registrar’s Office for the refund period for classes that do not start at the beginning of a semester. Classes meeting 7 or 12 weeks have a shorter refund period. Normally, there are no exceptions to the refund procedure. However, students requesting an exception to the refund policy due to extenuating circumstances such as military service or serious illness (with doctor’s documentation), may file a Request for Exception in the Registrar’s Office.

Student Records
The Registrar’s Office maintains official College records for each student. These records are intended for College use and include data directly related to Schoolcraft College students. These records include, but are not limited to, identifying data, academic work completed, attendance data, scores on standardized tests, health data and counselor advising comments. See Student Privacy Rights.

Transcript Request
To forward official grade transcripts to designated colleges, recognized institutions or employers, students must submit a signed request or complete a request form in the Registrar’s Office. Only transcripts bearing the Schoolcraft College seal and Registrar’s signature are considered official, and are not issued directly to students. Any transcript given to a student will be stamped “student copy.” Transcripts are released only after all financial obligations to the College have been fulfilled. There is no charge for transcripts.

Grade Reports
Grade reports are available at www.schoolcraft.edu after the end of the semester. Grades may be accessed through clicking on Registration/WebAdvisor on the Schoolcraft home page. Printed grade reports are available by request. Requests for printed grade reports must be made before the end of the semester. Grade reports for students who have financial and other obligations to the College are not available until all obligations are removed.

Repeated Course
Students may wish to improve a final grade earned by repeating the course at Schoolcraft College. The last grade and credits earned replace any previous grade and credit hours in computing the grade-point average. The earlier record remains a part of the student’s transcript and is identified as NC (NO CREDIT–Repeated Course). A grade of W or I will not replace the earlier grade in a repeated course. Transfer credit will not be accepted for a course if the student has earned a grade for that course from Schoolcraft College.

Issuance of an Incomplete Grade
An instructor may award an I grade to students who, because of extenuating circumstances, were unable to complete the course work within the regular College semester/session. Students must have successfully completed the majority of the course before the incomplete grade is granted. The responsibility for completing a course rests with the student. A faculty member issuing an I grade must accompany it with the Request for Incomplete Grade form.

Eligibility for Athletics
Students who participate in varsity athletics must have a grade-point average in keeping with the requirements established by the Schoolcraft College Athletic Committee, the Michigan Community College Athletic Association and the National Junior College Athletic Association.
Graduation
When applying for graduation, students must:

- Complete degree requirements from the current catalog (year of graduation).

**OR**

- Complete degree requirements from the catalog in effect the year a student first entered Schoolcraft College or a subsequent catalog within the past six years. Students who have attended the College for five years or longer may be required to demonstrate skill in their fields before being approved as candidates for graduation.

**OR**

- Students who have not attended credit classes for three consecutive calendar years must follow the College catalog in effect when they return.

Any changes in these requirements must be approved in writing by the appropriate instructional administrator.

Degree Requirements
Schoolcraft College believes that having certain fundamental skills will enable students to learn and perform more successfully in future personal, educational, occupational and social endeavors. In each curriculum, the College requires general education courses in English, the humanities, mathematics, the biological and physical sciences and the social sciences, which broaden a student’s intellectual and cultural background.

In keeping with this philosophy, all entering students working toward an associate degree at Schoolcraft College must complete courses that fulfill the College’s associate degree general education requirements. General education and the development of core skills ensure that Schoolcraft College graduates have a broad education and basic competence in communication, critical and creative thinking and social, global and organizational dynamics.

**Associate Degree Requirements**
To earn an associate degree, students must:

- Earn an overall grade-point average of 2.0 or better.
- Complete a minimum of 60 earned credit hours, with the exception of some career programs that require more than 60 credit hours.

In addition:

- The last 15 credit hours must be earned at Schoolcraft or a minimum of 50 credit hours earned at Schoolcraft. Exceptions may be considered by the Dean of Instruction.
- During their last semester, students must complete the Intent to Graduate form with the Counseling Center before the published deadline date. Please review a current schedule of classes for dates. The College Registrar will verify all requests to determine compliance with course requirements and the validity of course waivers, if applicable.

**Multiple Degree Requirements**
Students earning additional degrees must earn a minimum of 15 additional credit hours at Schoolcraft College beyond the completion of their last degree for each new degree desired.

Certificates of Program Completion
Schoolcraft College awards three types of certificates. Certificate programs are career rather than transfer oriented. See page 55 for more detailed information on the certificates listed below:

- Skills Certificates
- Pre-Associate Certificates
- Post-Associate Certificates

Intent to Graduate
Students who plan to earn an associate degree or a certificate of program completion must complete an Intent to Graduate form with a counselor before the published deadline date in the Credit Class Schedule for the semester or session during which they will complete degree requirements. The student must return the Intent to Graduate form to the Registrar’s Office.

After the deadline for submission of the Intent to Graduate form, the Registrar verifies the student for degree completion and certifies, if appropriate, the student for graduation. The student will receive a letter informing him/her if graduation requirements have been met.

Degrees and certificates will be officially awarded and sent to the student approximately eight weeks after the end of the term in which the student has completed the requirements and filed for the award.

Commencement—Graduation
The commencement ceremony is held each year at the end of the winter semester, usually in May. The College encourages students earning associate degrees or certificates of program completion to participate in commencement ceremonies. Students completing their program requirements the following spring or summer session are qualified to participate, but must obtain an Application to Attend Commencement form from the Counseling Office. The student must return the form to the Registrar’s Office. A commencement packet will be mailed to all students who are eligible to participate in commencement.
Learning Assistance Center

Bradner Library
734-462-4436
Radcliff Center Room 120
734-462-4400, ext. 6021

Academic and Assessment Services, which includes the Assessment Center, Learning Assistance Center (LAC), Bradner Library and Collegiate Skills, has as its primary function providing learning opportunities and services that enable students to be as successful as possible in educational, occupational and personal endeavors. Emphasis is placed on the student becoming an active learner. Academic and Assessment Services is committed to helping students succeed.

Free Tutoring
The College provides free peer tutoring through the LAC for many courses. Online tutoring is available at laconline@schoolcraft.edu. Drop-in tutoring enables students to meet with tutors at conveniently scheduled times. Schedules are available on Student Activities bulletin boards across campus and at the LAC. Students who would benefit from more extensive tutoring may meet with a Faculty Facilitator at the LAC to evaluate other tutoring options. Students also are encouraged to take advantage of Final Math Reviews sponsored by the LAC near the end of fall, winter and spring terms. The review sessions provide excellent preparation for math final exams using instructor-designed review packets.

Peer-Assisted Learning (PAL)
The Peer-Assisted Learning program links participating instructors with their top former students (PALS) who provide academic support to current students. Under the direction of the instructor, PALS meet students outside of class to discuss course material, work on assignments and prepare for exams. Contact the LAC for information on courses using PALS.

Mentoring Program
The purpose of the peer mentoring program is to assist at-risk nursing students, international students and students with special needs. Peer mentoring is the process of students working together to help each other succeed. It provides an opportunity for accomplished student role models to guide incoming Schoolcraft College students on the right path toward meeting their needs and goals.

University Bound
Schoolcraft College, in collaboration with Wayne State University, offers students the University Bound program, a King-Chavez-Parks initiative. University Bound helps students prepare to transfer to a four-year university during their years at Schoolcraft College. This free program is specifically targeted at students whose goal is a bachelor’s degree. Participating students are invited to attend workshops and seminars, create an electronic portfolio, visit WSU’s campus, meet employers and develop mentor relationships with WSU students and faculty.

Writing Fellows
The Writing Fellows program provides free technical help to students for all phases of composition. Writing Fellows are Schoolcraft students who are trained to help organize, evaluate and provide constructive feedback on writing assignments for any course. Writing Fellows are available at the LAC on a drop-in basis and through e-mail at fellows@schoolcraft.edu. Contact the LAC for the Writing Fellows schedule and further information.

Math Videos
The LAC provides instructional videos, which complement current textbooks for Math 045, 047, 053, 113, 119, 128 and 129. Videos may be checked out for two days.

Study Skills Enhancement
Students who want to improve their textbook reading, note-taking, memory retention, time management or test-taking skills may consult with a Faculty Facilitator at the LAC. The Facilitator will help the students evaluate their learning skills, identify the appropriate courses and find resources for skill enhancement. In addition, a variety of handouts and Web resources are available to students seeking to improve their study skills.

Disability Services
Schoolcraft College provides appropriate accommodations for students with documented physical, learning and emotional disabilities. Arrangements are designed to meet individual needs and are facilitated through an Equal Access Counselor at the LAC. Services include, but are not limited to, specialized counseling, application assistance, referrals, adaptive equipment, textbooks on compact disks, testing accommodations, interpreters, note takers, tutoring, faculty liaison and modifications of computer and classroom facilities. Also available is a two-credit course, Collegiate Skills 110—Learning Skills LD, designed specifically for students with learning disabilities as they make the transition from high school to college. Contact the LAC at 734-462-4436 for accommodations or further information.

English Language Proficiency
A lack of English language proficiency does not prevent admission to Schoolcraft College; however, most college courses require basic proficiency in English. Non-native English speakers who want to develop their English skills can enroll in English 052, Basic Grammar for Second Language Students. The LAC provides additional opportunities for English language development through an English Language Institute with continuing education workshops and an International Student Relations Club. See page 10 for International Student Guidelines. The College also provides courses in English as a Second Language (ESL) for traditional college credit. See page 131 for course descriptions.

Test Preparation
The LAC provides test preparation workshops that emphasize test-taking strategies and alleviating test anxiety. Workshops are available for standardized national tests such as the SAT, ACT, PSAT, GRE, GMAT, LSAT, TOEFL and GED.

Academic Skills Workshops for College Students
The LAC offers reading comprehension, speed-reading, math refresher and test-taking improvement workshops to enhance basic skills that are vital to college success.
Assessment Center—Testing Services
McDowell Center Room 220
734-462-4806

The Schoolcraft College Assessment Center offers the following comprehensive testing services for students, faculty, community members and business and industry.

Assessment/Placement Testing
Successful course selection begins with an accurate assessment of each student’s ability in reading, writing and mathematics. The Assessment Center offers free walk-in placement testing. No appointment is necessary.

Make-Up and Distance Learning Tests
When a test is missed because of illness or extenuating circumstances, instructors who permit students to make up exams may arrange for a make-up test to be taken at the Assessment Center. Students taking Distance Learning courses also may take their exams on a drop-in basis at the Assessment Center as scheduled by their instructors.

College-Level Examination Program (CLEP)
CLEP is a national credit by exam computerized program from The College Board that provides exams in more than 30 subject areas. CLEP exams are offered monthly by the Assessment Center for students and members of the community. To obtain college credit for prior learning, individuals must achieve the minimum scaled score recommended by the American Council on Education. Pre-registration is required. Contact the Assessment Center for information and a registration packet.

DANTES Subject Standardized Tests (DSST)
DSST is a nationally recognized testing program that affords individuals the opportunity to receive college credit for learning acquired outside the traditional college classroom. More than 30 test titles in the areas of social science, business, mathematics, applied technology, humanities and physical science are available. To earn credit, individuals must achieve the minimum scaled score recommended by the American Council on Education. DSST exams are offered by the Assessment Center and require pre-registration. Contact the Assessment Center for information and registration materials.

General Educational Development Tests (GED)
The GED is a series of tests that measure knowledge and skills in reading, writing, mathematics, social studies and science. The tests are taken in a two-day sequence; candidates must be at least 18 years old, and their high school class must have graduated. GED testing takes place on a designated Wednesday and Thursday of each month, excluding December. Pre-registration is required. Contact the Assessment Center for information and a registration brochure.

Test Proctoring Site
The Assessment Center is available by appointment as a community proctoring site for exams from other colleges and educational programs. Virtual Learning Collaborative (VLC) students may have their tests proctored in the Assessment Center by making prior arrangements. Contact the Assessment Center to schedule test proctoring.

Business and Industry Assessment Services
The Assessment Center offers proficiency testing of groups or individuals for purposes such as pre-employment, determining basic skills, entry level skills or promotional eligibility. Various test instruments are available. Businesses are encouraged to visit or call for additional information.

College Libraries
Bradner Library, Livonia Campus
734-462-4440

Radcliff Library Room 355
734-462-4400, ext. 6020

The College libraries support the curricular and personal enrichment needs of Schoolcraft’s students, faculty and staff. In addition to an extensive collection of books and periodicals, the Bradner Library on the Livonia campus and the Radcliff Library in Garden City provide online access from home and on campus to a variety of academic resources including partial and full text periodical databases, newspapers, e-books, almanacs, encyclopedias, the Schoolcraft library catalog and other reference resources. The libraries also provide computers with Internet access for academic research on the World Wide Web, and the Bradner Library provides free wireless Internet access via the Schoolcraft wireless network. Schoolcraft students, faculty and staff can obtain a library card and may use and borrow books in both libraries. Community members may inquire about their eligibility to borrow under the statewide MichiCard borrowing program. Librarians are available to assist users in locating books, journal articles, U.S. government publications and Internet-based resources. They also offer library tours and introductions to using the Internet by instructor request. Contact either library for more information.

During the fall and winter semesters, the Bradner and Radcliff Library hours are:

<table>
<thead>
<tr>
<th>Time</th>
<th>Bradner Library</th>
<th>Radcliff Library</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mon.–Thurs.</td>
<td>8 a.m.–9 p.m.</td>
<td>8:30 a.m.–9 p.m.</td>

</tbody>
</table>

Contact either library for hours of operation during break weeks, holiday periods and spring and summer sessions.

College Archives
Bradner Library Room 144
734-462-4400, ext. 5313

The Archives collects, preserves and makes accessible Schoolcraft’s historical records and memorabilia. The collections are available to faculty, staff, students and other researchers who wish to study the College’s history. Included in the collections are early 1960s documents about the founding of the College, Board of Trustees’ minutes, Staff Weekly newsletters and the student newspaper from the Commuter to the Connection, plus many brochures, pamphlets and photographs. The Archives has a small collection of Henry Rowe Schoolcraft books and letters, plus the Sam Hudson Collection, which deals with the early history of Plymouth, Michigan. Hours of operation are Monday–Thursday, 11 a.m. to 4:30 p.m. and Friday 10 a.m. to 3 p.m., or by e-mail, scconnors@schoolcraft.edu.
Academic Computer Use
McDowell Center Room 100
Radcliff Center Room 415

Computer Lab Hot Line Numbers:
734-462-4400, ext. 5147 for Livonia Campus
734-462-4400, ext. 6112 for Radcliff Center

Schoolcraft College offers its students access to 46 computer labs with more than 800 personal computers. We constantly update our software and purchase new hardware in an on-going effort to keep our students equipped with the latest technology.

Schoolcraft College Academic Computing Lab Use Policy states that students:
- Must currently be enrolled at Schoolcraft College and present proper identification when using the computer lab.
- Are restricted to using only the software that is available on the lab computers.
- Must use the computer for Schoolcraft College course assignments only.
- Must follow College policy by strictly adhering to legal use of copyrighted software.

Women’s Resource Center
McDowell Center Room 225
734-462-4443

Hours: Monday 9 a.m.–7:30 p.m. and Tuesday–Friday 9 a.m.–4:30 p.m.
Summer Hours (June and July): Monday–Friday 9 a.m.–4:30 p.m.
Appointments are not required.

The Women’s Resource Center (WRC) at Schoolcraft College provides the atmosphere and support for exploring educational, professional and personal plans for members of the community and campus.

At the McDowell Center location, volunteer peer counselors are available for both walk-in and telephone clients. The peer counselors are specially trained to listen to and assist clients who wish to:
- Enter or re-enter college.
- Research new career possibilities.
- Find referrals for services or information.
- Talk through a difficult situation.

The WRC offers many free pamphlets, brochures and articles.

Special WRC Programs and Services
WRC Scholarships

Women’s Resource Center scholarships are available to women who may or may not qualify for federal or state financial aid. The WRC works vigorously to ensure scholarship opportunities are available for all women, with a special emphasis on adult women returning to school. Printed information is available.

Special Populations Program

The Special Populations program, administered by the WRC, provides tuition assistance, support services and/or programs for single parents, displaced homemakers, those with limited English proficiency, those who are academically or economically disadvantaged, individuals with disabilities and non-traditional job seekers.

Divorce Support Group—Meets Year Round

A divorce support group is open to anyone contemplating, in the process of, or having difficulty adjusting to, divorce. The group meets in the WRC on the second and fourth Tuesday of each month. The first meeting of the month is a group discussion with a facilitator. The second meeting of the month features a speaker. A quarterly schedule of speakers is available.

Money Matters in Divorce—October through May
The first Monday of each month, a certified divorce financial planner is available free of charge. The CDFP is available from 5–7 p.m. on a first-come, first-served basis.

Ask an Attorney—October through May
On the third Monday of each month, a lawyer is available for free consultations on family law. The attorney is available from 5–7 p.m. on a first-come, first-served basis.

Luncheon Series
The WRC sponsors six luncheons each year featuring speakers on a variety of topics. Schedules of dates and speakers are available in July and January.

From Chocolate Chips to Micro Chips to Blue Chips (CHIPS): A Program for Women in Transition
Radcliff Center Room 120
734-462-4400, ext. 6039

Tuesday and Thursday 8 a.m.–4:30 p.m. or by appointment

The full name of the program is From Chocolate Chips to Micro Chips to Blue Chips, but it is commonly referred to as CHIPS. The program’s aim is to take the participant from working inside the home, to working outside the home, to making sound personal financial decisions.

CHIPS has two parts; depending upon your needs, you can complete one or both parts.

The first part is a 15-week, 6-credit program that includes:
- HDS 110 Career Decision Making, 2 credits
- OIS 100 Keyboarding, 2 credits
- CIS 105 Computer Orientation, 1 credit
- OIS 195 Time and Project Management, 1 credit
- Educational counseling.
- Assistance in applying for school-related financial aid.
- Interviewing techniques.
- Support/study group.
- Job placement guidance.
- Physical conditioning.
- Business clothing available from the CHIPS Boutique.

The second part, CHIPS TOO, is a 15-week, 6-credit program that includes:
- OIS 165 Microsoft Word for Windows, 3 credits
- BUS 204 Personal Finance, 3 credits
- Educational counseling.
- Assistance in applying for school-related financial aid.
- Job placement guidance.
- Business clothing available from the CHIPS Boutique.
- Support/study groups.

The curriculum in the CHIPS program will allow the student to complete the Office Information Systems, Office Specialist Skills Certificate and/or the Office Administration Associate Degree. See pages 94–95 for more details.
Instructional Support Services
The Doc-U-Center and Media Services combine to form the Instructional Support Services Department, which performs a multitude of enhanced document, media and technical services. While primarily an internal service that provides print materials and instructional technology for the classroom, both areas also support special on- and off-campus events.

Doc-U-Center
Liberal Arts Room 120
734-462-4400, ext. 5304
Instructional and presentation materials, produced by the Doc-U-Center, are created using sophisticated desktop publishing and design software and are printed on high-speed, networked printers and copiers. Copiers are maintained in instructional buildings for convenient access by faculty and staff.

Media Services
Bradner Library Room 160
734-462-4400, ext. 5330
Instructional technology, available in classrooms, is installed and maintained by Media Services. Media technicians support special presentations requiring media equipment both on- and off-campus. Multimedia production, videoconferencing, interactive technology and format conversions will be handled on an individual basis. Classroom, multimedia presentations and consulting on a variety of services such as equipment, sound and lighting are available.
Schoolcraft College

campus life and community resources
Campus Life

Student Identification
Each semester’s tuition payment receipt identifies students as Schoolcraft College students. Students should carry it at all times when attending classes, using the library, computer labs, testing services or attending College-sponsored events. Picture identification cards are available in the Admissions Office at no charge. Valid identification must be presented to obtain a card. There is a charge to replace a lost ID card.

Food Service
Henry’s in the VisTaTech Center, Waterman Wing
Options Snack Shop at Radcliff Center

Henry’s, located along Main Street in the VisTaTech Center, features an array of food and beverage choices to please any student or visitor to campus. A bountiful salad bar, fresh seafood, pasta and pizza are just some of the choices. Several homemade soups are prepared daily, and a wide selection of beverages is available, including freshly ground cappuccino and espresso. Henry’s is the place to have breakfast, lunch or dinner while on campus. Hours are Monday–Thursday, 7:30 a.m.–7:30 p.m., Friday: 7:30 a.m.–2 p.m.

Vending machines are located in every classroom building on the Livonia campus.

Options at Radcliff provides service from 8 a.m. until 8:30 p.m. Monday through Thursday and Friday from 8 a.m. until 1 p.m. during the fall and winter semesters. Soups, sandwiches and a wide selection of convenience foods are offered daily.

Food Service provides full-service catering for any event on campus, from coffee service for small meetings to formal banquet functions. Call 734-462-4471 or fax 734-462-4516 for more information.

Children’s Center
South Parking Lot, Livonia Campus
734-462-4442

The Schoolcraft College Children’s Center is the laboratory for the Child Care and Development program. It is accredited by the National Association for the Education of Young Children and is under the direction of College faculty and trained teachers. The primary purpose of the Center is to provide learning experiences for students enrolled in the Child Care Development curriculum. The educational program of the Center is designed for children aged 6 weeks through kindergarten and encourages physical, emotional, intellectual and social development through a variety of stimulating teacher-directed and child-selected activities. The Children’s Center enrolls infants and toddlers aged 6 weeks through 2½ years on a full-time basis only. The Children’s Center generally has a waiting list. Those registering for five full days of care per week get preference.

The Center is open from 7 a.m. to 6 p.m. Monday through Friday and operates year-round. Parents who have questions or wish to place their children on a waiting list for possible admission are invited to call the Center at 734-462-4442.

College Bookstores
Livonia Campus 734-462-4409
Radcliff Campus 734-462-4778

Online Bookstore: www.schoolcraftbooks.com

Schoolcraft College has three bookstores for your convenience. The Livonia campus Bookstore is located at the northeast end of campus, across from the Applied Sciences Building. The Radcliff campus Bookstore is located in the Radcliff Center on the corner of the 100 and 400 halls. The Schoolcraft College Online Bookstore is located at www.schoolcraftbooks.com and can be used for Livonia campus classes and all online classes. Required textbooks must be purchased at the campus where the class is held. All bookstores offer a wide selection of high quality goods, new and used textbooks, student versions of computer software and other services at equitable prices, with particular attention paid to academic requirements. Many books can be resold through the buyback process, which helps reduce the cost of textbooks.

Health Emergencies

When a student is injured or becomes ill while on campus, contact Public Safety at ext. 4424 from any campus phone. Public Safety will provide the initial response to a call for assistance. If the emergency is of an urgent nature, you also may call 9-911.

Health Insurance

Sickness and accident insurance coverage is available for full- and part-time students. Insurance brochures and prices on this program are available in all student service offices and from the Finance and Business Services Office in the McDowell Center and on the College Web site under Health Services.

Performing Arts Groups
734-462-4403

Schoolcraft College offers performance opportunities in the College choirs and instrumental ensembles, including the Schoolcraft College Jazz Band and Schoolcraft College Community Wind Ensemble. The Schoolcraft College Choral Union meets regularly and performs large choral works. These groups rehearse regularly and perform concerts both on- and off-campus. Students may elect to participate for credit or audit.
Schoolcraft College believes out-of-classroom activities are essential to the total collegiate educational experience. Students are encouraged to participate in one or more College extracurricular activities for their intellectual, cultural, social, physical, organizational, spiritual, moral and emotional enrichment and growth. Student Activities’ goals are those of the College itself, namely to provide the finest intellectual experience in a framework that highlights the fullest individual and social growth of each person. Schoolcraft College provides an office and staff to help students plan and operate organizational programs and services.

Clubs and Organizations
Schoolcraft College encourages students to organize College clubs and other groups that provide developmental experiences for their members, services to the campus and/or the local community and opportunities to interact with a variety of people. Information and assistance in forming a College student club are available in the Student Activities Office. Campus clubs and organizations at Schoolcraft College are:

- African-American Student Association
- Art Club
- Baptist Student Union Christian Challenge
- Beekeepers Club
- Campus Crusade for Christ
- Computer Graphics Technology Club
- Edge Runners Ski Club
- Future Educators Club
- Gourmet Club
- Health Information Technology Club
- International Student Relations Club
- National Association for the Education of Young Children
- Otaku Anime Animation Club
- Pageturners
- Phi Theta Kappa Honor Society
- Pride
- Quilting Club
- Student Activities Board
- Student Nursing Association

Connection—Schoolcraft’s Student Newspaper
The Connection serves as a forum for expressing student opinion and a vehicle for reporting College and College-related activities and events from a student perspective. The Connection membership is open to all registered students on the basis of interest and demonstrated competency in writing, photography, layout, advertising, circulation or clerical skills. The Connection is distributed free to the campus community. Additional information and staff application forms are available in the Student Activities Office.

Phi Theta Kappa Honor Society
Phi Theta Kappa is the international honorary scholastic society for community and junior colleges. Founded in 1918, Phi Theta Kappa was recognized officially by the American Association of Junior Colleges in 1929. The Schoolcraft College Omicron Iota Chapter was established in 1966 and became a five-star chapter in 1995. Eligibility information is available in the Student Activities Office in VisTaTech Center, Waterman Wing.

Access to the Physical Fitness Facility
Physical Education Building
734-462-4400, ext. 5258
The Physical Education Building is used for instruction, special events, intercollegiate athletics and community events. When an area is not being used for a regularly scheduled class or event, students may use the area if they present a Schoolcraft College current tuition receipt to the supervisor or attendant. A schedule of open swim and fitness room hours is available in the PE Equipment Room or in the Athletics Office.

Athletics
734-462-4804
Schoolcraft College is a member of the National Junior College Athletic Association and the Michigan Community College Athletic Association. The women’s intercollegiate program includes cross country, basketball, soccer and volleyball. The men’s intercollegiate program includes basketball, golf and soccer. The Athletic Committee reviews general policies relating to the scope of athletic programs.
Community Resources

Business Development Center
VisTaTech Center Room 410
734-462-4438
www.schoolcraft.edu/bdc

The Business Development Center helps companies in southeastern Michigan build sound organizational strategies, develop new markets, create successful products, find and keep new customers and incorporate new technologies. Services include:

Market Development Services
The Procurement Technical Assistance Center has helped area companies win more than $1 billion in state and federal government contracts. It has helped many local firms identify new international markets, locate bidding opportunities and navigate through the government contracting process.

The Small Business and Technology Development Center
The SBTDC provides counseling, training and research to start-ups, existing small businesses and innovative technology companies to explore new product opportunities and develop new markets. The Center’s training programs help clients write business plans, develop growth strategies and create marketing plans.

Continuing Education and Professional Development
Continuing Education Center
734-462-4448

Everyone benefits from lifelong learning—you, your family, your community and your workplace. Whether you take classes to fulfill personal or professional aspirations, you will have the opportunity to meet and interact with people who have similar goals and experiences. The Continuing Education and Professional Development Department can help you develop new interests and insights in a wide range of fascinating subjects. When you are looking for knowledge but not a degree, look to continuing education.

Your choices include:

• Opportunities for career-minded individuals in business management and computers.
• Certification and licensure classes for professional and technical personnel in fields such as nursing, K–12 teaching and school administration, real estate licensure preparation, culinary arts, equine arts and science.
• Small business management seminars that stimulate entrepreneurial leadership and local economic development.
• Personal development workshops, as well as courses and programs, which enhance the quality of life in the community.
• The Retired Senior Volunteer Program (RSVP) that gives senior adults an opportunity to work on campus with students and staff on a variety of projects.
• The Kids on Campus program, serving nearly 2,000 children annually, that provides extensive enrichment programs and academically enhanced activities for children aged 5–15 years.
• Wellness and physical fitness programs for health-conscious individuals interested in dance, fitness, yoga, Tai Chi, self-defense, swimming and other recreational activities.

Continuing education classes are open to students of all ages. Instructors are professionals who bring a special expertise to the learning process.

Students receive nationally recognized Continuing Education Units, based on attendance and participation, for most continuing education classes. Students in some specialized courses receive Certificates of Accomplishment.

Requests for refunds are to be mailed or faxed to the Registrar’s Office and must be initiated by the student.

The College refund policy is as follows:

• Through the day before the first class, 100 percent course fees for most classes. Exceptions are noted.
• Thereafter, no refund.

Refunds are mailed to the student’s address on record.

Corporate Training
Continuing Education Center Rooms 120 & 180
734-462-4441
www.schoolcraft.edu/bdc

The Corporate Training Department staff works with clients to develop training plans, provide instruction and facilitate training, either at the College or at the business location. Clients can choose to offer the instruction to their employees as full-credit classes or in shortened, non-credit modules. Instructors are highly qualified practitioners with industry experience and training expertise.

Training includes, but is not limited to the following: quality tools, manufacturing, professional skills development, technical skills development, computer technology, health and safety. Course descriptions are available upon request. Corporate Training Representatives will be available by appointment.

VisTaTech Center
734-462-4610
vistatech@schoolcraft.edu

Schoolcraft College is an integral member of the community, serving more than 30,000 persons a year in credit courses, continuing and professional education and corporate training. The College took a giant step forward as a hub for community activity in 2003 when it opened the VisTaTech Center, a new campus landmark.

In addition to housing the instructional kitchens of Schoolcraft’s acclaimed Culinary Arts Department and the Business Development Center, the VisTaTech Center provides an attractive, functional and technology-rich venue for corporate training, conferences and business meetings. There also is space for major presentations or musical performances, as well as the student-operated American Harvest Restaurant which offers the public fine gourmet dining during lunch and dinner.

VisTaTech can accommodate groups ranging in size from one-on-one meetings to industry expositions. It is equipped to receive satellite teleconferences, features flexible furniture configurations and offers on-site catering services. For rental information, call 734-462-4610 or e-mail vistatech@schoolcraft.edu.
student rights and responsibilities
Schoolcraft College was established in 1961 by the voters of the College District to make education beyond the high school level available to students interested in, and capable of benefiting from, such an education. The members of the Board of Trustees are the elected representatives of the College District electorate and are charged with making policies to achieve College objectives. Schoolcraft College recognizes its obligation to be responsive to the needs and concerns of the individual student, the student body and the community at large. Schoolcraft College cannot condone or support any action or activity by an individual or group that impinges on the rights of others, whether these individuals are members of the student body or the community at large.

**Student Responsibilities**

Students should understand that with each right they enjoy comes a corresponding duty and responsibility. No student should take any action that will restrict other individuals from pursuing their educational goals, or that will in any way interfere with the Board of Trustees and its representatives in the performance of their duties and responsibilities. Students are responsible for maintaining satisfactory standards of conduct and/or scholarship. We expect students to familiarize themselves with existing College regulations, including the Student Code of Conduct, and conduct themselves as responsible citizens at all times. Students who fail to conduct themselves in a responsible manner will be subject to disciplinary action as outlined in the Student Code of Conduct that may include suspension and/or dismissal from the College.

**Student Rights**

Members of the student body enjoy the same rights and privileges guaranteed to them as citizens of the United States and as residents of the State of Michigan. Such basic rights as freedom of speech, freedom of worship and right of due process are in no way curtailed by existing policies and procedures. As a member of the Schoolcraft College community, a student is free to take advantage of all the educational opportunities available and to participate in all extracurricular activities sponsored by the College.

For each course in which they are enrolled, students are guaranteed a fair and proper evaluation of their academic efforts. Students are free to join any group with which they seek to be associated, to examine and discuss matters of particular interest to them and to support any cause—both on and off campus—that does not disrupt the orderly operation of the College.

**Student Privacy Rights**

The Family Educational Rights and Privacy Act (FERPA) of 1974 protects the privacy of educational records, establishes the right of students to inspect and review their educational records and provides guidelines for the correction of inaccurate or misleading data. Each year the College notifies students of these privacy rights and outlines the public information that can be released outside the institution.

No one outside the institution shall have access to nor will the institution disclose any information, other than directory information, from students’ educational records without the written consent of the student. Exceptions permitted under FERPA include information released to qualified persons within the institution, officials of other institutions in which students seek to enroll, persons or organizations providing student financial aid, accrediting agencies carrying out their accreditation function, persons in compliance with a judicial order and in an emergency to protect the health or safety of students or other persons.

Students wishing to review their educational records must file a written request with the Registrar. Records covered by FERPA will be made available within 30 days of the receipt of the request. The right to a review or hearing under the Act does not include any right to challenge the appropriateness of a grade as determined by the instructor. However, students may use this process to verify that the instructor’s grade has been properly transmitted to the students’ records.

Students may not inspect or review the following as outlined by FERPA: Financial information submitted by their parents; confidential letters and recommendations associated with admissions, employment, job placement or honors to which they have waived their rights of inspection and review; or educational records containing information about more than one student, in which case the institution will permit access only to the part of the record which pertains to the inquiring student.

If an individual student feels that his or her official records are inaccurate, misleading or otherwise inappropriate, the student may discuss his/her concerns informally with the person(s) in charge of the records involved. If these persons agree with the student, the appropriate records will be amended. If not, the student will be notified within a reasonable period of time that the records will not be amended, and also will be informed by the Dean of Student Services of the student’s right to a formal hearing.

At its discretion, the College is authorized to release directory information including the student’s name, address, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, enrollment status, degrees and awards received and the most recent educational agency or institution attended. Students may request that this information be withheld by notifying the Registrar in writing.

**Student Code of Conduct and Judicial Procedures**

**Preamble**

Schoolcraft College exists to serve students and the surrounding community. The College is also a community, and students are important members of this community. Every student should know that the responsibilities that students assume toward each other, faculty and staff as equal members of this community. Schoolcraft College cannot condone or support any action or activity by an individual or group that impinges on the rights of others, whether these individuals are members of the student body or the community at large.

The Student Code of Conduct defines a student’s basic rights within the College community, states what actions students may expect from the College to protect those rights, and explains the College’s expectations of its student members, including the standards by which student behavior is measured.
Academic and Personal Behaviors
In consideration of the many rights of and responsibilities to each member of the College community, and in compliance with the requirements of local and state statutes, the Board of Trustees of Schoolcraft College hereby adopts the following regulations and prohibits all persons from engaging or participating in any of the practices or behaviors listed below. The following list is illustrative and not meant to be an exhaustive enumeration of inappropriate behavior.

1. Obstruction or disruption of teaching, research, administration, disciplinary procedures, or other activities, including the College's public service functions or other authorized activities, on College-owned or controlled property.
2. Physical abuse, assault or battery, or unauthorized detention of any person on College-owned or controlled property or at College-sponsored or supervised functions, and/or conduct or expression, verbal or written, which threatens or endangers the health or safety of any such persons.
3. Theft of or damage to College property.
4. Unauthorized entry or use of College facilities.
5. Violation of College policies or regulations concerning falsification of records, registration of organizations, or the use of College facilities.
6. Interference with the proper educational functions and the appropriate educational climate of the College by obscene actions or language or disorderly conduct, including aiding or abetting another to breach the peace on College-owned or controlled property or at College-sponsored or supervised functions.
7. Illegal use, possession or distribution of alcoholic beverages, narcotics, or controlled or illicit substances, or public intoxication.
8. Failure to comply with directions of College officials, Public Safety staff, or any other law enforcement officers acting in the performance of their duties.
9. Unauthorized obstruction of the free flow and orderly movement of pedestrian or vehicular traffic and serious or repeated violation of campus traffic rules and regulations.
10. Illegal or unauthorized possession or use of firearms, explosives, other weapons, dangerous chemicals, or improper use of fire extinguishers on College property. NOTE: Exceptions to possession or use of firearms are: a) certified law enforcement officers, b) students enrolled in Schoolcraft College classes requiring firearms training, c) College-owned firearms used for instructional purposes.
11. Violation of federal, state and local laws.
12. Acts of dishonesty, including but not limited to the following: a) Cheating, plagiarism or forms of academic dishonesty. b) Furnishing false information to any College official, faculty member or office. c) Forgery, alteration or misuse of any College document, record or instrument of identification.
13. Unauthorized possession, duplication or use of keys to any College premises or unauthorized entry to or use of College premises.
14. Participation in a campus demonstration which disrupts the normal operations of the College and infringes on the rights of other members of the College community; leading or inciting others to disrupt scheduled and/or normal activities within any campus building or area; intentional obstruction which unreasonably interferes with freedom of movement, either pedestrian or vehicular, on campus.
15. Conduct which is disorderly, lewd or indecent; breach of peace on College premises or at functions sponsored or participated in by the College.
16. Theft or other abuse of computer time, including but not limited to: a) Unauthorized entry into a file, to use, read or change the contents, or for any other purpose. b) Unauthorized transfer of a file. c) Unauthorized use of another individual’s identification and password. d) Use of computing facilities to interfere with the work of another student, faculty member, College official or employee. e) Use of the computing facilities to interfere with normal operation of the College computing system. f) Access to or distribution of obscene or pornographic materials.
17. Discrimination, harassment and offensive conduct against any person, student or staff member on the basis of race, creed, color, sex, age, marital status, handicap, disability and/or national origin. See College Policy 1080.
18. Abuse of the Disciplinary System, including but not limited to: a) Failure to obey the summons of the Student Disciplinary Standards Committee or a College official. b) Falsification, distortion or misrepresentation of information before the Student Disciplinary Standards Committee or Appellate. c) Disruption or interference with the orderly conduct of a hearing. d) Institution of a hearing or proceeding knowingly without cause. e) Attempting to discourage an individual’s proper participation in, or use of, the Student Disciplinary System. f) Attempting to influence the impartiality of a member of the Student Disciplinary Standards Committee or Appellate before, during, and/or after a proceeding. g) Harassment, verbal or physical, and/or intimidation of a member of the Student Disciplinary Standards Committee or Appellate before, during, and/or after a proceeding. h) Failure to comply with the sanction(s) imposed under the Student Code. i) Influencing or attempting to influence another person to commit an abuse of the Student Disciplinary System.

Decisions and Judicial Authority
1. The Dean of Student Services shall: a) Determine the composition of the Student Disciplinary Standards Committee and shall act as the Appellate. b) Develop policies and procedural rules for the conduct of hearings which are consistent with provisions of the Student Code. c) Authorize the suspension of any student when the circumstances warrant immediate action, such as in the case of threatening or assaultive behaviors. The suspension will remain in effect until the Student Disciplinary Standards Committee meets to hear the case.
2. Decisions made by the Student Disciplinary Standards Committee shall be final, pending the normal appeal process.
3. The Student Disciplinary Standards Committee may be designated as arbiter of disputes within the student community in cases which do not involve a violation of the Student Code. All parties must agree to arbitration and be bound by the decision with no right of appeal.

Judicial Procedures

Charges and Hearings

1. Any member of the College community may file charges against any student for misconduct. Charges shall be prepared in writing and directed to the Dean of Student Services. Any charge should be submitted as soon as possible after the event takes place.

2. The Dean of Student Services will designate an administrator to conduct an investigation to determine if the charges have merit and/or if they can be disposed of administratively by mutual consent of the parties involved. Such disposition shall be final, and there shall be no subsequent proceedings. If the charges cannot be disposed of by mutual consent, the designated administrator shall refer the matter to the Student Disciplinary Standards Committee.

3. All charges shall be presented to the accused student in written form. A time shall be set for a hearing, no less than five nor more than fifteen calendar days after the student has been notified. Maximum time limits for scheduling of hearings may be extended at the discretion of the chairperson of the Student Disciplinary Standards Committee.

4. If the accused student does not respond to the written notice of the hearing and does not appear, the hearing shall take place as scheduled. If the Student Disciplinary Standards Committee finds that the accused student violated the Student Code, sanctions may be imposed.

5. Hearings shall be conducted by the Student Disciplinary Standards Committee according to the following guidelines:
   a) Hearings normally shall be conducted in private. At the request of the accused student and subject to the discretion of the chairperson, a representative of the student press may be admitted, but shall not have the privilege of participating in the hearing.
   b) Admission of any person to the hearing shall be at the discretion of the chairperson of the Disciplinary Standards Committee.
   c) In hearings involving more than one accused student, the chairperson, at his or her discretion, may permit the hearings concerning each student to be conducted separately.
   d) The complainant and the accused have the right to be assisted by any advisor they choose, at their own expense. The advisor may be an attorney. The complainant and/or the accused is responsible for presenting his or her own case. Therefore, advisors are not permitted to speak or to participate directly in any hearing before the Student Disciplinary Standards Committee.
   e) The complainant, the accused, and the Student Disciplinary Standards Committee shall have the privilege of presenting witnesses subject to the right of cross examination by the Student Disciplinary Standards Committee.
   f) Pertinent records, exhibits, and written statements may be accepted as evidence for consideration by the Student Disciplinary Standards Committee at the discretion of the chairperson.
   g) All procedural questions are subject to the final decision of the chairperson of the Student Disciplinary Standards Committee.
   h) After the hearing, the Committee shall determine, by majority vote, whether the student has violated each section of the Student Code which the student is charged with violating.
   i) The Student Disciplinary Standards Committee’s decision shall be made on the basis of whether it is more likely than not that the accused student violated the Student Code.

6. There shall be a single verbatim record, such as a tape recording, of all hearings before the Student Disciplinary Standards Committee. The record shall be the property of the College.

7. Except in the case of a student charged with failing to obey the summons of the Student Disciplinary Committee or College official, no student may be found to have violated the Student Code solely because the student failed to appear before the Committee. In all cases, the evidence in support of the charges shall be presented and considered.

Sanctions

1. The following sanctions may be imposed upon any student found to have violated the Student Code:
   a) Warning—A notice in writing to the student that the student is violating or has violated institutional regulations.
   b) Probation—A written reprimand for violation of specified regulations. Probation is for a designated period of time and includes the probability of more severe disciplinary sanctions if the student is found to be violating any institutional regulation(s) during the probationary period.
   c) Loss of Privileges—Denial of specified privileges for a designated period of time.
   d) Restitution—Compensation for loss, damage or injury. This may take the form of appropriate service and/or monetary or material replacement.
   e) Discretionary Sanctions—Work assignments, service to the College, or other related discretionary assignments. Such assignments must have the prior approval of the Dean of Student Services.
   f) College Suspension—Separation of the student from the College for a definite period of time after which the student is eligible to return. Conditions for readmission may be specified.
   g) Expulsion—Permanent separation of the student from the College.

2. More than one of the sanctions listed above may be imposed for any single violation.

3. Other than College expulsion or suspension, disciplinary sanctions shall not be made part of the student’s permanent academic record. Upon graduation, the student’s confidential record may be expunged of disciplinary actions other than suspension or College expulsion, upon application to the Dean of Student Services. Cases other than suspension or expulsion shall be expunged from the student’s confidential record two years after final disposition of the case.

4. The following sanctions may be imposed upon groups or organizations:
   a) Those sanctions listed in Sanctions, 1a–1g.
   b) Deactivation—Loss of all privileges, including College recognition, for a specified period of time.
5. In each case in which the Student Disciplinary Standards Committee determines that a student has violated the Student Code, the sanction(s) shall be determined and imposed by the Committee. Following the hearing, the Committee chairperson shall within ten calendar days advise the accused in writing of the Committee’s determination and of the sanctions(s) imposed, if any.

Appeal
1. The accused, having been found in violation of any portion of the Student Code, may appeal the decision/sanctions imposed by the Student Disciplinary Standards Committee.
2. The appeal must be submitted in writing to the Dean of Student Services within ten calendar days from the date that the accused is notified by the chairperson of the Student Disciplinary Standards Committee regarding the Committee’s decision or sanctions.
3. The Dean of Student Services shall review all pertinent data regarding the appeal and will render a written decision within ten calendar days. The Dean of Student Services’ decision is final.

Violation of Law and College Discipline
1. If a student is charged only with an off-campus violation of federal, state or local laws, but not with any other violation of this Code, disciplinary action may be taken and sanctions imposed for grave misconduct which demonstrates flagrant disregard for the College community. In such cases, no sanction may be imposed unless the student has been found guilty in a court of law or has declined to contest such charges, although not actually admitting guilt.
2. College disciplinary proceedings may be instituted against a student charged with violation of a law which is also a violation of this Student Code, for example, if both violations result from the same factual situation, without regard to the pendency of civil litigation in court or criminal arrest and prosecution. Proceedings under this Student Code may be carried out before, simultaneously with, or following civil or criminal proceedings off campus.
3. When a student is charged by federal, state or local authorities with a violation of law, the College will not request or agree to special consideration for that individual because of his or her status as a student. If the alleged offense is also the subject of a proceeding under the Student Code, however, the College may advise off-campus authorities of the existence of the Student Code and of how such matters will be handled internally within the College community. The College will cooperate fully with law enforcement and other agencies in the enforcement of criminal law on campus and in the conditions imposed by criminal courts for the rehabilitation of student violators. Individual students and faculty members, acting in their personal capacities, remain free to interact with governmental representatives, as they deem appropriate.

General Information
Alcoholic Beverages
No alcoholic beverages are permitted on campus except during approved campus functions. The excessive use of alcohol under any circumstance is not condoned by the College, and undesirable conduct resulting from alcohol use will be subject to disciplinary action.

Canceled Classes
The College reserves the right to cancel any class if its enrollment is low or for other valid reasons. The College may change the day, time of day or class location. Students will be contacted and may select another class or request a full refund. Refund checks are mailed directly to students.

Classroom Conduct
Students are expected to act responsibly and to conduct themselves in the classroom in a manner that does not disrupt the learning process. A climate of mutual respect and courtesy should exist between faculty and students. However, students must recognize that instructors, by virtue of their position, must exert a measure of authority in the classroom. Students should respect this authority. Disciplinary problems may result in a student being withdrawn from class and, in extreme cases, dismissed from the College.

College Closing—Due to Weather or Other Emergencies
Listen to major metro area radio stations and local television stations, and check the link on the College’s Web site for College closing information. Weather conditions can vary widely, even over a small geographic area. Students must exercise their own judgment concerning safety, whether the College is open or closed.

Drug-Free Policy
The Federal Drug-Free Schools and Communities Act Amendments of 1989 require all colleges and universities that receive federal funds to develop an illicit drug and alcohol prevention program for students and employees. Consistent with local, state and federal laws, the College will impose sanctions or seek legal remedies against students or employees who unlawfully possess, use or distribute illicit drugs and alcohol on College property or as part of any College activity.
Drugs and Narcotics
Students must observe the drug and narcotic laws of the State of Michigan, as well as federal laws and regulations as they apply to possession, use and sale of these substances. Undesirable student conduct resulting from possession, use or abuse will result in disciplinary action.

Equity in Athletics Disclosure Act (EADA)
The Equity in Athletics Disclosure Act is designed to make prospective students aware of a college’s commitments to provide equitable opportunities to its men and women student athletes. A copy of this report is available in the Dean of Student Services Office or on the College’s Web site.

Students with Disabilities
Schoolcraft College does not discriminate on the basis of disabilities in recruiting and admitting students, recruiting and employing faculty and staff, or operating any of its programs and activities, as specified by federal laws and regulations. The designated coordinator for College compliance with Section 504 of the Rehabilitation Act of 1973 is the Vice President and Chief Financial Officer, whose office is in the McDowell Center. Students may request services by contacting the Learning Assistance Center in Bradner Library.

Lost and Found
All found items should be turned over to the Public Safety Department on the main campus, or to the Central Office in one of the off-campus centers where the items will be recorded and held. For rules on disposition of these articles, see College Policy 1070.12, or call Public Safety at 734-462-4424.

Parking Regulations
Free parking is available in the North, South and Central parking lots with the exception of restricted areas which are posted. All parking lots are lined and vehicles are to be parked within the designated spaces. There is no parking on the diagonal yellow line areas on either end of parking rows in any parking lot. There are also two lots, one south of the Applied Sciences Building and one east of the Liberal Arts Building, which are designated for general handicapped or faculty and staff use only. Any vehicle that is parked improperly will be ticketed. The North and Central lots have areas that are assigned to staff and faculty with permits. Special medical permits are required to park in any handicapped area. No parking is permitted on any College street.

Schoolcraft Public Safety officers are authorized to write City of Livonia traffic citations by authority granted under Title VI, Chapter I, of the Livonia Code. Tickets are payable at the 16th District Court, 15140 Farmington Road, Livonia, Michigan. Information regarding the fines for violations can be obtained by calling the court at 734-466-2500, ext. 3542. Court dates are indicated on the bottom of citations.

Students attending the Radcliff Center in Garden City are provided ample free parking in a paved lot with entrances on Wildwood and Radcliff streets. Handicapped spaces are provided. Parking violations at Radcliff Center will be issued by the Garden City Police Department. Information for payment of fines can be obtained by calling 734-525-8805.

Regulations
Copies of all student regulations are available in the Dean of Student Services Office in the McDowell Center.

Safety—Classroom and Laboratory
Personal safety is a major priority at Schoolcraft College. Safety glasses, headgear, aprons, lab coats, earplugs and other appropriate safety equipment are needed by all students in specific courses. Safety units are incorporated into courses where applicable.

Smoking
Board Policy 2005 prohibits smoking in all College buildings.

Solicitation of Funds
Individuals and agencies are not permitted to solicit funds, organize or participate in drives for any reason without first securing approval from the Vice President and Chief Financial Officer.

Student Disciplinary Standards Committee
A Student Disciplinary Standards Committee handles all serious breaches of discipline. The Committee is appointed by and responsible to the Dean of Student Services and is composed of staff members and students.

Student Financial Obligations
Students must pay all required fees, fines, loans and other financial obligations owed to the College. Students who fail to meet financial obligations may be dismissed from the College, refused permission to register at a future date, or have holds placed on transcripts, grade reports and diplomas.

Students’ Right-To-Know and Campus Security Act of 1990
Information on this Act is available in the Public Safety Department, Service Building.

Title IX
Title IX states: “No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving federal financial assistance.” The Dean of Student Services is Schoolcraft’s Title IX coordinator. Students who would like further information regarding this act may call 734-462-4400, ext. 5088.

Traffic Regulations
Traffic regulations with respect to speed and parking are posted on campus. Students, staff and visitors are required to follow the same traffic rules as on public streets. As a licensed operator of a motor vehicle, it is the driver’s responsibility to observe the Michigan Vehicle Code laws as well as local ordinances.
Schoolcraft College

learning options and academic policies
Learning Options

Schoolcraft College provides students a variety of choices for earning credit aside from the traditional method. In addition to on-campus, in-class instruction, students can register for online courses, Open Entry/Open Exit courses or hybrid courses. There are classes offered at convenient community locations or on weekends to accommodate student schedules.

Distance Learning—Online Courses

Grote Administration Center Room 220
734-462-4532
ddl@schoolcraft.edu
www.schoolcraft.edu/dl

Students may earn associate degrees in many areas completely online. Schoolcraft College Online brings a variety of courses to students in various disciplines. The convenience and accessibility of online courses make it easier than ever to learn more flexibly, perhaps while you earn and enhance your career prospects. Online course work takes place in a virtual environment, including frequent communication and interaction with the faculty and other students. The keys to success in online courses are motivation, self-discipline, a working knowledge of computers and the Internet and effective time management.

Distance learning can be an effective solution for individuals who want to take college classes but, for various reasons, are better served by flexible online options due to life circumstances, learning preference, or other commitments. These classes expand learning opportunities while allowing students to balance educational demands with their work, travel or family. They allow study wherever and whenever a busy schedule permits.

Students who are admitted to the College can register for distance learning courses as they would for any credit course. Distance learning courses are a convenient way to earn regular college credit toward the goal of earning a degree, gaining a skill required for a job, or expanding knowledge. These courses tend to be highly interactive; they are not independent study courses.

Students are expected to keep up with weekly assignments; regular and active participation in online discussions is required. Some online classes require proctored exams. Textbooks are required for each course.

All Schoolcraft College online courses are offered through the Internet. To take an online course, students must own or have regular access to:

- A PC with a minimum 256MB of RAM.
- DSL or cable modem recommended; a 56K modem may impede course participation.
- An Internet Service Provider and a valid personal e-mail account.
- A CD-ROM or CD/DVD drive.
- Windows XP recommended; Windows 2000 or higher is necessary.
- Microsoft Word is necessary. Microsoft Office 2000 or higher is recommended and may be required for some courses.
- Internet Explorer 5.0 or higher, or Netscape 4.76 or higher.

- A printer.
- Macintosh equivalents include:
  OS 9.1 or higher and Office 98 for Mac or higher.
  All math courses require Virtual PC.
  May require an additional Windows Emulator, depending on OS.

Note: Some courses require specific software packages or supplemental materials. The technological requirements are current as of the printing of this catalog. To ensure that you have the most recent list, please check www.schoolcraft.edu/dl or call 734-462-4532.

For more information, e-mail ddl@schoolcraft.edu, go to the College Web site at www.schoolcraft.edu/dl, or call 734-462-4532.

Open Entry/Open Exit Classes

734-462-4588
oeoe@schoolcraft.edu
www.schoolcraft.edu/oeoe

Open Entry/Open Exit classes provide an alternative to traditional classroom learning. OE/OE students have greater control over their learning schedules and can complete a course in several weeks, a month or a semester. Students attend no regular classes or lectures. Students can complete these self-paced courses at home, in the College’s computer labs, or in the OE/OE lab where instructors are available for help during posted hours. They may submit homework via e-mail, through Blackboard, or by using the designated OE/OE drop-off area. At least one on-campus assessment is required. Students may register for OE/OE classes before the semester starts, or up to the seventh week of the fall and winter semesters. Spring classes are offered in a seven-week format. All coursework must be completed by semester’s end. All students registering for the OE/OE program must attend an orientation before beginning coursework. For more information, call 734-462-4588, send an e-mail to oeoe@schoolcraft.edu or go to the College Web site at www.schoolcraft.edu/oeoe.
Independent Learning

The College provides students an opportunity to earn credit for certain courses through independent study. Students are expected to master the competencies the course requires. Students work independently under the direction of the assigned faculty member and are expected to meet with the faculty member at designated times during the term. Contact the appropriate instructional administrator for more information. Students must obtain approval from an instructor and administrator to take an independent learning course.

Hybrid Courses

734-462-4525
hybrid@schoolcraft.edu
www.schoolcraft.edu/hybrid

Hybrid classes combine in-class and online learning. Students meet on campus for the first class and for presentations, laboratory work and discussions. Reading assignments, research and some projects are completed online. Students get the flexibility of online classes with the personal interactions of classroom sessions. On-campus meeting dates and times for hybrid courses are included in each semester’s Credit Class Schedule or found on the Web at www.schoolcraft.edu/hybrid.

In order to take a hybrid course, students must own or have convenient access to:

- A PC with a minimum 256MB of RAM.
- DSL or cable modem recommended; a 56K modem may impede course participation.
- An Internet Service Provider and a valid personal e-mail account.
- A CD-ROM or CD/DVD drive.
- Windows XP recommended; Windows 2000 or higher is necessary.
- Microsoft Word is necessary. Microsoft Office 2000 or higher is recommended and may be required for some courses.
- Internet Explorer 5.0 or higher, or Netscape 4.76 or higher.
- A printer.
- Macintosh equivalents include:
  - OS 9.1 or higher and Office 98 for Mac or higher.
  - All math courses require Virtual PC.
  - May require an additional Windows Emulator, depending on OS.

Note: Some courses require specific software packages or supplemental materials. The technological requirements are current as of the printing of this catalog. To ensure that you have the most recent list, please check www.schoolcraft.edu/hybrid or call 734-462-4525.

For more information, call 734-462-4525, send an e-mail to hybrid@schoolcraft.edu or go to the College's Web site at www.schoolcraft.edu/hybrid.

Schoolcraft Scholars Honors Program

Schoolcraft Scholars, the College honors program, links academic achievement with service to the community. Students accepted into the Schoolcraft honors program complete six honors courses and 100 hours of service learning. Tuition is awarded for all honors courses as long as an honor student maintains an overall 3.5 grade-point average.

The first and final honors courses are taken with other honor students: Humanities 190, a social values colloquium, introduces students to community organizations; Sociology 290, a capstone course on social issues, supports the completion of 25-hour service projects. Students earn honors credit in four other courses of their choice by completing honors option projects with honors faculty.

Schoolcraft Scholars attend numerous field trips, lectures and workshops open to the College at large. The honors program accepts applications year-round. Among other requirements, applicants need a graduating high school grade-point average or 12-hour college grade-point average of 3.5.

Global Concentration

734-462-4400 ext. 5271
international@schoolcraft.edu
www.schoolcraft.edu/scii

Learning about different nations and cultures and their interconnections is an important part of education in the 21st century. At Schoolcraft, students have the opportunity to gain a global perspective by earning an International Endorsement. This program, overseen by the College’s International Institute, requires participating students to complete a minimum of 15 credit hours of classes designated as Internationalized. Such classes contain at least two weeks of global or multicultural content. Internationalized sections are available for a growing number of courses, including those required in various programs. The International Endorsement is an attractive option for students pursuing programs where a global view is an asset and is awarded upon completion of the 15 credit hours.

For more information, call 734-462-4400, ext. 5271, send an e-mail to international@schoolcraft.edu or go to the College’s Web site at www.schoolcraft.edu/scii.
Academic Policies

Attendance Procedures
Regular class attendance is necessary for maximum success in college. Faculty members announce any special attendance requirements during the first class meeting of each semester or session.

- Students are expected to attend all classes except in the event of illness or an unavoidable emergency.
- Students are responsible for making arrangements to complete all work before attending athletic events, field trips or other College-sponsored events. Written assignments must be turned in to instructors before the event or at a time designated by instructors.
- Students are responsible for meeting all class requirements regardless of absences and/or tardiness from class.
- Students attending Schoolcraft College under special programs may have specific attendance requirements.

Course Auditing
Qualified students may enroll in courses for which they do not desire credit by applying to the College and by paying the same tuition and applicable fees as regularly enrolled students. The student’s intention to audit the course should be made known at the time of registration. A change in audit/credit after the registration period may be authorized through instructor/student consultation and written notification by the instructor to the Registrar. This change must be done before the last day to withdraw from a class as published in the class schedule for that term. Any student auditing a class may participate as a regularly enrolled student except that no final grade is issued to the auditor.

Credit Hours
Normally, students receive one hour of credit for each hour required in class per week during a 15-week semester. However, classes with labs, such as art, science, computers and technology, require additional class hours. Credit hours and total weekly course clock hours are listed in the course description section of this catalog.

Course Load—Fall and Winter Semesters
A full-time load is 12 semester credit hours. Students must receive permission from a counselor to elect more than 18 hours. Normally, students eligible for overloads earned a minimum grade-point average of 3.0 in the previous semester at Schoolcraft College. Students must obtain permission from a counselor before the beginning of each semester during which they wish to carry an increased load.

Course Load—Spring and Summer Sessions
The full-time course load in the spring and summer sessions is six semester credit hours. Normally, students eligible for overloads earned a minimum grade-point average of 3.0 in the previous semester at Schoolcraft College. Students must obtain permission from a counselor before the beginning of each session during which they wish to elect more than eight credit hours.

Classification of Students, Credit Classes
- Freshman—Fewer than 26 credit hours
- Sophomore—26 or more credit hours
- Full-time—12 or more credit hours per semester
- Part-time—Fewer than 12 credit hours per semester
- Special/Dual Student—High school student
- Advanced Standing—More than 60 credit hours

Credit by Examination
Schoolcraft College students may request credit by exam for a specific course by presenting evidence of special course proficiency, experience or education. Students are allowed to take exams only if instructors or department representatives find they are qualified to take the exam. Students are charged a fee, which is assessed by the Cashier’s Office, before the examination. Applications are available in Associate Deans’ Offices.

Equivalency Credit
Schoolcraft College students may receive equivalency credit toward a certificate or associate degree in these instances:
- Work experience and/or training.
- Related instruction.
- Transfer courses from other colleges and universities.

The College requires a minimum number of credit hours earned at Schoolcraft before the equivalency credit is posted to the student’s record.

Advanced Placement
Students may request course credit based on satisfactory test scores taken through the College Board Advanced Placement program. Students requesting course credit should have their Advanced Placement scores sent to the Registrar’s Office as early as possible.

CLEP/DANTES National Credit by Examination Programs
The College Level Examination Program and the DANTES Subject Standardized Tests Program offer students the opportunity to obtain college credits based on satisfactory test score completion. Contact the Assessment Center for test registration information.
Dean’s List—Recognizing Academic Achievement

Each semester we recognize students for high academic achievement by naming them to the Dean’s List. The minimum requirements for fall or winter semester are:

- Full-time students who complete 12 or more credits during the semester with a semester grade-point average of 3.5 or higher. The College sends a letter of recognition to students’ homes and notifies hometown newspapers.
- Part-time students who, after completing a total of 12, 24, 36, 48 and 60 credit hours, have earned a cumulative grade-point average of 3.5 or higher. The College sends a letter of recognition to students’ homes.

Grades and Grade Points

The grading system and computing method for grade-point averages are explained below.

<table>
<thead>
<tr>
<th>Grades</th>
<th>Grade Scale</th>
</tr>
</thead>
<tbody>
<tr>
<td>Excellent Performance</td>
<td>4.0–3.5</td>
</tr>
<tr>
<td>Very Good</td>
<td>3.4–3.0</td>
</tr>
<tr>
<td>Good</td>
<td>2.9–2.5</td>
</tr>
<tr>
<td>Average</td>
<td>2.4–2.0</td>
</tr>
<tr>
<td>Below Average</td>
<td>1.9–1.5</td>
</tr>
<tr>
<td>Poor</td>
<td>1.4–1.0</td>
</tr>
<tr>
<td>Failure</td>
<td>0.0</td>
</tr>
<tr>
<td>W — Withdrawal</td>
<td>No points</td>
</tr>
<tr>
<td>I ** — Incomplete</td>
<td>No points</td>
</tr>
<tr>
<td>AUDIT *** — No grade or credit awarded</td>
<td>No points</td>
</tr>
<tr>
<td>NC — No Credit — repeated course</td>
<td>No points</td>
</tr>
</tbody>
</table>

* See Withdrawal from College or Classes.
** See Issuance of an Incomplete Grade.
*** Students must request audits when registering for classes.

Note: Individual programs may have special grade requirements.

Grade-Point Average

Students may calculate their grade-point average as in this example:

<table>
<thead>
<tr>
<th>Class Elected</th>
<th>Course Credit Hours</th>
<th>Grade Received</th>
<th>Grade Points Earned</th>
</tr>
</thead>
<tbody>
<tr>
<td>English 101</td>
<td>3</td>
<td>2.2</td>
<td>6.6</td>
</tr>
<tr>
<td>Political Science 105</td>
<td>3</td>
<td>3.4</td>
<td>10.2</td>
</tr>
<tr>
<td>Mathematics 113</td>
<td>4</td>
<td>2.1</td>
<td>8.4</td>
</tr>
<tr>
<td>Chemistry 111</td>
<td>4</td>
<td>2.7</td>
<td>10.8</td>
</tr>
<tr>
<td>Total Credits</td>
<td>14</td>
<td>Total Grade Points 36</td>
<td></td>
</tr>
</tbody>
</table>

Multiply the course credit hours by the grade received to get the grade points earned. Divide the total grade points earned by course credits earned to yield the grade-point average: 36 / 14 = 2.57 grade-point average.

Academic Probation

Students who have completed 15 credit hours and earned cumulative grade-point averages below 2.0 are placed on academic probation. The College records probationary status on student transcripts and grade reports. Students on academic probation must meet with a counselor before registering for any semester or session until academic probation is removed.

Academic Dismissal

Any student on academic probation who fails to earn a grade-point average of 2.0 or higher after completing a total of 30 credit hours will be academically dismissed from the College. The official record (transcript) and grade report reflect this status. A student may appeal the dismissal to the Dean of Instruction.

A student who transfers from another college and is admitted to Schoolcraft College on academic probation is subject to the above stated academic conditions.

Students receiving financial aid assistance or Veteran benefits must meet the specific academic requirements that determine continuation for these programs.

Readmission for Academically Dismissed Students

Students must petition the Dean of Instruction, confer with a counselor and meet with the Associate Dean for Academic and Assessment Services for readmission. As a condition of readmission, if petitions are honored, students must follow specific recommendations made by the Associate Dean for Academic and Assessment Services.

Appeals Procedure for Academic Matters

Students may appeal academic decisions regarding a grade or other actions resulting from their academic performance. Step I of the Appeal process must be made within ten working days of the occurrence, or receipt of a grade, and must follow the procedures outlined below:

**Step I**

Students must seek to resolve academic matters informally with the instructor. During the spring/summer session(s), when an instructor may not be available, students may proceed to Step II after an effort is made to communicate with the instructor.

**Step II**

Students may formalize complaints by completing a Student Appeal form, acquired through the appropriate Associate Dean’s Office. This form includes:

- The student’s name, student number, address, telephone number and times and dates of availability.
- The specific complaint.
- The desired remedy.

The Associate Dean will review the complaint, investigate the facts and send a written decision to the student within ten working days. If both the student and Associate Dean agree, the time limit may be extended.
Step III
If the academic issue is not resolved to the student’s satisfaction, an appeal may be made to the Dean of Instruction. The appeal must be made in writing, including all information given in Step II, within five working days of receipt of the Step II decision. The Dean of Instruction will hear the complaint, investigate the facts and, when possible, convene a hearing of the individuals involved. A written decision will be given within ten working days of the hearing. Certain circumstances may make it impossible to respond within the ten day time limit. If both the student and the Dean of Instruction agree, the time limit may be extended; otherwise a decision will be made on available facts.

Step IV
If the matter is still unresolved, the student must notify the Dean of Student Services in writing, no later than five working days after the Step III decision is rendered. The Dean of Student Services will convene and chair a Hearing Committee within ten working days. The Hearing Committee will have an equal number of faculty, students and administrators. Students have a right to:

- Hear all statements made about the situation and examine relevant materials, as long as such examination does not violate the Family Rights and Privacy Act or other laws and policies.
- Question any person or material presented.
- Present their own cases including supporting material or testimony.
- Have an advisor or legal counsel present, who will not speak for the student.
- Tape record the hearing or otherwise make a record of the proceedings.

The Dean of Student Services will complete the process with a final written decision to the student no later than ten working days after the hearing. That decision* is final and concludes the appeal process.

* A review of the decision is conducted by the President and/or designee and may involve legal counsel.

Expedited Process
Occasionally a situation arises which requires more immediate action. Examples include deadlines such as graduation dates, external testing dates, and transfers to other institutions or employment opportunities. The student may request, in writing, an Expedited Process, and if the Dean of Student Services concurs, the following steps will be taken:

Step I
Students must seek to resolve academic matters informally with their instructor. During the spring/summer session(s), when an instructor may not be available, students may proceed to Step II after an effort is made to communicate with the instructor.

Step II
Students may submit a formal Student Appeal form, acquired in the appropriate Associate Dean’s Office, to the Dean of Student Services. The form includes:

- The student’s name, student number, address, telephone number and times and dates of availability.
- The specific complaint.
- The desired remedy.

Both the Dean of Instruction and the Dean of Student Services will confer with all necessary parties in an attempt to resolve the issue. Should the complaint still not be resolved, the Dean of Student Services will convene a hearing consisting of an equal number of faculty, students and administrators. The rules of the hearing will be the same as those expressed in Step IV. Both sides of the dispute will be heard. The Dean of Student Services will complete the process with a final written decision to the student no later than ten working days after the hearing. That decision* is final and concludes the appeal process.

* A review of the decision is conducted by the President and/or designee and may involve legal counsel.
Schoolcraft College

academic and
degree programs
Core Skills and General Education

Schoolcraft College is committed to the belief that a sound education has its foundation in general education and the development of core skills. Through general education courses and the teaching and reinforcing of core skills, students are given the opportunity to acquire the knowledge, skills and attitudes fundamental to attaining a more satisfying life.

The College requires candidates for all associate degrees to satisfy ten general education requirements and demonstrate competency in the following core skills areas: communication; critical and creative thinking; and social, global and organizational dynamics. Students will complete general education requirements and develop core skills by selecting courses outlined in the list below. As students progress through all other courses in their program of study, there will be opportunity to gain further knowledge of specific subject areas and develop proficiency in core skills.

Assessment of Core Skills

Annually, a random sampling of students’ work will be reviewed, using established standards at the institutional level, to provide assurance that students are able to demonstrate competency in the defined core skills. This review will provide the College with an opportunity to assess its effectiveness in preparing students in these skills areas.

A Schoolcraft College graduate with an associate degree should be able to demonstrate competency in three core skills areas:

Communication Skills

• The ability to write and speak in a clear, organized, complete and appropriate fashion with well supported statements that are free from mechanical errors.
• The ability to understand, analyze and interpret accurately what is read and heard.

Critical and Creative Thinking Skills

• The ability to identify and solve problems accurately using the appropriate applications, principles and technologies to arrive at a correct, effective and efficient solution.
• The ability to formulate original ideas and concepts.

Social, Global and Organizational Dynamics

• The ability to work within a community through effective, efficient, ethical and collaborative conduct geared to timely delivery of an outcome.

General Education Requirements

Courses in this area constitute Schoolcraft’s general education requirements for students seeking an associate degree. These ten course areas are: writing; speaking and listening; mathematics; reasoning; computer and information technology; science; the individual; arts and humanities; social institutions; and international perspectives. These courses develop skills and understanding, forming a foundation for students to continue to learn and grow. Some courses apply only to a particular associate degree program. Students may substitute a department’s more advanced course to satisfy a general education requirement. Certain courses satisfy more than one requirement.

1) Writing—Communication Skills

Select one combination of courses:

<table>
<thead>
<tr>
<th>English 100 &amp; 106</th>
<th>English 101 &amp; 102</th>
</tr>
</thead>
<tbody>
<tr>
<td>English 100 &amp; 116</td>
<td>English 101 &amp; 106</td>
</tr>
<tr>
<td>Cosmetology Management, Criminal Justice/Criminal Justice with Academy, Emergency Medical Technology, Environmental Technology and Fire Technology/Fire Technology with Academy majors</td>
<td>Accounting, Business Information Technology, Business—General, Child Care-Development/Special Needs Paraprofessional, Marketing and Applied Management, Office Administration and Small Business Management majors only</td>
</tr>
</tbody>
</table>
2) Speaking and Listening—Communication Skills
Select one or a combination of courses:
- Communications 103
- English 100
- Engineering 100
- French 101 & French 102
- German 101 & German 102
- Medical Assisting 180
- Medical Assisting majors only
- Nursing 122
- Nursing majors only
- Spanish 101 & Spanish 102

3) Mathematics—Critical and Creative Thinking
Select one course:
- Accounting 103
  Culinary Arts majors only
- Accounting 201
- Accounting 202
- Business 105
- Engineering 128
  Biomedical Engineering Technologist and Electronic Technology majors only
- Health Information Technology 210
  Health Information Technology majors only
- Health Information Technology 210
  Health Information Technology majors only
- Mathematics 105
  Elementary Education majors only
- Mathematics 111
- Mathematics 113
- Nursing 116
  Nursing majors only

4) Reasoning—Critical and Creative Thinking
Select one course:
- Biology 101
- Chemistry 111
- Collegiate Skills 101
- Collegiate Skills 130
  Nursing majors only
- Criminal Justice 211
  Correctional Science majors only
- Criminal Justice 211
  Correctional Science majors only
- Electronics 127
  Electronic Technology majors only
- English 205
  Political Science 105

5) Computer and Information Technology—Critical and Creative Thinking
Select one course:
- Allied Health Education 101
- Collegiate Skills 111
- Collegiate Skills 211
- Computer Aided Design 103
- Computer Graphics Technology 123
- Computer Graphics Technology 125
- Computer Graphics Technology 127
- Computer Information Systems 105
- Computer Information Systems 115
- Computer Information Systems 120
- Computer Information Systems 129
  Computer Information Systems 129
- Computer Service 126
  Biomedical Engineering Technologist, Computer-Assisted Manufacturing and Electronic Technology majors only
- Culinary Arts 243
  Culinary Arts majors only
- Culinary Arts 295
  Culinary Arts majors only
- Music 171
- Music 171
- Office Information Systems 100
  Office Information Systems 100
- Office Information Systems 165
- Office Information Systems 165

6) Science—Critical and Creative Thinking
Select one course:
- Biology 101
- Biology 104
- Biology 105
- Business 217
  Business-General and Marketing, Applied Management and Small Business Management majors only
- Chemistry 100
  Culinary Arts majors only
- Chemistry 111
- Computer Information Systems 250
  Computer Information Systems majors only
- Criminal Justice 201
  Criminal Justice majors only
- Criminal Justice 209
  Criminal Justice majors only
- Electronics 119
- Electronics 127
  Electronic Technology and Biomedical Engineering Technologist majors only
- Emergency Medical Technology 108
  Emergency Medical Technology majors only
- Emergency Medical Technology 108
  Emergency Medical Technology majors only
- Fire 200
- Geography 105
- Geography 130
- Geography 212
- Geology 133
- Metallurgy 102
- Metallurgy 280
- Physics 104
- Physics 123
- Physics 181

7) The Individual—Social, Global and Organizational Dynamics
Select one course:
- Biology 103
- Biology 105
- Biology 115
- Human Development Services 110
- Physical Education 121
- Physical Education 202
- Psychology 153
- Psychology 201

8) Arts and Humanities—Social, Global and Organizational Dynamics
Select one course:
- Art 105
  English 246
- Art 106
  English 248
- Art 113
  Humanities 106
- Art 115
  Humanities 210
- Art 116
  Music 102
- Art 201
  Music 105
- Business 122
  Business-General and Marketing and Applied Management majors only
- Business 122
  Business-General and Marketing and Applied Management majors only
- Computer Graphics Technology 109
  Music 141
- Culinary Arts 295
  Music 149
- Culinary Arts 295
  Music 149
- English 200
  Musical Theatre 164
- English 243
  Theatre 120
- English 244
  Theatre 207
- English 245
  Theatre 208

9) Social Institutions—Social, Global and Organizational Dynamics
Select one course or any two of the listed history courses:
- Anthropology 112
  History 152
- Anthropology 201
  History 153
- Biology 104
  History 230
- Economics 103
  Political Science 105
- Economics 201
  Psychology 153
- Geography 212
  Psychology 201
- History 141
  Sociology 201
- History 151

10) International Perspectives—Social, Global and Organizational Dynamics
Select one course:
- Anthropology 201
- Art 115
  German 101
- Art 116
  German 102
- Art 201
  Geography 130
- Computer Graphics Technology 151

Academic Programs

There are many opportunities to earn college credit at Schoolcraft College. Students may choose to pursue an associate degree that will transfer to another college or university, earn transfer credits toward a four-year degree, earn an associate degree in a career-related area, or earn a certificate that can be applied toward a degree program while preparing for employment. Whatever students choose to study, it is recommended that they plan the program with the Schoolcraft College Counseling Center staff.

Programs of study fall into two major categories: transfer and career.

- **Transfer programs** prepare students who plan to transfer to four-year colleges and universities after completing their coursework at Schoolcraft College.
- **Career programs** prepare students for entry into a specific job-related field, for advancement in a current job or for making a career change.

Schoolcraft College Transfer Programs

Schoolcraft College offers many excellent transfer programs to students planning to complete freshman and sophomore courses and continue their education by transferring to a four-year college or university to earn a bachelor’s degree. During the first two years at Schoolcraft College, transfer students complete courses in English, mathematics, science, social science and humanities, and courses related to their specific program of study. Students may apply transferable courses toward associate in arts, associate in science, associate in engineering or associate in general studies degrees. A maximum of 60–62 credit hours usually transfer toward the bachelor’s degree. However, some universities will accept additional courses depending on the school and the academic program. Schoolcraft College works closely with four-year institutions to provide current transfer information for a smooth transition from Schoolcraft College to a student's chosen four-year college or university. It is highly recommended that transfer students work with the Schoolcraft Counseling Center, Career and Transfer Center staff and the admissions advisor of the selected college or university.

Transfer Associate Degrees

Associate degree candidates must satisfy the specific degree requirements listed below, including completion of the Schoolcraft College general education requirements and core skills competencies.

**ASSOCIATE IN ARTS (AA)**

The associate in arts degree is for students who plan to transfer to a four-year college or university. The associate in arts degree is appropriate for most transfer programs leading to a baccalaureate degree.

1. English 101 and 102 required—6 credit hours.
2. Humanities—8 credit hours.
   - Art, Foreign Language, History, Literature, Music Appreciation, Music Literature or Music Theory, Philosophy, Communication Arts, Theatre or Humanities.
3. Mathematics/Sciences—8 credit hours
   - (one course must be a laboratory science course).
   - Biology, Chemistry, Physical Geography, Geology, Mathematics or Physics.
4. Social Sciences—8 credit hours.
   - Economics 201 required.
5. Additional classes to satisfy all Schoolcraft College general education requirements and core skills competencies and transfer institutions. 7–15 credit hours.
6. All courses that apply to this degree must be at the 100- or 200-level.

**ASSOCIATE IN ENGINEERING (AE)**

The associate in engineering degree is for students who plan to pursue a baccalaureate degree in engineering.

1. English 101 and 102 required—6 credit hours.
2. Humanities—6 credit hours.
   - Art, Foreign Language, History, Literature, Music Appreciation, Music Literature or Music Theory, Philosophy, Communication Arts, Theatre or Humanities.
3. Mathematics/Sciences—34 credit hours
   - Chemistry 111 required.
   - Physics 211 and 212 required.
   - Math 150, 151, 240 and 252 required.
4. Social Sciences—7 credit hours.
   - Economics 201 required.
5. Additional classes to satisfy all Schoolcraft College general education requirements and core skills competencies and transfer institutions. 7–15 credit hours.
6. All courses that apply to this degree must be at the 100- or 200-level.
ASSOCIATE IN SCIENCE (AS)
The associate in science degree is for students who plan to pursue a baccalaureate degree in a science field.
1. English 101 and 102 required—6 credit hours.
2. Humanities—8 credit hours.
   Art, Foreign Language, History, Literature, Music Appreciation, Music Literature or Music Theory, Philosophy, Communication Arts, Theatre or Humanities.
3. Mathematics/Sciences—20 credit hours
   (one course must be a laboratory course).
   Biology, Chemistry, Physical Geography, Geology, Mathematics or Physics.
4. Social Sciences—8 credit hours.
   Anthropology, Economics, World Regional Geography, History, Political Science, Psychology or Sociology.
5. General Electives—18 credit hours.
   Electives must be chosen from transferable 100- or 200-level courses.
6. All courses that apply to this degree must be at the 100- or 200-level.
7. Complete all Schoolcraft College general education requirements and core skills competencies.

ASSOCIATE IN GENERAL STUDIES (AGS)
The associate in general studies degree is for students who wish to earn an associate degree that may transfer to a college or university through an individualized program of study.
1. English 101 and 102 required—6 credit hours.
2. Humanities—8 credit hours.
   Art, Foreign Language, History, Literature, Music Appreciation, Music Literature or Music Theory, Philosophy, Communication Arts, Theatre or Humanities.
3. Mathematics/Sciences—8 credit hours
   (one course must be a laboratory course).
   Biology, Chemistry, Physical Geography, Geology, Mathematics or Physics.
4. Social Sciences—8 credit hours.
   Anthropology, Economics, World Regional Geography, History, Political Science, Psychology or Sociology.
5. General Electives—30 credit hours.
   Electives must be chosen from 100- or 200-level courses.
6. All courses that apply to this degree must be at the 100- or 200-level.
7. Complete all Schoolcraft College general education requirements and core skills competencies.

OR
1. English 101 and 102 required—6 credit hours.
2. Any two of the following for a total of 24 credit hours:
   Humanities—12 credit hours required.
   Mathematics/Sciences—12 credit hours required.
   Social Sciences—12 credit hours required.
3. General Electives—30 credit hours.
   Electives must be chosen from 100- or 200-level courses.
4. All courses that apply to this degree must be at the 100- or 200-level.
5. Complete all Schoolcraft College general education requirements and core skills competencies.

Program Substitution or Changes
Substitution—Waiver
Students may wish to substitute one course for another, or have a course waived. Students who choose to use this procedure should see a counselor to discuss available options and initiate the process.

Change of Curriculum or Program
A change in a program of study or curriculum must be recorded on a data form available in the Registrar’s Office in the McDowell Center.

Transfer Terms to Understand
Transfer Guide—A document provided by the four-year university that lists the transferable courses applicable to specific academic programs. Transfer guides may be found in the Counseling Center or online at www.macrao.org.

Equivalency Guide—A comprehensive list of all Schoolcraft College courses that compare to the four-year institution’s courses. This list indicates how, or if, the courses will be accepted upon transferring. Equivalent courses may or may not apply toward a specific major or program. Equivalency guides may be found in the Schoolcraft College Career and Transfer Center or online at www.macrao.org.

NOTE: Refer to transfer guides for specific program requirements.

Liberal Arts—Indicates a well-rounded distribution of general education courses, often resulting in fulfilling the requirements for an associate in arts degree. These courses are typically transferable.

MACRAO Agreement—MACRAO is an agreement among participating colleges and universities which allows smooth transferability of courses. Completing English 101 and 102, 8 credit hours in each of the humanities, science and mathematics, and social science areas fulfill the general education requirements at the transfer institution. Refer to specific colleges and universities for special conditions, called provisos, at www.macrao.org or with the Schoolcraft Counseling Center and Career and Transfer Center.

Transfer Associate Degrees—Associate degrees that are comprised of typically transferable courses including the associate in arts, associate in science, associate in engineering and associate in general studies. The associate in applied science degree transfers ONLY by using special agreements which are called articulation agreements or by choosing a bachelor degree completion program. Please discuss your options with the Counseling Center.
Reverse Transfer— Transfer to a college or university without an associate degree and transfer back courses completed at that institution to the home community college to obtain an associate degree. Please discuss your options with the Counseling Center.

Articulation Agreement— A special agreement between Schoolcraft College and a four-year institution that allows greater acceptance of transfer credits for courses that are not typically transferable, such as those found in the associate in applied science degree. See page 55 for a list of associate in applied science programs.

Transfer Programs— A transfer program prepares students to transfer to a four-year college or university through the completion of an associate degree or the completion of selected coursework outlined on a transfer guide. Students may designate their transfer program.

Listed below are transfer programs offered at Schoolcraft College:

Transfer Programs

Business Related AA.00500
- Accounting
- Advertising
- Business Administration
- Communications
- Computer Science
- Hotel Management

Transfer Agreements with Other Colleges and Universities

Schoolcraft has numerous agreements with other colleges and universities. Most of the agreements are in the form of transfer guides, course equivalencies or formal articulation agreements. By following the agreements, meeting with Schoolcraft College Counseling Center staff and the college and university representatives and completing the transfer program, students are able to make a seamless transition to those institutions.

Transfer agreements are available from the following colleges and universities:

Public
- Central Michigan University
- Eastern Michigan University
- Ferris State University
- Grand Valley State University
- Lake Superior State University
- Michigan State University
- Michigan Technological University
- Northern Michigan University
- Oakland University
- University of Michigan-Ann Arbor
- University of Michigan-Dearborn
- University of Michigan-Flint
- Wayne State University
- Western Michigan University

Private
- Cleary University
- College for Creative Studies
- Concordia University
- Davenport University
- Franklin University
- Kettering University
- Lawrence Technological University
- Madonna University
- Marygrove College
- Northwood University
- Rochester College
- Siena Heights University
- Spring Arbor University
- University of Detroit Mercy
- University of Phoenix
- Walsh College

Transfer Program Options

Schoolcraft College students may transfer to a four-year institution either before or after earning an Associate Degree.

A partial list of program options follows. See the Counseling Center staff for additional transfer program options.

- Business Administration Transfer Program
- Pre-Education, Elementary Transfer Program
- Pre-Engineering Transfer Program
- Pre-Health Related Transfer Program
- Liberal Arts Transfer Program

**PROGRAM TOTAL 60–63 CREDITS**

---

**Notes:**

Students can contact the Schoolcraft College Counseling Center for requirements in business administration specific to each four-year college or university.

**Majors:** Accounting, Computer Information Systems, Finance, Human Resource Management, International Business, Management, Marketing
PRE-EDUCATION, ELEMENTARY TRANSFER PROGRAM

Pre-Education, Elementary Transfer Programs provide the basic general education courses at the freshman and sophomore level for transfer to a specific institution to qualify for teacher certification. Schoolcraft students may receive an associate in arts degree or an associate in science degree by following the requirements specified by the institution and Schoolcraft College.

Associate Degree Requirements
Refer to specific university and Schoolcraft College general education requirements and core skills competencies.

MACRAO Transfer Articulation Agreement

The Michigan Association of Collegiate Registrars and Admissions Officers Articulation Agreement was established to improve the process of transferring coursework between two-year and four-year colleges and universities in Michigan. The agreement provides for transferability of 30 semester credits to fulfill the general education requirements at participating institutions. Students may complete the MACRAO Transfer Agreement as part of an associate degree or as a stand-alone option.

Schoolcraft College participates in the MACRAO Transfer Agreement with the following Michigan colleges and universities:

- Adrian College*
- Albion College
- Baker College
- Calvin College*
- Central Michigan University
- Cleary University
- Concordia University*
- Davenport University
- Eastern Michigan University*
- Ferris State University*
- Finlandia University*
- Grand Valley State University*
- Lake Superior State University
- Lawrence Technological University*
- Madonna University*
- Marygrove College
- Michigan State University*
- Michigan Technological University*
- Northern Michigan University*
- Northwood University
- Oakland University*
- Olivet College
- Rochester College
- Saginaw Valley State University*
- Siena Heights University*
- Spring Arbor University
- Western Michigan University
- Western Michigan University

NOTE: Institutions marked with * have limitations, exceptions or provisos to the MACRAO Transfer Agreement. Check with Schoolcraft Counseling Center staff and admissions representatives from the four-year college or university to learn about exceptions before you transfer. Additional information can be found at www.macrao.org.

Required MACRAO Coursework

Thirty semester credit hours of coursework are needed to meet the MACRAO Transfer Agreement.

Students must complete the distribution of coursework listed below:

- English Composition (ENG 101 and 102) ...........6 credit hours
- Humanities.........................................................8 credit hours
- Social Science.....................................................8 credit hours
- Mathematics/Science (must include one laboratory course) ...............8 credit hours
- Courses in the humanities, social sciences and sciences must be selected from more than one discipline.
- Schoolcraft College requires that students earn a grade of 2.0 for any course that is used to meet the MACRAO Transfer Agreement.
- Transcripts of associate in arts or associate in science degrees, for graduates who qualify, will be stamped “MACRAO Agreement Satisfied.”
- Students meeting the MACRAO Transfer Agreement, but not receiving an associate in arts degree or associate in science degree, must request that transcripts be stamped, “MACRAO Agreement Satisfied,” by contacting the Registrar’s Office.

Transfer Check List

- Meet with Schoolcraft College Career and Transfer Center staff to keep current with transfer issues, obtain transfer and career information and to ensure transferability of courses.
- Identify the four-year university of your choice as early as possible.
- Meet with Schoolcraft College Counseling staff to satisfy your associate degree requirements, and to ensure transferability of courses.
- Attend transfer events. Meet with representatives from Michigan’s four-year universities. Visitations and scholarship information are listed on the College cable television network, posted in the Counseling Center and in the Career and Transfer Center and on the transfer bulletin boards throughout campus.
- Follow the transfer guide, prepared by the four-year university, which lists course requirements for your specific transfer program. Inquire about the MACRAO Agreement. See MACRAO Articulation Agreement.
- Apply to the four-year university of your choice in a timely manner. Transfer applications are available in the Career and Transfer Center.

Schoolcraft College Career Programs

Schoolcraft College offers many excellent career programs for students seeking an education and skills to enter the job market or to advance their current careers. Students selecting career programs can earn a certificate or an applied science degree. Schoolcraft College’s career programs are based on both the students’ interests and community employment needs. They prepare students to enter challenging specialized careers after two years of college or less. Instructors emphasize job-specific knowledge, and students can pursue most of these programs full- and part-time.

The career programs presented in this section are designed primarily to prepare students for the workplace rather than to transfer to another educational institution. However, many career courses and programs will transfer to other colleges and universities through articulations and special agreements. To explore transferability options, see the Schoolcraft College Counseling Center and refer to page 53 to see a list of Featured Articulations and Special Agreements.
Requirements for a Career Program Degree

ASSOCIATE IN APPLIED SCIENCE (AAS)
The associate in applied science degree is for students who plan to seek employment upon completion of a career program. To explore transferability options, it is recommended that students meet with a counselor.
1. English—6 credit hours required by individual curriculum.
2. Completion of one of the career programs listed in the Schoolcraft College catalog. Refer to list below.
3. All courses that apply to this degree must be at the 100- or 200-level.
4. Complete all Schoolcraft College general education requirements and core skills competencies.

Certificates of Program Completion
Schoolcraft College awards three types of certificates. Skills certificates generally are awarded before earning a pre-associate certificate. The pre-associate certificate is generally awarded before earning an associate degree. The post-associate certificate is awarded after receiving an associate degree. All certificate programs are career rather than transfer oriented.

Skills Certificates
A skills certificate of approximately 16–20 credit hours is awarded upon satisfactory completion of a program of study with a minimum 2.0 grade-point average. Skills certificates do not require completing general education courses. The courses for many skills certificates are in the companion pre-associate certificate. A minimum of 8–10 credits must be completed at Schoolcraft College.

Pre-Associate Certificates
A pre-associate certificate of approximately 30 credit hours is awarded upon satisfactory completion of a program of study with a minimum 2.0 grade-point average. Pre-associate certificates do not require completing general education courses. The courses for many pre-associate certificates are in the companion associate degree program. A minimum of 15 credits must be completed at Schoolcraft College.

Students who plan to earn an associate degree in a program area with a certificate option may consider earning both.

Post-Associate Certificates
Post-associate certificates are awarded by completing 15 or more credits within the certificate program at Schoolcraft College with a minimum 2.0 grade-point average. A student may enter the post-associate program after earning an associate degree from Schoolcraft or another college. The courses within the post-associate certificate are designed to provide higher level specialized training in job-related skills.

List of Career Programs

Business Skills Certificate
- Office Information Systems — Office Specialist

Business Certificate
- Accounting
- Business — Basic
- Business Information Technology
- Computer Information Systems — Introductory
- Networking Technology Integration
- Web Specialist
- Office Information Systems — Office Specialist

Business Associate Degree
- Accounting
- General
- Marketing and Applied Management
- Small Business Management
- Business Information Technology
- Computer Information Systems — Microcomputer Support Technician
- Programming
- Web Specialist
- Cosmetology Management
- Office Information Systems — Office Administration

Communication Arts Associate Degree
- Broadcast Communications

Health Skills Certificate
- Medical Assisting — Coding Specialist
- Medical Biller/Receptionist
- Phlebotomy
- Physician Office Medical Transcription
- Nursing Assistant Training Program

Health Certificate
- Health Information Technology — Coding Specialist
- Massage Therapy
- Medical Assisting
- Medical Transcription
- Nursing — Licensed Practical

Health Associate Degree
- Health Information Technology
- Massage Therapy
- Nursing — Registered

Public Service Skills Certificate
- Child Care and Development — Child Development Associate (CDA)

Public Service Certificate
- Child Care and Development — Child Care and Development
- Special Needs Paraprofessional
- Emergency Medical Technology
- Fire Fighter Technology

Public Service Associate Degree
- Child Care and Development — Child Care and Development
- Criminal Justice
- Criminal Justice with Academy
- Emergency Medical Technology
- Fire Technology
- Fire Technology with Academy
- Homeland Security

Technology Certificate
- Computer Aided Drafting — Electromechanical
- Technical
- Computer Graphics Technology — 3D Animation
- Digital Art
- Foundation
- Interactive Media and Game Design
- Motion Graphics and Video
- Publishing
- Web Design
- Computer Service Technician
- Culinary Arts
- Culinary Baking and Pastry Arts
- Electronics Service
- Laser Technology
- Metallurgy — Applied Physical
- Music — Foundations
- Intermediate
- Piano Teacher
- Recording Technology
- Welding — Fabrication

Technology Associate Degree
- Biomedical Engineering Technologist
- Computer Aided Design — Mechanical
- Computer Assisted Manufacturing
- Computer Graphics Technology — Animation
- Digital Art
- Graphic Design
- Interactive Media and Game Design
- Culinary Arts
- Electronics Technology
- Environmental Technology
- Manufacturing for Quality Production
- Metallurgy and Materials Science
- Music — Recording Technology

Post-Associate Certificate
- Biomedical Applications
- Computer Graphics Technology — 3D Animation
- Digital Art
- Interactive Media and Game Design
- Motion Graphics and Video
- Publishing
- Web Design
- Computer Information Systems
- Culinary Arts — Brigade Advanced Skills
- Metallurgy — Materials Science

1 Students must be officially admitted to these programs before selecting any core/ major courses. Call the Office of Admissions, 734-462-4426, for more information.
2 Prior associate degree in the program required. See current catalog for additional information.
ACCOUNTING

Accounting Associate Degree
Schoolcraft program code # AAS.00005

The Accounting Program is designed to familiarize students with the work and challenges facing accountants. The program provides training for those planning to seek a career in accounting.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students who satisfactorily complete the Program Courses, Electives and all College Requirements qualify for the Associate in Applied Science Degree.

College Requirements
Students are encouraged to take their College Requirements early in their program. However, these courses are not required before beginning Program Courses.

Program Courses
ACCT 201 Principles of Accounting 1 ............................................. 4
ENG 101 English Composition 1 .................................................... 3
ENG 106 Business English .......................................................... 3
COMA 103 Fundamentals of Speech .............................................. 3
CIS 120 Software Applications ..................................................... 3
ECON 201 Principles of Macroeconomics ..................................... 4
POLS 105 Survey of American Government ................................ 3
PSYCH 153 Human Relations ...................................................... 3
or PSYCH 201 General Psychology ............................................... 4
HUM 106* Introduction to Art and Music ...................................... 1
GEOL 133* Physical Geology ..................................................... 4

* Other courses meeting the College Requirements may be substituted.

Program Courses
ACCT 202 Principles of Accounting 2 ............................................. 4
ACCT 260 Computer Based Accounting ........................................ 3
or ACCT 261 Computerized Accounting ........................................ 3
or ACCT 263 Computerized Accounting for Small Business ............ 3
ACCT 221 Intermediate Accounting 1 .......................................... 4
CIS 180 Spreadsheet Applications—Current Software .................. 3
ACCT 222 Intermediate Accounting 2 .......................................... 4
ACCT 226 Cost Accounting ....................................................... 4
ACCT 238 Federal Tax Accounting .............................................. 4
ACCT 262 Payroll Accounting—Manual to Computerized ............ 3
or BUS 101 Introduction to Business ............................................. 3
or ECON 202 Principles of Economics ........................................... 4
BUS 207 Business Law 1 ......................................................... 3

PROGRAM TOTAL 63–65 CREDITS

The above program meets all College Requirements.

Accounting One-Year Certificate
Schoolcraft program code # 1YC.00001

The Accounting Program is designed to familiarize students with the work and challenges facing accountants. This certificate program prepares the student for a job as an entry-level bookkeeper within an accounting department or firm.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students who satisfactorily complete the Program Courses qualify for a Certificate of Program completion.

Program Courses
ACCT 201 Principles of Accounting 1 .......................................... 4
BUS 101 Introduction to Business ............................................... 3
or PSYCH 153 Human Relations ................................................... 3
CIS 120 Software Applications .................................................... 3
ENG 101 English Composition 1 .................................................. 3
ACCT 202 Principles of Accounting 2 .......................................... 4
ACCT 238 Federal Tax Accounting ............................................. 4
BUS 207 Business Law 1 ......................................................... 3
ACCT 260 Computer Based Accounting ....................................... 3
or ACCT 261 Computerized Accounting ....................................... 3
or ACCT 263 Computerized Accounting for Small Business .......... 3
COMA 103 Fundamentals of Speech ........................................... 3
ACCT 262 Payroll Accounting—Manual to Computerized .......... 3

PROGRAM TOTAL 33 CREDITS

The above program meets all College Requirements.
BIOMEDICAL ENGINEERING TECHNOLOGY

Biomedical Engineering Technologist
Associate Degree
Schoolcraft program code # AAS.00128

The Biomedical Engineering Technologist Program is designed to develop technicians able to maintain and service medical electronic equipment in hospitals, pathological and hematology laboratories, and industries engaged in the manufacture and sale of medical electronic equipment.

As part of the BMET program, students will be required to complete two internships. After successfully completing the first two semesters, students are qualified to take the first internship course, BMET 254. At the conclusion of the internship, students will return to campus to continue studies. After completing an additional semester, students may take the second internship course, BMET 255. Students must meet with the BMET Internship Coordinator before enrolling in BMET 254 and BMET 255 to be eligible to fulfill program requirements. Students must complete internships to remain enrolled in the program.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students who satisfactorily complete the Program Courses and all College Requirements qualify for an Associate in Applied Science Degree.

College Requirements

Students are encouraged to take their College Requirements early in their program. However, these courses are not required before beginning Program Courses.

BIOL 105 Elementary Human Anatomy and Physiology 1 ........... 4
ENG 100 Communication Skills ............................................. 3
ENG 106 Business English .................................................... 3
COMPS 126 Technical Programming ........................................ 3
ELECT 127 DC Circuits and Mathematical Modeling .................. 5
ELECT 128 AC Circuits and Mathematical Modeling .................. 5
HUM 106 Introduction to Art and Music .................................. 1
POLS 105 Survey of American Government ............................ 3
PSYCH 153 Human Relations .............................................. 3

Program Courses

MET 102 Introduction to Materials Science ............................. 3
BMET 116 Biomedical Instrumentation Terminology and Safety 1 .......... 3

ELECT 206 Operational Amplifiers and Linear Integrated Circuits .... 4
ELECT 226 Digital Logic Circuits ........................................... 4

PROGRAM TOTAL 66 CREDITS

The above program meets all College Requirements.

Biomedical Applications
Post-Associate Certificate
Schoolcraft program code # PAC.00178

This post-associate certificate in Biomedical Applications is designed to provide working professionals who have experience and/or training in Biomedical Engineering opportunities to study new technologies and innovations.

Completion of this program will enhance a professional’s ability to meet the demands of rapidly changing technologies in the biomedical field. These courses are also intended to meet requirements for current and future professional certification.

Prior to admission to this program, students must have completed a minimum of an accredited Associate Degree in Applied Science. All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. The post-associate certificate is awarded upon successful completion of 15 credit hours (exact number may vary slightly due to credit value or content of course).

Program Courses

A student may choose from any of the courses listed below:

BIOL 240 Anatomy and Physiology Review ............................. 2
CIS 120 Software Applications ............................................... 3
CIS 171 Introduction to Networking ....................................... 3
CIS 178 Technical Microsoft Windows ................................. 3
CIS 235 Managing and Troubleshooting PCs ........................ 3
CIS 271 Local Area Networks .............................................. 3
CIS 273 TCP/IP and Network Architectures .......................... 3
ELECT 134 Introduction to Microcontrollers ......................... 3
LASR 103 Laser Concepts ................................................... 4

Completion of a minimum of 15 credit hours is essential.

Courses can be taken through independent study.

Students may choose an applicable 200-level elective.
**BROADCAST COMMUNICATIONS**

**Broadcast Communications Associate Degree**

Schoolcraft program code # AAS.00041

Students will develop the skills necessary to function as entry-level employees in radio, television, cable television or industrial television settings. The sixty-hour program is articulated with the Specs Howard School (SHS) of Broadcast Arts, Inc. located in Southfield, Michigan. Fifteen credit hours are awarded for completion of the SHS Certificate Program and the remaining credit hours are taken at Schoolcraft.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. The program can begin at either school. Students who satisfactorily complete the Program courses, Electives and all College Requirements qualify for the Associate in Applied Science Degree.

**TYPICAL PROGRAM SCHEDULE**

**Program Courses (Offered at Specs Howard School)**

- Vocal Technique ........................................ 1.5
- Broadcast Concept ........................................ 1.5
- Broadcast Writing ........................................ 1.5
- Interpersonal Communication Development ........ 0.5
- Workshop .................................................. 1.5
- Technical Competency ................................... 0.5
- Studio Class ............................................. 2.0
- WLDN Air Shift ........................................... 1.0
- WLDN News Shift ........................................ 2.0
- Television Production I, II, III, IV, V .................. 3.0

**Business Information Technology**  
Business Information Technology Associate Degree  
Schoolcraft program code # AAS.00277

The BIT program is designed to meet the growing needs of industry for a new category of Information Technology professional. Today’s employers increasingly request graduates who have a sound business background combined with the ability to develop or manage business computer systems.

This is a fast growing field with continual changes in hardware, software and procedures. The widespread use of computers in all areas of business has generated new positions and expanded opportunities in Information Technology. Effective use of technology enables businesses to serve customers better, access more information, be more flexible in responding to business changes and increase employee productivity.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students who satisfactorily complete the Program Courses, Electives and all College Requirements qualify for the Associate in Applied Science Degree.

**College Requirements**

Students are encouraged to take their College Requirements early in their program. However, these courses are not required before beginning Program Courses.

PROGRAM TOTAL 35–36 CREDITS
CHILD CARE AND DEVELOPMENT

Child Care and Development Associate Degree
Schoolcraft program code # AAS.00020

To work effectively with children, early child educators must be sensitive to and understand the developmental stages of children. This curriculum contains theoretical and practical experiences to prepare students to work in early childhood programs in a variety of settings.

The required practicum experiences at the College’s lab school, the Children’s Center, expose students to best practices in early childhood.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students who satisfactorily complete the Program Courses and all College Requirements qualify for the Associate in Applied Science Degree.

PROGRAM TOTAL 30 CREDITS

The Children’s Center at Schoolcraft College is accredited by the National Association for the Education of Young Children (NAEYC—the foremost authority in the care of children, birth through age eight). The accreditation we earn is held by only 3 percent of centers in Michigan and 7 percent of centers in the United States.

For more information about accreditation please contact:
National Association for the Education of Young Children (NAEYC)
1509 16th Street N.W.
Washington, DC 20036

Child Development Associate (CDA) Skills Certificate
Schoolcraft program code # CRT.00315

The Child Development Associate (CDA) Program represents a national effort to credential qualified caregivers who work with children from birth to age five. At Schoolcraft College, CDA preparation consists of meeting the objectives and requirements of six courses in the Child Care and Development curriculum that address the Competency Goals in 13 Functional Areas identified by the CDA Professional Preparation Program. Candidates must also document 480 hours of experience working with children within the past five years, prepare a professional resource file, and be formally observed working with children.*

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. The following are the required courses necessary to meet CDA competencies.

**PROGRAM TOTAL 16 CREDITS**

* Upon successful completion of the required courses, students earn a Schoolcraft College certificate. To earn the CDA, candidates may then apply to the Council for Early Childhood Professional Recognition. The Council charges an application fee, assigns a representative to assess the candidate and awards this national credential.

** Choose course depending upon the type of CDA credentials the student is pursuing. Check with the Child Care department for more information.

Child Care—Special Needs Paraprofessional One-Year Certificate
Schoolcraft program code # 1YC.00032

The Child Care—Special Needs Paraprofessional Certificate Program provides an educational foundation for understanding normal human development and the special needs of individuals who have mental, physical, and/or emotional disabilities. The program emphasizes helping students develop the sensitivity and skills to identify and promote the potential of each individual regardless of the handicap.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students who satisfactorily complete the Program Courses qualify for a certificate of program completion.

**PROGRAM TOTAL 30 CREDITS**

Child Care—Special Needs Paraprofessional Associate Degree
Schoolcraft program code # AAS.00021

Working with disabled children and adults requires sensitivity to individual needs and an ability to help identify and develop the strengths of each individual. This curriculum contains theoretical and practical experience designed to prepare students to work in public school special education classrooms, inclusive classrooms and resource rooms, institutional settings, sheltered workshops, job coaching programs, group homes, or supported-living programs. Students learn to work effectively as members of professional special needs teams. Students who successfully complete the program will meet the requirements of the No Child Left Behind legislation.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students who satisfactorily complete the Program Courses and all College Requirements qualify for the Associate in Applied Science Degree.

College Requirements

Students are encouraged to take their College Requirements early in their program. However, these courses are not required before beginning Program Courses.

**PROGRAM TOTAL 61–66 CREDITS**

The above program meets all College Requirements.
COMPUTER AIDED DESIGN (CAD)

CAD-Mechanical Associate Degree
Schoolcraft program code # AAS.00170

As technology capability shifts from two-dimensional drafting to three-dimensional modeling, the training of technicians must also change. In addition to understanding the basic principles of dimensioning and drafting, future designers will need to understand the complete product development system. Mechanical Designers need to be trained in creating, editing, linking and distributing data files which represent the product information, while understanding the processes necessary to create and distribute the product. All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students who satisfactorily complete the Program Courses, Electives and all College Requirements qualify for the Associate in Applied Science Degree.

College Requirements
Students are encouraged to take their College Requirements early in their program. However, these courses are not required before beginning Program Courses.

The above program meets all College Requirements.

COMPUTER AIDED DRAFTING (CAD)

CAD-Drafting-Electromechanical One-Year Certificate
Schoolcraft program code # 1YC.00118

Through this series of specialized courses students will develop saleable skills in Computer Aided Electromechanical Drafting.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students who satisfactorily complete the Program Courses qualify for a certificate of program completion.

COMPUTER ASSISTED MANUFACTURING

Computer Assisted Manufacturing
Associate Degree

Schoolcraft program code # AAS.00150

The CAM Technology graduate will comprehend, apply and analyze the processes, materials, equipment and software used in manufacturing to produce a product. The successful graduate will be able to use CAD/CAM software to generate CNC coding.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students who satisfactorily complete the Program Courses, Electives and all College Requirements qualify for the Associate in Applied Science Degree.

The above program meets all College Requirements.
**COMPUTER GRAPHICS TECHNOLOGY**

The Computer Graphics Technology Programs prepare students for a career in the fields of graphic design and computer graphics. Students learn how to use professional level software, hardware and peripherals, and to apply the principles of design, typography, and color theory to the creation of effective print- and electronic-based visual communication. It is highly recommended that students meet with faculty for advice in selecting their electives. All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students wishing to pursue a Post-Associate Certificate must have a CGT Associate Degree or equivalent professional experience.

Students who satisfactorily complete a Computer Graphics Technology Certificate, Associate Degree or Post-Associate Certificate qualify for the respective Certificate or Associate Degree upon completion.

**Digital Art Associate Degree**

**Program Total 21 Credits**
COMPUTER INFORMATION SYSTEMS

**Computer Information Systems—Programming Associate Degree**

Schoolcraft program code # AAS.00012

As business and industry embrace new technology and procedures, the need for specially trained people accelerates. This program is designed to prepare the student for a position as an entry-level programmer. Students will learn to become proficient in following directions, analyzing problems, and writing step-by-step instructions so that the computer will efficiently process the data needed to solve these problems. Accuracy, persistence, patience, and the ability to communicate both orally and in writing are important characteristics a computer programmer should possess.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students who satisfactorily complete the Program Courses, Electives and all College Requirements qualify for an Associate in Applied Science Degree.

**College Requirements**

Students are encouraged to take their College Requirements early in their program. However, these courses are not required before beginning Program Courses.

**PROGRAM TOTAL 61–63 CREDITS**

The above program meets all College Requirements.

**Computer Information Systems—Introductory One-Year Certificate**

Schoolcraft program code # 1YC.00004

The Computer Information Systems Certificate Program introduces students to the operating system and concepts surrounding programming logic. In addition, students obtain a basic knowledge of software applications and programming languages.

Students may anytime during or after the first year select one of the CIS Associate Degree Programs. However, all degree requirements must be fulfilled.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students who satisfactorily complete the Program Courses qualify for a Certificate of Program completion.

**PROGRAM TOTAL 27–28 CREDITS**
Computer Information Systems—
Microcomputer Support Technician Associate Degree
Schoolcraft program code # AAS.00014

This program is designed to prepare the student for entry-level positions supporting users of microcomputer components of the operating system. Technicians will assist microcomputer users by recommending appropriate hardware and software, interpreting software manuals, organizing the disk storage, and creating systems solutions using the microcomputer.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students who satisfactorily complete the Program Courses, Electives and all College Requirements qualify for the Associate in Applied Science Degree.

College Requirements

Students are encouraged to take their College Requirements early in their program. However, these courses are not required before beginning Program Courses.

PROGRAM TOTAL 60–62 CREDITS

The above program meets all College Requirements.

Computer Information Systems Post-Associate Certificate
Schoolcraft program code # PAC.00155

This post-associate certificate in Computer Science Information Systems is designed for working professionals who have experience and/or training in the computer field. This certificate will provide study in the newest technology and will enhance students' ability to meet the needs of the ever-changing Computer Information Systems environment.

Prior to admission in this program, students must have already completed a minimum of an accredited Associate Degree in Applied Science. All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. The post-associate certificate is awarded upon successful completion of 15 credit hours (exact number may vary slightly due to credit value of courses).

Computer Information Systems—Web Specialist Associate Degree
Schoolcraft program code # AAS.00275

The technology of the Internet is constantly evolving both in terms of delivery infrastructure and Web site development tools. To stay abreast of these technological advances requires programming and design knowledge, skills and experience. A good site must include both quality visual communication design and functionality. Programming is needed for interactivity to search databases and track usage. Visual Graphic Design is needed to convey the content message and provide branding for products and services.

This degree is designed to prepare the Internet Professional to design Web pages and to program for the Web. It provides the working knowledge of various programming languages, multimedia technologies, graphic development, and Web design tools. The Internet Professional may be involved with designing, developing, operating, maintaining and managing Web-based publishing.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students who satisfactorily complete the Program Courses, Electives and all College Requirements qualify for the Associate in Applied Science Degree.

College Requirements

Students are encouraged to take their College Requirements early in their program. However, these courses are not required before beginning Program Courses.

Computer Information Systems—Web Specialist One-Year Certificate
Schoolcraft program code # YC.00241

The technology of the Internet is constantly evolving both in terms of delivery infrastructure and Web site development tools. To stay abreast of these technological advances requires programming and design knowledge, skills and experience. A good site must include both quality visual communication design and functionality. Programming is needed for interactivity to search databases and track usage. Visual Graphic Design is needed to convey the content message and provide branding for products and services.

This certificate is designed to provide students with an overview of the technical programming and graphic design areas for Web page development.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Student who satisfactorily complete the Program Courses qualify for a Certificate of Program completion.

### COMPUTER SERVICE

**Computer Service Technician One-Year Certificate**

Schoolcraft program code # 1YC.00159

Computer Service Technicians provide technical support for computer systems, PCs, networks and peripheral devices. The technician needs to be able to provide diagnostic analysis and solutions to hardware, software and network problems. A technician will need to have a broad background in the areas of PCs, as well as network wiring and standards. The technician will also assist in the installation and maintaining of computer systems, networks, and software.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students who satisfactorily complete the Program Courses qualify for a Certificate of Program completion.

**PROGRAM TOTAL 31 CREDITS**

### COSMETOLOGY MANAGEMENT

**Cosmetology Management Associate Degree**

Schoolcraft program code # AAS.00010

This program is designed to give licensed, practicing cosmetologists an opportunity to develop special skills in business-related activities and to earn an Associate Degree in Applied Science from Schoolcraft College. Schoolcraft College will grant credit equal to 30 semester credit hours upon receipt of current and proper evidence of license-based upon the standards of the State Board of Cosmetology. These credits will not be entered into the student’s transcript until a minimum of 15 semester credit hours has been earned with a grade-point average of 2.0 at Schoolcraft College.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students who satisfactorily complete the Program Courses and all College Requirements qualify for an Associate in Applied Science Degree.

**College Requirements**

Students are encouraged to take their College Requirements early in their program. However, these courses are not required before beginning Program Courses.

- ENG 100 Communication Skills…………………………… 3
- PSYCH 153 Human Relations……………………………… 3

Criminal Justice Associate Degree
Schoolcraft program code # AAS.00086

Law enforcement has become a highly specialized and complex area of work at the local, state and national levels. The Michigan Commission on Law Enforcement Standards (MCOLES) requires an Associate Degree for Certification of all pre-service candidates. Objectives of the Criminal Justice Associate in Applied Science Degree Program are to upgrade personnel employed in law enforcement and to prepare students for full employment in this field.

Students who successfully complete the Criminal Justice Program and all College Requirements qualify for an Associate in Applied Science Degree.

This program requires a special admissions process. Contact the Public Safety Education Office at 734-462-4747 to complete an application.

Criminal Justice Associate Degree with Academy
Schoolcraft program code # AAS.00086

In this program, the criminal justice courses are restricted to students who are officially admitted to this program.

The criminal justice system is a highly specialized field. Law enforcement officers are employed by 40,000 local police agencies nationwide as well as county sheriffs’ departments. Law enforcement officers must be prepared to interact with the public in a position of responsibility and authority. Knowledge of the criminal justice system, including criminal law, police field operations, criminal investigation, and human relations enhances the professionalism of the criminal justice system.

Candidates for employment as law enforcement officers must be certified by the Michigan Commission on Law Enforcement Standards (MCOLES). After completing the Police Academy (CJ 286), students may become certifiable by passing the MCOLES Certification Exam. Certification is valid for one year. Pre-service students, who are not employed by a law enforcement agency, must complete 41 credit hours of course work for the Associate Degree before taking CJ 286.

Students who complete the Criminal Justice Program and all College Requirements qualify for an Associate in Applied Science Degree.

This program requires a special admissions process. Contact the Public Safety Education Office at 734-462-4747 to complete an application.

CULINARY ARTS

Culinary Arts Associate Degree
Schoolcraft program code # AAS.00087

The Culinary Arts Associate Degree Program provides the skills necessary to enter food service occupations at advanced levels. The technical portion of the curriculum prepares students in quality food preparation, advanced food preparation, cost control, portion control, quantity baking, quantity pastry, advanced pastry, meat cutting, garde manger, dining room operation and classical cooking techniques. Food purchasing and storage functions, menu formulation, terminology, and decorative culinary skills are also covered.

This program contains some courses restricted to students officially admitted to this program. Additionally, CAP 102, Culinary Sanitation or proof of current ServSafe certification as well as CAP 103, Introduction to Professional Cooking Skills and Techniques are pre-program requirements. The College Requirements portion of the curriculum is vital to students’ development.

Students who satisfactorily complete the Culinary Arts Program, including electives and all College Requirements, qualify for an Associate in Applied Science Degree.

This program requires a special admissions process. Contact the Admission Office at 734-462-4426 or admissions@schoolcraft.edu to complete an application.

Admission Prerequisites

* If student provides documentation of current ServSafe certification, CAP 102 is not required. This course is also open to any Schoolcraft student.

** Culinary Baking and Pastry Arts One-Year Certificate**  
Schoolcraft program code # 1YC.00247

The Baking and Pastry Arts Certificate Program provides the skills necessary to enter bakeries, pastry shops, restaurants and hotel bakery and pastry kitchens.

The curriculum prepares students in quality baking and pastry preparation. The two core courses start with the fundamental skills and build gradually to the more advanced and refined skills. Topics covered include professionalism, safety and sanitation, dietetic baking, baking processes and techniques, pies, tarts, contemporary tortes, French pastry, cold and frozen desserts, chocolates, cake decoration, breads, cookies, and many other related nutritional desserts.

This program contains some courses restricted to students officially admitted to this program. Students who satisfactorily complete this program qualify for a certificate in Baking and Pastry Arts.

This program requires a special admissions process. Contact the Admission Office at 734-462-4426 or admissions@schoolcraft.edu to complete an application.

**Admission Prerequisites**

**PROGRAM TOTAL 35 CREDITS**

* If student provides documentation of current ServSafe certification, CAP 102 is not required. This course is also open to any Schoolcraft student.
When the great chef Auguste Escoffier modernized the European kitchen systems and codified recipes and techniques, he created a revolution in cooking that is still felt today. Escoffier’s Brigade System kitchen was established in order to serve fine cuisine in separate courses while maintaining the quality and integrity of each recipe. Created in a military model, Escoffier’s Brigade System established separate stations within the kitchen that functioned as their own domain responsible for part of a meal or banquet. The chef acts as the general with each station headed by a chef who is equivalent to a captain, directing cooks who are equivalent to the infantryman. Even the chef’s double-breasted jacket was styled after the military dress of the day. That proud history and tradition is still carried on in some form in today’s modern hotel and restaurant kitchens. The system is still efficient and has prevailed for almost a century.

THE BRIGADE PROGRAM

Schoolcraft College Culinary Arts Department has created a unique graduate level program based on this system of kitchen organization. This advanced culinary arts program runs for 45 weeks, four days a week, for seven hours a day and is intended to propel graduates from accredited post-secondary culinary arts programs to a higher level of expertise and skill. Students operate the back of the house in a new fine dining restaurant housed in Schoolcraft’s VisTaTech Center.

The entire program focuses on the practical aspects of running a restaurant business. Special attention is paid to optimum product utilization and maintaining balanced food costs. At the end of the three consecutive semesters, each student will have worked every station in the kitchen and gained the kind of practical experience and confidence that may have taken years to achieve in a restaurant or hotel kitchen.

To keep the curriculum in line with industry present and future needs students will have the opportunity to create nutritionally balanced vegetarian meals and work with nutrition menu software to create menus with the nutritional breakdown of each item prepared. Along with a certification from Schoolcraft College, credits are accepted by the American Culinary Federation (ACF) as points towards different levels of certification.

The post-associate certificate is awarded upon successful completion of the Brigade Advanced Culinary skills program.

ADMISSION REQUIREMENTS

Successful completion of a Culinary Arts Associates Degree or equivalent qualifications, completion of sanitation and nutrition courses or completion of American Culinary Federation approved seminars or equivalent certification.

One year of work experience is preferred. Each prospective student will be given a personal interview and an entrance examination before being admitted to the Brigade program.

Electronic Technology Associate Degree
Schoolcraft program code # AAS.00120

This Electronics Program is designed to give students a strong background in the fundamentals of electricity, electronic devices and basic circuits (digital and linear). The curriculum includes laboratory demonstration of the principles taught in class affording practical experience in fabrication, instrumentation and presentation.

The program is not directly aimed at specific products. With the multiplicity of equipment presently in use and the rapid advance and change in technology, the department stresses the development of a broad background that will enable students to find employment and be able to further their skills in a diversified number of industries.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students who satisfactorily complete the Program Courses, Electives and all College Requirements qualify for the Associate in Applied Science Degree.

College Requirements
Students are encouraged to take their College Requirements early in their program. However, these courses are not required before beginning Program Courses.

** Program Total 30 Credits

* Students wishing to transfer to a baccalaureate program may select ENG 101, ENG 102 and COMA 103.

** ELECT 239 or students wishing to transfer to a baccalaureate program may wish to select a Math elective.

The above program meets all College Requirements.

Electronics Service One-Year Certificate
Schoolcraft program code # YC.00125

The one-year certificate for electronics provides the student with a solid foundation for many jobs that require a thorough understanding of electronic fundamentals. Completion of the certificate program also offers the student the opportunity to pursue advanced technical credentials in health care, in manufacturing, or in computer systems. Further opportunities exist for transfer to four year institutions in specific areas. See the Counseling Department for help if this is an area of interest.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students who satisfactorily complete the Program Courses qualify for a Certificate of Program completion.

EMERGENCY MEDICAL TECHNOLOGY

Emergency Medical Technology Associate Degree
Schoolcraft program code # AAS.00250

The Emergency Medical Technology Program prepares students for employment as emergency medical care givers. Content areas are covered in lectures; practical skills are developed in laboratory settings; and clinical applications are divided between ambulances and hospital emergency rooms.

All courses are approved by the Michigan Department of Labor and Economic Growth and are to be taken in sequence. Each course prepares the student for the respective level of State licensing examination.

Students are evaluated in three areas: content, practical skills, and clinical performance. Students achieving an 80 percent or higher will receive a certificate of completion and be eligible for the State licensure. Practical skills are graded on a pass/fail basis, and students must pass all practical exams to complete each course successfully. Clinical performance is evaluated by attendance and feedback from ambulance and hospital personnel. Attendance policies are regulated by the State. All students participating at clinical sites will be required to purchase liability insurance which is good for one year.

Students who successfully pass the Emergency Medical Technology Basic and the Paramedic Technology courses qualify for the Emergency Medical Technology One-Year Certificate.

Upon successfully completing all College Requirements, a student will qualify for an Associate in Applied Science Degree.

FIRST YEAR

**Spring Session**
EMT 108 Emergency Medical Technology—Basic .......................... 10.5

**Fall Semester**
EMT 201 Paramedic Technology 1 ........................................ 12.5

10

PROGRAM TOTAL 65 CREDITS

Elective (Optional)
EMT 114 Emergency Medical Technology—Specialist ................... 7

The special nature of the EMT course work precludes concurrent enrollment in the courses for this certificate, thus necessitating additional time to complete the requirements for the one-year certificate. Historically, individuals who take all three courses have done so over a two-year period.

Emergency Medical Technology One-Year Certificate
Schoolcraft program code # 1YC.00024

The Emergency Medical Technology One-Year Certificate will be awarded to students who successfully complete EMT 108, 201, 202 and 203 with 80 percent or higher. This will qualify those students as eligible for the State licensure examination as a paramedic.

**FIRST YEAR**

**Spring Session**
EMT 108 Emergency Medical Technology—Basic .......................... 10.5

**SECOND YEAR**

**Fall Semester**
EMT 201 Paramedic Technology 1 ........................................ 12.5

**Winter Semester**

**Spring Session**
EMT 203 Internship Experience ............................................. 9.5

PROGRAM TOTAL 45 CREDITS

Elective (Optional)
EMT 114 Emergency Medical Technology—Specialist ................... 7

The above program meets all College Requirements.
ENVIRONMENTAL TECHNOLOGY

Environmental Technology Associate Degree
Schoolcraft program code # AAS.00176

Environmental technicians provide technical assistance to engineers and scientists, by performing tasks such as sample collection, monitoring, instrument calibration, and data management. They are typically employed by environmental engineering consulting firms, industries, and government agencies. Environmental technicians need a strong science background, a basic knowledge of computers, and both written and oral communication skills.

The Environmental Technology Program provides students with the necessary technical and social background to be successful environmental technicians. The curriculum includes courses in basic sciences, environmental science, communication, and computer literacy. The spring/summer cooperative work program also provides students with practical, on-the-job experience. Environmental Technology Program graduates should be able to conduct and assist with procedures that obtain information for the analysis, organization, and problem-solving of environmental issues.

Upon completion of the Environmental Technology Program, students should be able to:

- Identify and use appropriate terminology regarding environmental policies, rules, regulations, and laws.
- Understand state and federal laws, rules and regulations, and be familiar with state and federal government agencies.
- Use appropriate federal and state protocols to collect water, waste, air, and soil samples.
- Review hazardous waste state and federal forms to provide information for compliance with environmental standards.
- Be familiar with OSHA regulations, and perform duties related to the management, storage, disposal and emergency response of spills of hazardous materials, in accordance with OSHA health and safety requirements.
- Compile data and perform data manipulation using a word processor, spreadsheet, and graphs.
- Collect and compile data necessary for a environmental site assessment.
- Use basic concepts of geology and hydrology when compiling and summarizing the data used to analyze the transport of hazardous substances.
- Conduct field investigations using current instrumentation.
- Use advanced computer-aided mapping techniques.
- Understand basic risk assessment.
- Understand and use quality control procedures.
- Use sources of electronic information systems, such as the Internet.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students who satisfactorily complete the Environmental Technology Program and all College Requirements qualify for an Associate Degree in Applied Science.

** CIS 115 or a higher CIS course that satisfies College Requirements.
*** Students transferring to University of Michigan-Dearborn must complete a three-hour humanities course.

The above program meets all College Requirements.
FIRE TECHNOLOGY

Fire Technology Associate Degree
Schoolcraft Program code # AAS.00177

Recognizing the need for more highly skilled fire fighters, many municipalities now require additional education for their employees. The curriculum developed for the Associate in Applied Science Degree Program combines lecture with hands-on activities to prepare the student to respond to a variety of emergencies. Specialists in the field provide valuable input on both content and methodology.

The Fire Technology Associate Degree Program is designed for students who wish to attend part time. The student who successfully completes the requirements for this program and meets all College Requirements qualifies for an Associate in Applied Science Degree with emphasis in Fire Technology.

This program requires a special admissions process. Contact the Public Safety Education Office at 734-462-4747 to complete an application.

Fire Fighter Technology One-Year Certificate
Schoolcraft program code # 1YC.00149

The Fire Fighter Technology program provides career training for fire protection technicians. The program is offered in cooperation with the Michigan Fire Fighters Training Council and focuses on meeting the needs of fire service personnel. It is designed for students who are currently employed by Michigan Fire Marshal/recognized fire departments, currently seeking employment, and/or volunteer in recognized fire districts. All courses meet the state-mandated requirements for preparing students to take the state exam for certification as entry-level fire fighters.

All of the fire certificate courses require students to attain an average of 70 percent or better on test scores and to score at least 70 percent on their final exam to receive a passing grade of 2.0. The EMT course requires an average of 80 percent on tests and an 80 percent on the final for a grade of 3.0. Those scoring below 80 percent will receive a 0.0 for the course. Practical skills in both areas must be passed at stated proficiency levels to successfully complete each course and be recommended for the state certification exams. Students who successfully complete the requirements for this program will qualify for a Fire Fighter Technology Certificate.

This program requires a special admissions process. Contact the Public Safety Education Office at 734-462-4747 to complete an application.

HEALTH INFORMATION TECHNOLOGY
Health Information Technology Associate Degree
Schoolcraft program code # AAS.00153

The Health Information Technology program will prepare the student to be a Health Information Technician. The technician is responsible for performing tasks related to the use, analysis, validation, presentation, abstracting, coding, storage, security, retrieval, quality measurement and control of healthcare data in a medical record and/or computer-based patient record.

The program coordinates classroom, laboratory and off-campus experience in a variety of healthcare facilities, such as acute care hospital, ambulatory care center, mental health facility and other health related facilities. The off-campus activities include supervised, professional practice assignments. The student gains experience in applying knowledge to technical procedures in health information systems.

The Health Information Technician is detail oriented and recognizes the business aspects of healthcare. The technician will have a strong interest in activities, such as assisting medical staff in evaluating the quality of healthcare, safeguarding the confidentiality of medical records and utilizing healthcare data.

Health Information Technology courses should be taken in accordance with prerequisites; a minimum grade of 2.0 is required. Graduates are eligible to take the Registered Health Information Technician (RHIT) examination. The program is designed for the full- or part-time student.

Students who satisfactorily complete the Program Courses, Electives and all College Requirements qualify for the Associate in Applied Science Degree. The Health Information Technology Associate Degree program is accredited by the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM), in association with the American Health Information Management Association (AHIMA).

This program requires a special admissions process. Contact the Admission Office at 734-462-4426 or admissions@schoolcraft.edu to complete an application.

Health—Coding Specialist Certificate

Schoolcraft program code # 1YC.00240

The Coding Specialist Program will prepare a student to review and analyze health records to identify relevant diagnoses and procedures for patient services in the inpatient, ambulatory and/or ancillary setting. The student will practice translating diagnostic and procedural phrases utilized by healthcare providers into coded form.

In the program, students apply the following skills:

- Coding of inpatient diagnoses and procedures using International Classification of Diseases (ICD-9-CM).
- Reading and interpreting health record documentation to identify all diagnoses and procedures that affect the current inpatient stay/outpatient encounter visit.
- Applying approved coding guidelines to assign and sequence the correct diagnosis; applying procedure codes for hospital inpatient and outpatient services.

Minimum grade of 2.0 is required for progression to the next Health Information Technology course. A minimum grade of 2.0 is required for the basic science course.

The coder can be employed in hospital departments such as health information services (medical records), quality management, professional fee services, radiology, emergency room, outpatient/ambulatory surgery, ancillary services, and specialty physician clinics. Coders also work as independent contractors, consultants and trainers. The coding professional is employed by insurance companies, government agencies, health maintenance organizations and other facilities involved with various aspects of the reimbursement process of health claims.

The curriculum in the Coding Specialist Program will allow the student to select the Health Information Technology Associate Degree Program as a career path. The student who satisfactorily completes the Coding Specialist curriculum qualifies for a Certificate of Program Completion.

This program requires a special admissions process. Contact the Admission Office at 734-462-4426 or admissions@schoolcraft.edu to complete an application.

HOMELAND SECURITY

Homeland Security Associate Degree
Schoolcraft program code # AAS.000252

After 9/11 the security industry has expanded rapidly. The United States Department of Homeland Security employs over 180,000 individuals. Coupled with that, the private security industry employs nearly 1.5 million security personnel. The Homeland Security Degree Program is focused on providing students with a foundation of private and homeland security knowledge to build upon as a transfer to a specialty degree. The objectives of the Homeland Security Associate Degree Program are to upgrade personnel employed in the security industry and to prepare students for full time employment in this field.

Students who successfully complete the Homeland Security Associate Degree Program and all College Requirements qualify for an Associate in Applied Science Degree.

Contact the Public Safety Education Office at 734-462-4747 for more information.

LASER TECHNOLOGY

Laser Technology One-Year Certificate
Schoolcraft program code # 1YC.00059

Laser Technology is one of several careers in technology that are characterized by involvement with electronics, mechanics and digital logic. The basic elements of scientific theory and principles underlying the elements of laser systems are covered in this certificate program. Technicians will learn about the laser parameters associated in metal fusion; material cutting, shaping, piercing; biomedical surgery; and heat treating of various materials.

Laser technicians are specialists who install, construct, operate, test, repair, and maintain systems that incorporate electronics power supplies and optics on laser application for business, industry, and medicine.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students who successfully complete the Program Courses qualify for a certificate of program completion.

PROGRAM TOTAL 34 CREDITS
MANUFACTURING

Manufacturing for Quality Production
Associate Degree

Schoolcraft program code # AAS.00135

The Manufacturing for Quality Production Program is designed to provide learners with growth and development in a variety of manufacturing processes, to expose them to materials and methods of production and make them aware of quality systems and tools. While this program offers an entry level certification for individuals pursuing a career in manufacturing, it has been designed to enable individuals the opportunity to continually expand and upgrade their applied skills as well as to maintain a thorough mastery of evolving manufacturing technologies.

Protective shop clothing and eye protection supplies required for the program will be purchased by the student.

Because all courses are not offered each semester, students should work with the Counseling Department to set up a schedule that will work for them. The student who successfully completes the Program Courses, Electives and all College Requirements qualifies for an Associate in Applied Science Degree.

College Requirements

Students are encouraged to take their College Requirements early in their program. However, these courses are not required before beginning Program Courses.

PROGRAM TOTAL 61–65 CREDITS

* Other courses meeting the College Requirements may be substituted.

The above program meets all College Requirements.
MASSAGE THERAPY

Massage Therapy Associate Degree
Schoolcraft program code # AAS.00266

Massage therapy is the systematic manipulation of the soft tissues of the body for the purpose of increased circulation of blood and lymph, pain reduction, relaxation and restoration of health and well being of the client. The Massage Therapy Program is designed to prepare an individual in the field of soft tissue manipulation and is taught from a clinical perspective. Massage therapists may be employed in a private practice, a spa, or a variety of health care settings including hospitals and managed care centers, rehabilitation and sports medicine clinics and group and private practices.

The Massage Therapy Associate Degree is offered to meet the expanding needs of both the allied and complementary health care systems. Those students who are interested in additional education and wish to enter either field with a broad background and the ability to work with a diverse group of clients and practitioners will do well to add the general education courses. This associate degree program integrates traditional and non-traditional knowledge bases regarding massage therapy and body work. Course work includes six semesters of anatomy and physiology, a variety of massage and bodywork techniques and practices, and general education courses. Massage therapists who attain this degree may also plan to pursue a baccalaureate degree in a health or medical program, or an individualized area of study.

The massage therapy program is dedicated to advancing the science and art of massage therapy.

This program requires a special admissions process. Contact the Admissions Office at 734-462-4426 or admissions@schoolcraft.edu to complete an application.

**PROGRAM TOTAL 34.5 CREDITS**

* Students wishing to transfer to a baccalaureate program may select ENG 101, ENG 102 and COMA 103.
** Students who may transfer to a baccalaureate program should elect the BIOL 237–238 sequence. BIOL 101 is a prerequisite to BIOL 236 and the BIOL 237–238 sequence. Please review and follow all course requirements.

The above program meets all College Requirements.

Massage Therapy One-Year Certificate
Schoolcraft program code # YC. 00255

Massage therapy is the systematic manipulation of the soft tissues of the body for the purpose of increased circulation of blood and lymph, pain reduction, relaxation and restoration of health and well being of the client. The Massage Therapy Program is designed to prepare an individual in the field of soft tissue manipulation and is taught from a clinical perspective. It offers the opportunity to earn a Certificate in Massage Therapy. The certificate is granted after the successful completion of 34.5 credit hours of designated course work. All students completing the certificate will experience a total of 725 contact hours.

Massage therapists may be employed in private practice, spa or a variety of health care settings including hospitals and managed care centers, rehabilitation and sports medicine clinics and group and private practices. Successful completion of the certificate renders the individual to sit for national certification testing through the National Certification Board for Therapeutic Massage and Bodywork.

The massage therapy program is dedicated to advancing the science and art of massage therapy.

This program requires a special admissions process. Contact the Admissions Office at 734-462-4426 or admissions@schoolcraft.edu to complete an application.

**PROGRAM TOTAL 34.5 CREDITS**
MEDICAL ASSISTING

**Medical Assisting One-Year Certificate**
Schoolcraft program code # 1YC.00026

The Medical Assisting Program is designed to prepare the student for entry-level employment as a Medical Assistant. The curriculum is designed to prepare the student to acquire knowledge, skills and behavior necessary for a competent entry-level medical assistant in a healthcare setting. The program is designed to coordinate classroom and laboratory experience with practical experience in a healthcare facility such as the physician’s office. Medical assistants are multi-skilled allied health professionals who perform a wide range of roles in physicians’ offices, clinics and other healthcare settings. They are proficient in a multitude of clinical and administrative tasks and are widely viewed by doctors as vital members of the healthcare delivery team. Students are required to achieve a grade of 2.0 or better for all HIT and MA courses. Academic and medical assisting courses must be completed by the end of the winter semester to be eligible for placement in the Office Practicum offered in the spring. The Office Practicum is an externship that is structured to provide experiences in applying knowledge, in performing administrative and clinical procedures, and in developing professional attitudes for interacting with other professionals and consumers in a healthcare facility.

Students who satisfactorily complete the required curriculum qualify for a certificate of program completion.

The Medical Assisting Program is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of the Curriculum Review Board of the American Association of Medical Assistants Endowment (AAMAE). Graduates are eligible to take the Certified Medical Assistant (CMA) examination conducted by the certifying board of the American Association of Medical Assistants.

This program requires a special admissions process. Contact the Admissions Office at 734-462-4426 or admissions@schoolcraft.edu to complete an application. Students may apply while enrolled in Fall Semester courses.

**Medical Biller/Receptionist Skills Certificate**
Schoolcraft program code # CRT.00350

The Medical Biller/Receptionist Certificate prepares the student to answer telephones, route calls, greet visitors, respond to inquiries from the public, perform medical insurance billing and provide information about the healthcare facility. Job opportunities are in medical offices, hospitals, clinics, health-related facilities, urgent care centers, and surgical centers.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. A Certificate of Completion is granted after completion of required courses with a grade of 2.0 or better.

**Phlebotomy Skills Certificate**
(Schoolcraft program code # CRT.00325)

The Phlebotomy Certificate prepares the student for employment as a phlebotomist with job opportunities in a medical office, clinic or health-care facility. The phlebotomist is trained to draw blood through a method called venipuncture. A venipuncture is performed when a large specimen of blood is needed for testing.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. A Certificate of Completion is granted after completion of required courses with a grade of 2.0 or better.

**Physician Office Medical Transcription Skills Certificate**
Schoolcraft program code # CRT.00330

The Physician Office Medical Transcription Certificate prepares the student for employment as a transcriptionist with job opportunities in a medical office, clinic, or physician office. The physician office transcriptionist is responsible for typing medical letters, chart notes, consultations, history, physicals, discharge notes, and initial office evaluations.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. A Certificate of Completion is granted after completion of required courses with a grade of 2.0 or better.

MEDICAL TRANSCRIPTION

Medical Transcription One-Year Certificate
Schoolcraft program code # 1YC.00029

Medical Transcription Program students must be officially admitted to the program. The Medical Transcription Program prepares the student for entry-level employment as a medical transcriptionist in a variety of healthcare settings or as a self-employed transcriptionist. The medical transcriptionist is a specialist who interprets and transcribes dictation by physicians and other healthcare professionals in order to document patient care.

In the program, students apply the following:

• Typing and word processing skills.
• Spelling, editing, and proofreading.
• Medical terminology used in medical reports, surgical procedures, drugs, instruments and laboratory tests.
• Terms related to human anatomy, physiology and patho physiology.
• English grammar, structure and style.
• Medical transcription forms, styles and practices.
• Medical and surgical reference materials.

The courses designated as Medical Transcription are designed to give the student experience transcribing dictation from medical specialties such as Cardiology, Dermatology, Endocrinology, Gastroenterology, Neurology, Obstetrics and Gynecology, Ophthalmology, Orthopedics, Otorhinolaryngology, Pulmonary Medicine, Urology, Pathology, Radiology and other healthcare dictation. Students may elect to complete the program in three semesters (fall, winter, and spring) or on a part-time basis.

Students who satisfactorily complete the required curriculum qualify for a Certificate of Program completion.

Upon completion of two-three years of experience in performing medical transcription in a variety of medical and surgical specialties, a qualified medical transcriptionist may take the certification examination offered by the American Association of Medical Transcription. Successful completion of the examination entitles an individual to be recognized as a Certified Medical Transcriptionist (CMT).

This program requires a special admissions process. Contact the Admissions Office at 734-462-4426 or admissions@schoolcraft.edu to complete an application.

METALLURGY AND MATERIALS SCIENCE

Metallurgy and Materials Science Associate Degree
Schoolcraft program code # AAS.00184

The Metallurgy and Materials Science Program has been specifically designed to accommodate most areas of industry associated with research, development, manufacturing and materials control. Carefully selecting electives will prepare students for specialization. Students interested in the laboratory control of processing may wish to select electives in welding, fabrication, manufacturing processes or quality control. Likewise, students interested in development or industrial research may wish to complete electives in materials or physical science, design or computer technology.

Metallurgy and Materials Science graduates have knowledge of the philosophy of metallic and nonmetallic materials used in industry and can apply principles basic to scientific laboratory investigation, research, product development and process control.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students who satisfactorily complete the Program Courses, Electives and all College Requirements qualify for the Associate in Applied Science Degree.

Students seeking transfer to a baccalaureate program should request transfer guides provided by the department.

Metallurgy—Applied Physical One-Year Certificate
Schoolcraft program code # YC.00124

The Applied Physical Metallurgy Certificate Program is designed to provide people currently employed in the field with an opportunity to reinforce skills and acquire the academic foundations necessary for advancement in the laboratory and related process situations. The program is oriented to property, process and structure areas of study and is designed and scheduled with consideration for part-time students.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students who satisfactorily complete the Program Courses qualify for a Certificate of Program completion.

Materials Science Post-Associate Certificate
Schoolcraft program code # PAC.00179

This post-associate certificate in Materials Science is designed for working professionals who have industrial experience and/or training in the materials science field and who wish to study current technologies applied to laboratory practice and other materials-related endeavors.

Completion of this program will enhance students’ abilities to meet the needs of current and changing industrial technologies in metallurgical and materials science applications, processing, and control environments. It will also provide support background for managerial and technical personnel who have direct responsibilities in industrial materials operations and planning. These courses are also intended to meet requirements for current and future professional certification.

Prior to admission students must have earned a minimum of an accredited Associate Degree in Applied Science.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. The post-associate certificate is awarded upon successful completion of 15 credit hours (exact number may vary slightly due to credit value or content of courses).

Program Courses
MET 211 Physical Metallurgy Structures............................... 3
MET 215 Mechanical Properties of Metals............................ 3
ELECTIVE* MET......................................................... 3–4
MET 280 Special Problems in Materials Science.................... 4
ELECTIVE* MET......................................................... 3–4

Completion of a minimum of 15 credit hours is required.

Courses can be taken through independent study.

* A student must choose an applicable MET 200-level elective.
## MUSIC

### Music Foundations One-Year Certificate

Schoolcraft program code # 1YC.00162

Successful students completing this certificate will be able to notate all intervals, simple rhythmic patterns and basic chord progressions. Students will have a good general knowledge of musical styles from the 1600s to the present day, will have gained experience in performing publicly in ensembles; and will also have developed elementary training as soloists in voice or as instrumentalists.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students who satisfactorily complete the Program Courses qualify for a Certificate of Program Completion.

### Music Intermediate One-Year Certificate

Schoolcraft program code # 1YC.00163

Students must successfully complete the Music Foundations Certificate to begin the Music Intermediate Certificate. Successful students completing this certificate will be able to notate moderately difficult rhythmic patterns and moderately difficult chord progressions. Students will have developed a more specific knowledge of music from the 1600s to the present day. Students will have gained experience in performing publicly in ensembles, and will have developed technical and musical skills as well as experience in performing as soloists in voice or as instrumentalists in public recitals and concerts.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students who satisfactorily complete the Program Courses qualify for a Certificate of Program completion.

Students should consult with the Music Department for additional details.

Music—Recording Technology Associate Degree
Schoolcraft program code # AAS.00244

The Recording Technology Associate Degree Program is designed to prepare the student for transfer to institutions offering a bachelor’s degree in Recording Engineering or for apprenticeships at recording studios and various media venues. The program will teach the student the fundamentals and techniques relative to live concert and studio recording.

Understanding the musical perspective is an important focus of the program. The required music courses will assist the recording engineer in better understanding what the performing musician is experiencing and will in turn improve the recording outcome.

Technological changes directly related to the recording industry are frequently introduced. The program is committed to staying current and will help the student understand new directions in the technology.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students who satisfactorily complete the Program Courses and all College Requirements qualify for the Associate in Applied Science Degree.

College Requirements
Students are encouraged to take their College Requirements early in their program. However, these courses are not required before beginning Program Courses.

Music—Piano Teacher Certificate
Schoolcraft program code # 1YC.00115

The Piano Teacher Certificate Program is designed for pianists with sufficient background to pursue professional careers as private piano teachers. The curriculum is structured to provide instruction in piano teaching materials and techniques as well as music theory and history. In addition, students are given numerous opportunities to observe and teach children enrolled in group piano classes on campus. (Two supervised teaching sessions of children are required.)

In order to enter the Piano Teacher Certificate Program, each applicant must audition to demonstrate an appropriate level of musicianship.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students who satisfactorily complete the Program Courses, and upon recommendation of the music faculty, qualify for a Certificate of Program completion. Applied Music has an added fee.

Recommended as a two-year, part-time program.

NURSING

Nursing—Registered Associate Degree (ADN)
Schoolcraft program code # AAS.00000

Nursing courses are open only to students who are officially admitted to the ADN Program.

The Associate Degree Nursing Program prepares students who have demonstrated the potential to fulfill the requirements for the Associate in Applied Science Degree for entry-level nursing practice. Schoolcraft College Nursing Programs have uniquely structured pre-admission requirements that are reviewed each year. It is essential that you contact the Admissions Office for a current copy of the specific information sheet for the steps and prerequisites to enter the program of choice.

Students are admitted once a year, at the opening of the fall semester. After a student is accepted into the program, courses are scheduled into four 15-week semesters and a 7-week spring session. Nursing courses must be taken in sequence and a minimum grade of 2.0 is required for progression to the next nursing course. A minimum grade of 2.5 is required for the basic science courses. Academic courses other than nursing must be finished by the completion of the nursing courses. Students must furnish and maintain uniforms, lab coats, or other appropriate apparel required by the institution to which they are assigned for clinical instruction. Clinical assignments will be completed in acute care and community settings. Computer lab use is required in this program. See “Academic Computing Labs” in this catalog for policy requirements.

Students who satisfactorily complete the Program Courses, Electives and all College Requirements qualify for the Associate in Applied Science Degree and are eligible to apply to write the National Council Licensure Examination for Registered Nursing (NCLEX-RN). This Nursing Program is offered at the Livonia Campus.

This program requires a special admissions process. Contact the Admission Office at 734-462-4426 or admissions@schoolcraft.edu to complete an application.

---

**Nursing — Licensed Practical One-Year Certificate**

Schoolcraft program code # 1YC.00017

Practical nursing courses are open only to students who are officially admitted to the Practical Nursing Program.

Courses are designed to provide theory and practice in practical nursing to prepare graduates for entry-level positions in hospitals, nursing homes, clinics, doctors’ offices and patients’ homes. Courses must be taken in sequence. A minimum grade of 2.0 is required for progression to the next course.

Schoolcraft College Nursing Programs have pre-admission requirements that are reviewed each year. It is essential to contact the Admissions Office for a current copy of prerequisites to enter the program of choice. Students are admitted once a year, at the opening of the fall semester. Courses are scheduled into two 15-week semesters, a 7-week spring session and a 4-week summer session. The Practical Nursing Program is designed to meet requirements for the certificate program.

Students must furnish and maintain uniforms, lab coats or other appropriate apparel required by the institution to which they are assigned for clinical instruction.

Students who satisfactorily complete the Practical Nursing curriculum qualify for a Certificate of Program completion and are eligible to apply to write the National Council Licensure Examination for Practical Nursing. This program is offered at the Livonia Campus.

Graduates of the Practical Nursing program may wish to consider completing a General Studies Associate Degree or the LPN to ADN option at Schoolcraft College.

This program requires a special admissions process. Contact the Admission Office at 734-462-4426 or admissions@schoolcraft.edu to complete an application.

Nursing — Nursing Assistant Training Program

Skills Certificate
Schoolcraft program code # CRT.00321

The Nursing Assistant course is open only to students who are officially admitted to the Nursing Assistant Program.

This curriculum is designed to provide the student for an entry-level nursing assistant position with potential for employment opportunities primarily in extended care facilities. Classroom lectures, hands-on practice of skills as well as supervised experience in an extended care facility are provided. Students must furnish and maintain uniforms, lab coats or other appropriate apparel as required by the institution to which they are assigned for clinical instruction. This program meets federal and state requirements and is offered at the Livonia campus. Theory and practice in nursing support services to prepare students for entry-level positions primarily in extended care facilities with some application to hospitals, clinics, doctors’ offices and patients’ homes.

Students who satisfactorily complete the Nursing Assistant Training Program curriculum qualify for a Certificate of Completion and are eligible to apply to write the State of Michigan written and clinical skills certification evaluations. Graduates of the Nursing Assistant Training Program may wish to consider completing a General Studies Associate Degree or the Practical Nursing (PN) or Associate Degree Nursing (ADN) program at Schoolcraft College.

The Nursing Assistant Training Program has pre-admission requirements that are reviewed each year. It is essential to contact the Admissions Office for a current copy of the prerequisites to enter the program. Students are admitted several times each year.

This program requires a special admissions process. Contact the Admissions Office at 734-462-4426 or admissions@schoolcraft.edu to complete an application.

OFFICE INFORMATION SYSTEMS

Office Administration Associate Degree
Schoolcraft program code # AAS.00133

The office professional, as a member of the office information systems management team, plays an integral role in the successful operation of the organization. In today’s information age, the OIS professional functions as the pivotal person in the office communications network.

The Office Administration curriculum is designed to offer courses that enhance students’ technical skills, communication skills, and leadership/management skills with an emphasis on the professional work ethic.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students who satisfactorily complete the Program Courses and all College Requirements qualify for the Associate in Applied Science Degree.

College Requirements

Students are encouraged to take their College Requirements early in their program. However, these courses are not required before beginning Program Courses.

**Office Specialist One-Year Certificate**

Schoolcraft program code # 1YC.00166

This certificate program focuses on office application software for today’s administrative assistant. Computers and software applications are the center of the technological revolution taking place in today’s business offices.

The student enrolled in the Office Specialist’s Program will be prepared to take on broader and more challenging responsibilities in the business world. Successful completion of these courses helps to prepare students for the Microsoft Office Specialist certification exam.

Individuals who successfully complete this program will be prepared to obtain employment as administrative or executive secretaries, software specialists, word processing supervisors and managers.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students who satisfactorily complete the Program Courses qualify for a Certificate of Program Completion.

---

**Office Specialist Skills Certificate**

Schoolcraft program code # CRT.00370

This program is designed to help prepare students for today’s technologically driven work environment. The program combines instruction in the most commonly used computer software packages as well as the critical areas of business communication and time and project management. Individuals who are already employed may find that the certificate increases their opportunity for promotion.

This certificate can be used as a building block toward the achievement of the Office Specialist One-Year Certificate or the Associate Degree in Applied Science in Office Administration. Successful completion of these courses will also provide the foundation for the Microsoft Office Specialist certification examination.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. A Certificate of Completion is granted after completion of required courses with a grade of 2.0 or better.

**Program Total 61 Credits**

The above program meets all College Requirements.
**WELDING TECHNOLOGY**

*Welding-Fabrication One-Year Certificate*

Schoolcraft program code # 1YC.00127

The Welding-Fabrication Program prepares students for employment under classifications such as welders and/or industrial fabrications. The program includes joining materials, using weldments, special techniques, equipment and other recognized fastening methods. Students acquire skills in the broad categories of welding and fabrication with added emphasis upon support technical subjects.

Students are required to purchase protective clothing, protective (safety) shoes and eye protection equipment.

All courses are not offered each semester. Students should work with the Counseling Department to set up a schedule that will work for them. Students who satisfactorily complete the Program Courses qualify for a Certificate of Program completion.

Exams for above certificate will also be provided on an individual basis.
Courses are numbered as follows:

1. Courses numbered from 001 to 099 are considered pre-college, may not be transferable, and do not apply toward an Associate Degree.

2. Courses numbered from 100 to 199 are primarily freshman-level courses.

3. Courses numbered 200 to 299 are primarily sophomore-level courses.

4. Final exams are required in all credit courses.

5. Many courses have a prerequisite skill or lower level course necessary to complete before attempting more complex material. For maximum success, complete prerequisites before taking the actual course.

6. Some courses also list a corequisite course that is recommended to be taken in the same semester.
### Accounting

**ACCT 103** Introduction to Accounting (4-0) 4 Cr. Hrs.  
Prerequisite: None.  
This is a beginning accounting course with emphasis on accounting cycle for a sole proprietorship. Journals, ledgers and basic financial statements. Accounting for cash, payroll, taxes and plant assets are also covered. This course is intended for students who want some accounting instruction prior to the Principles course and those not majoring in business or economics.

**ACCT 201** Principles of Accounting 1 (4-0) 4 Cr. Hrs.  
Prerequisite: None.  
This course covers the principles of accounting with emphasis on accounting and the accounting cycle for a sole proprietorship. Journals, ledgers, income statement, statement of owner’s equity, and balance sheet. Accounting for cash control, accounts receivable, bad debts, promissory notes, inventories, plant and intangible assets and payroll will also be covered.

**ACCT 202** Principles of Accounting 2 (4-0) 4 Cr. Hrs.  
Prerequisite: ACCT 201.  
This course is a continuation of ACCT 201 with emphasis on corporations and an introduction to partnership accounting. Accounting for liabilities, investments, statement analysis, cash flow statement, management planning and an introduction to cost accounting will also be covered.

**ACCT 221** Intermediate Accounting 1 (4-0) 4 Cr. Hrs.  
Prerequisite: ACCT 202 required, ACCT 260 recommended.  
Accounting principles will be expanded in this course with an emphasis on assets. Accounting for valuing current assets, current liabilities and plant assets will also be covered. Winter only.

**ACCT 222** Intermediate Accounting 2 (4-0) 4 Cr. Hrs.  
Prerequisite: ACCT 202 required, ACCT 260 recommended.  
This course is a continuation of ACCT 221 with emphasis on equity accounting. Accounting for current liabilities, long-term liabilities, leases, pensions, income taxes, statement of cash flows, financial statement analysis, accounting changes and errors and other appropriate current topics will also be covered. Winter only.

**ACCT 226** Cost Accounting (4-0) 4 Cr. Hrs.  
Prerequisite: ACCT 202, CIS 180 recommended.  
Concepts of cost accounting as a management tool for control and planning will be introduced. Actual and standard cost methods as applied to job and process cost systems; accounting for materials, labor, and manufacturing overhead; and direct costing method; and cost accounting projects will be covered. Winter only.

**ACCT 238** Federal Tax Accounting (4-0) 4 Cr. Hrs.  
Prerequisite: ACCT 201 recommended by accounting faculty.  
Federal income tax laws with emphasis on the regulations that relate to individuals and small business including state and local tax implications will be addressed. Preparation of tax forms and introduction to tax research are also addressed in this course. Winter only.

### Allied Health Education

**AHE 101** Introduction to Healthcare (1-0) 1 Cr. Hr.  
Prerequisite: None.  
This course provides a comprehensive review of the healthcare industry. Trends and changes related to healthcare facilities, such as acute care hospitals, specialty hospitals, nursing homes, health maintenance organizations, hospice, and home healthcare will be covered. The course will also deal with the impact and use of computers in the delivery and documentation of healthcare and the role of the medical professional in response to the healthcare delivery system.
ANTHROPOLOGY

Associate Dean: Cheryl D. Hawkins, MS
Instructors: Associate Professor Josselyn Moore, MA
           Adjunct Faculty

ANTH 112 Introduction to Anthropology (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course is an introduction to the origin and diversity of humans. Topics covered in this course include evolution of humans and their cultures, contemporary cultural diversity, linguistics and applied anthropology. Course focuses on biological and cultural adaptation.

ANTH 214 Native American Traditions (3-0) 3 Cr. Hrs.
Prerequisite: ANTH 112 or ANTH 201 recommended but not required.
This course provides a survey of Native American cultures from both Native and non-Native perspectives. Social, economic, religious and artistic traditions will be examined. Course content includes a review of prehistoric origins as well as an evaluation of the effects of centuries of contact with people from Europe, Africa and Asia.

ART AND DESIGN

Associate Dean: Cheryl D. Hawkins, MS
Instructors: Associate Professor Sarah Olson, MA
            Associate Professor James Nissen, DMA
            Assistant Professor Holly Stevens, MA
            Adjunct Faculty

ART 105 Basic Drawing (3-0) 3 Cr. Hrs.
Prerequisite: None.
This studio course provides training in recording observed spatial and value relationships. Basic approaches to drawing and media are introduced. In addition to regular class time, students are required to spend three hours per week in a time-flexible studio lab provided by the college.

ART 106 Basic Design 1 (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course provides an introduction to the elements and principles of design. Students are assigned projects in various media which reinforce the effective application of design principles. In addition to regular class time, students are required to spend three hours per week in a time-flexible studio lab provided by the college.

ART 113 Art Education (3-0) 3 Cr. Hrs.
Prerequisite: PSYCH 201 recommended.
This course is a study of child growth and development through creativity. Students will study techniques and materials appropriate for use at various elementary grade levels. Emphasis will be placed on methods to stimulate children's creative interests. Students are required to make arrangements for observation of elementary classes during the latter part of the semester.

ART 115 Art History 1 (4-0) 4 Cr. Hrs.
Prerequisite: None.
This course examines the development of western art from prehistoric times through the Middle Ages with emphasis on various societies, artists, and art forms including painting, sculpture and architecture.

ART 116 Art History 2 (4-0) 4 Cr. Hrs.
Prerequisite: ART 115 recommended.
This art history course examines the development of western art from the early Renaissance through contemporary art with emphasis on various societies, artists, and art forms including painting, sculpture and architecture.

ART 118 Ceramics 1 (3-0) 3 Cr. Hrs.
Prerequisite: None.
Fundamentals of ceramics; study of materials and basic techniques in shaping, decorating and firing will be covered in this course. This studio course requires a six-hour per week commitment, which includes three hours in a lecture/lab and three hours in the appropriate open lab.

ART 119 Ceramics 2 (3-0) 3 Cr. Hrs.
Prerequisite: ART 118.
This course is a continuation of ART 118. Emphasis on good ceramic form; work with various types of ceramic materials; advanced techniques in shaping, decorating, and firing will be covered. This studio course requires a six-hour per week commitment, which includes three hours in a lecture/lab and three hours in the appropriate open lab.
ART 125  Life Drawing 1 (3-0) 3 Cr. Hrs.
Prerequisite: ART 105 or consent of instructor.
The major emphasis of this course is direct observation and expression of the human form using traditional media. Design and value relationships are studied, as are the superficial muscular and skeletal systems which affect surface form. Sessions on portraiture using an anatomical approach are included. Basic drawing concepts are reinforced through exploration of classic technique. In addition to regular class time, students are required to spend three hours per week in a time-flexible studio lab provided by the college.

ART 126  Basic Design 2 (3-0) 3 Cr. Hrs.
Prerequisite: ART 106.
Corequisite: ART 125 recommended.
This course is a continuation of ART 106 with emphasis on further development of concepts and refinement of skills. In addition to strengthening their own visual communication skills, students also learn to evaluate work of other artists and designers in terms of design cohesiveness. Students are required to spend three hours per week (in addition to regular class time) in a time-flexible studio lab provided by the college.

ART 201  Art Appreciation (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course provides an introduction to the vast subject of visual art, including the effect of culture and history on the lives, aesthetics and creations of artists, and an exploration of technique and media employed by artists throughout time.

ART 205  Life Drawing 2 (3-0) 3 Cr. Hrs.
Prerequisite: ART 105 and ART 125 or consent of the instructor.
This course is a continuation of ART 125 with emphasis on further development of concepts and refinement of skills. Students will refine their aesthetic, expressive approach to the human figure while focusing on limited media. In addition to regular class time, students are required to spend three hours per week in a time-flexible studio lab provided by the college.

ART 211  Watercolor Painting 1 (3-0) 3 Cr. Hrs.
Prerequisite: ART 105 recommended or consent of instructor.
Introduction to color composition as it relates to still life and landscape painting will be covered in this course. Students will practice the use of dry-brush and wet-wash techniques. Project completion and exhibition of works will take place at the semester end. This studio course requires a six-hour per week commitment, which includes three hours in a lecture/lab and three hours in the appropriate lab.

ART 212  Watercolor Painting 2 (3-0) 3 Cr. Hrs.
Prerequisite: ART 211.
This course is a continuation of ART 211 providing for further investigation of water-based media, techniques, and processes. Studio experiences with emphasis on individual experimentation and visual imagery will be part of this course. This studio course requires a six-hour per week commitment, which includes three hours in a lecture/lab and three hours in the appropriate open lab.

ART 216  Women in Art (4-0) 4 Cr. Hrs.
Prerequisite: ART 115, ART 116 and ART 201 or consent of department.
Women’s place in the history of western art with special consideration given to women as patrons, artists, and subjects and their impact in these realms will be explored in this course.

ART 218  Ceramics 3 (3-0) 3 Cr. Hrs.
Prerequisite: ART 119.
An intermediate investigation of the art-making process using techniques specific to ceramics will be covered in this course. This studio course requires a six-hour per week commitment, which includes three hours in a lecture/lab and three hours in the appropriate open lab.

ART 219  Ceramics 4 (3-0) 3 Cr. Hrs.
Prerequisite: ART 218.
An intermediate investigation of the art-making process using techniques specific to ceramics will be covered in this course. This studio course requires a six-hour per week commitment, which includes three hours in a lecture/lab and three hours in the appropriate open lab.

ART 236  Painting 1 (3-0) 3 Cr. Hrs.
Prerequisite: ART 105 recommended.
This course introduces the student to fundamental painting techniques and processes through abstract, conceptual and representational imagery. Sessions on portraiture are included. In addition to regular class time, students are required to spend three hours per week in a time-flexible studio lab provided by the college.

ART 239  Painting 2 (3-0) 3 Cr. Hrs.
Prerequisite: ART 236.
This course is a continuation of Painting 1, providing for further investigation of the painting media and processes. Students will work toward developing a focused approach both thematically and technically. Individual experimentation will be emphasized. In addition to regular class time, students are required to spend three hours per week in a time-flexible studio lab provided by the college.

ART 243  Sculpture 1 (3-0) 3 Cr. Hrs.
Prerequisite: Plus six credit hours studio work or consent of instructor.
This course focuses on the development of skills through exploratory experiences in sculptural media and techniques leading to the understanding of sculptural form and conception. This studio course requires a six-hour per week commitment, which includes three hours in a lecture/lab and three hours in the appropriate open lab.

ART 244  Sculpture 2 (3-0) 3 Cr. Hrs.
Prerequisite: ART 243.
This course is a continuation of ART 243 providing for further exploration and application of sculptural media and techniques leading to the understanding of sculptural form and conception. This studio course requires a six-hour per week commitment, which includes three hours in a lecture/lab and three hours in the appropriate open lab.

AVIATION BUSINESS MANAGEMENT
Associate Dean: Robert F. Pearce, MPA
Instructors: Adjunct Faculty

AVM 101  Perspectives in Aviation (3-0) 3 Cr. Hrs
Prerequisite: None.
This course provides the student with an overview of the development of aviation, the fundamentals of flight, the basic elements of airport infrastructure, airspace and navigation, aircraft operators, types and manufacturers. Students will learn about the evolution of domestic and international regulatory structure and specifically about the dimensions of U.S. federal regulations designed to ensure aviation safety. An overview of various aviation businesses with focus on career opportunities will also be provided.
BIOLOGY

Associate Dean: Monica Sullivan, MS
Instructors: Professor Mohammed Abbas, PhD
Professor Thomas O'Connor, PhD
Professor Michael Orick, MS
Professor Carolyn Steffen, PhD
Associate Professor Nickolas Butkevich, MS
Associate Professor Caroline McNutt, MS
Assistant Professor Bonnita Taylor, MS
Adjunct Faculty

BIOL 050 Basic Biology (4-0) 4 Cr. Hrs.
Prerequisite: None.
This lecture course is offered to students who seek to acquire the necessary background and skills to successfully complete a college-level biology course such as General Biology (BIOL 101). Emphasis is placed on basic terminology and concepts that contribute to an understanding of the scientific process and biological principles, such as the scientific method, basic chemistry, cell biology, metabolism, and genetics.

BIOL 101 General Biology (4-3) 4 Cr. Hrs.
Prerequisite: BIOL 050 or successful completion (2.0+) of introductory high school biology within the last five years.
This course is a one-semester introductory course. This course introduces students to the scientific study of living organisms. Students will investigate biological concepts including the chemical basis of life, cell structure and function, metabolism, reproduction, genetics, evolution, biological diversity and classification, plant structure and function, animal structure and function, and ecology. Students attend four hours of lecture and three hours of laboratory each week. Science majors seeking to fulfill a two-semester introductory biology sequence should enroll in BIOL 120 and BIOL 130.

BIOL 103 Health Education (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course provides a study of current health problems related to selected human organ systems, diet, population, environment, fitness, cancer, disease, sexuality and substance abuse.

BIOL 104 Conservation and Natural Resources (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course introduces the basic principles of conservation biology as they relate to our critical need as global citizens to preserve and protect biodiversity and natural resources. In addition to studying the causes of extinction, habitat loss and restoration, management of populations, communities and ecosystems, students also explore philosophical issues in conservation values and ethics. This interdisciplinary course integrates contributions from the fields of law, political science, economics, history, and sociology into the fundamental biological principles of conservation. Practical applications, personal stewardship, and globally sustainable solutions are emphasized.

BIOL 105 Elementary Human Anatomy and Physiology 1 (4-0) 4 Cr. Hrs.
Prerequisite: BIOL 050 or introductory high school biology within the last five years.
This lecture course introduces fundamental terminology and concepts that will enable students to acquire a basic understanding of the structure and function of the human body. A survey of the anatomy and physiology of the major human organ systems and their association with health and disease is also emphasized. BIOL 105 is intended for students in allied health programs that do not require a lab course in human anatomy and physiology.

BIOL 115 Nutrition (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course provides a study of the nature and role of nutrition with emphasis on the changing needs in the human life cycle. The relationship between nutrition and health will be explored. Topics such as vegetarianism, food fads and fallacies, obesity, weight control, and food additives are studied.

BIOL 120 Principles of Biology 1 (4-3) 5 Cr. Hrs.
Prerequisite: CHEM 111 recommended. Successful completion (2.0+) of high school introductory Biology and Chemistry within last five years.
This is a one-semester introductory course that introduces students to the scientific study of living organisms. Students will investigate biological concepts including the chemical basis of life, cell structure and function, metabolism, reproduction, genetics, evolution, biological diversity and classification, plant structure and function, animal structure and function, and ecology. Students attend four hours of lecture and three hours of laboratory each week. Science majors seeking to fulfill a two-semester introductory biology sequence should enroll in BIOL 120 and BIOL 130.

BIOL 130 Principles of Biology 2 (4-3) 5 Cr. Hrs.
Prerequisite: BIOL 120 with 2.0+ grade point or department permission.
This is the second course of a two-semester introductory biology sequence for students interested in transferring to a four-year institution to pursue a degree in biology or other science-related discipline. Together, BIOL 120 and BIOL 130 provide science majors with a comprehensive introduction to biology. In this course, students will attend four hours of lecture and three hours of lab each week to study the evolution and diversity of living organisms, plant and animal anatomy and physiology, animal behavior, and ecology.

BIOL 211 Zoology (3-3) 4 Cr. Hrs.
Prerequisite: BIOL 101.
Anatomy, physiology, genetics, development, ecology and classification of animals will be explored in this course.

BIOL 212 Botany (3-3) 4 Cr. Hrs.
Prerequisite: BIOL 101.
Anatomy, physiology, genetics, development, ecology and classification of plants will be explored in this course.

BIOL 236 Human Anatomy and Physiology (4-3) 5 Cr. Hrs.
Prerequisite: BIOL 101.
This one-semester course covers the gross and microscopic anatomy and physiology of the integumentary, skeletal, muscular, nervous, special senses, endocrine, circulatory, lymphatic, immune, respiratory, digestive, urinary and reproductive systems of the human body. Weekly instruction includes four hours of lecture and three hours of laboratory. The laboratory portion includes the use of prepared histological slides, anatomical models, bones, dissection of preserved specimens, blood typing, spirometry, urinalysis and blood pressure measurement. Students will also have an opportunity to examine a dissected cadaver.
**BIOL 237 Principles of Human Anatomy and Physiology 1**  
(3-2) 4 Cr. Hrs.  
*Prerequisite: BIOL 101.*  
This is the first course in a two semester sequence in the comprehensive study of the structure and function of the human body. Emphasis will be placed upon the anatomy and physiology of the integumentary, skeletal, muscular, nervous and endocrine systems. Labs reinforce units of study and include the use of prepared histological slides, anatomical models, bones, dissection of preserved specimens, and computer simulations. In addition, students will have the opportunity to examine a dissected cadaver to enhance anatomical studies. BIOL 237 and BIOL 238 are designed for the student who plans to pursue a career in the health or biomedical field. Students attend three hours of lecture and two hours of lab each week.

**BIOL 238 Principles of Human Anatomy and Physiology 2**  
(3-2) 4 Cr. Hrs.  
*Prerequisite: BIOL 237.*  
The second course in a two semester sequence (continuation of BIOL 237) in the comprehensive study of the structure and function of the human body. Emphasis will be placed upon the anatomy and physiology of the circulatory, lymphatic, respiratory, digestive, urinary and reproductive systems. Labs reinforce units of study and include the use of prepared histological slides, anatomical models, dissection of preserved specimens, blood pressure measurement, spirometry, urinalysis, and computer simulations. In addition, students will have the opportunity to examine a dissected cadaver to enhance anatomical studies. Students attend three hours of lecture and two hours of lab each week.

**BIOL 240 Anatomy and Physiology Review (2-0) 2 Cr. Hrs.**  
*Prerequisite: BIOL 237 and BIOL 238 or BIOL 236 or equivalent or BIOL 105 or consent of the instructor.*  
This course is a review of the anatomy and physiology of the human body with special emphasis on the physiology of the integumentary, skeletal, muscular, nervous, endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems. This course is designed for students entering biomedical programs that require a review of the basic anatomy and physiology of the human body.

**BIOL 243 Microbiology (3-4) 4 Cr. Hrs.**  
*Prerequisite: BIOL 101.*  
This course covers the world of microbes including microbial structures and function, biochemistry, metabolism, genetics, control of microbial growth, immunity, classification and epidemiology. Laboratory techniques commonly used in microbiology, including microscope use, bacterial smears, staining methods, aseptic techniques, isolation of pure cultures, identification of unknown microorganisms, antibiotic testing, and others are utilized.

---

**BIOMEDICAL ENGINEERING TECHNOLOGY**

Associate Dean: Bruce Sweet, MA  
Coordinator/Instructor: Chris Peters, AAS  
Instructors: Professor William Schlick, BEE  
Adjunct Faculty

**BMET 116 Biomedical Instrumentation Terminology and Safety 1**  
(2-1) 3 Cr. Hrs.  
*Prerequisite: ELECT 127 or equivalent with minimum grade of 2.0.*  
Students will acquire a knowledge of the language common to electronics and the medical profession based on spelling, pronunciation and definition of words and terms related to anatomy, medical equipment, electronic test equipment, and safety. They will become acquainted with the fundamentals of medical equipment and testing concepts. Students will be introduced to the field of Biomedical Engineering Technology as a career.

**BMET 204 Biomedical Instrumentation Terminology and Safety 2**  
(2-2) 4 Cr. Hrs.  
*Prerequisite: ELECT 129 or equivalent with grade of 2.0.*  
This course is intended to provide students with knowledge of radiology, transducers, equipment management, intensive care equipment management, intensive care equipment and other fundamental principals related to Biomedical Engineering Technology.

**BMET 254 Biomedical Equipment Internship 1**  
(0-24/40) 3 Cr. Hrs.  
*Prerequisite: BMET 116, ELECT 129 and Approval of the BMET Coordinator and a 2.0 GPA.*  
This is the first cooperative assignment for a Biomedical Engineering Technology student who has completed the prerequisites for this course. Employment will be approximately 24 to 40 hours per week off campus in a technical capacity with a hospital or an employer in the biomedical field. The College and the employer will jointly evaluate the student, which will then serve as a basis for a final grade. A student on a BMET internship is considered a full time student with Schoolcraft College, with all rights and privileges of a full time student. (Usually 15 weeks)

**BMET 255 Biomedical Equipment Internship 2**  
(0-24/40) 3 Cr. Hrs.  
*Prerequisite: BMET 254 and Approval of the BMET Coordinator and a 2.0 GPA.*  
This is the second cooperative assignment for a Biomedical Engineering Technology student who has completed one semester of internship. The conditions for assignment and evaluation are the same as for Biomedical Internship 1. The student is expected to handle an increased level of technical responsibility, and may possibly serve the internship at a hospital, medical equipment manufacturer, or a medical equipment service company. The College and the employer will jointly evaluate the student, which will then serve as a basis for a final grade. (Usually 15 weeks)
BUSINESS
Associate Dean: Bruce Sweet, MA
Instructors: Adjunct Faculty

BUS 101 Introduction to Business (3-0) 3 Cr. Hrs.
Prerequisite: None. 
This course introduces principles, problems and practices of business in areas of organization, management, information related management and e-business, labor, production, human relations, marketing, finance, insurance, regulation and government.

BUS 103 Organizing a Small Business (3-0) 3 Cr. Hrs.
Prerequisite: None. 
This course is designed to explore the advantages and disadvantages of entrepreneurship for those who may be considering starting, operating, or seeking employment in a small business. The course will emphasize the organization of the small business including the various forms of business ownership, business planning, starting the business, location, cash flow, and marketing concepts.

BUS 104 Operating a Small Business (3-0) 3 Cr. Hrs.
Prerequisite: None. 
This course is designed to explore the many considerations involved in owning and operating a small business. The course will emphasize the operation of a small business including insurance, employee relations, inventory control, pricing strategies, advertising, purchasing, E-commerce, succession planning, financing and legal issues.

BUS 105 Business Mathematics (3-0) 3 Cr. Hrs.
Prerequisite: Minimum grade of 2.0 in MATH 045 or equivalent. 
This course offers a review of fundamentals of arithmetic along with coverage of percentage, simple and compound interest, taxes, insurance, bonds and their applications to business practice.

BUS 120 Principles of Salesmanship (3-0) 3 Cr. Hrs.
Prerequisite: None. 
This course explores fundamentals of sales and includes sales preparation and demonstration. Among the topics covered are those related to prospecting, customer motivation and sales techniques such as handling objections and closing the sale.

BUS 122 Advertising (3-0) 3 Cr. Hrs.
Prerequisite: None. 
This course provides the student with a general knowledge of the various facets of advertising, media selection, psychological buying motives, and advertising strategies. In addition, the student should gain an appreciation of the various talents needed to bring about a good advertising message.

BUS 161 Retail Principles and Practices (3-0) 3 Cr. Hrs.
Prerequisite: None. 
This course introduces basic elements of retail organization and operation. Problem situations related to retailing are identified along with specific applications of retail procedures.

BUS 162 Retailing Merchandising (3-0) 3 Cr. Hrs.
Prerequisite: BUS 105. 
This course focuses on merchandising functions, fundamental activities involved in retailing, buying procedures, inventory control, and pricing.

BUS 201 Business Statistics (3-0) 3 Cr. Hrs.
Prerequisite: MATH 113. 
Students apply statistical methods to data to gain insight into practical problems. Computer software is used to perform statistical calculations and generate charts and graphs.

BUS 204 Personal Finance (3-0) 3 Cr. Hrs.
Prerequisite: None. 
This course is a practical study of problems and solutions facing the consumer in today’s society. The major areas that are covered in this course include personal budgeting, bank and financial institution comparison, strategies in the use and application of credit, insurance alternatives, housing alternatives, large item purchasing (such as automobiles) and occupational choices.

BUS 205 Personal Investing (3-0) 3 Cr. Hrs.
Prerequisite: None. 
A practical study of issues and solutions facing the investor in today’s business environment. Major areas will be covered include the investment setting, participating in the stock, bond, futures, options, and real estate markets, industry analysis, and company evaluation. Also, the student will learn how to analyze and select these investment alternatives for individual portfolios.

BUS 207 Business Law 1 (3-0) 3 Cr. Hrs.
Prerequisite: None. 
Principles of law are introduced as applied to the legal environment of business, contracts, sales and consumer rights, bankruptcy and secured transactions—debtor/creditor rights.

BUS 208 Business Law 2 (3-0) 3 Cr. Hrs.
Prerequisite: Business 207 recommended. 
This course is a continuation of BUS 207 with emphasis on negotiable instruments, real and personal property, agency, partnerships, corporations, employment, and wills and estates.

BUS 215 Business on the Web (3-0) 3 Cr. Hrs.
Prerequisite: BUS 101 or equivalent and CIS 120 or equivalent. 
This course introduces the student to the key business and technology elements of electronic commerce. Both the theory and practice of conducting business over the Internet and World Wide Web are presented. The major topics include: planning and building a Web presence, marketing on the Web, business-to-business strategies, online auctions, legal/ethical/tax issues, web server hardware/software, security, payment systems, and technology infrastructure.

BUS 217 Business Management (3-0) 3 Cr. Hrs.
Prerequisite: BUS 101 or consent of department. 
This course centers on the basic functions of the management process which are decision making, organizing, staffing, planning, controlling, communicating, and directing.

BUS 220 Supervision (3-0) 3 Cr. Hrs.
Prerequisite: None. 
This is a course geared to better understanding the supervisor as a particularly critical position within an organization. It centers on the development of skills, attitudes and knowledge essential to job performance. Today’s supervisor must be an effective communicator who possesses strong skills in problem solving, time management, multi-tasking and human relations. The course concentrates on leadership, motivation, communication, and other related topics.
BUS 226 Principles of Marketing (3-0) 3 Cr. Hrs.  
Prerequisite: BUS 101 or consent of department.  
This course is designed to present an integrated analytical approach to the marketing process with discussion of essential economic principles as they apply to the marketing process. Course considers the interrelationship of the marketing functions as they contribute to the marketing process.

BUS 230 Human Resource Management (3-0) 3 Cr. Hrs.  
Prerequisite: BUS 101 or consent of department.  
This course emphasizes the management of procurement, development, compensation, integration, maintenance, and separation of human resources to accomplish individual, organizational, and social objectives.

CHEMISTRY  
Association Dean: Monica Sullivan, MS  
Instructors: Associate Professor Cheryl Snyder, MS  
Assistant Professor Paul Dickson, PhD  
Assistant Professor Michael Waldyke, MS  
Adjunct Faculty  

CHEM 051 Basic Chemistry (4-2) 4 Cr. Hrs.  
Prerequisite: MATH 053 or equivalent.  
This is an elementary course in chemistry for students who have not had high school chemistry or who wish to review basic chemical concepts. This course provides an introduction to chemical measurement, basic definitions and laws, chemical nomenclature and equations, calculations based on chemical equations, atomic theory, the Periodic Table, solutions, acids, bases, gases, and organic chemistry.

CHEM 100 Introduction to the Chemistry of Food for Culinary Arts (3-2) 4 Cr. Hrs.  
Prerequisite: None.  
This course is designed to familiarize the culinary arts student with a basic understanding of scientific principles as they apply to foods and culinary processes. The course will include a basic introduction to various aspects of chemistry. Classes of foodstuffs will be examined on a molecular level to ascertain an understanding of the interactions that occur in culinary applications. The laboratory portion of the course will emphasize the relationships between chemical principles/techniques and food preparation.

CHEM 111 General Chemistry 1 (4-3) 4 Cr. Hrs.  
Prerequisite: CHEM 051 or equivalent with grade of 2.0 and MATH 113 or equivalent. Math may be concurrent.  
This course is designed as a first course in a traditional one-year program in general college chemistry and includes a review of fundamental concepts such as symbols, formulas, chemical equations, laws of chemical combination, and physical and chemical properties. Atomic and molecular structure, bonding, stoichiometry, periodicity, gases, solutions, acids and bases, and electrochemistry and oxidation-reduction are also covered in this course.

CHEM 117 General Chemistry 2 and Qualitative Analysis (4-4) 5 Cr. Hrs.  
Prerequisite: CHEM 111 with a grade of 2.0 or better or consent of department.  
This course is the second course in a traditional one-year general college chemistry program and includes the study of kinetics, solution equilibria, solubility equilibria, hydrolysis, coordination compounds, thermodynamics and qualitative analysis. A brief introduction to organic chemistry and nuclear chemistry is also included. Laboratory work correlates with lecture and stresses the identification of common cations and anions by semimicro methods.

CHEM 120 Organic and Biochemistry (3-3) 4 Cr. Hrs.  
Prerequisite: CHEM 111.  
This course is an introduction to both organic chemistry and biochemistry. Major topics covered include structures, functions, and reactions of organic and biological compounds; the chemistry of metabolic processes; enzymatic processes; and related topics. The laboratory portion of the course includes exercises in organic and biochemistry designed to reinforce lecture topics.

CHEM 213 Organic Chemistry 1 (4-4) 5 Cr. Hrs.  
Prerequisite: CHEM 213 with a grade of 2.0 or better or permission of the instructor.  
This is an integrated course stressing basic principles of organic chemistry such as nomenclature, chemical bonding, correlation of physical properties with structure, mechanisms of organic reactions of both the aliphatic and the aromatic series. Laboratory deals largely with synthesis of organic compounds and study of their properties.

CHEM 214 Organic Chemistry 2 (4-4) 5 Cr. Hrs.  
Prerequisite: CHEM 213 with a grade of 2.0 or better or permission of the instructor.  
This course is a continuation of CHEM 213 with emphasis on mechanisms of organic reactions and interpretation of spectra. Lab work will emphasize preparation of organic compounds through multi-step synthesis.
# Child Care and Development

**Associate Dean:** Cheryl D. Hawkins, MS  
**Instructors:** Associate Professor Diane Flynn-Hahn, MA  
**Assistant Professor Elizabeth Schneider, MEd**  
**Adjunct Faculty**

</table>

This course is designed to provide students an overview of early childhood development and use the theoretical constructs to understand adolescent behavior. Students will recognize the contributing factors which lead to the development of a stable identity hierarchy and the development of responsibility in adolescence.

The purpose of this course is to introduce the students to the stages of creativity and to art materials and techniques. Activities appropriate for preschool children and adults with developmental or emotional disabilities will be covered.

The purpose of this course is to acquaint students with the perceptual and learning issues of learning disabled children and special education programs in the public school which provide specialized learning situations for them. The diagnosis of disorders of visual and auditory perception, language, motor coordination, cognition, and attention deficit related to the learning processes are discussed, as well as specific recommendations for remediation and implications for school planning.

The purpose of this course is to acquaint students with concepts and materials related to the education of children with emotional disabilities. The major theories related to causes and treatment of emotional and behavior problems will be covered.

Students will have supervised experience working directly with children and youth in settings such as child development centers and group homes. They will have the opportunity to integrate classroom material and personal life experiences with on-the-job experience and evaluate the experiences of children in light of the concepts they have learned. Emphasis will be placed on observing and reporting activities of the children.
CDD 155  CDA Assessment Preparation (1-0) 1 Cr. Hr.  
**Prerequisite:** CDD 100, CDD 101, CDD 115, CDD 118, CDD 126, CDD 150 and CDD 214.  
To be awarded the CDA credential a Candidate must present evidence to The Council for Early Childhood 
Professional Recognition of his/her competence as a 
child care provider/educator. This course is designed 
to support the CDA Candidate in preparation for the 
final assessment process.

CDD 200  Child Care Practicum 2 (3-0) 3 Cr. Hrs.  
**Prerequisite:** CDD 101 and CDD 150 for Child Care and Development 
students. CDD 150 and CDD 215 for Child Care Special Needs and Paraprofessional students.  
This course provides continued supervised experience 
working directly with children and youth in child 
development settings. Students will have increased 
responsibility planning and implementing activities 
for children. Emphasis will be placed on working as a 
contributing member of teaching team.

CDD 211  Children and Youth in Groups (3-0) 3 Cr. Hrs.  
**Prerequisite:** CDD 150 if not previously taken.  
This course is designed to introduce students to the 
principles of group functioning and techniques of 
helping children become accepted members of peer 
groups. Productive membership of child care workers 
in professional groups will also be covered.

CDD 214  Operation and Maintenance of a Child Care Facility  
(3-0) 3 Cr. Hrs.  
**Prerequisite:** None.  
This course will cover methods of operating and 
maintaining a child care facility. Included will be 
current laws and regulations regarding licensing, equip-
ning and maintaining the physical plant, staffing, food 
services, health and social services, budgeting, and 
program development.

CDD 215  Methods and Curricula for Persons with 
Developmental Disabilities (3-0) 3 Cr. Hrs.  
**Prerequisite:** None.  
The objectives of this course are to familiarize the 
student with the theoretical approaches to develop-
mental disabilities and to introduce methods of 
assessing severely handicapped children. A survey of 
the various curricula used with the developmentally 
disabled is included.

CDD 216  The Child with Special Needs (2-2) 3 Cr. Hrs.  
**Prerequisite:** None.  
This course is designed to introduce students to 
children, youth and adults who have special needs. 
Included are individuals who are cognitively 
impaired, emotionally impaired, visual and/or hearing 
impaired, learning disabled, and those who experi-
ence orthopedic or other health disabilities/handicaps.

CDD 221  Early Literacy and Numerical Thinking (3-0) 3 Cr. Hrs.  
**Prerequisite:** CDD 101.  
This course explores literacy and numerical thinking 
in early childhood. An emphasis will be placed on con-
structivist and sociolinguistic views of learning. Expe-
riential exercises and reading will provide students 
with opportunities to plan developmentally appropriate 
learning activities, to record observations of children, 
and to generate developmental analyses that support 
literacy and numerical thinking development.

---

**COLLEGIATE SKILLS**  
Associate Dean: Deborah B. Daiek, PhD  
Instructors: Adjunct Faculty

**COLLS 050**  Learning Power (4-0) 4 Cr. Hrs.  
**Prerequisite:** None.  
This course focuses on developing vocabulary and 
comprehension skills in group and lab settings. Stu-
dents will explore and develop reading strategies to 
improve efficiency.

**COLLS 053**  Critical Thinking Applications (4-0) 4 Cr. Hrs.  
**Prerequisite:** COLLS 050 or appropriate reading placement score.  
This course is designed to prepare students to suc-
cessfully handle college level reading assignments. 
Reading comprehension techniques and vocabulary 
development strategies are emphasized using a 
variety of materials. Techniques will be applied to 
selected materials and textbooks students are cur-
rently using.

**COLLS 055**  College Notetaking (1-0) 1 Cr. Hr.  
**Prerequisite:** None.  
**Corequisite:** Recommended enrollment in another class requir-
ing notetaking.  
This course will prepare students for successful 
notetaking of lectures. Emphasis will be placed on 
enhancing listening skills, preparing for lectures and 
notetaking of lectures. Application of notetaking 
skills in students’ classes will be stressed.

**COLLS 101**  College Success (3-0) 3 Cr. Hrs.  
**Prerequisite:** COLLS 053 or equivalent skill level.  
This course is designed to increase a student’s learn-
ing potential and success in college. Each student 
will explore learning strategies and attitudes that lead 
to improved grades. Topics covered in the course 
include time/task planning, critical thinking, study 
techniques, and exploring attitudes successful stu-
dents bring to a learning environment. Each student 
will learn to apply principles covered in this course to 
their other college courses.

**COLLS 105**  Learning Skills 1 (1-0) 1 Cr. Hr.  
**Prerequisite:** Consent of department.  
This course is designed to provide students with the 
learning skills and support necessary to successfully 
balance academic and other life demands. Students 
will apply techniques to their personal situations and 
course load requirements.

**COLLS 109**  Learning Skills 2—Education Majors (1-0) 3 Cr. Hrs.  
**Prerequisite:** COLLS 053 or equivalent. MATH 053 or equivalent 
and 27 or more transfer credits above 100-level.  
This course is designed for those education transfer 
students who desire to participate in a Collegiate Skills 
sponsored pre-student teaching practicum as required by 
their transfer institution. Affective and cognitive behav-
iors of young learners are reviewed, as are the char-
acteristics and strategy supports typical of a variety of 
learners. Program participants learn to properly analyze 
and journal relevant interactions and explore key issues 
and controversies in today’s educational environment.

**COLLS 110**  Learning Skills LD (2-0) 2 Cr. Hrs.  
**Prerequisite:** None.  
This course is designed to provide students who have 
learning disabilities with the learning skills and support 
necessary to successfully balance academic and other 
life demands. Students will apply techniques to their 
personal life situations and course load requirements.
COLLS 111  Electronic Portfolio (1-0) 1 Cr. Hr.
Prerequisite: None.
This course introduces the Schoolcraft College Electronic Portfolio. Students will engage the college learning experience by 1) growing an awareness of the college’s expectations that they will acquire the attitudes, skills, knowledge and ability characteristic of generally educated persons, 2) understanding the changing nature of the college learning focus from acquisition of courses and credits to providing demonstrable evidence of their learning outcomes, and 3) starting the process of creating their personal electronic portfolios as the primary vehicle for showcasing their demonstrable evidence. Students will leave the course with some experience in the college learning environment, knowing the kind of expectations they will meet in their courses and programs, and the beginnings of their own Schoolcraft College Electronic Portfolio on a ZIP disc. The portfolio becomes an ongoing project during their studies at the college.

COLLS 130  Applied Learning Theory for Nursing Majors (3-0) 3 Cr. Hrs.
Prerequisite: COLLS 053 or college level reading placement score and BIOL 050.
This course is designed to prepare pre-PN and RN students for demands of the nursing program. Emphasis will be placed on developing and applying critical reading, thinking, and learning strategies to nursing content. Topics covered in the course are reading speed/comprehension, reading study system, lecture note taking, time/goal management, test preparing/test taking, and communications skills.

COLLS 211  Electronic Portfolio—Exit Course (1-0) 1 Cr. Hr.
Prerequisite: COLLS 111.
This course concludes the process of building the Schoolcraft College Electronic Portfolio begun in COLLS 111. Students will review their college learning experience as well as collect, organize, and reflect upon evidence that they have developed attitudes, skills, knowledge, and abilities associated with a generally educated person during that experience. Students will create personal program-level portfolios following the college’s specified guidelines that demonstrate their academic achievements and showcase what they have to offer as Schoolcraft College graduates. The college may select a sample of the portfolios produced for assessment of the general education Core Skills program.

COMMUNICATION ARTS
Associate Dean: Cheryl D. Hawkins, MS
Instructors: Professor Julian C. Taylor, PhD
Adjunct Faculty

COMA 103  Fundamentals of Speech (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course develops essential skills through directed practice in a variety of speech situations and furnishes basic knowledge necessary for intelligent speech improvement; stress is on speaker’s ideas, attitudes, and audience adjustment.

COMA 200  Interpersonal Communications (3-0) 3 Cr. Hrs.
Prerequisite: COMA 103 or consent of instructor.
This course provides study and practical application exercises in the basic elements of interpersonal communication with emphasis on self-concept, perception, meanings, listening, feedback, defensive communication barriers, and nonverbal communication. Special attention will be given to improving interpersonal communication skills. This course may not be substituted for COMA 103.

COMA 201  Discussion (3-0) 3 Cr. Hrs.
Prerequisite: COMA 103 or equivalent.
This course conveys a better understanding of human affairs. The student will review attitudes and skills for effective participating in discussion, including cooperative thinking, exchange of ideas, and problem solving.

COMA 203  Contemporary Public Address (3-0) 3 Cr. Hrs.
Prerequisite: COMA 103.
This course is a study of contemporary American speeches. Analysis of speeches from the 60s, 70s, 80s and 90s will be part of the course. Students will explore the form and principles of modern day speeches.

COMA 205  Argumentation and Persuasion (3-0) 3 Cr. Hrs.
Prerequisite: COMA 103.
This course is a journey into the theories and practices of argumentation and persuasion from the classical to the contemporary period. Understanding of structure and the use of logic and evidence when presenting in a persuasive situation will be explored.

COMA 210  Communication for Leaders (3-0) 3 Cr. Hrs.
Prerequisite: COMA 103.
This course is an exploratory examination of the leadership role within today’s professional arena. The course is designed as an overview to develop communication awareness and effectiveness in teams of leaders within the community, corporate interviews, small group discussions and problem-solving in staff meetings and presentations as well as an examination of communication barriers.

COMA 230  Introduction to Mass Communication (3-0) 3 Cr. Hrs.
Prerequisite: COMA 103.
Understanding media in today’s world is more than a scholarly exercise; it is a necessary survival skill in a world that has been utterly changed by mass communication. All students, whether they will be practitioners, critics, or consumers, have to be able to analyze the ways in which mass media is being used to change the world. This course provides the tools needed to accomplish this analysis.
**COMPUTER AIDED DESIGN**

Associate Dean: Bruce Sweet, MA  
Instructors: Professor Catherine Ferman, MS, PE  
Associate Professor Lisa Zacccone, MS  
Adjunct Faculty

**CAD 101 Introduction to Computer Aided Drafting**  
(2-2) 3 Cr. Hrs.  
*Prerequisite:* Drafting experience and consent of department.  
This course is designed for the experienced drafter who wants to obtain some CAD skills. Topics to be covered will include 2D drawing creation, drawing editing and plotting as well as view manipulation. In addition, the student will learn the basics about file saving, retrieving and copying.

**CAD 102 Advanced Topics in CAD**  
(2-2) 3 Cr. Hrs.  
*Prerequisite:* CAD 101 or equivalent course.  
Industry experience will be considered. This course is designed as an advanced course in computer aided drafting for the non-degree seeking design professional such as architects, engineers, product designers, or drafters already trained or employed in the field. Topics to be covered include three-dimensional solid modeling, parametric modeling, assembly and software customization. An understanding of two-dimensional commands and basic knowledge of drafting is required for this course. This course does not apply towards a degree in Computer Aided Design.

**CAD 103 Engineering Graphics**  
(2-2) 3 Cr. Hrs.  
*Prerequisite:* None.  
This course is designed to introduce the student to the basic concepts and standard practices necessary for the graphical communication of technical data which includes the reading, interpretation and creation of engineering drawings, technical sketching and introduction to computer-aided drafting (CAD). Topics to be covered include orthographic projection, pictorials, sectioning, auxiliary views, dimensioning, tolerancing, surface finish and fasteners. This course is designed for the transfer Engineering student and as an introductory course for those who are considering a career as a mechanical or tool designer.

**CAD 105 Mechanical Engineering Drawing**  
(3-2) 4 Cr. Hrs.  
*Prerequisite:* CAD 103 or equivalent.  
This course is designed to teach the student the concepts and standard practices involved in the creation of drawings/files/models. Sketching and computer-aided drafting (CAD) will be the tools for communicating mechanical product information. The student will be expected to create 2D drawings and simple 3D models. Topics to be covered will be projection methods for creating orthographic, auxiliary and sectional views, 3D models and full detail and isometric drawings with untoleranced dimensions, symbols and notes. The focus will be utilizing the CAD system to create mechanical engineering prints. This course is designed for those who have chosen a career as a mechanical or tool designer.

**CAD 107 Detailing**  
(2-4) 4 Cr. Hrs.  
*Prerequisite:* CAD 105 or equivalent.  
This course is designed to teach the student the concepts and standard practices involved in the creation of detail and assembly drawings. Geometric Dimensioning and Tolerancing philosophy will be employed for controlling variations. Sketching and computer-aided drafting (CAD) will be the tools for communicating mechanical product and tool information. The student will create 3D models and 2D drawings. Simple assemblies will be constructed and analyzed using previously created parts. Topics to be covered will include tolerancing methods, tolerance stack-up evaluation, G.D. and T. methods, 3D modeling, 2D and data extraction from 3D models.

**CAD 201 I-DEAS Level 1**  
(4-0) 4 Cr. Hrs.  
*Prerequisite:* None.  
This course will introduce students to the modeling and drafting packages in SDRC’s IDEAS software. Topics will include the user interface, data management, master modeler, solid model creation, geometrical constraints and relations, assembly modeling, and system hierarchy.

**CAD 202 I-DEAS Level 2**  
(1-1) 2 Cr. Hrs.  
*Prerequisite:* CAD 201 or equivalent.  
This course is designed to present higher level part modeling and file management commands for SDRC’s I-DEAS Master Modeler.

**CAD 204 I-DEAS Generative Machining**  
(1-1) 2 Cr. Hrs.  
*Prerequisite:* CAD 201 or equivalent.  
This course presents the CAM portion of the I-DEAS software. Topics to be covered will include creating Numerical Control jobs and operations, accessing and creating tool definitions, generating machine code for hole cutting, face milling, profiling, turning, and thread cutting. Tool paths will be simulated and errors corrected. Machine code will be post processed for specific machines.

**CAD 209 I-DEAS Graphical Finite Element Modeling**  
(1-1) 2 Cr. Hrs.  
*Prerequisite:* CAD 201 or equivalent.  
This course introduces the aspects of finite element analysis that are important to the software user. Theoretical aspects are introduced, as they are needed to help better understanding of the operations. Emphasis is on the practical concepts and procedures to using I-DEAS Master Series in performing linear static stress analysis.

**CAD 211 CATIA—Level 1**  
(4-0) 4 Cr. Hrs.  
*Prerequisite:* None.  
This first level CATIA course will cover the basics of creating, editing and storing 3D models. The construction and constraining of assemblies will be covered as will the creation of detail and assembly drawings using the drafting package.

**CAD 212 CATIA—Surfacing**  
(2-2) 4 Cr. Hrs.  
*Prerequisite:* CAD 211 or equivalent.  
This course is designed to present higher level part modeling commands for CATIA Modeler. Particular attention will be paid to surfacing.

**CAD 213 CATIA—Knowledgeware**  
(1-1) 2 Cr. Hrs.  
*Prerequisite:* CAD 211 or equivalent.  
This course is designed to introduce the student to the capabilities of CATIA Knowledgeware. CATIA Knowledgeware allows the capture and integration of corporate design knowledge within CATIA parametric models.
CAM 102  Introduction to Computer Numerical Control—CNC (2-2) 3 Cr. Hrs.
Prerequisite: Windows experience highly recommended.
Corequisite: MFG 102 and/or previous machining experience.
This course will provide the basic concepts in converting the dimensional information from a drawing into numerical control coding, G and M, to process a part. NC machine axis systems, coordinate systems, part dimensioning and programming by using incremental and absolute reference system will be taught. The student will learn how to enter G and M coding data, manually, into the CNC machine to process the part. Simulation software will also be used to check if the CNC coding has been entered correctly.

CAM 103  Computer Numerical Control Programming—CNC (2-2) 3 Cr. Hrs.
Prerequisite: CAM 102 or basic knowledge of MasterCAM.
Students will further their CNC skills by using a CAD/CAM MasterCAM software to generate CNC coding for mills and lathes. Using MasterCAM involves three steps: First, the student will use MasterCAM’s CAD program to create the part geometry; secondly, the program will be used to program machine information (feed rate, spindle speed, coolant control command, etc.); and finally, a postprocessor will be used to generate CNC coding. Also, tool paths will be verified by using a graphical (animation) solid-model tool path verification to detect potential machining errors. The students will also study drilling, solid modeling, pocketing, and circle boring.

CAM 201  Coding and Materials Processing (0-5) 5 Cr. Hrs.
Prerequisite: CAM 102 or equivalent.
This course prepares the student to understand the procedure to download an existing computer numerical program (CNC) from a CAD drawing to a CNC controller. Through the use of computer simulation students will learn: to evaluate correct machining practices, to use an operator’s panel control for editing CNC programs, and to troubleshoot an existing program using either a controller panel or computer. Projects will be assigned to facilitate mastery of advanced programming commands and procedures.

CAM 205  CAD/CAM—Computer Aided Machining (0-4) 3 Cr. Hrs.
Prerequisite: CAM 103 or extensive knowledge in 2D MasterCAM Design.
The student will use CNC MasterCAM software program that covers mills and lathes. This course will address the following machining variables: machining parameters, constructing wire frame models, generating surface models with tool paths, engraving artworks and solid modeling. Operational parameters will be calculated to determine operating capacity of a cutting tool, spindle horsepower, the affects of different types of work piece material, and rigidity of the part and respective fixture. The student will learn how to generate coding for 3D wire frame and multi-axis composite surfaces using various modeling techniques.
CGT 125  Digital Imaging1—Photoshop (3-0) 3 Cr. Hrs.
*Prerequisite:* Computer experience highly recommended.

This course introduces students to the field of digital imaging and electronic photographic manipulation using Adobe Photoshop. Emphasis is placed on developing strong software and digital imaging skills plus reinforcement of design and creative skills. This will be accomplished through a series of progressively challenging assignments, which mirror professional studio projects. The class will progress the student’s skills from basic application knowledge to advanced image manipulation techniques. The assignments will be applicable for both print and screen based imagery. Students are expected to have some computer experience and be familiar with basic functions of the computer before beginning the class.

CGT 127  Publishing—InDesign (3-0) 3 Cr. Hrs.
*Prerequisite:* Computer experience highly recommended.

This course introduces students to the field of publishing design using Adobe InDesign. Emphasis is on learning the software and on applying basic design skills to computer generated design. Students will have the opportunity to learn the fundamentals of page-layout, typography, working with color and color separations, and preparing documents for printing. Students are expected to have some computer experience and be familiar with basic functions of the computer before beginning the class.

CGT 135  Web Graphics (3-0) 3 Cr. Hrs.
*Prerequisite:* CGT 125.

This course introduces the student to the World Wide Web as a new communications media. The Web has made a global instant publishing media available to those who wish to participate. This course covers techniques for creating graphics, such as GIF, JPG, PNG, and animated GIFs, image maps, rollovers, backgrounds, icons and buttons for the Web. In addition, skills in design, optimization compression techniques, color theory and an understanding of multiple platforms, operating systems and browser limitations are covered.

CGT 141  Introduction to Interactive Media and Game Design (3-0) 3 Cr. Hrs.
*Prerequisite:* CGT 125.

This course is an introduction to the creation of computer games and other interactive media. Students will learn how to make basic 2D animations and use basic scripting techniques to make interactive projects for CD-ROM and kiosk based projects. Emphasis will be on solving the special design and production problems encountered when creating non-linear projects, along with animation techniques, basic scripting, memory management, importing/exporting considerations, basic sound and video, project management, and production planning.

CGT 150  Typography (2-0) 2 Cr. Hrs.
*Prerequisite:* CGT 123.

This course introduces the graphic design student to the principles of typography by investigating letter forms as both an element of design and as a medium of communication. Concentration is on typeface identification, effective use of type to convey information, measuring systems, and application of typography to computer graphics.

CGT 151  Survey of Design (2-0) 2 Cr. Hrs.
*Prerequisite:* None.

This course introduces the student to the history of graphic design and its application as a form of mass communication. Students examine how social, cultural, and technical considerations have influenced the way information is designed for publication. Students learn how an understanding of historical, cultural and social influences leads to more effective graphic design in the modern world.

CGT 152  DHTML—Screen Design for Electronic Media (2-0) 2 Cr. Hrs.
*Prerequisite:* Computer experience highly recommended.

This course introduces the student to the unique design principles for electronic screen design. Designing for the WWW or for an interactive computer screen or CD Rom requires a new look at design principles. This course compares traditional paper design to electronic screen design.

CGT 153  Portfolio Preparation (2-0) 2 Cr. Hrs.
*Prerequisite:* Must take one of the following courses either before or with this course: CGT 231 or CGT 236 or CGT 242 or CGT 246.

This class prepares the student for finding a job in the field of graphic design. In this course students will assemble their previous work into a professional presentation. In doing so, the student’s strengths and weaknesses will be discovered and discussed. At least one project will be assigned to specifically address the individual student’s portfolio needs. During the course students will create a traditional resume and customize it to attract the attention of a more creative eye. An identity project, including a working logo, business card, letterhead and promotional item which fit the student’s style and personality will be designed and created for practical application.

CGT 154  Sound Editing for Graphic Artists (2-0) 2 Cr. Hrs.
*Prerequisite:* None.

This course provides an introduction to the basic concepts of sound production for computer and video based delivery systems. Also emphasized are the necessary hardware/software, sound recording and editing, file management and transfer, and aesthetic considerations.

CGT 155  Storyboarding (2-0) 2 Cr. Hrs.
*Prerequisite:* Computer experience highly recommended.

This course provides the student a working knowledge of storyboarding. It integrates creative expressions, emotional impressions and production processes into a cohesive conclusion. It provides the student an opportunity to expand a creative understanding of audio, cinematography, lighting, and staging. Storyboarding is a basic need for the student pursuing careers in multimedia, interactive and performance arts. The course will use a digital sound editing application and Adobe Premiere to create a final demonstration of this skill set.
CGT 156  Photography (2-0) 2 Cr. Hrs.
Prerequisite: None.
This course is designed to instruct the student on photographic principles that affect exposure, image structure, composition, printing and the interface with digital media. Students will experience hands-on photography sessions that demonstrate lighting, visual effects and composition development based on contrast and focal point awareness. In conjunction with the camera, the student will explore advanced digital imaging options, the zone system and creative merging techniques. Course materials are designed for the student pursuing a graphic design career. The student will be required to have a 35mm camera and is responsible for film and processing costs or digital equivalent.

CGT 157  Prepress (2-0) 2 Cr. Hrs.
Prerequisite: CGT 123, CGT 125 and CGT 127.
Every successful piece of graphic design succeeds on both the technical and conceptual level. This course focuses solely on the technical—or execution—part of graphic design as it relates to printed material. Students will have the opportunity to learn how commercial printing is done and how the printing process imposes limits on graphic design. Students will learn how to work with printers to achieve the best possible results.

CGT 206  Scripting for Interactive Media and Game Design (3-0) 3 Cr. Hrs.
Prerequisite: CGT 141.
This is an intermediate course in the creation of computer games and other interactive media projects. Emphasis in this course is on advanced scripting techniques required to produce effective and highly interactive games or projects for CD-ROM or computer based projects. Emphasis will be on scripting techniques to control navigation, animation, sound, video, and memory management.

CGT 208  Premiere (3-0) 3 Cr. Hrs.
Prerequisite: CGT 123, CGT 125 and CGT 155.
This course will expand the students understanding of digital nonlinear editing. Students will learn how to manipulate digital media: digital video and audio, scanned images, and digitally created artwork and animations stored in several formats. Students will use programs such as Adobe Premiere or other application to arrange digital source files sequentially, add transitions and effects, and create graphics and 2D animation.

CGT 211  Flash (3-0) 3 Cr. Hrs.
Prerequisite: CGT 110 or CGT 123 or experience with a vector-art drawing program.
This course provides the student with an introductory knowledge of working with Flash. Flash is a vector-based design program for the creation of animation, games, and interactive components for use on the internet. Students will focus on the creation of basic animation and navigation components for use on the internet as well as for stand alone projects.

CGT 212  Flash Action Scripting (3-0) 3 Cr. Hrs.
Prerequisite: CGT 211 or equivalent experience with Flash.
This course provides an in-depth exposure to the Flash Action Scripting language. Students will learn to write scripts which extend and enhance the capabilities of the Macromedia Flash software. During the semester, each student will design and produce a complex, highly interactive project such as a highly interactive web site, computer game, or computer-based training module. Students should have a working knowledge of Flash before beginning this class.

CGT 215  Motion Graphics 1 (3-0) 3 Cr. Hrs.
Prerequisite: CGT 109, CGT 123, CGT 125, CGT 155 and CGT 208.
This course develops creative freedom and control for designing sophisticated motion graphics and visual effects for film, video, multimedia and the Web. Students will integrate previously learned applications into motion-graphics using Adobe After Effect and/or related applications. Students will develop an understanding of motion control and keying capabilities plus audio and visual effects.

CGT 226  Digital Imaging 2—Photoshop (3-0) 3 Cr. Hrs.
Prerequisite: CGT 109, CGT 123, CGT 125 and CGT 127.
This course will further explore the uses of photography and the digital image in the field of graphic design. Students will learn how object oriented graphics programs can interface with bitmap oriented programs such as Photoshop. Students will make extensive use of scanners and digital cameras to design and create graphic design projects including artwork for Web pages and multimedia applications.

CGT 231  Electronic Publishing (3-0) 3 Cr. Hrs.
Prerequisite: CGT 109, CGT 123, CGT 125 and CGT 127.
Corequisite: CGT 226.
This course emphasizes the integration of design and software skills to create more effective layouts for print media. Students will explore photography and digital imaging, illustration, graphic design and page layout. Students learn to use type effectively, create and integrate images and type, set up projects for printing, apply design principles to create effective and readable documents. Instruction in advanced software techniques and in the use of a variety of peripherals is featured. Emphasis will be on the application of software and design skills to a variety of realistic graphic design projects.

CGT 236  Web Design (3-0) 3 Cr. Hrs.
Prerequisite: CGT 135 and CGT 152.
This course emphasizes the integration of design principles and software skills to create effective Web sites. Students will focus on advanced design features such as tables, DHTML (Dynamic HTML), Style Sheets, Frames, Forms, Layers and importing images and other media. Students will apply software and design skills to a variety of realistic Web design projects. Students will explore the World Wide Web: how the Web works, common browsers, assembling Web pages and linking documents. Macromedia Dreamweaver or other current HTML software authoring/editor will be used. The student will look at on-line design considerations, such as download times, optimizing file size and file formats.

CGT 237  Dynamic Web Design with ColdFusion (3-0) 3 Cr. Hrs.
Prerequisite: CGT 236.
This course provides advanced dynamic Web design and development utilizing the most recent versions of Macromedia’s ColdFusion and Dreamweaver. Topics covered will include scripting in CFML and HTML, Web site planning, testing, security and production. Emphasis will be on managing the flow of data base information with client-side documents. Also included will be coverage of data-driven pages, forms and data-entry using Dreamweaver data connection tools, writing user-defined functions and creating dynamically data driven Web sites.
CGT 242 Advanced Interactive Media and Game Design (3-0) 3 Cr. Hrs.
Prerequisite: CGT 206 or CGT 212.
This is an advanced course in the creation of computer games and other interactive media projects. This course emphasizes the production process, the multidisciplinary nature of the media, integration of different components, and special design problems of games and other non-linear projects. The student is instructed in advanced elements of interactive media design, integrating digital sound and video, and advanced scripting techniques. Each student will produce a large scale project during the course.

CGT 244 History of Animation (3-0) 3 Cr. Hrs.
Prerequisite: None.
This class will give students a context for understanding the rich and unique history of animation and graphic design. In addition to learning important milestones in these fields, students will develop their eye and their aesthetic appreciation of this kind of art. Students will be exposed to the historical contingencies that lead to different developments as well as to animations and graphic design from all over the world. This course will also stimulate students in their own creative endeavors in their chosen field.

CGT 246 Motion Graphics 2 (3-0) 3 Cr. Hrs.
Prerequisite: CGT 109, CGT 123, CGT 125, CGT 127, CGT 128, CGT 208 and CGT 215.
This course will further explore the uses of audio, graphics and video in the field of motion graphics. Students will learn how object motion graphics programs can interrelate to develop informational and promotional media. Students will make extensive use of 2 Dimensional, motion and still graphics to design and create projects for video, Web pages and/or multimedia applications.

CGT 247 3D Animation—Introduction (3-0) 3 Cr. Hrs.
Prerequisite: CGT 123, CGT 125 and CGT 155.
This course is designed to increase the student’s familiarity with the 3D interface, concepts of 3D space, and animation. It will provide an introduction to primitives, some modifiers, and box-modeling techniques. Students will be exposed to lighting, texture mapping concepts, and basic animation techniques. Students will also develop skill sets to create simple animations.

CGT 248 3D Animation—Model Building (3-0) 3 Cr. Hrs.
Prerequisite: CGT 247.
Corequisite: CGT 249 and CGT 252.
This class follows up on the skill sets that students were exposed to in Introduction to 3D Animation. In this class students will learn modeling techniques at a more sophisticated level. These techniques will include polygon, patch, nurbs and subdivision surface modeling. They will also learn about the aesthetics of intelligent model building.

CGT 249 3D Animation—Texture and Lighting (3-0) 3 Cr. Hrs.
Prerequisite: CGT 247, CGT 248 and CGT 252.
This class follows up on the skill sets that students were exposed to in Introduction to 3D Animation. In this class students will gain a much deeper understanding of the aesthetics and software technology of texture mapping and lighting. Students will learn about the aesthetics of good composition in general as well as more about the technology and limitations of television as a delivery platform.

CGT 250 Practical Application (3-0) 3 Cr. Hrs.
Prerequisite: Must take one of the following courses either before or with this course: CGT 231, CGT 236, CGT 242, CGT 246 or CGT 252.
Students will work in teams to research, develop and execute graphic design projects for local businesses and corporations. Emphasis is on applying skills to real world projects and on developing a professional portfolio. Students are instructed in team building, project management, research and interviewing techniques. Projects and business partners will change from semester to semester.

CGT 252 3D Animation—Animating (3-0) 3 Cr. Hrs.
Prerequisite: CGT 247.
Corequisite: CGT 248 and CGT 249.
This class follows up on the skill sets that students were exposed to in Introduction to 3D Animation. In this class students will improve their understanding of the aesthetics and software technology involved in creating effective and convincing animation.

CGT 253 3D Compositing (3-0) 3 Cr. Hrs.
Prerequisite: CGT 248, CGT 249 and CGT 252.
In this class students will learn how to use 3D software and video compositing software together. They will learn the aesthetics of combining computer generated materials with live video. This studio course requires a six-hour per week commitment, which includes three hours in a lecture/lab and three hours in the appropriate open lab.

CGT 256 Portfolio 3D—Reel Development (3-0) 3 Cr. Hrs.
Prerequisite: CGT 253.
In this course students will pull together the complete 3D modeling skill sets in order to create self-directed projects for a demo reel or Web site.

CGT 270 Internship (3-0) 3 Cr. Hrs.
Prerequisite: Consent of department.
This internship is designed for the exceptional Computer Graphic Technology student. This course consists of 10–20 hours per week of off-campus work as an intern Graphic Designer or Media Developer with an approved business or company. CGT Internships will be administered by a full-time faculty member from the CGT Department. The instructor and the business partner will jointly evaluate the student.

CGT 298 Honors Studies (3-0) 3 Cr. Hrs.
Prerequisite: Completed (12) twelve hours of course work. Dean’s List status (GPA 3.5) and faculty approval.
An opportunity for the talented student to explore individually, in depth, under the guidance of a faculty member, a topic, issue, or problem related to the field of Computer Graphics Technology. Available to Dean’s List students or equivalent and with the permission of the instructor. This course will not be listed in the Schedule of Classes. To enroll in this course, a candidate must submit a Project Plan to an instructor. The instructor will review the plan with the candidate and may recommend changes. When the project is approved, a course section will be created and the student will be given permission to enroll.
# COMPUTER INFORMATION SYSTEMS

**Associate Dean:** Bruce Sweet, MA  
**Instructors:** Professor Doris McPherson, EdD  
Professor David W. Ruokolainen, MS  
Professor William Schlick, BEE  
Professor Jerry Wale, MSEE  
Associate Professor Timothy Ellis, BBA  
Assistant Professor Paul Turnage, MS  
Instructor Rodolfo Santiago, MBA  
Adjunct Faculty

NOTE: All the CIS courses listed below require the student to spend time outside the classroom in a specialized laboratory situation to complete assignments. State-of-the-art computer facilities are available for student use.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Prerequisite</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>CIS 105</td>
<td>Computer Orientation (1-0) 1 Cr. Hr.</td>
<td></td>
<td>None.</td>
<td>This course is designed for students who have had little or no experience with computers. Topics covered in this course include introduction to the Windows based operating systems and some word processing concepts. Basic word processing concepts will be introduced using the hands-on approach. Successful completion of this course meets the minimum requirement needed to qualify a student to use one of the College’s computers during open lab hours.</td>
</tr>
<tr>
<td>CIS 115</td>
<td>Introduction to Computer Based Systems (3-0) 3 Cr. Hrs.</td>
<td></td>
<td>Computer and Keyboarding experience highly recommended.</td>
<td>This is a three-credit-hour survey course of micro, mini, and mainframe computer systems. Class lectures include the following topics: Internet, Web and e-mail basics; hardware; software; file management, virus protection, backup; Internet and LAN technology; web pages, web sites and E-commerce; digital media; the computer industry history, products and careers; information system analysis and design; databases; computer programming; large-scale computing. Approximately one-third of the class time is spent as a hands-on course using personal computers to create web pages using HTML/XHTML and the Microsoft Windows Operating System.</td>
</tr>
<tr>
<td>CIS 120</td>
<td>Software Applications (3-0) 3 Cr. Hrs.</td>
<td></td>
<td>Computer and Keyboarding experience highly recommended.</td>
<td>This course is designed to provide hands-on experience with current office software packages for the computer. Emphasis is in the area of word processing, spreadsheets, database management and a presentation software program.</td>
</tr>
<tr>
<td>CIS 122</td>
<td>Microsoft Outlook (2-0) 2 Cr. Hrs.</td>
<td></td>
<td>CIS 120 or equivalent.</td>
<td>This course is designed to provide practical, hands-on experience with Microsoft Outlook. Microsoft Outlook is a flexible messaging and personal information management program used to send and receive e-mail, as well as to manage messages, appointments, contacts, and tasks.</td>
</tr>
<tr>
<td>CIS 123</td>
<td>Introduction to E-Commerce (3-0) 3 Cr. Hrs.</td>
<td></td>
<td>None.</td>
<td>This course is designed to familiarize individuals with current and emerging electronic commerce technologies using the Internet. Topics covered in the course include Internet technology for business advantage; managing electronic commerce funds transfer; reinventing the future of business through electronic commerce; business opportunities in electronic commerce; electronic commerce Web site design; social, political and ethical issues associated with electronic commerce; and business plans for technology ventures. The purpose of this course is to educate a new generation of managers, planners, analysts, and programmers of the realities and potential for electronic commerce.</td>
</tr>
<tr>
<td>CIS 125</td>
<td>Principles of Information Security (3-0) 3 Cr. Hrs.</td>
<td></td>
<td>None.</td>
<td>This course examines the field of information security to prepare individuals for their future roles as business decision makers. This course provides the foundation for understanding the key issues associated with protecting information assets, determining the levels of protection and response to security incidents, and designing a consistent, reasonable information security system, with appropriate intrusion detection and reporting features. In addition, the course also covers both the managerial and the technical aspects of this exciting discipline and addresses knowledge areas of CISSP (Certified Information Systems Security Professional) certification.</td>
</tr>
<tr>
<td>CIS 129</td>
<td>Introduction to Programming Logic (3-0) 3 Cr. Hrs.</td>
<td></td>
<td>None.</td>
<td>This is an introductory programming course where students will learn the fundamentals of program logic and design. Heavy emphasis is placed on program design techniques. Students will develop programs using top-down design, structured programming, and modular development methods.</td>
</tr>
<tr>
<td>CIS 170</td>
<td>Microsoft Windows (3-0) 3 Cr. Hrs.</td>
<td></td>
<td>Computer experience highly recommended.</td>
<td>This course is designed to explore the features of the latest Windows desktop operating system which include modules such as digital media, electronic messaging, networking, remote assistance, etc. In addition to studying the features that are included in Windows, the class will also emphasize customizing Windows to meet the user's needs. The students will learn to work with the desktop environment, documents and folders, toolbars and taskbar, control panel, file and web searching tools, Help files, and computer maintenance and performance optimization tools. It is recommended that students have experience using computers and have proficiency in keyboard and mouse usage.</td>
</tr>
<tr>
<td>CIS 171</td>
<td>Introduction to Networking (3-0) 3 Cr. Hrs.</td>
<td></td>
<td>Computer experience highly recommended.</td>
<td>This course introduces students to the key concepts of data communications, telecommunications and networking. The course provides a solid introduction to networking fundamentals including key acronyms, protocols, and components that are essential to understanding how networks operate today. Upon completion, the student will have a solid understanding of how information travels from a source computer to a destination computer across a complex network.</td>
</tr>
</tbody>
</table>
CIS 172  Network Security Fundamentals (3-0) 3 Cr. Hrs.
Prerequisite: CIS 171 or equivalent experience.
This course is designed to provide students a fundamental understanding of network security principles and implementation. A variety of hands-on and case project assignments will reinforce the technologies used and principles involved in creating a secure computer network environment.

CIS 173  Wireless Local Area Networks (3-0) 3 Cr. Hrs.
Prerequisite: CIS 171 or equivalent experience.
This course is designed to provide students a fundamental understanding of wireless Local Area Networks. A variety of hands-on assignments will reinforce the technologies used and principles involved in installing, configuring and managing a wireless LAN.

CIS 175  Visual Basic (3-0) 3 Cr. Hrs.
Prerequisite: CIS 129 and Windows experience.
This course is designed to teach students Visual Basic for the primary purpose of programming Windows applications. The structure and the syntax of the language which includes forms, projects, objects and events will be covered in the course. The course will also cover: debugging and error handling, file input and output and object linking and embedding (OLE) methods. It is recommended that students have experience using Microsoft Windows before taking this course.

CIS 176  Visual Basic.NET (3-0) 3 Cr. Hrs.
Prerequisite: CIS 129 and Windows experience.
This course is designed to provide students with the knowledge and skills needed to develop applications in Microsoft Visual Basic.NET for the Microsoft .NET platform. The course focuses on user interfaces, program structure, language syntax, and implementation details. It is recommended that students have experience using Microsoft Windows before taking this course.

CIS 177  Visual Basic for Applications (3-0) 3 Cr. Hrs.
Prerequisite: CIS 129.
Visual Basic for Applications (VBA) is a programming language found in many Microsoft and non-Microsoft products. VBA allows users to customize their applications by creating more convenient ways to perform common tasks. VBA is fast becoming the standard as third-party software publishers license VBA to include in their applications. As a result, rather than learning a separate language for each software application, students need only learn one.

CIS 178  Technical Microsoft Windows (3-0) 3 Cr. Hrs.
Prerequisite: Computer experience highly recommended.
This course is designed to serve the needs of students and information systems professionals who are interested in learning more about the features of the Windows Professional operating system, as well as individuals who are interested in obtaining Microsoft certification on this topic. This course includes real world examples, interactive activities, and hands-on projects that reinforce key concepts in preparing for Microsoft certification. It is recommended that students have experience using computers and have proficiency in keyboard and mouse usage.

CIS 180  Spreadsheet Applications—Current Software (3-0) 3 Cr. Hrs.
Prerequisite: CIS 120.
This course teaches students how to analyze comprehensive problems and design a worksheet solution in light of established goals. Worksheets will be created and modified that solve problems and that are useful decision-making tools. Emphasis is on designing solutions to problems by thinking through the problems and developing logical solutions to solve the problems using a comprehensive host of features in a popular spreadsheet software package.

CIS 185  Introduction to HTML (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course provides advanced instruction in the most important topics of HTML. The course begins with the basics of creating web pages with graphics and links, using tables, and controlling page layout with frames. Advanced topics covered include cascading style sheets, an introduction to programming with JavaScript, and working with JavaScript objects and events. The student is instructed in elements of web page design. Each student will produce a large-scale multimedia web page as a semester project.

CIS 211  Introduction to C++ (2-0) 2 Cr. Hrs.
Prerequisite: CIS 129 or equivalent.
This course is an introduction to the C++ Programming language. The student will learn the basics of the C++ language up through and including control structures, functions, and pointers. This course is intended for those who want a general knowledge of the C++ language.

CIS 212  Introduction to CGI using Perl (3-0) 3 Cr. Hrs.
Prerequisite: CIS 129 or equivalent.
This course covers the creation of interactive Web pages, using CGI scripts written in the Perl programming language. The student will learn how to build Web pages that use hyperlinks, forms, data files, and databases. The student will learn the use of subroutines, redirects, cookies, and hidden fields.

CIS 215  Advanced Software Applications (3-0) 3 Cr. Hrs.
Prerequisite: CIS 120 or written approval of the CIS department. CIS 180 recommended.
This course is designed for students who have a working knowledge of the computer and word processing, spreadsheet, and database packages. Advanced features of the software are developed building on a foundation of a beginning software applications course.

CIS 221  Advanced C++ (2-0) 2 Cr. Hrs.
Prerequisite: CIS 211.
This course is a continuation of the Introduction to C++ Programming language course. The student will learn the advanced concepts of the C++ language up through and including; operator and function overloading, inheritance, virtual functions, polymorphism, stream I/O, templates, exception handling, file processing, and data structures. This course is intended for those who desire an advanced knowledge of the C++ language.

CIS 222  Introduction to C# (3-0) 3 Cr. Hrs.
Prerequisite: CIS 129 or equivalent.
This course is an introduction to the C# Programming language. The student will learn the basics of the C# language up through Windows programming and including creating Web server form controls. This course is intended for those who want a general knowledge of the C# language, part of the Microsoft VisualStudio.NET.
CIS 225  Database Management (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course covers a popular relational database, Microsoft Access, in depth. Emphasis is on creating, editing, sorting, linking and querying databases. Forms, switchboards, and custom reports will be created. Advanced topics include designing and creating a complete application system, as well as programming in SQL. Emphasis will also be on understanding the concepts behind database management system design, to prepare students to be both users and developers.

CIS 226  Advanced Database Using PL/SQL with Oracle (3-0) 3 Cr. Hrs.
Prerequisite: CIS 225 or equivalent.
This course covers the creation of Oracle databases using PL/SQL programming language. Students will also receive instruction on the use of Oracle's procedure builder, form builder, report builder, and graphics builder.

CIS 227  Introduction to Structured Query Language (SQL) (1-0) 1 Cr. Hr.
Prerequisite: CIS 225 or equivalent.
This course teaches Structured Query Language on the introductory and intermediate levels. The syntax and application of the language will be covered in a practical, hands-on format. Students will use SQL to: create and populate tables, construct single-table queries, query multiple tables, update data in tables, administer databases, and produce reports. Microsoft Access will be used as the primary vehicle to present SQL commands.

CIS 233  Active Server Pages (3-0) 3 Cr. Hrs.
Prerequisite: CGT 152 or a basic knowledge of HTML or equivalent programming experience.
Students will be instructed in how to design and maintain interactive and dynamic web applications within the server-based scripting environment of Active Server Pages. With Active Server Pages, you will learn how to work with arrays, collections, and control structures. Using ASP, you will work with cookies, ADO, ODBC, and OLE Databases.

CIS 235  Managing and Troubleshooting PCs (3-0) 3 Cr. Hrs.
Prerequisite: Windows experience highly recommended.
Advanced operating systems features including custom batch files, backup and disk organization will be covered. Computer peripherals and upgrade features will also be emphasized. The student will examine the inside of the computer and practice adding upgrades, configuring systems, using diagnostic maintenance programs and installing software packages.

CIS 238  JavaScript (3-0) 3 Cr. Hrs.
Prerequisite: CIS 185 or CGT 152 or a basic knowledge of HTML.
JavaScript is a powerful, object-based scripting language that can be embedded directly into HTML pages. JavaScript allows you to create dynamic, interactive web-based applications that run completely within a web browser. This course covers JavaScript as a client-side scripting language.

CIS 239  Advanced C# (3-0) 3 Cr. Hrs.
Prerequisite: CIS 223 or equivalent.
This course is an advanced study in the use of the C# Programming language. The student will investigate advanced topics including data structures, ASP.net, and Web Services. This course is intended for those who wish to pursue an in-depth knowledge of the C# language.

CIS 250  Systems Development and Design (4-0) 4 Cr. Hrs.
Prerequisite: Microsoft Office experience highly recommended.
The student will be made aware of various tools available to the systems analyst in solving business problems. Basic tools are used by the student in the design of a system for a practical business application. Emphasis is placed on the communication between the systems analyst and the other levels of management. “Selling” of new systems and methods is stressed. Detailed steps of each phase of systems design are shown in their relationship to the overall study.

CIS 251  IT Project Management (3-0) 3 Cr. Hrs.
Prerequisite: Basic knowledge and/or experience in the field of IT.
This course presents the fundamental principles, practices, and tools necessary to effectively manage Information Technology projects. Nine project management knowledge areas will be applied including integration, scope, time, cost, quality, human resources, communications, risk, and procurement. The five process groups – initiating, planning, executing, controlling, and closing – will be employed in IT projects. Microsoft Project software will be taught and used to manage some of the details of assigned projects.

CIS 255  Introduction to LINUX (3-0) 3 Cr. Hrs.
Prerequisite: CIS 170 or equivalent experience.
This course is designed for students pursuing careers in computer information systems or who are currently in the industry. This is an introductory course that provides an overview of the LINUX operating system. A hands-on approach to common LINUX applications is used. Topics discussed include the LINUX operating system, basic LINUX desktop and terminology, LINUX utilities, and basic bash programs.

CIS 256  Introduction to XML (3-0) 3 Cr. Hrs.
Prerequisite: CIS 129 and a course in HTML or Java or equivalent.
This course will provide the student with an introduction to XML programming. The student will become familiar with Cascading Style Sheets, Document Type Definitions, Schemas, and Document Object Models.

CIS 260  Introduction to UNIX (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course is designed for students pursuing careers in computer information systems or who are currently working in industry. This is an introductory course that provides an overview of the UNIX operating system. A hands-on approach to common UNIX applications is used. Topics discussed: the UNIX operating philosophy, basic UNIX commands and terminology, UNIX utilities, and an introduction to shell programming.

CIS 265  Networking 1 (3-0) 3 Cr. Hrs.
Prerequisite: CIS 235.
This course is designed to introduce the student to communications terminology and technology using telecommunications and a local area network. The student will practice installing and maintaining a LAN.

CIS 267  Home Technology Integration (4-0) 4 Cr. Hrs.
Prerequisite: CIS 170 or equivalent.
This course is designed to introduce the student to networking technologies, audio visual systems, automation methods, and telecommunications techniques that converge in integrated home technology. The student will practice installing and maintaining a Home Networking System.
CIS 271  Local Area Networks (3-0) 3 Cr. Hrs.  
Prerequisite: CIS 171 or equivalent experience.

This course begins with the basics of Local Area Networks (LAN) concepts, technologies, components and protocols inherent in today's local area networking environments. Students will see how computers are connected together to form peer-to-peer and server-based networks, and discover the functionality and uses of a router, bridge, switch, hub and repeater. The two most commonly used network operating systems today, Microsoft's NT and Novell's NetWare, are also introduced in this course. VLANs and the various forms of Ethernet technology such as Fast Ethernet are also explained.

CIS 272  Wide Area Networks (3-0) 3 Cr. Hrs.  
Prerequisite: CIS 171 or equivalent experience.

This course introduces students to fundamental concepts of how information is transported over a Wide Area Network (WAN). Modes of communications used, analog vs. digital transmission will be discussed. Devices such as modems, microwaves, and satellites will be introduced. The lower physical layers of WANs, protocols used and methods employed to format data bits sent will be introduced. Topics on switched networks, T-carriers, Synchronous Optical Network (SONET), High-Level Data Link Control (HDLC), Serial Line Internet Protocol (SLIP), Point-to-Point Protocol (PPP), Integrated Services Digital Network (ISDN), Frame Relay, and asynchronous transfer rate (ATM) will be discussed.

CIS 273  TCP/IP and Network Architectures (3-0) 3 Cr. Hrs.  
Prerequisite: CIS 171 or equivalent experience.

This course introduces students to the key concepts of Transmission Control Protocol/Internet Protocol (TCP/IP). The world's largest network, the Internet, is also one of the world's most powerful communication tools. Students learn the underlying applications, components and protocols of TCP/IP and its necessary link to the Internet, and how to identify TCP/IP layers, components and functions. Navigation tools, TCP/IP services and troubleshooting methodologies are also reviewed.

CIS 275  Advanced Visual Basic (3-0) 3 Cr. Hrs.  
Prerequisite: CIS 175 or equivalent.

This course is designed for students who already have a working knowledge of Visual Basic. The course will cover the fundamental concepts in more detail and at a greater depth, as well as introduce more advanced concepts and techniques. These concepts and techniques will include: Error Handling and Debugging, Sequential, Random and Binary File Processing, Object-Oriented Programming, ActiveX, Database Management, Networking and the Internet, and Multimedia.

CIS 276  Networking 2 (3-0) 3 Cr. Hrs.  
Prerequisite: CIS 265.

This course is designed to follow the introduction to networking (Networking 1) course. Students will learn LAN configurations and protocols. Installation, management and troubleshooting Microsoft Windows Server on a local area network will be covered. Additional topics on hardware, clients, domains, user accounts and printers will be covered.

CIS 277  Network Infrastructure (3-0) 3 Cr. Hrs.  
Prerequisite: CIS 273 or equivalent experience.

This course is designed to serve the needs of students and information systems professionals who are interested in learning more about how to install, configure, and troubleshoot various network services for a Windows network infrastructure.

CIS 278  Network Environment (3-0) 3 Cr. Hrs.  
Prerequisite: CIS 273 or equivalent experience.

This course is designed to serve the needs of students and information systems professionals who are interested in acquiring the knowledge to implement, manage, and troubleshoot existing network and server environments based on the Microsoft Windows operating system.

CIS 281  Data Structures and Introduction to Windows Programming (3-0) 3 Cr. Hrs.  
Prerequisite: CIS 211 and CIS 221 or equivalent.

This course is designed for students pursuing careers in computer information systems or who are currently working in industry. This is an advanced course in programming using C++. Students will examine the use of abstract data structures in programming. The course is also an introduction to Windows programming.

CIS 283  Introduction to Internet Technologies (3-0) 3 Cr. Hrs.  
Prerequisite: CIS 171 or equivalent experience.

This Internet Technologies course begins with an overview of the Internet, its history, organization and structure. Once the general structure is understood, different ways to access the Internet will be explored, both as an individual user and as a group of users. Web clients and servers and the underlying protocols used by both are also covered as well as the requirements for building a web server. The final portion of the course reviews the many applications that are used for retrieving information or providing information across this global network of networks. This course is intended for industry professionals that would like an understanding of the structure and functions of the Internet.

CIS 284  Internetworking Devices (3-0) 3 Cr. Hrs.  
Prerequisite: CIS 273 or equivalent experience.

This advanced course is intended for networking professionals and other participants who grasp the general concepts of data communications and networking, but would like a more detailed understanding of internetworking and internetworking devices. This course focuses on the issues that are encountered with network growth and the internetworking components that offer solutions to these problems. The components covered in this class include repeaters, hubs, bridges, switches, routers and gateways. Network Management and the Simple Network Management Protocol (SNMP) are also discussed.

CIS 285  Process and Protocols (3-0) 3 Cr. Hrs.  
Prerequisite: CIS 273 or equivalent experience.

This is an advanced course intended for networking professionals and students who already grasp the general concepts of data communications and networking, but would like a more detailed understanding of the processes and protocols used in today's networks. Network architectures will be discussed from an OSI model perspective of the networking protocol stack, and a detailed analysis of the protocol will ensue using traces taken with protocol analyzers.

CIS 286  Network Analysis and Design (3-0) 3 Cr. Hrs.  
Prerequisite: CIS 273 or equivalent experience.

This is an advanced course intended for networking professionals and students who already grasp the general concepts of data communications and networking, but would like a more detailed understanding of network design and analysis. This course will present methods for analyzing, designing and managing computer networks.
COMPS 290  Object-Oriented Programming with Java  
(3-0) 3 Cr. Hrs.  
Prerequisite: CIS 129 or equivalent.  
This course provides an introduction to object-oriented programming using Java. Students will develop real world application programs and Web-based applets based on object-oriented programming concepts including encapsulation, inheritance, and polymorphism.

COMPUTER SERVICE
Associate Dean: Bruce Sweet, MA  
Instructors: Professor William Schlick, BEE  
Professor Jerry Wale, MSE
Adjunct Faculty

COMPS 124  Introduction to Personal Computers and Software  
(3-0) 3 Cr. Hrs.  
Prerequisite: None.  
This course is designed to introduce the student to the hardware and software aspects of the personal microcomputer. The student will learn to identify the key components of the computer. Numbering systems, digital logic, memory devices, digital circuits, and systems will be introduced to the student. An introduction to MS-DOS operating systems will be covered, as well as exploring the features of the Microsoft Windows operating system. The student will learn how a computer operates, how data is organized on a hard drive, how to format disks, how to use zip disks, and how to transfer data. The student will work with batch programs and learn to install commercial software on the computer. The student will gain experience using computers and develop proficiency in keyboard and mouse usage.

COMPS 126  Technical Programming  
(3-0) 3 Cr. Hrs.  
Prerequisite: Computer and keyboarding experience highly recommended.  
This course will introduce the student to the steps involved in writing a windows program using the Visual Basic programming language. The course focuses on user interfaces, program structure, language syntax, and implementation details. The student will also use the computer as a tool in problem solving.

COMPS 147  Computer and Peripheral Maintenance and Management  
(2-2) 4 Cr. Hrs.  
Prerequisite: COMPS 126 and ELECT 127.  
This course is designed to introduce the student to PC and peripheral maintenance and management. The student will learn how to maintain, upgrade, and support a PC system. System improvement will center on topics of hardware, as well as software. Students will examine proper system and component care, failure-prone items, and how to isolate, locate, and identify a failing component within the PC system.

CORRECTIONAL SCIENCE
Associate Dean: Robert F. Pearce, MPA  
Instructors: Adjunct Faculty

COR 110  Introduction to Corrections  
(3-0) 3 Cr. Hrs.  
Prerequisite: None.  
This course blends theory and operational knowledge for corrections. Students learn about the early development of corrections, sentencing, prisons, probation, parole, prisoner rights, community corrections, the role of the correctional officer and current concerns.

CRIMINAL JUSTICE
Associate Dean: Robert F. Pearce, MPA  
Instructors: Adjunct Faculty

CJ 102  Organization and Administration of Law Enforcement Agencies  
(3-0) 3 Cr. Hrs.  
Prerequisite: None.  
This course will provide the student with an overview and understanding of law enforcement management and supervision to include an historical perspective and appropriate applications. Students will be exposed to managerial processes with regard to communication, decision making and problem solving that enable managers to effectively train and motivate subordinates. This course will identify how law enforcement managers effectively handle discipline, complaints, grievances, conflict and stress. This course will further identify how managers deploy resources, improve productivity and utilize performance appraisals and evaluations. Students will analyze challenges in managing law enforcement agencies in a changing environment.

CJ 104  Introduction to Security  
(3-0) 3 Cr. Hrs.  
Prerequisite: None.  
This course provides the student with an understanding of the private side of law enforcement. Included in this process are studies in career opportunities, the history of both private and public law enforcement and the interrelationship and liabilities of both sectors.

CJ 107  Police Field Operations  
(3-0) 3 Cr. Hrs.  
Prerequisite: None.  
This course is a practical study of purposes, methods, types and means of law enforcement patrol, accident prevention and effective traffic control interviewing techniques. Students will learn about crimes in progress, stress survival, and use of force. Training will be received on proper methods of conducting preliminary investigations, unlawful assembly, and riot control.

CJ 113  Introduction to Criminal Justice System  
(3-0) 3 Cr. Hrs.  
Prerequisite: None.  
This course covers the overall system of criminal justice from crime detection to the release and reconviction of prisoners. The student will examine the role of law enforcement officers, corrections officers, probation officers, defense attorneys, prosecutors and judges as they relate to the defendant. The student will analyze the components of the system (law enforcement, courts and corrections) with emphasis on their interrelationships and expectations.
CJ 201  
**Criminal Investigation (3-0) 3 Cr. Hrs.**

*Prerequisite: None.*

This course is a study of criminal investigation, techniques of surveillance, collection, recording and preservation of evidence. Students will study the analysis of evidence and use of science laboratories. This course will be conducted in cooperation with other law enforcement agencies.

CJ 209  
**Basic Criminalistics (2-2) 3 Cr. Hrs.**

*Prerequisite: None.*

This course acquaints students with proper techniques of criminalistics. Students will have an opportunity to perform investigations in simulated crime scene situations using scientific investigative techniques involving collection, presentation, and interpretation of physical evidence.

CJ 211  
**Criminal Law and Procedures (3-0) 3 Cr. Hrs.**

*Prerequisite: None.*

This course is a study of the elements of criminal law, its purposes and function. The course will focus on the laws of arrest, search and seizure, rights and duties of officers and citizens. Students will study the elements necessary to establish crime and criminal intent, sources of criminal law, criminal responsibility and general court procedures.

CJ 212  
**Criminology (3-0) 3 Cr. Hrs.**

*Prerequisite: None.*

This course is designed to identify the theories of crime causation, behavioral systems in crime (organized white collar crime), nature and extent of crime. Emphasis will be given to law as social control, history and philosophy of punishment and contemporary correctional techniques.

CJ 221  
**Juvenile Justice (3-0) 3 Cr. Hrs.**

*Prerequisite: None.*

The purpose of this course is to study problems of juvenile delinquency and the theories that explain juvenile delinquency. Attention will be given to the work of youth agencies, legislative involvement and new approaches to the prevention of juvenile crime.

CJ 286  
**Police Academy (13-25) 21 Cr. Hrs.**

*Prerequisite: Consent of department before acceptance to the Police Academy.*

This course is designed to prepare recruits in the proper techniques of investigation, crime scene process, patrol procedures, operations and techniques. Emphasis will be placed on conflict mediation, report writing, detention and prosecution of prisoners. First aid, investigations, evidence collection, disaster control, civil disorders and tactical operations will be covered in the course. (40 hrs. minimum weekly)

---

**CAP 102  
Culinary Sanitation (2-0) 2 Cr. Hrs.**

*Prerequisite: None.*

The student will understand and apply basic sanitation techniques to the preparation of food products and in addition, will be prepared to pass the required certification examination of the Educational Foundation. Topics covered in the course include food borne illness, proper chemical usage, proper dish and pot washing, insect and rodent control, food storage and rotation, hazards in culinary environment, and state and national certification requirements.

**CAP 103  
Introduction to Professional Cooking Skills and Technique (5-0) 5 Cr. Hrs.**

*Prerequisite: CAP 102 or current ServSafe certification.*

This course will provide a broad orientation to the aspiring chef so that they will better understand what is required to succeed in the industry. Emphasis for discussion will be on professionalism, review of safety and sanitation, equipment, and identification of food products. Students will be required to purchase an initial set of hand tools for skills development. Students must receive an overall GPA of 2.5 to pass the class, as well as pass the final practical with a minimum of 2.5.

**CAP 104  
Culinary Technology and Research (3-0) 3 Cr. Hrs.**

*Prerequisite: CAP 103.*

Today’s advances in technology offer chefs the opportunity to cook with microwaves, infrared, high speed air envelopes, high-intensity halogen light, heat impingement and computers. New ovens combine these technologies into one product that can cook food in one-tenth the time of conventional methods. Hands-on experience with a selection of new oven technologies available in the industry will be practiced, along with product development exercises and exploration of mechanics of how food cooks. In addition, exposure to scientific research methods, product development and testing protocols, resource elimination, basic project management and directed problem solving will enhance the student’s grasp of culinary research, a growing segment of the food and hospitality industry.

**CAP 124  
Breakfast and Pantry (4-0) 4 Cr. Hrs.**

*Prerequisite: CAP 103.*

This course will teach students all the necessary procedures and principles in basic cooking skills as related to breakfast and pantry cookery. Topics covered are egg, potato, meat, and cereal cookery. Buffet setups and recipe procedure will be taught. Pantry cookery skills will include basic pantry operation: simple and composite salads, salad dressings, fruit trays, and cold sandwich preparation.
CAP 125 Pastry I (4-0) 4 Cr. Hrs.
Prerequisite: CAP 103.
This course will teach students all the necessary procedures and principles in the art of creating and producing many variations of beginning pastries. Upon successful completion of the course, the student will be able to: use measuring equipment and understand equivalents and conversions; understand and know proper usage of baking and pastry terminology; properly use hand tools and machinery; regulate and use an oven properly; understand health, safety and sanitation of work areas; make pies, puddings, pastries, cakes, and tortes.

CAP 128 Introduction to Food Techniques (4-0) 4 Cr. Hrs.
Prerequisite: CAP 103.
This course will teach the basic fundamentals of cooking techniques. The student will understand the methods of basic sauces, stocks, coulis’ and soup preparation. The student will learn to apply the appropriate cooking methods for specific cuts of meat, fish, poultry and game. Vegetable and starch cookery will also be included.

CAP 142 Butchery (4-0) 4 Cr. Hrs.
Prerequisite: CAP 103.
Students will learn commercial meat preparation, its fabrication, portion control and the importance of safe sanitary butchery practice. Students will select and prepare quality meats, fish and poultry for industry consumption and retail use. Students will be prepared to perform these important tasks in a safe and sanitary environment.

CAP 143 Dining Room Service (4-0) 4 Cr. Hrs.
Prerequisite: CAP 103.
Upon successful completion of the course, the student will be able to: understand different varieties of flour, know the purpose and chemical reaction of other ingredients in yeast doughs and quick breads, understand the nutritional value of baked goods, know how to use equipment for baking, understand proofing and fermentation of yeast products, understand different mixing methods, understand how to increase standard recipes, and cost out a recipe. In addition, students will be able to produce the following: French breads and rolls, hard rolls, soft rolls, pan breads, rye breads, whole wheat breads, corn bread, Danish pastry and coffee cakes, muffins, biscuits, quick breads and cookies.

CAP 190 Externship (15-1) 3 Cr. Hrs.
Prerequisite: CAP 103.
This course is designed to give the student, without work experience, a firsthand opportunity to gain working experiences in a quality run establishment while rotating through various work stations in a food service work environment. This is an elective course and requires departmental approval for enrollment.

CAP 215 Charcutiere (4-0) 4 Cr. Hrs.
Prerequisite: CAP 103 and all core CAP 100 level courses.
Students in this course will acquire professional skills in variations of hors d’oeuvres and savories, seasonings, condiments, stuffed meats, curing, pickling, smoking of meat, fish, and poultry. Proficiencies in sausage-making, garde manger, pates, terrines, galantines and stuffed meats are also taught.

CAP 227 Restaurant Cooking and Preparation (4-0) 4 Cr. Hrs.
Prerequisite: CAP 103 and all core CAP 100 level courses.
Students will participate in four workstations: Roast—Grill, Sauté, Entremetier (middle station) and Garde Manger—Pantry. Students will learn classical and modern cooking techniques and recipe development and the importance of consistency and clean work methods.

CAP 229 International Cuisine (4-0) 4 Cr. Hrs.
Prerequisite: CAP 103 and all core CAP 100 level courses.
Students will learn the culture, history, and terminology of various international cuisines, while also studying their traditional and contemporary cooking techniques. Students will prepare multi-course dinners for large groups based on those cuisines to reinforce this knowledge.

CAP 240 Pastry II (4-0) 4 Cr. Hrs.
Prerequisite: CAP 103 and all core CAP 100 level courses.
This course will cover the more intricate methods of producing fine pastries, puddings, mousse, cakes, tortes, ice cream desserts and chocolate work. Instruction covers recipe expansion and presentation.

CAP 241 Culinary Nutrition (2-0) 2 Cr. Hrs.
Prerequisite: None.
Lectures on nutrition and nutrition’s relationship to heart disease, cholesterol levels and body metabolism, are supported by actual meal preparation. Students will learn how to apply sound nutritional theories. The course stresses preparation of healthful foods that are pleasing to both the eye and the palate in order to cater to the growing number of health-minded customers.

CAP 242 À la Carte (4-0) 4 Cr. Hrs.
Prerequisite: CAP 103 and all core CAP 100 level courses.
Upon successful completion of this course, the student will be able to apply modern techniques in the preparation and presentation of food using sauté and grill techniques. Students will gain an understanding of the entremetier, garde manger and food storage stations. Proper lock-down and clean up procedure will be taught. Preparation and presentation of salads, cold meats, sandwiches as well as plate presentation will also be taught.

CAP 243 Storeroom Operations (3-0) 3 Cr. Hrs.
Prerequisite: CAP 103 and all core CAP 100 level courses.
Upon successful completion of this course, the student will have a basic knowledge of purchasing, receiving and inventory control through the use of the computer and the application of computer software which will enhance his/her ability to run a more effective and profitable kitchen operation.

CAP 247 Banquets and Catering (2-2) 3 Cr. Hrs.
Prerequisite: CAP 103.
Upon successful completion of this course, the student will demonstrate the ability to display knowledge of a variety of catering operations including planning, organizing, marketing and executing receptions, parties and special events. Students must participate in two events. This is an elective course.
CAP 260  Competitive Ice Carving (2-2) 3 Cr. Hrs.
Prerequisite: Proficiency evidenced in CAP and/or CM courses.
This course is for students who wish to further their culinary artistry by entering individual or team competitive ice carving events. This is an elective course.

CAP 265  Advanced Competitive Ice Carving (1-3) 3 Cr. Hrs.
Prerequisite: CAP 260 or consent of the department.
This course will present safety procedures related to ice handling, tools and equipment used in ice carving, qualities of carving ice, and discuss proper care and sharpening of tools. Use of templates and production of basic carvings will be accomplished. Advanced carving ability incorporating joining, assembling and multi block will be covered. This is an elective course.

CAP 267  Chocolatier (4-0) 4 Cr. Hrs.
Prerequisite: CAP 103 and CAP 125 or consent of department.
This course is designed to introduce the student to the handling techniques of chocolate. Students will learn to use artistic pieces to decorate cakes and adorn pastry buffets. Students will also be exposed to modeling and sculpting of chocolate centerpiece and chocolate truffle making. This is an elective course.

CAP 295  Salon Competition 1 (2-2) 3 Cr. Hrs.
Prerequisite: Selection to participate is made by the Chef Instructors.
Students will participate in a class which will build and refine their culinary skills. This first course will introduce the students to the requirements necessary to successfully compete in culinary competition. Students selected for this class may form the College Culinary Team. A number of field trips and training sessions, off campus, will be scheduled. This is an elective course.

CAP 297  Salon Competition 2 (Effective Winter 2007) (2-3) 4 Cr. Hrs.
Prerequisite: Selection to participate is made by the Chef Instructors. Satisfactory completion of CAP 295.
A continuation of Salon Competition 1 for students who have been selected to compete at state, national and international level culinary competition(s). The students must have demonstrated a proficiency for competition in Salon Competition 1 to be selected as participants in this advanced course. Selected students form a College Culinary Team and, as such, can represent Schoolcraft College in culinary competition(s).

CULINARY ARTS PROGRAM ADVANCED:
Executive Director of Development & Governmental Relations: John Walsh, JD
Director: Bruce Konowalow, MA
Instructor: Assistant Professor Marcus Haight, CEC, CEPC

CAPA 209  Introduction to Brigade (1-1) 1 Cr. Hr.
Prerequisite: Successful completion of a Culinary Arts Associates degree or equivalent qualifications. Completion of sanitation and nutrition courses or completion of American Culinary Federation approved seminars or equivalent certification. GPA of 3.0 or higher. One year of work experience in a fine dining restaurant is preferred. Admission to the Brigade program.
In the first of two demonstration courses of the Brigade program, the chef instructor will demonstrate basic techniques in butchering meats and fish, preparation of stocks and sauces as well as basic pastry creams, custards and merengues. This will assure that students have a consistent foundation in basic principles and techniques that will be used during the entire program.

CAPA 210  Restaurant Demonstration Week (1-1) 1 Cr. Hr.
Prerequisite: Successful completion of a Culinary Arts Associates degree or equivalent qualifications. Completion of sanitation and nutrition courses or completion of American Culinary Federation approved seminars or equivalent certification. One year of work experience in a fine dining restaurant is preferred. Admission to the Brigade program.
In the second of two demonstration courses of the Brigade program, the chef instructor will demonstrate and reinforce basic techniques in butchering meats and fish, preparation of stocks and sauces as well as soufflés, merengues, ice creams and sorbets. This will assure that students have a consistent foundation in basic principles and techniques that will be used during the entire program.

CAPA 215  Saucier and Sauté (4-8.5) 6 Cr. Hrs.
Prerequisite: Successful completion of a Culinary Arts Associates degree or equivalent qualifications. Completion of sanitation and nutrition courses or completion of American Culinary Federation approved seminars or equivalent certification. GPA of 3.0 or higher. One year of work experience in a fine dining restaurant preferred. Admission to the Brigade program.
Saucier Cook Element—Most accomplished Chefs worldwide would agree that a complete understanding of the fundamentals of stock and sauce preparation is the foundation of good cooking. This class builds knowledge in this important area with strict guidelines of proper methods and function of top quality ingredients in a professional kitchen.
Sauté Cook Element—In this course, students are introduced to the important elements of sauté cookery. Time-honored techniques as well as contemporary approaches will be covered. Participants will have the opportunity to learn how to integrate their efforts with the various stations in a complete kitchen brigade. How to incorporate sautéed entrees with other menu selections for balance and production sense will be presented. In addition to the sautéed items, the side dishes and garnishes for the sautéed items will be prepared by the students in this station. Plating and presentation will be emphasized daily.
CAPA 216 Fish and Hot Appetizer (4-8.5) 6 Cr. Hrs.
Prerequisite: Successful completion of a Culinary Arts Associates degree or equivalent qualifications. Completion of sanitation and nutrition courses or completion of American Culinary Federation approved seminars or equivalent certification. One year of work experience in a fine dining restaurant preferred. Admission to the Brigade program.

Fish Station Element—In a large Brigade, the Poissonier (Fish Chef) is responsible for the preparation of all fish dishes. This class is designed to teach the student proper fabrication and portioning, cooking, plating and garnishing of fish, as well as seafood. Fresh fish, crustaceans and when available, cephalopods, will be utilized in the menu format to showcase these important nutritive elements of the menu. Students will have the opportunity to learn effective fabrication, storage, rotation and utilization of the fish products. In addition to fish preparation, the side dishes that accompany the fish and shellfish will be made by the students in this station. Incorporating several cooking procedures directed by the menu and customer needs will ensure a well-rounded knowledge of the subject matter. Plating and presentation will be emphasized daily.

Hot Appetizer Station Element—Students will also have the opportunity to learn how to develop plated hot appetizers. Emphasis will be on utilization, fabrication of leftovers, trimmings, organ meats and transforming ordinary food inventory items into menu items. Students will be presented contemporary and traditional approaches with emphasis on supporting the proper fundamentals of cooking. Balance, nutrition and harmony with menu entrees will be important goals in this section. Plating and presentation will be emphasized daily.

CAPA 217 Garde Manger and Vegetable Cooking (4-8.5) 6 Cr. Hrs.
Prerequisite: Successful completion of a Culinary Arts Associates degree or equivalent qualifications. Completion of sanitation and nutrition courses or completion of American Culinary Federation approved seminars or equivalent certification. One year of work experience in a fine dining restaurant preferred. Admission to the Brigade program.

Garde Manger Element—Garde Manger, the cold food storage place in classical kitchens is an important element of food service. Here culinary artistry can really be showcased, providing the student with presentation skill development while honing craftsmanship. Cold sauces and salads will be covered. Handling and selection of ingredients will be covered. Traditional methods of garde manger with modern interpretation and plating methods will be presented. Hors d’oeuvres, canapés, and international specialties will be discussed and explored. Plating and presentation will be emphasized daily.

Vegetable Cooking Element—This section will cover practical vegetable cookery in the professional kitchen. Grains, legumes, and vegetables will be highlighted. The vegetable station will be responsible for special dietary requests and will compose a different weekly vegetarian entree. Students will work with a state-of-the-art computerized nutrition program to provide printed analysis of the weekly prix fixe “Light Menu”. Strict portion control methods will be learned with menu composition for a healthy, common sense approach to diet. This specialized area of study will be extremely useful to any serious culinary student.

CAPA 218 Roast and Meat Butchery (4-8.5) 6 Cr. Hrs.
Prerequisite: Successful completion of a Culinary Arts Associates degree or equivalent qualifications. Completion of sanitation and nutrition courses or completion of American Culinary Federation approved seminars or equivalent certification. One year of work experience in a fine dining restaurant preferred. Admission to the Brigade program.

Roast Station Element—Historically, the Roast station is one of the most important stations in the Kitchen Brigade. In addition to roasting, the side dishes that accompany roasted foods will be made by the student in this station. Glazes and essences will also be integrated with dishes served on this post. Plating and presentation will be emphasized daily.

Roast Butchery Station Element—A European style of butchery is taught to enhance the skill set of the culinary student. Ballontines, quenelles, croquettes, warm forcements, and custom fillings are taught. Proper fabrication, trimming and portioning are elements that will be emphasized. Inventory, storage and ordering of meat and game products will interface with the core program Butchery standard.

CAPA 219 Grill and Meat Butchery (4-8.5) 6 Cr. Hrs.
Prerequisite: Successful completion of a Culinary Arts Associates degree or equivalent qualifications. Completion of sanitation and nutrition courses or completion of American Culinary Federation approved seminars or equivalent certification. One year of work experience in a fine dining restaurant is preferred. Admission to the Brigade program.

Grill Station Element—Properly grilled foods are an important component of many menus. In this station, the student will learn grilling techniques for meats, poultry, fish, shellfish and vegetables. In addition to grilling, the side dishes that accompany grilled foods will be made by the student in this station. A la minute and batch cookery of grains and vegetables will be learned. Compound butters, glazes and essences will also be integrated with dishes served on this post. Plating and presentation will be emphasized daily.

Grill Butchery Station Element—The meats and poultry to be grilled are butchered by the student in this station. Maximum yield, consistent portioning and correct trimming are emphasized here. Proper storage, forecasting needs and ordering of meat and poultry will be addressed in this station.

CAPA 220 Restaurant Desserts (4-8.5) 6 Cr. Hrs.
Prerequisite: Successful completion of a Culinary Arts Associates degree or equivalent qualifications. Completion of sanitation and nutrition courses or completion of American Culinary Federation approved seminars or equivalent certification. One year of work experience in a fine dining restaurant is preferred. Admission to the Brigade program.

The restaurant pastry class is designed to teach the student everyday applications of artistic plated desserts, specialty desserts and nutritional options. Hot and cold kitchen desserts will be taught. A la minute and batch cookery will define varied approaches to production balance. Quick sabayons, soufflés and fresh fruit compositions will enhance the culinarian’s skill repertoire. Multi-use applications for sorbet and ice cream offerings will be explored in the format of parfaits, coupes, and frozen desserts. Plating and presentation will be emphasized daily.
CAPA 235  European Study Tour (1-1) 1 Cr. Hr.  
Prerequisite: Successful completion of a Culinary Arts Associates degree or equivalent qualifications. Completion of sanitation and nutrition courses or completion of American Culinary Federation approved seminars or equivalent certification. One year of work experience in a fine dining restaurant is preferred. Admission to the Brigade program and satisfactory completion of CAPA 209 and CAPA 210 as well as all other CAPA courses taken. This course is designed to expose the students to a culture that revolves around food, wine and the arts. Students will visit local restaurants including, in the case of France, cafes, brasseries, bistros and starred (examples: one, two, or three starred) restaurants. Local markets will be visited for fresh foodstuffs, food products, and food equipment. Where possible, specialty markets and wine shops will also be visited. Students will be exposed to the European way of life, including use of local mass transportation to visit cultural venues. Independent Study and reporting is available as an alternative to this course. Students must contact the Director of Culinary Arts for more information prior to enrolling in this course.

CULINARY BAKING AND PASTRY ARTS

Executive Director of Development & Governmental Relations: John Walsh, JD  
Director: Bruce Konowalow, MA  
Instructors: Professor Joseph Decker, CMPC  
Professor Jeffrey Gabriel, CMC

CBPA 103  Introduction to Baking and Pastry Skills and Techniques (2-0) 2 Cr. Hrs.  
Prerequisite: CAP 102. This course will provide a broad orientation to aspiring bakers and pastry chefs in order to offer a better understanding of the specialized fields of baking and pastry. Discussions will include professionalism, safety and sanitation, equipment identification, function and maintenance. The fundamental baking processes, handling and function of ingredients will be covered. Students will be required to purchase uniforms, as well as specific tools for skill development.

CBPA 125  Pastries (5-15) 20 Cr. Hrs.  
Prerequisite: CBPA 103. Upon successful completion of this course, students will have acquired professional skills in the art of pastry including recipe expansion and costing, use of hand tools and equipment, safety, sanitation and organization skills. Products introduced to the aspiring students include pies and tarts; French pastry; individual pastries; classical and contemporary tortes; warm, cold and frozen desserts; contemporary plated desserts; miniature pastries; chocolates; cake decoration; and decorative centerpieces.

CBPA 144  Baking (3.75-11.25) 15 Cr. Hrs.  
Prerequisite: CBPA 103. Upon successful completion of this course, students will have acquired professional skills in the art of baking. This course will cover basic elements including: costing out recipes, expanding and reducing recipe sizes, proper usage of bakery equipment, using straight dough methods to produce French Baguettes, soft and hard rolls, pan breads and many hearth breads, as well as production of various cookies, quick breads, muffins and biscuits. Advanced techniques will be taught including: fermentation processes and how they contribute to flavor; mixing methods, the functionality of ingredients, the study of various flours, as well as chemical reactions that take place while baking. The production of artisan breads, laminated doughs, savory baked goods, specialty baked goods, breakfast pastries, high ratio cakes and decorative centerpieces will be important aspects of this course.
CULINARY MANAGEMENT
Executive Director of Development & Governmental Relations: John Walsh, JD
Director: Bruce Konowalow, MA
Instructors: Adjunct Faculty

CM 107  Culinary Management—Food and Culture
(3-0) 3 Cr. Hrs.
Prerequisite: None.
This course is a cross cultural, interdisciplinary investigation in the relationships between the foods humans prepare and consume and the cultures they build. The course will demonstrate the ways intellectual, social, religious and political events affect the preparation of food in various civilizations and at various periods in human history.

CM 108  Introduction to Hotel/Hospitality Management
(2-0) 2 Cr. Hrs.
Prerequisite: None.
This is an introductory course that allows students to investigate hotel operations, systems, and management procedures. Students will explore the differences between classes of hotels and hospitality venues by seeking the manner in which the industry markets to specific guest demographics. Industry professionals will share their real-life expertise. Students with an interest in restaurant and hospitality management will gain a greater understanding of the nation’s largest industry.

CM 109  Hospitality Law (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course provides students with an overview of the general concepts of law as it relates to the hospitality industry. Contract, property, employee, guest, insurance, food and beverage responsibility, and business operating structure issues will be covered. The emphasis will be on restaurant law, but applicability to other aspects of hospitality law, such as catering and hotel management, will be explored.

CM 203  Restaurant Concepts and Design (3-0) 3 Cr. Hrs.
Prerequisite: Completion of 2-year Culinary Arts Program (CAP).
This course will explore new concepts for the entrepreneur in the restaurant industry. New trends and restaurant décor, along with facility layout and design will be emphasized.

CM 210  Wine and Spirits (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course will provide comprehensive, detailed information about the origins, production and characteristics of all types of alcoholic beverages: Wines from all over the world, beers, ales and distilled spirits, including brandies and liqueurs. Attention will be given to table, sparkling and dessert wines. The student will gain understanding of purchasing and storing wines, retail merchandising, bar operation and beverage management. Students will develop an understanding of wine and spirit laws. This is an elective course.

CM 211  Culinary Marketing for the Restaurant Industry
(3-0) 3 Cr. Hrs.
Prerequisite: Completion of 2-year Culinary Arts Program (CAP).
This course is an overview of the general concepts of marketing and its relation to the restaurant business. Product merchandising, promotion and customer satisfaction will be covered. Different styles of advertising and how to measure their effectiveness will be explored.

CM 213  Culinary Management for Restaurant Operations
(3-0) 3 Cr. Hrs.
Prerequisite: Associate Degree in Culinary Arts or 2-year Certificate in Culinary Arts.
Students will learn practical applications of restaurant management principles. This course will explore various management styles, focus on the use of financial statements as a management tool, review cost controls, and explore techniques in personnel management. In addition, planning and organization skills will be discussed.

CM 222  Management Accounting for Restaurant Industry
(4-0) 4 Cr. Hrs.
Prerequisite: Completion of 2-year Culinary Arts Program (CAP).
Students will learn accounting concepts that match the skills required to manage a restaurant. There will be a review of the preparation of basic accounting statements, including income statements, balance sheets and statements of cash flow. Other concepts discussed include forecasting, break-even analysis and taxes. Students will use computer software applications.
## DESIGN

**DSGN 113 Industrial Schematics with Animation (2-2) 3 Cr. Hrs.**  
**Prerequisite:** Windows experience highly recommended.  
This course introduces the student to Automation Studio software which designs, tests, animates, and simulates automation industrial control systems. Controlling circuitry will use hydraulic, pneumatic, electrical and programmable logic controller's icons to simulate computer aided printout schematics. The software allows the student to print and export their diagrams, determine cost of components, and bill of materials.  
This is a new dimension of training in visualizing virtual operation of how hydraulic and pneumatic components work, how they are controlled, and the ease in designing schematics and component sizing.

**DSGN 180 Machine Elements and Design (3-2) 4 Cr. Hrs.**  
**Prerequisite:** CAD 107 or equivalent and MATH 113.  
This course is designed to introduce the student to the various machine elements and the mechanical/working relationship between elements that make up a mechanism. The machine element concepts covered include fasteners, gears, cams, linkages, and bearings. The introduction to the design process includes: problem definition, needs analysis, design/performance objectives, cost analysis, design alternatives, feasibility analysis and design selection.

**DSGN 200 Geometric Dimensioning and Tolerancing (2-0) 2 Cr. Hrs.**  
**Prerequisite:** DRFG 102 equivalent work experience or consent of department.  
This course provides application of principles in geometric dimensioning and tolerancing. Fundamentals including concepts of maximum material condition, virtual size, geometric symbols and their interpretation, with analysis of mating parts are fully described. Course is based on American Society for Manufacturing Engineers Y14.5M-1994 standards.

**DSGN 240 Tool and Die Design (2-4) 4 Cr. Hrs.**  
**Prerequisite:** CAD 107 or equivalent and MATH 113.  
This course covers the development of press working tools such as cutting dies, piercing dies, forming dies and drawing dies. From the scrap strip to the assembly drawing, the designing procedure is analyzed. Sketching and AutoCAD will be used to develop and draw the designs.

**DSGN 260 Jig and Fixture Design (2-4) 4 Cr. Hrs.**  
**Prerequisite:** CAD 107 or equivalent and MATH 113.  
This course covers the development of work holding and tool guiding devices used in manufacturing. Emphasis is placed on the types of tools, supporting and locating principles, clamping methods, construction methods, initial design procedure and working drawing requirements. Design projects are used to reinforce theory and to provide an opportunity to gain practical experience. Sketching and CAD will be used to develop, create and detail designs and assemblies. ANSI/ASME Standards will be followed.

## DRAFTING

**DRFG 102 Machine Trades Print Reading (2-0) 2 Cr. Hrs.**  
**Prerequisite:** None.  
This course develops a person’s ability to interpret manufacturing prints. Topics covered include: third angle projection, type of lines, dimensions, sloping surfaces and angles, tolerances and allowances, thread representation, types of sections, specifications and stock lists, auxiliary views, assembly drawings and details.

**DRFG 106 Fundamentals of Drafting (2-0) 2 Cr. Hrs.**  
**Prerequisite:** None.  
This course introduces the use of lettering, freehand sketching, and technique in drawing with various line conventions. Students learn the proper usage of drawing instruments in mechanical drawing, geometric construction, laying out of orthographic projection, dimensioning of common three views. Shop drawings, sectioning, reference line projection are included as an introduction to ANSI drafting standards.

**DRFG 114 Descriptive Geometry (2-2) 3 Cr. Hrs.**  
**Prerequisite:** CAD 103 or consent of department.  
Students will explore graphic representation and solution of space problems, basic and advanced orthographic projection, points, lines, planes, solids, auxiliary views, parallelism, perpendicularity, developments and intersections.

## ECONOMICS

**ECON 103 Introductory Economics (3-0) 3 Cr. Hrs.**  
**Prerequisite:** None.  
This course is a survey of the macroeconomic concerns of national income determinations, business cycles, unemployment, inflation and both fiscal and monetary policies to stabilize the aggregate economy. In addition, this course explores the microeconomic fundamentals of demand, supply, elasticity, consumer choice, the production costs of output and resource allocation of firms operating under various market structures, and the international economy.

**ECON 201 Principles of Macroeconomics (4-0) 4 Cr. Hrs.**  
**Prerequisite:** MATH 053 or equivalent.  
Macroeconomics refers to that portion of economic analysis which is concerned with behavior of economy-wide issues, e.g., inflation, unemployment, etc. By means of theoretical reasoning and empirical research, economists have identified a number of relationships or principles which are useful in explaining and predicting macroeconomics; their application to an understanding of current economic problems, and their implication for economic policy. The intent of the course is to provide the student with a basic level of economic literacy essential for a well-informed citizenship in the years ahead. In economics, perhaps more than any other comparable discipline, things are not always what they appear to be. Indeed, many economic problems both past and present have resulted from the misunderstanding of fundamental economic relationships.

**ECON 202 Principles of Economics (4-0) 4 Cr. Hrs.**  
**Prerequisite:** MATH 053 or equivalent.  
This course provides students with an introduction to the theory of consumer behavior, production theory, market structure in product and resource/factor markets, and microeconomic policy.
ELECTRICITY, ELECTRONICS, ELECTROMECHANICS
Associate Dean: Bruce Sweet, MA
Instructors: Professor William Schlick, BEE
Adjunct Faculty

ELECT 119 Basic Measurement and Reporting Skills (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course is designed for students who are pursuing a career in electronics or electronic related fields. The student will receive instruction on how to conduct career research and in the proper use of basic measuring instruments, such as the Digital Multimeter (DMM), the Volt-Ohm Meter (VOM), the sinewave generator and the oscilloscope. In the electronics laboratory, the student will make measurements, record data, maintain a logbook and develop conclusions based on the results. In the computer laboratory, students will learn how to organize and report their findings utilizing word processing, spreadsheet, and presentation software.

ELECT 125 Electrical, Electronics Experience 1 (0-40) 3 Cr. Hrs.
Prerequisite: Consent of the department.
This is the first cooperative industrial assignment for a student who has successfully completed 26 credit hours of the program. Employment will be full time outside the college in a meaningful technical capacity with duties approximating those of a beginning technician. The assignment will be made upon consent of the student and mutual approval of both the department and the coordinator. The employer must agree to a rotation policy in which the student is able to alternate college and work every four months. Both the College and the employer will jointly evaluate the student. Evaluation will serve as a basis for grade in the course.

ELECT 127 DC Circuits and Mathematical Modeling (5-0) 5 Cr. Hrs.
Prerequisite: High School Algebra I or MATH 053.
This course is the study of basic DC Fundamentals and mathematical modeling for the electronics careers which includes: Ohm’s law, Power law, and Kirchhoff’s laws with application to solving series, parallel, and series-parallel combination circuits. Other topics will include resistors, color code, magnetism, electromagnetism, and test equipment. The mathematics skills needed for an electronics career will also be covered in this course. The student will be prepared to enter the second semester course of ELECT 128 AC Fundamentals and Mathematical Modeling. Laboratory experiments and project(s) are utilized to teach the use of test equipment and to demonstrate the principles taught in lecture. Computer assignments are incorporated to enhance learning and to familiarize students with instructional and simulation software.

ELECT 128 AC Circuits and Mathematical Modeling (5-0) 5 Cr. Hrs.
Prerequisite: ELECT 127
Corequisite: ELECT 129.
This course is designed to explore the theory and application of AC Fundamentals. Sinewave generation and analysis will be studied. The theory of Kirchhoff’s laws will be used to solve AC series, parallel and series-parallel circuits using the method of phasors. Other topics covered include: capacitors, inductors, transformers, resonance, passive filters, RC and RL circuits. Laboratory experiments are utilized to teach the use of common test equipment and to demonstrate the principals taught in lecture. PCs with Electronic Workbench will be utilized in laboratory experiments for modeling, simulations, and troubleshooting.

ELECT 129 Diodes and Transistors (3-0) 3 Cr. Hrs.
Prerequisite: ELECT 127
Corequisite: ELECT 128.
This course will introduce the students to various semiconductor devices starting with a discussion of internal construction, followed by circuit configurations, applications, and troubleshooting techniques. Diodes will be discussed first and will include signal, rectifier, Zener, and light emitting types. Transistor material will cover NPN and PNP bipolar types, J type FETs, enhancement and depletion MOSFETs. Finally, transistor switching circuits will be examined.

ELECT 134 Introduction to Microcontrollers (3-0) 3 Cr. Hrs.
Prerequisite: COMPS 126.
This course will introduce the student to the concepts of microcontroller architecture, block components, numbering systems and PBASIC2. Representative microcontroller commands and elementary programming of the Parallax BASIC STAMP will be studied. Students will work with hands-on experiments, which they will learn to expand and customize for their personal needs. Students will keep the Board of Education at the completion of the course.

ELECT 135 Fluid Power (4-0) 4 Cr. Hrs.
Prerequisite: MATH 053 or equivalent.
This course emphasizes the understanding of the fundamentals of hydraulics and pneumatics. In this course, students will design, analyze, operate, and maintain fluid power systems. Emphasis is placed on understanding the physics of fluids and how energy, power, and force affect the devices that make up a hydraulic and pneumatic system.

ELECT 200 Electrical and Electronics Experience 2 (0-40) 3 Cr. Hrs.
Prerequisite: ELECT 125 or ELECT 226.
This is a cooperative industrial assignment for students who are continuing work study programs on a rotational basis. The conditions for assignment and evaluation and the employer’s responsibilities are the same as for ELECT 125- Electrical, Electronics Experience 1. Students are expected to handle technical responsibilities and perform tasks like the operation of complicated equipment, taking and presenting data, repair of equipment, assembly and construction of experimental models, electrical drafting, and writing specifications.

ELECT 204 Data Acquisition and Interface (2-3) 3 Cr. Hrs.
Prerequisite: ELECT 134 completed within the past year, ELECT 206 and ELECT 226.
This course will introduce the student to various computer interfaces by having the student develop programs and verify their operation with the actual interface hardware.

ELECT 206 Operational Amplifiers and Linear Integrated Circuits (4-0) 4 Cr. Hrs.
Prerequisite: ELECT 129.
This course will introduce the student to operational amplifiers (op amp) and linear integrated circuits. Op-amp circuit configurations, applications and troubleshooting techniques will be presented. Operational amplifiers will be presented with emphasis on applications and circuits such as inverting and non-inverting amplifiers, integrators, differentiators and filters. The coverage of linear integrated circuits includes voltage comparators, timers, oscillators, voltage regulators special purpose amplifiers, communications circuits and data conversion circuits.
ELECT 225  Electrical, Electronics Experience 3 (0-40) 3 Cr. Hrs.
Prerequisite: ELECT 200.
This is a cooperative industrial assignment for a student who has been employed for at least eight months as a cooperative student. The conditions for assignment and evaluation and the employer’s responsibilities are the same as for ELECT 125 Electrical, Electronics Experience 1. In this capacity, the student can be expected to assume technical responsibility at the level of a technician with six months experience.

ELECT 226  Digital Logic Circuits (4-0) 4 Cr. Hrs.
Prerequisite: None.
Corequisite: ELECT 129.
This course acquaints students with Boolean algebra (emphasizing NAND and NOR) and various medium scale integrated circuits like exclusive or encoders, decoders, multiplexers, adders, counters, and shift registers. Also explored are memory (core, RAM and ROM) and bidirectional line drivers. The laboratory work coincides with classroom lecture material utilizing integrated circuits almost exclusively.

ELECT 229  Electronic Troubleshooting (3-0) 3 Cr. Hrs.
Prerequisite: ELECT 206 and ELECT 226.
This course covers the technique of troubleshooting along with the application of basic instrumentation used in the process. Laboratory work will offer opportunity for actual troubleshooting experience. This experience will include both reporting failure data and description of parts to be ordered.

ELECT 237  Programmable Logic and Industrial Controls (4-0) 4 Cr. Hrs.
Prerequisite: Windows experience highly recommended.
The student will use Programmable Logic Controller (PLC) and Allen-Bradley RSLogix software to convert typical hardwired electrically controlled circuitry used in industry to computer-controlled system. Emphasis will be placed on understanding the purpose and operating features of a PLC including input/output addressing and associated commands used in the PLC program. A computer will be used to write and download a program to be tested for logical control. The student will use Linx software and networking to learn communication procedure for downloading a PLC program to the controller as well as the types of cable connections used. PanelView will be reviewed to understand its real time monitoring capability of the software. Various PLC commands will be used including internal relays, ON and OFF timers, UP and DOWN counters, subroutines, program control and math instructions.

ELECT 239  Programmable Logic System Design (4-0) 4 Cr. Hrs.
Prerequisite: ELECT 237 or equivalent PLC experience.
The student will use Allen-Bradley RSLogix 500 software to be interfaced with RSLine communication software, and PanelView for control panel applications. Data Highway Plus will be used for network communications with other Programmable Logic Controllers (PLC) components. Emphasis will be placed on incorporating and combining programming commands, timers, counters, subroutines, data manipulation, and mathematics into control process systems. Installing, wiring, and networking PLC systems will be covered. Students will learn how to use troubleshooting features of the PLC software to find and diagnosis hardware, configuration, and programming problems.

ELECT 240  Electronic Data Communication (3-2) 4 Cr. Hrs.
Prerequisite: ELECT 206 and ELECT 226.
The student will first study the basics of communications which include AM, FM, and PM (modulations), receivers and transmitters, antennas and transmission lines. Instruction in data communication concepts will be covered next starting with the telephone line equipment, MODEMS and RS standards, and finally fiber communication links.

ELECT 241  Electronics Projects (3-0) 3 Cr. Hrs.
Prerequisite: ELECT 229 or equivalent.
Advanced use of electronics and a microcomputer to design, build and operate a real time system will be explored. The student will apply the concepts learned in prior electronics classes involving, Digital and Analog signal processing (hardware), with the concepts learned in prior programming classes (software) in order to control real world devices using a computer. The student will design and build the hardware interfacing needed to accomplish the goal of Data Acquisition. The student will design and program the necessary software to control the hardware, as well as process and display data on a computer. The final project will permit the student to create a system which involves Data Acquisition, Hardware Control, and data processing to produce an intelligent system.

ELECT 250  Individual Student Projects (3-0) 3 Cr. Hrs.
Prerequisite: By midterm of the previous semester the student must submit a written proposal for approval by department.
Students will plan, organize, assemble or fabricate and test the project of their choice or one suggested by the instructor. Under guidance of the instructor, the electronic laboratory will be made available three hours a week in which time the student may perform tests.
EMERGENCY MEDICAL TECHNOLOGY

Associate Dean: Robert F. Pearce, MPA
Program Coordinator: Robert Frank, Licensed Paramedic
Instructors: Adjunct Faculty

EMT 108 Emergency Medical Technology—Basic (8-4-4) 10.5 Cr. Hrs.
Prerequisite: None.
The Basic Emergency Medical Technician course is an approved course that provides the information and experience necessary to prepare the student to take the National Registry of Emergency Medical Technician licensing examination. Students learn the role and responsibilities of an emergency medical technician in providing emergency care. Content areas are covered in lectures, practical skills practiced in a laboratory, and observations and applications experienced in a clinical setting.

EMT 114 Emergency Medical Technology—Specialist (5-3-6) 7 Cr. Hrs.
Prerequisite: EMT 108.
Emergency Medical Technology-Specialist is an approved course that provides the information and experience necessary to prepare the student to take the National Registry of Emergency Medical Technician-Intermediate licensing examination. All procedures for the course are evaluated by a physician advisor. This course is designed to teach students how to deal with more complex medical emergency situations than are handled in the basic EMT course (EMT 108). Students develop advanced skills in diagnosis and emergency treatment short of those rendered by physicians or by allied health personnel under the direct supervision of the physician.

EMT 201 Paramedic Technology 1 (11-3) 12.5 Cr. Hrs.
Prerequisite: EMT 108.
This course provides the information and experience necessary to prepare the student for EMT 202 and to take the National Registry of Emergency Medical Technician-Paramedic licensing examination, following the completion of EMT 203. EMT 201 is designed to give students extensive practical application of the knowledge and skills acquired in EMT 108 and/or EMT 114 in complex medical situations. The course focuses on state-of-the-art medical technologies and medical emergency management.

EMT 202 Paramedic Technology 2 (9.5-3-19) 12.5 Cr. Hrs.
Prerequisite: EMT 201.
This course provides the information and experience necessary to prepare the student for EMT 203 and to take the National Registry of Emergency Medical Technician-Paramedic licensing examination for State and National certification as an Emergency Medical Technician-Paramedic, following the completion of EMT 203. EMT 202 is designed to give students extensive practical application of the knowledge and skills acquired in EMT 108 and EMT 201 in complex medical situations. The course focuses on state-of-the-art medical technologies and medical emergency management. Students apply their skills in both hospital emergency rooms and ambulances under the guidance of professionals.

EMT 203 Internship Experience (6.5-11) 9.5 Cr. Hrs.
Prerequisite: EMT 202.
This course provides the field experience necessary to prepare the student to function as an entry-level paramedic, and to take the National Registry of Emergency Medical Technician-Paramedic licensing examination for State and National certification as an Emergency Medical Technician-Paramedic. EMT 203 is designed to give students extensive practical application in complex medical situations. The course focuses on state-of-the-art medical technologies and medical emergency management. Students apply their skills under the guidance of professionals in their ambulance internship.

ENGINEERING

Associate Dean: Bruce Sweet, MA
Instructors: Professor Catherine Ferman, MS, PE
Associate Professor Lisa Zaccone, MS
Adjunct Faculty

ENGR 100 Introduction to Engineering and Technology (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course is designed to introduce students to the fields of engineering and engineering technology. Students will learn about the different engineering disciplines, and will participate in projects related to engineering. Electronic portfolios will be introduced in this course.

ENGR 201 Statics (3-0) 3 Cr. Hrs.
Prerequisite: PHYS 211.
This course is designed to teach the student vector analysis of forces and moments in 2 and 3 dimensions. Equilibrium of particles and rigid bodies will be determined. Beams and trusses will be analyzed. Problems involving friction, center of gravity, moments of inertia and virtual work will be solved. This course is designed as an engineering transfer course. Transferability of this course into the desired engineering program should be confirmed with the transfer office.

ENGR 202 Mechanics of Materials (3-0) 3 Cr. Hrs.
Prerequisite: ENGR 201.
This course is designed to teach the students the fundamental concepts related to stress and strain of deformable bodies and their application to mechanical structures. This course is designed as an engineering transfer course. Transferability of this course into the desired engineering program should be confirmed with the transfer office.

ENGR 203 Dynamics (4-0) 4 Cr. Hrs.
Prerequisite: ENGR 201.
This course is designed to teach the student kinematics and kinetics of particles and rigid bodies including methods of; motion relative to translating and rotating reference frames; force and acceleration; work and energy; impulse and momentum; and vibrations. This course is designed as an engineering transfer course. Transferability of this course into the desired engineering program should be confirmed with the transfer office.
ENGLISH

Associate Dean: Cheryl D. Hawkins, MS
Instructors: Professor Omar Addi, MA
Professor Sumita Chaudhery, PhD
Professor Steven Dolgin, DA
Professor Mark Harris, MA
Professor Mary Alice Palm, MA
Professor Faye Schuett, PhD
Professor Ida Simmons-Short, MA
Assistant Professor Steven Berg, PhD
Assistant Professor Archana Maheshwari, MA
Adjunct Faculty

ENG 050 Modern English Grammar (3-0) 3 Cr. Hrs.
Prerequisite: None.
This is the first of a two-part course (ENG 050/ENG 055) designed to prepare students for composition courses. The course content focuses on major grammatical concepts and writing. A grade of 2.0 or better in ENG 050 is necessary to enter ENG 055.

ENG 055 Building Writing Skills (3-0) 3 Cr. Hrs.
Prerequisite: Satisfactory placement test score or minimum grade of 2.0 in ENG 050 or ESL 052.
This is the second of a two-part course (ENG 050/ENG 055 or ESL 052/ENG 055) designed to prepare students for composition courses. The course focuses on the writing process, paragraph development, revision, and essay structure. A grade of 2.0 or better in ENG 055 is necessary to enter ENG 101.

ENG 100 Communication Skills (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course deals with a variety of written and oral communication skills. Students learn about the application of interpersonal and intrapersonal communication, including but not limited to presentations, interviews, collaborative work, and technological tools as used in personal, social and career communications.

ENG 101 English Composition 1 (3-0) 3 Cr. Hrs.
Prerequisite: Satisfactory high school English background or ENG 055 with a minimum grade of 2.0.
This course teaches students to prepare and write a number of clear, well-developed essays, using exposition and other rhetorical modes. This process assists students to build writing strategies and methodologies for college and professional writing.

ENG 102 English Composition 2 (3-0) 3 Cr. Hrs.
Prerequisite: ENG 101 with a minimum grade of 2.0.
This course teaches students to conduct and integrate research and write the research paper. This process assists student in developing research and writing strategies to use in a variety of college and professional contexts.

ENG 106 Business English (3-0) 3 Cr. Hrs.
Prerequisite: ENG 100 or ENG 101 with a minimum grade of 2.0 and Basic computer skills.
This course examines verbal and nonverbal communication theories and methods relating to business. Students write business documents and apply a variety of methods for collecting and presenting data.

ENG 107 Introduction to Journalism (3-0) 3 Cr. Hrs.
Prerequisite: ENG 101 with a minimum grade of 2.0 or consent of instructor. ENG 102 recommended.
This course is an introductory survey in mass media such as newspapers, magazines (consumer and small), radio, TV, advertising, and public relations. The course will emphasize newspapers and magazines while recognizing news and feature values, discovering audience, reporting, writing, planning content and format.

ENG 116 Technical Writing (3-0) 3 Cr. Hrs.
Prerequisite: ENG 100 or ENG 101 with a minimum grade of 2.0.
This course provides practical instruction in speaking, listening and technical writing for business and industry. Students learn to apply the principles of organizational structure, resume writing, job hunting, interviewing and technical reporting.

ENG 200 Introduction to Film (4-0) 4 Cr. Hrs.
Prerequisite: ENG 101 with minimum grade of 2.0 or consent of instructor. ENG 102 recommended.
This course studies how film accomplishes its purposes, whether as simple entertainment, social commentary or complex art. Students will view and discuss selected films and explore the history, criticism, aesthetics and technique of film.

ENG 203 Children's Literature (3-0) 3 Cr. Hrs.
Prerequisite: ENG 101 with minimum grade of 2.0 or consent of instructor. ENG 102 recommended.
This course surveys literature for children and adolescents in K-12 curriculum. By reading, analyzing and researching various genres of children’s literature, students gain a historical perspective and establish standards of critical evaluation.

ENG 205 Creative Writing (3-0) 3 Cr. Hrs.
Prerequisite: ENG 101 with minimum grade of 2.0 or consent of instructor. ENG 102 recommended.
Student creative writing may include work in poetry, short stories, and drama. Some assignments will reflect student interests and abilities, while others may encourage students to expand their skills and discover new topics. Class activities will include critical evaluation of student work in individual conferences and writing workshops.

ENG 206 Creative Writing (3-0) 3 Cr. Hrs.
Prerequisite: ENG 101 with minimum grade of 2.0 or consent of instructor ENG 102 recommended.
Student creative writing may include work in poetry, short stories, and drama. Some assignments will reflect student interests and abilities, while others may encourage students to expand their skills and discover new topics. Class activities will include critical evaluation of student work in individual conferences and writing workshops. The course may include work on individual writing projects.

ENG 221 Advanced Composition (3-0) 3 Cr. Hrs.
Prerequisite: ENG 101 with minimum grade of 2.0 or consent of instructor. ENG 102 recommended.
This course provides advanced composition theory and practice for students to develop writing skills beyond ENG 101 and ENG 102. It emphasizes the writing process, revision strategies, and standard research techniques. It also encourages peer collaboration and evaluation to reflect professional writing.
ENG 222  Tutoring English Composition (3-0) 3 Cr. Hrs.
Prerequisite: ENG 101 with grade of 3.5 or ENG 102 with grade of 3.0 and consent of the instructor.
This course trains students to be effective peer tutors of English composition by giving them a background in writing/tutoring theory combined with practical application of what they learned. A significant component of the course is a practicum in the Learning Assistance Center where students will spend time working as tutors.

ENG 243  Introduction to Literature—Short Fiction (3-0) 3 Cr. Hrs.
Prerequisite: ENG 101 with minimum grade of 2.0 or consent of instructor. ENG 102 recommended.
Using elements of fiction, this course develops standards for critical evaluation to increase understanding and appreciation of short stories. Students read and analyze short fiction and its forms from early to modern times.

ENG 244  Introduction to Literature—Poetry (3-0) 3 Cr. Hrs.
Prerequisite: ENG 101 with minimum grade of 2.0 or consent of instructor. ENG 102 recommended.
This course develops standards for critical evaluation to increase the understanding and appreciation of poetry. Students read and analyze poetry and its forms from early to modern times.

ENG 245  Introduction to Literature—Drama (3-0) 3 Cr. Hrs.
Prerequisite: ENG 101 with minimum grade of 2.0 or consent of instructor. ENG 102 recommended.
Students will read and discuss a number of plays, especially those written since 1850. This course is designed to develop standards for critical evaluation and increase understanding and appreciation of drama as a literary form.

ENG 246  Introduction to Literature—Novel (3-0) 3 Cr. Hrs.
Prerequisite: ENG 101 with minimum grade of 2.0 or consent of instructor. ENG 102 recommended.
The course examines classic, unique, and emerging examples of novels. Students use elements of fiction to critically evaluate novels, thereby expanding their understanding and appreciation for prose fiction.

ENG 248  Introduction to Literature—Shakespeare (3-0) 3 Cr. Hrs.
Prerequisite: ENG 101 with minimum grade of 2.0 or consent of instructor. ENG 102 recommended.
This course develops standards for critical evaluation using elements of drama and poetry. Students read and analyze selected Shakespearean works to understand and appreciate one of Western civilization's greatest playwrights.

ENG 251  American Literature from Colonial Times to the Civil War (3-0) 3 Cr. Hrs.
Prerequisite: ENG 101 with minimum grade of 2.0 or consent of instructor. ENG 102 recommended.
Students read and analyze significant literary works that illustrate the changing currents of thought and expression that dominated American life from colonial times to the Civil War.

ENG 252  American Literature from the Late Nineteenth Century to the Present (3-0) 3 Cr. Hrs.
Prerequisite: ENG 101 with minimum grade of 2.0 or consent of instructor. ENG 102 recommended.
Students read and analyze significant literary works that illustrate the changing currents of thought and expression that have dominated American life from the Civil War to the present.

ENG 275  World Literature—Casebook Studies of Universal Themes (3-0) 3 Cr. Hrs.
Prerequisite: ENG 101 with a 2.0 grade.
This course will examine a variety of international literary works pertaining to common, literary themes. Such themes will be explored through poetry, drama, fiction and/or non-fiction. Works not originally written in English will be read in translation.

ENG 280  The Nature of Language (3-0) 3 Cr. Hrs.
Prerequisite: ENG 101 with minimum grade of 2.0 or consent of instructor. ENG 102 recommended.
This course is an investigation of the historical background and current status of the English language, including problems such as the changing nature of language, dialect differences, origins of standards for correctness and attempts to describe the language grammatically.

ENGLISH AS A SECOND LANGUAGE
Associate Dean: Cheryl D. Hawkins, MS
Instructors: Adjunct Faculty

ESL 051  English Language Skills—Communication, Speaking and Listening (3-0) 3 Cr. Hrs.
Prerequisite: Appropriate placement test score.
This course is part of a series of courses designed to introduce non-native speakers of English to the skills they will need to succeed in an academic environment where English is spoken. Students will practice and develop verbal English language skills and will study vocabulary and techniques for building one's vocabulary.

ESL 052  English Grammar and Basic Writing Skills (3-0) 3 Cr. Hrs.
Prerequisite: Appropriate placement test score.
This course is part of a series of courses designed to introduce non-native speakers of English to the skills they will need to succeed in an academic environment where English is spoken. The content of this course focuses on major grammatical concepts, including parts of speech, sentence functions and sentence patterns.

ESL 100  English Communication Skills (3-0) 3 Cr. Hrs.
Prerequisite: Appropriate placement test score or successful completion of ESL 052.
This course is part of a series of courses designed to introduce non-native speakers of English to the skills they will need to succeed in an academic environment where English is spoken. The focus of this course is on high level grammar, communication skills including listening and vocal features (such as volume and intonation) and nonverbal communication skills.

ESL 101  English Writing and Reading Skills (3-0) 3 Cr. Hrs.
Prerequisite: Appropriate placement test score or successful completion of ESL 052.
This course is part of a series of courses designed to introduce non-native speakers of English to the skills they will need to succeed in an academic environment where English is spoken. Students will practice and develop writing and critical thinking skills in preparation for ENG 101. A grade of 2.0 or better is necessary to enter ENG 101.
ENVIRONMENTAL TECHNOLOGY

Associate Dean: Monica Sullivan, MS
Instructors: Professor Diane O’Connell, MS
Adjunct Faculty

ENV 107  Soil Mechanics (3-2) 4 Cr. Hrs.
Prerequisite: GEOG 212 and MATH 119.

The course provides an introduction to soil mechanics and foundations, and emphasizes practical applications that are supported by theory. The course concentrates on analytical techniques currently used by the environmental industry to understand the behavior of soils and to classify soils. Soil characteristics are explored by means of laboratory examination and testing techniques.

ENV 204  Introductory Surveying (3-0) 3 Cr. Hrs.
Prerequisite: GEOG 212 and CIS 115.

This course is an introduction to field survey techniques and computer applications related to surveying. Comprehensive study of the techniques and procedures used to locate and measure features will be explored. The course will include the use of surveying total station and data collector in the gathering of field data for planimetric and topographic maps.

ENV 206  Environmental Law and Regulations (3-0) 3 Cr. Hrs.
Prerequisite: GEOG 212.
Corequisite: POLS 105.

This course provides an introduction to both federal and state environmental laws and regulations as well as reviews the historical context of United States environmental legislation. Students examine environmental case law with an emphasis on toxic torts. The course provides an introduction to major environmental legislation, including Resource Conservation and Recovery Act (RCRA), Comprehensive Environmental Response, Compensation, and Liability Act (CERLA/SARA), Clean Air Act, and Toxic Substances Control Act (TSCA). Companion State of Michigan legislation and rules are also included and the course concludes with a discussion of environmental ethics.

ENV 211  Health and Safety Training for Handling Hazardous Materials (40-hour OSHA Training) (3-0) 3 Cr. Hrs.
Prerequisite: ENV 206 and GEOG 212.

A health and safety training course for individuals who may be involved in the investigation, remediation and operation of hazardous waste sites. Topics include hazardous materials chemistry, toxicology, air monitoring instrumentation, air purifying respirators, self-contained breathing apparatus, protective clothing, decontamination, simulated hazardous materials response incidents, and problem sets. This course satisfies CFR Part 1910.120(e) under SARA.

ENV 215  Environmental Seminar (1-0) 1 Cr. Hr.
Prerequisite: GEOG 212 and the completion of one year in the Environmental Technology Program or the permission of the instructor.

This lecture course addresses current environmental issues, such as groundwater contamination, air pollution, acid rain, environmental health, and urban design. Environmental professionals and researchers provide guest lectures concerning current and emerging technologies and trends, such as electronic communication, geosynthetic properties and applications, and quality control in environmental technology. Students have the opportunity to learn about careers in the environmental field and meet local environmental professionals.

ENV 218  Environmental Hydrology (3-0) 3 Cr. Hrs.
Prerequisite: GEOG 130 or GEOG 133 and GEOG 212.

This course is a survey of water resources and includes study of the occurrence, movement, and properties of both surface water and groundwater. Elements of the hydrologic cycle (precipitation, infiltration, evapotranspiration, evaporation, and surface runoff) are described. The impact of land use on hydrologic resources, such as the increase of storm water and degradation of water is discussed. A study of watershed management, a holistic, integrated method of managing all water resources located within a naturally occurring watershed, is included. Data and hydrologic studies for the Rouge River Watershed and its sub-basins provide a model for watershed management. The course also includes hydrologic computer mapping exercises and fieldwork in the Bell Branch of the Rouge River.

ENV 231  Field Co-op Experience (1-4) 5 Cr. Hrs.
Prerequisite: Successful completion of two years of the Environmental Technology Program.

The field co-op experience provides students with off-campus work experience in the environmental technology field. Students are employed as environmental technicians for engineering firms and government agencies. This work experience will allow students to build upon skills learned during the formal education of the Environmental Technology Program. Students will complete a one credit hour preparation class before field placement.
FIRE TECHNOLOGY

Associate Dean: Robert F. Pearce, MPA
Program Coordinator: John Smilnak, BS
Instructors: Adjunct Faculty

FIRE 112  Fire Fighter 1—Basic Fire Suppression
(6-10) 10 Cr. Hrs.
Prerequisite: Michigan State Law mandates that persons taking
this course must be at least 18 years of age and have a valid
Michigan Driver’s License.
This course provides an introduction to basic fire
suppression, prevention procedures and skill develop-
ment. FIRE 112 is provided as the first of two
courses, which constitute the equivalent of the Basic
Fire Academy and is offered for students who pre-
fer to attend on a part-time basis. This course is for
students who are currently employed by a Michigan
Fire Marshall recognized fire department, or currently
seeking employment, and/or volunteer in a recog-
nized fire district. This course meets the State-man-
dated requirements for preparing students to take the
exam for State certification for entry-level on-call or
volunteer fire fighters.

FIRE 119  Fire Fighter 2—Advanced Fire Suppression
(7-3) 10 Cr. Hrs.
Prerequisite: FIRE 112. Michigan State law mandates that
persons taking this course must be at least 18 years of age
and have a valid Michigan Driver’s License.
Fire Fighter 2 is the second of two courses, which
together make up the equivalent of the Basic Fire Acad-
emy and is offered for students who prefer to attend on
a part-time basis. This course deals with advanced fire
suppression techniques, including prevention proce-
dures and skill development. This course is for students
who are currently employed by a Michigan Fire Mar-
shall recognized fire department, or currently seeking
employment, and/or volunteer in a recognized fire
district. This course meets the State mandated require-
ments for preparing students to take the exam for state
certification for entry-level career firefighters.

FIRE 124  Fire Academy (13-7) 20 Cr. Hrs.
Prerequisite: Michigan State law mandates that persons taking
this course must be at least 18 years of age and have a valid
Michigan Driver’s License.
The Fire Academy combines FIRE 112 and FIRE 119,
providing comprehensive training in fire suppression,
prevention procedures and skill development. This
course is for students who are currently employed
by a Michigan Fire Marshall recognized fire depart-
ment, are currently seeking employment, and/or a
volunteer in a recognized fire district. Students must
be able to attend on a full-time basis. This course
meets the State-mandated requirements for preparing
students who intend to become professional Michigan
firefighters to take the State certification exam for
entry-level career firefighters.

FIRE 128  Fire Fighting Hydraulics and Water Supply
(4-0) 4 Cr. Hrs.
Prerequisite: None.
This course is a study of the principles of fluid in
motion. More specifically, it concentrates on water
and its use as a fire extinguishing agent. It is a course
of solving problems of water delivery application for
fire fighting situations, along with the theory that is
necessary in finding correct solutions. Studies will
include the physical laws of liquids as they apply to
water for fire fighting, the characteristics of water,
and its controlled delivery through highly technical
machinery and equipment. It will include a study of
the safe and efficient operation of that equipment
during training and/or actual fire fighting operations.
Students will be required to solve sample problems in
writing. They will also be required to complete a brief
study of a local water system.

FIRE 130  Fire Fighting—Tactics and Strategy (3-0) 3 Cr. Hrs.
Prerequisite: FIRE 112 is recommended.
This course examines new technology, fire fight-
ing techniques and improved equipment as well as
provides a guide for firefighters and fire officers who
need methods for handling specific situations. The
course also covers general principles of firefighting,
engine company operations, search and rescue, struc-
ture fires, and fire related emergencies.

FIRE 135  Fire Protection Systems (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course is designed to provide the student with
an understanding of the basic principles involved in
the design and operation of existing suppression and
detection systems found in most structures. Specific
topics of discussion include: portable extinguisher-
ers, dry chemical systems, extinguishing foams, fire
detection systems, smoke detection systems, and
other related topics.

FIRE 141  Special Topic—Incident Command System
(1-0) 1 Cr. Hr.
Prerequisite: None.
This course is designed to educate the student in a recog-
nized system used for managing available resources in
emergencies such as fires, civil disturbances, earth-
quakes, explosions, acts of terrorism or other natural
or man-made incidents. The course provides students
with basic guidelines and procedures for controlling
personnel, facilities, equipment and communication
that can be adapted to any emergency situation as
mandated by Federal and State laws and standards.

FIRE 142  Special Topic—Terrorism Awareness (1-0) 1 Cr. Hr.
Prerequisite: None.
Terrorist incidents or those suspected to be terrorist
related, pose special hazards to public safety person-
nel and require unique considerations and actions.
This course will provide students with the abilities
to recognize potential targets, identify incidents, and
establish priorities and safe response procedures.

FIRE 200  Fire and Arson Investigation (4-0) 4 Cr. Hrs.
Prerequisite: FIRE 112 or FIRE 123.
This course is designed to acquaint students with
data on fire dynamics, explosions and fire behavior.
The course is for students interested in learning funda-
mentals of collection, preservation and analysis of
physical evidence. Also covered as part of the course
are new laws and court decisions controlling inves-
tigator’s access to scene and admission of evidence.
This course prepares students for on-scene investiga-
tion as well as in-service or promotional exams.
**FIRE 205**  
Fire Department Organization and Administration  
(3-0) 3 Cr. Hrs.  
Prerequisite: None.  
This course is designed to equip the student with knowledge to effectively tackle challenging management problems and deliver practical solutions for managing today’s fire departments. This course provides guidance on leadership skills: motivating and disciplining personnel, accepting cultural diversity and unity. Also covered in this course is managing human resources, the use of computer technology for information management and strategic planning and budgeting.

**FIRE 207**  
Fire Company Officer (3-0) 3 Cr. Hrs.  
Prerequisite: FIRE 119 or FIRE 124.  
It is essential that Fire Company Officers be well versed in the areas of management, leadership, and human relations. This course will examine the skills required to function as a Fire Company Officer. Students will cover both traditional and contemporary methods of supervision, planning, staffing, and training. The course objectives will parallel NFPA 1021, Fire Officer Professional Qualifications. Combined with the knowledge of essential fire fighting skills, this course provides students with the competencies required for a first-line fire company officer.

---

**FRENCH**  
Associate Dean: Cheryl D. Hawkins, MS  
Instructors: Adjunct Faculty  

**FR 101**  
Elementary French 1 (4-0) 4 Cr. Hrs.  
Prerequisite: None.  
This course focuses on the fundamentals of pronunciation, basic grammar structure and essential vocabulary; particular emphasis placed on speaking and understanding French; practice in written French given by means of dictation and easy translation.

**FR 102**  
Elementary French 2 (4-0) 4 Cr. Hrs.  
Prerequisite: One year of high school French or FR 101 with grade of 2.0 or better or consent of instructor.  
This course is a continuation of FR 101 with a continued emphasis on the spoken language and reading of graded materials in French for comprehension without translation. Course will include extensive use of French in the classroom.

**FR 201**  
Intermediate French 1 (4-0) 4 Cr. Hrs.  
Prerequisite: Two years of high school French or FR 102 with grade of 2.0 or better or consent of instructor.  
This course is a continuation of FR 102. The course includes a review and application of essential principles of French grammar structure and training in idiomatic usage through oral and written exercises; intensive practice of the spoken language; reading of representative French prose for comprehension; development of ability to read rapidly without translation.

**FR 202**  
Intermediate French 2 (4-0) 4 Cr. Hrs.  
Prerequisite: Three years of high school French or FR 201 with grade of 2.0 or better or consent of instructor.  
This course is a continuation of FR 201. Course emphasis will be on oral skill, conversation, and reading without translation.

---

**GEOGRAPHY**  
Associate Dean: Monica Sullivan, MS  
Instructors: Professor Diane O’Connell, MS  
Adjunct Faculty

**GEOG 105**  
Earth Science for Elementary Teachers (3-2) 4 Cr. Hrs.  
Prerequisite: None.  
The course introduces earth science and integrates pedagogical methods appropriate for elementary teachers. The course will help prospective teachers create a resource base of knowledge and activities for teaching earth science and develop teaching strategies based on how children learn science. Course includes lecture, peer teaching, selecting textbooks, demonstrations, and lesson plan development.

**GEOG 130**  
Physical Geography (4-0) 4 Cr. Hrs.  
Prerequisite: None.  
This course utilizes a systems approach to analyze the earth’s dynamic systems: energy, atmosphere, water resources, weather and climate, tectonic processes, landforms, soil, vegetation, and ecosystems. Introductory geographic concepts, including absolute and relative location, spatial analysis and geographic approach, are covered. Fundamentals of map reading, remote sensing, and geographic information systems are included.

**GEOG 133**  
World Regional Geography (4-0) 4 Cr. Hrs.  
Prerequisite: None.  
World Regional Geography includes a systematic study of the world’s geographic regions, including Europe, United States-Canada, Russia, Latin America, Southwest Asia, Southeast Asia, East Asia, Subsaharan Africa, and Australia-New Zealand. Geographic concepts, such as map reading and spatial analysis, are first introduced. Then, the world is classified into geographic regions using both physical and social criteria. Each region results from a unique interaction between the human societies and the physical and biological environment. The physical, cultural, political, and social features of each region are studied, along with any special regional concerns or problems.

**GEOG 212**  
Environmental Science (3-0) 3 Cr. Hrs.  
Prerequisite: None.  
This course is an introductory environmental science course with no prerequisites. The course offers an in-depth examination of a variety of local, regional, and global environmental concerns. The course focuses on the effects that human societies have on the physical environment and the global biosphere. Topics include human population distribution, growth rates and population explosion, erosion and contamination of soil resources, degradation of water resources, air pollution, global climate change, waste management, biodiversity and deforestation.

**GEOG 217**  
Water Resources (3-0) 3 Cr. Hrs.  
Prerequisite: GEOG 130 or GEOG 212 and GEOG 133.  
This course is a survey of water resources which includes a study of the occurrence, movement, and behavior of water in the hydrologic cycle. Discussions on the ways in which these resources can be contaminated and remediated will be held. Course includes a study of watershed management, which is a holistic, integrated method of managing all water resources located within a naturally occurring watershed. Data and hydrologic studies completed for the Rouge River Watershed provide a model for watershed management. The course offers demonstrations of hydrologic computer models and limited field experience.
GEOG 225 Introduction to Geographic Information Systems—GIS (4-0) 4 Cr. Hrs.
Prerequisite: None.
This course provides an introduction to basic Geographic Information Systems (GIS) concepts through in-class discussions and hands-on assignments using ArcView 3.3. The course includes theory, mapping techniques, data collection and compilation, and data analysis. Topics include implementation of a GIS, current applications, legal issues, and the future of GIS.

GEOG 236 Geography for International Business (3-0) 3 Cr. Hrs.
Prerequisite: None.
This geography course examines the concepts and forces that affect international business. The course includes readings and discussions concerning economic policies of nations and economic relationships nations form with each other. Topics include trade policy and regional trade blocs, multinational corporations, economic policies in developing countries, economic transition for former Communist countries, and economic policies and the environment.

GEOG 241 Geography Field Trip—Latin America (4-0) 4 Cr. Hrs.
Prerequisite: None.
This field study course includes a systematic geographic study of the Latin American realm, which includes the Caribbean, Middle America, and South America. Geographic concepts, such as map reading and spatial analysis, are first introduced. The physical, cultural, political, and social features of the Latin America realm are studied, with a focus on regional concerns or problems. The course will conclude with a field trip to a Latin American country to facilitate a live, experiential encounter with the unique physical and cultural landscape of that country.

GEOLOGY
Associate Dean: Monica Sullivan, MS
Instructors: Professor James Rexius, MS

GEOL 120 Geology of Michigan (3-0) 3 Cr. Hrs.
Prerequisite: None.
Geology of Michigan is a history of the geological evolution of the state. Course emphasis will be on the identification and description of the most important and popular geological features of Michigan and the formation of our important natural resources such as iron, copper, salt, oil, and gas. Two field trips, one of which is three days in Michigan’s western upper peninsula, are optional.

GEOL 133 Physical Geology (3-3) 4 Cr. Hrs.
Prerequisite: None.
Physical Geology is the study of the geological processes that affect the earth. This includes a survey of what the earth is made of (rocks, minerals, etc.), how it works on the inside (plate tectonics, earthquakes, volcanic eruptions) and the processes that act upon it from the outside (streams, glaciers, wind, etc.). Identification of common rocks and minerals and the interpretation of topographic maps are part of the required laboratory exercises. An all-day Saturday field trip is optional.

GEOL 134 Historical Geology (3-3) 4 Cr. Hrs.
Prerequisite: GEOL 133.
Historical Geology is the study of the geologic development of the earth as a planet from its creation to the present time. The first half of the course is a survey of the methods and techniques that the science of geology uses to unravel the history of the earth. The second half applies these techniques to present the geologic history of the continent of North America as a case study.

GEOL 140 Regional Geology (2-0) 2 Cr. Hrs. Each
GEOL 141 Prerequisite: GEOL 133.
GEOL 142 (Spring and/or Summer Sessions only)
GEOL 143 A different selected geologic region of interest in the United States or Canada will be studied each spring or summer in detail. A field trip to each area can be taken to observe first hand the rocks, fossils, structures and significant depositional and erosional processes at work in that particular region. Areas to be considered include the Canadian shore of Lake Superior, southern Appalachians, northern Arizona, Black Hills, Adirondack Mountains, Yellowstone area, Costa Rica or others as requested. Check with department for next area to be studied. A student may enroll in any regional course or in more than one, in subsequent years.

GEOL 147 (2-2) 4 Cr. Hrs.
Prerequisite: GEOL 133.
Mineralology teaches the basics of crystal formation, crystal symmetry, and crystal chemistry of the most important rock forming and economic minerals of the earth’s crust. The course also includes the formation of minerals and mineral occurrences and associations. Laboratory periods concentrate on the methods used in the identification of about 100 minerals.
GERMAN

Associate Dean: Cheryl D. Hawkins, MS
Instructors: Adjunct Faculty

GER 101 Elementary German 1 (4-0) 4 Cr. Hrs.
Prerequisite: None.
This course covers the fundamentals of pronunciation, basic grammar structure, and essential vocabulary. Particular emphasis will be placed on speaking and understanding German; practice in written German given by means of dictation and easy translation. Workbook exercises are required.

GER 102 Elementary German 2 (4-0) 4 Cr. Hrs.
Prerequisite: Minimum one year of high school German or GER 101 with grade of 2.0 or better or consent of instructor.
This course is a continuation of GER 101 with emphasis on Business German culture and introductory terminology, focusing on formal address. Course will continue emphasis on the listening, speaking, reading of graded materials, writing and understanding German through extensive use in the classroom as well as vocabulary extension and sentence structure/composition. Workbook exercises are required.

GER 201 Intermediate German 1 (4-0) 4 Cr. Hrs.
Prerequisite: Two years of high school German or GER 102 with grade of 2.0 or better or consent of instructor.
This course is a continuation of GER 102. Review and application of essential principles of German structure and basic application of Business German terminology will be covered. Course will continue emphasis on the listening, speaking, reading of selected business and grammar sections. Understanding advanced grammatical structures through writing and speaking in the classroom will also be explored. Workbook exercises are required.

GER 202 Intermediate German 2 (4-0) 4 Cr. Hrs.
Prerequisite: Three years of high school German or GER 201 with grade of 2.0 or better or consent of instructor.
This course is a continuation of GER 201. Review and application of essential principles of German structure and more elaborate application of Business German terminology will be covered. Course will continue emphasis on the listening, speaking, reading of selected business sections. Understanding advanced grammatical structures through writing and speaking in the classroom will be explored. Workbook exercises are required.

HEALTH INFORMATION TECHNOLOGY

Associate Dean: Robert F. Pearce, MPA
Coordinator/Instructor: Professor Patricia Rubio, MSA
Instructors: Associate Professor Jody Scheller, MS
Adjunct Faculty

HIT 104 Medical Terminology (4-0) 4 Cr. Hrs.
Prerequisite: None.
This course introduces the student to the fundamentals of the language of medicine. Definitions, pronunciations, spelling and abbreviations of anatomic, symptomatic, diagnostic and operative terms pertaining to each anatomical system of the body will be reviewed. Terms pertaining to pharmacology, clinical laboratory, radiology and pathology will also be explored.

HIT 109 Principles of Health Information Management (2-2) 3 Cr. Hrs.
Prerequisite: None.
This course provides the student an introduction to the health information management profession. Educational and certification requirements are examined along with potential employment opportunities in the health information profession. The health information management department, its functions and the relationship to other departments is explored. Health record content, documentation requirements and the accrediting and licensing agencies that govern health information will be reviewed. Hands-on laboratory activities will help the student to gain proficiency in basic health information functions.

HIT 110 Human Diseases (4-0) 4 Cr. Hrs.
Prerequisite: BIOL 105 or BIOL 236 and BIOL 238 and HIT 104.
This course is designed to build on the knowledge of anatomy and physiology, and medical terminology. It will introduce the student to the disease processes and their effect on the individual body systems. The student will develop an understanding of the types of treatments for diseases which may include pharmacology, surgery and other therapies.

HIT 111 ICD-9-CM Classification (2-2) 3 Cr. Hrs.
Prerequisite: HIT 104, HIT 109, HIT 110 and BIOL 236 or consent of department.
This course is an introduction to basic coding theory and computer laboratory practice applying ICD-9-CM to hospital medical/health records. This course is designed for the classification of patient morbidity and mortality information for statistical purposes and for the indexing of health/medical records by disease and operation for data storage and retrieval. Diagnostic coding and reporting guidelines for hospital inpatient and outpatient services will be utilized.

HIT 112 Basic Laboratory and Diagnostic Tests (2-0) 2 Cr. Hrs.
Prerequisite: HIT 104 or consent of department.
This course is designed to prepare an allied health student to identify clinical laboratory and diagnostic tests. The student will develop an understanding of what the laboratory and diagnostic test is used for; diseases, diagnoses or disorders associated with the test; and the normal range or results of the test. Students will complete case studies to demonstrate a working knowledge of laboratory and diagnostic tests.
HIT 114 Pharmacology for Health Professionals (2-0) 2 Cr. Hrs.  
Prerequisite: HIT 104.  
This course is designed as an introduction to the principles of pharmacology, with a comprehensive review of drug action, routes of administration, and indications for use of generic drugs, and trade name drugs. The course will provide practice in pronunciation, spelling, and utilization of drug references. Class activities will assist the student in identifying drugs used to treat various body systems.

HIT 152 Computer Applications in Healthcare (2-0) 2 Cr. Hrs.  
Prerequisite: HIT 109, HIT 154 and HIT 156.  
This course is an introduction to the theory and practical methodology of healthcare information systems utilized in a health information management (medical record) department. The course will introduce the student to information systems used in healthcare organizations. The student will develop an understanding of the role of the technician in information systems planning and development. The student will be introduced to emerging technologies in healthcare information systems.

HIT 154 Health Record Practicum (0-4) 3 Cr. Hrs.  
Prerequisite: HIT 104 and HIT 109.  
Corequisite: HIT 156.  
This course allows the health information student hands-on experience using a chart management system that includes chart tracking, chart deficiency, coding and abstracting, master patient of health information management activities utilizing health/patient records, software applications and manual systems are simulated.

HIT 156 Clinical Affiliation 1 (0-4) 2 Cr. Hrs.  
Prerequisite: HIT 104, HIT 109, BIOL 236 and consent of department.  
Corequisite: HIT 154.  
This course provides professional practice assignments for the student in a Health Information Management/Services department under the supervision of a qualified Health Information Management professional. The student will have the opportunity to observe and interact with the Health Information Management professional in a variety of healthcare facilities at off-campus sites. The student will observe, perform and report on the procedures in health information systems in a variety of healthcare facilities.

HIT 210 Healthcare Statistics for Health Information Management (2-2) 3 Cr. Hrs.  
Prerequisite: HIT 104, HIT 111 and HIT 154.  
This course introduces students to terminology, definitions and computational methodology of the basic and most frequently used health statistics. Topics examined include healthcare data collection, preparation, analysis and interpretation; cancer program requirements; vital statistics reporting.

HIT 213 Health Information Technology Seminar (1-0) 1 Cr. Hr.  
Prerequisite: None.  
Corequisite: HIT 258.  
This course will assist the student in preparation for the registered health information technician examination. The student will develop a study plan to be utilized on an individual and/or group basis. The student will complete a mock examination. The student will also begin preparation for a job search. A research of job opportunities that are currently available will be identified. The impact of continuing education upon the health information management profession will be discussed and a plan for maintaining certification will be developed.

HIT 216 Healthcare Delivery Systems (2-0) 2 Cr. Hrs.  
Prerequisite: HIT 104, HIT 111 and HIT 154.  
This course provides for a comprehensive review of the healthcare industry. Trends and changes related to healthcare facilities such as acute care hospitals, specialty hospitals, long term care facilities, managed care organizations, ambulatory care, behavioral care, hospice and home healthcare are investigated. The course will also deal with the impact and use of computers in the delivery and documentation of healthcare and the role of the health information professional within the healthcare delivery system.

HIT 217 Quality Management in Healthcare (2-0) 2 Cr. Hrs.  
Prerequisite: None.  
Corequisite: HIT 256.  
This course is designed for the health information technology student to review methods by which a health care organization measures, assesses and improves the quality of healthcare services. Topics explored include traditional quality assessment, performance improvement methodologies, utilization/resource management, risk management, infection control, credentialing and the role of oversight agencies.

HIT 219 Organization and Management (1-2) 2 Cr. Hrs.  
Prerequisite: HIT 258.  
Health information professionals make decisions that demand effective planning, organization, motivation and communication skills. Effective supervision of human and other resources is also essential in today’s changing world of healthcare. This course provides the health information technology student with basic management concepts and theories that are applied in the Health Information Services/Management environment.

HIT 220 Legal Aspects of Health Information (3-0) 3 Cr. Hrs.  
Prerequisite: None.  
This course provides the health information technology student with an understanding of the American legal system and the legal requirements concerning the compilation and maintenance of health information. Additional topics include how health information is used and when it can be disclosed, state and federal regulations, statutes, including the privacy and security rules resulting from the Health Insurance Portability and Accountability Act (HIPAA).

HIT 221 Basic Ambulatory Coding (2-1) 3 Cr. Hrs.  
Prerequisite: HIT 104, HIT 109, HIT 110 and BIOL 236.  
This course is an introduction to basic coding theory and computer laboratory practice applying CPT to ambulatory medical/health records. This course is designed to prepare a student to code in the ambulatory setting using Current Procedural Terminology (CPT). The course will emphasize the reporting requirements for codes and rules that apply to the reimbursement systems used by government payers and other health plans. The student will be introduced to computerized coding systems utilized in healthcare. The emphasis of the course will be coding for facility services and procedures.
HIT 227  Intermediate ICD-9-CM Coding (2-1) 3 Cr. Hrs.  
**Prerequisite:** HIT 110, HIT 111 and BIOL 236.
This course is designed to prepare a student to code in the hospital setting using ICD-9-CM. The course will emphasize reporting requirements for codes and rules that apply to reimbursement systems used by government payers and other health plans. The student will be introduced to computerized coding systems utilized in healthcare. The emphasis of the course will be development of intermediate skills to code accurately and ethically. Students will assign codes for diagnoses, services and procedures that are documented in the health/medical record. This course is the theory and practice of coding medical records in the hospital setting using ICD-9-CM. The student will use the encoding software in the laboratory to apply coding to charts.

HIT 229  Intermediate Ambulatory Coding (2-1) 3 Cr. Hrs.  
**Prerequisite:** HIT 110, HIT 111, HIT 221 and BIOL 236.
This course is the theory and practice of coding medical/health records in the hospital/ambulatory setting using Current Procedural Terminology (CPT) and Healthcare Financing Administration Common Procedure Coding System (HCPCS). The student will use encoding software in the laboratory to apply coding to medical/health records. The course will emphasize where documentation can be located within the various reports in the health/medical record as needed to apply CPT guidelines for accurate CPT/HCPCS coding. Students will apply the principles and conventions of CPT coding to exercises based on actual case documentation and health/medical records. The student will analyze clinical data for the purpose of coding and reimbursement in the ambulatory setting including the physician office.

HIT 230  ICD-9-CM Coding Practicum (1-1) 2 Cr. Hrs.  
**Prerequisite:** HIT 227 and HIT 229.
This course will provide practical hands-on experience with ICD-9-CM coding of health/medical records. The student will apply official coding guidelines to a variety of clinical cases and record types such as hospital inpatient, outpatient, and physician office or service. The student will utilize computerized encoding systems for diagnosis and procedure coding. The student will research references in solving coding problems.

HIT 231  Ambulatory Coding Practicum (1-1) 2 Cr. Hrs.  
**Prerequisite:** HIT 227 and HIT 229.
This course will provide practical hands-on experience with Current Procedural Terminology (CPT) coding of health/medical records. The student will apply official coding guidelines to a variety of clinical cases and record types such as ambulatory, emergency, outpatient, and physician office or service. The student will utilize the computerized encoding systems for ambulatory and procedure/services coding. The student will research references in solving coding problems.

HIT 256  Clinical Affiliation 2 (0-8) 2 Cr. Hrs.  
**Prerequisite:** HIT 110, HIT 111, HIT 154 and HIT 156.  
**Corequisite:** HIT 217.
This course provides practical experience for the student in a Health Information Management/Services Department under the supervision of qualified health information professionals. The student will have an opportunity to observe and interact with health information management professionals in a variety of healthcare facilities at off-campus sites. The student will observe, perform and report on the functions necessary to maintain a health information service.

HIT 258  Clinical Affiliation 3 (0-8) 2 Cr. Hrs.  
**Prerequisite:** HIT 210, HIT 216, HIT 217, HIT 256 and consent of department.
This course provides professional practice assignments for the student in a Health Information Management/Services Department under the supervision of qualified Health Information Management professionals. The student will have the opportunity to observe and interact with Health Information Management professionals in a variety of healthcare facilities at off-campus sites. The student will observe, perform, and report on the procedures/functions utilized within health information systems in facilities, organizations or agencies related to healthcare. The student may be assigned to a hospital, cancer registry, cancer center, research department, ambulatory center or other related healthcare organizations.

HIST 134  Ancient World (4-0) 4 Cr. Hrs.  
**Prerequisite:** None.
This course is a survey of the main themes in the history of the world in the last hundred years: the Eurocentric world order of 1900; World War I, communist revolution and fascist counter-revolution; the settlements of the 1920s and the renewal of world crisis in the 1930s; World War II and the onset of the Cold War in the 1940s–1960s; erosion and collapse of the postwar order in the 1970s–1980s; and the contemporary world order in historical context.

HIST 137  Early Modern World (4-0) 4 Cr. Hrs.  
**Prerequisite:** None.
This course is a survey of the balance of world civilizations in medieval and early modern times: American and African peripheral regions; major civilizations of Asia and Europe in the Middle Ages; 14th–16th century crisis and renewal; expansion of Europe in the age of Renaissance, Reformation and discovery; rise of the Great Power system; the scientific revolution and Enlightenment; the democratic and industrial revolutions; emergence of modern ideologies and nations; and climax of European expansion in the age of imperialism, to the late 19th century.

HIST 138  Contemporary World (3-0) 3 Cr. Hrs.  
**Prerequisite:** None.
This course is a survey of the main themes in the history of the world in the last hundred years: the Eurocentric world order of 1900; World War I, communist revolution and fascist counter-revolution; the settlements of the 1920s and the renewal of world crisis in the 1930s; World War II and the onset of the Cold War in the 1940s–1960s; erosion and collapse of the postwar order in the 1970s–1980s; and the contemporary world order in historical context.
HIST 141 History of Michigan and the Great Lakes (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course is a general survey of the historical development of Michigan from the primitive wilderness to the present; growth of certain political, economic, social and cultural institutions which contribute to understanding Michigan and the Great Lakes area today; and emphasis on relating the history of the state to that of both the area and the nation.

HIST 151 Early America—U.S. History (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course is a survey of the origins or American civilization: native American societies in pre-Columbian and colonial times; European discovery, exploration, conquest and settlement of the Americas; Iberian, French and African elements in the early Americas; 17th and 18th century English colonial development; the Revolutionary era and the founding of the U.S.; and Federalist and Jeffersonian America, to the early 19th century.

HIST 152 19th Century America—U.S. History (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course is a survey of the expansion, crisis and renewal of the U.S. in the 19th century: demographic, economic, social and cultural change in Jacksonian America; the North and antebellum reform movements; the South and slavery; the West and territorial conquest and settlement; sectional struggle, the Civil War and Reconstruction; and emergence of modern, urban, industrial America, to the beginning of the 20th century.

HIST 153 Contemporary America—U.S. History (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course is a survey of American civilization within the last hundred years: turn-of-the-century growth and crisis; the Progressive Era and World War I; the 1920s, the Great Depression and the New Deal; World War II and the emergence of the U.S. as a superpower; affluence, consensus and confrontation in the 1950s–1960s; malaise, drift and fragmentation in the 1970s–1980s; and the U.S. in the world of the late 20th century.

HIST 230 U.S. Business History—1865 to Present (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course will provide students with an examination of major business and economic development in the U.S. from the Civil War to the present. Emphasis will be placed on the ideas, forces and personalities in the ever-changing role of business and economics and their impact on the nation and its citizens. Course is recommended for students majoring in business, economics and history.

HOMELAND SECURITY
Associate Dean: Robert F. Pearce, MPA
Instructors: Adjunct Faculty

HS 101 Introduction to Homeland Security (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course is an introduction to the concept of homeland security. The course will define and explain homeland security. The U.S. Department of Homeland Security will be thoroughly analyzed and its mission will be investigated. This course will also address chemical, biological, radiological, nuclear, and explosive devices and the use of these weapons of mass destruction. The importance and basic elements of a planned response, methods used to prevent the importation of weapons of mass destruction into the U.S., and what is being and what can be done to prevent another large-scale terrorist incident in the United States will be covered.

HS 102 Understanding Terrorism (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course is a practical study of the criminology of terrorism, essential background, modern terrorism, and issues in modern terrorism. This course will cover technological terrorism, policy, liberty, security and response to recent acts of global terrorism.

HS 201 Organizational and Facility Security (3-0) 3 Cr. Hrs.
Prerequisite: None.
The focus of this course will be on traditional methods of physical security hardware, risk assessments, and business continuity. The course will also explore and assess developing security technology and its application to reduce internal and external threats to business.

HS 202 Introduction to Emergency Management (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course will provide an overview of emergency management, as a career field, discipline, and approach to deal with all-hazards emergency/disaster response. This course will examine major disasters in history, concepts, theory, and terminology associated with emergency management.

HS 203 Introduction to Intelligence Systems (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course will provide a study of the U.S. government’s intelligence community as well as an overview of intelligence processes. This study will include a historical look at intelligence and some of its milestones. Discussed will be key terms, concepts and perspectives. Students will be exposed to the relationship of intelligence with law enforcement and homeland security and how some intelligence processes may be applied to emergency management and pre-incident planning.
HUMAN DEVELOPMENT SERVICES
Director: Donna Nordman, MA
Instructors: Adjunct faculty

HDS 101 Human Potential Seminar (2-0) 2 Cr. Hrs.
Prerequisite: None.
This class is suitable for students who wish to work in people-oriented positions. The course provides a structured small group educational experience that is designed to teach individuals to increase self-confidence, make decisions, develop self-motivation, and improve listening skills. Students will learn strategies to enhance their own development and how to apply those skills in working with others.

HDS 110 Career Decision Making (2-0) 2 Cr. Hrs.
Prerequisite: None.
This course assists the student in examining the components of career/job choice. The focus is on career awareness, personal awareness, and education/training awareness as they relate to the process of occupational choice. Self-assessment instruments will help students identify tentative career options, decision-making strategies, obstacles and planning skills.

HUMANITIES
Associate Dean: Cheryl D. Hawkins, MS
Instructors: Associate Professor James Nissen, DMA
Assistant Professor Holly Stevens, MA
Adjunct Faculty

HUM 106 Introduction to Art and Music (1-0) 1 Cr. Hr.
Prerequisite: None.
This course provides an overview of music and art including major composers, painters, sculptors and styles. The focus will be on the basic elements underlying the visual and aural arts. The course also prepares students to begin to develop an understanding of how to perceive music and art, both aesthetically and historically. No prior technical knowledge is needed.

HUM 150 World Masterpieces (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course serves as an introduction to some of the great works of art and music in the western world, from Greek civilization to the present. The course will cover the major periods/styles in art and music history: Greek, Roman/Early Christian, Romanesque, Gothic, Renaissance, Baroque, Classical, Romantic, Modern (1900–1945) and Post-Modern (1945–present). Art and music masterpieces to be studied will be selected from the main repertoire of significant works of the western world. The course will also cover fundamentals of integrative art and music appreciation. A background in art and/or music is not required.

HUM 190 Individual Humanism—An Honors Colloquium (3-0) 3 Cr. Hrs.
Prerequisite: Acceptance to the Schoolcraft Scholars honors program.
A required introduction to the Schoolcraft Scholars honors program, this colloquium studies the individual and the community through multiple disciplines. Topics of the colloquium may include, but are not limited to, the human condition; individual renaissance and enlightenment; the role of individuals in a society of change, transition and revolution; the unanswered question; and, taking an active role on the social stage. Additionally, students in this course collaborate, practice critical thinking, and explore both community issues and community-based organizations.

HUM 201 Art and Music in Western Civilization: Field Study—England (3-0) 3 Cr. Hrs.
Prerequisite: HUM 106 and HUM 150 or permission of instructor.
This course is a humanistic study of music and art in concentrated form through field study. Course includes art forms and functional styles of historical periods as they relate to universal principles. The course will also include studies in English history, culture and geography. The course will conclude with a ten-day trip to London, England, with day trips to Cambridge, Canterbury, Bath, Stonehenge, Ely, and other satellite locations. The tour will include visits to the National Gallery and the British Museum as well as other museums, and will include visits to several palaces, castles, cathedrals, and performing arts centers to facilitate a live, first-hand encounter with English arts and culture.

HUM 202 Art and Music in Western Civilization: Field Study—France (3-0) 3 Cr. Hrs.
Prerequisite: HUM 106 or HUM 150 or permission of instructor.
This course is a humanistic study of the arts, culture, and history in concentrated form through field study. Course includes art forms and functional styles of historical periods as they relate to universal principles. The course will include studies in French history, culture and geography. The course will conclude with a ten-day trip to Paris, France, which will include visits to the Louvre Museum, Musee D’Orsee (and other museums/galleries), Notre Dame Cathedral (and other cathedrals), day trips to Versailles, Giverny, St. Germain, St. Denis, and other culturally and historically significant centers to facilitate a live, first-hand encounter with French arts and culture.

HUM 203 Art and Music in Western Civilization: Field Study—Italy (3-0) 3 Cr. Hrs.
Prerequisite: HUM 106 or HUM 150 or permission of instructor.
This course will serve as an in-depth look at the history, culture and people of Italy, with specific concentration on Roman art, architecture and civilization, and the early Renaissance Florentine art and music masterworks. The course will include studies in Italian history, culture, geography and language. Basic Italian language skills will be taught to facilitate the rigors of tourism in a foreign country. The course will culminate in a 12-day tour to Italy and will include stays in Rome, Venice and Florence, with day trips to satellite cities such as Sienna, Padua and Ravenna. The tour will include visits to the Colosseum, the Pantheon, St. Peter’s and the Vatican Museum in Rome, the Florence cathedral, St. Mark’s in Venice, as well as several museums and performing arts centers to facilitate a live, first-hand encounter with Italian arts and culture.
HUM 204  Art and Music in Western Civilization: Field Study—Spain (3-0) 3 Cr. Hrs.
Prerequisite: HUM 106 or HUM 150 or permission of instructor.
This course will serve as an in-depth look at the history, culture and people of Spain, with specific concentration on painting, architecture, and music of the Spanish masters from the Renaissance to the present. The course will include studies in Spanish history, culture, geography and language. Basic Spanish language skills will be taught to facilitate the rigors of tourism in a foreign country. The course will conclude with a ten-day trip to Madrid, Spain, with day trips to satellite cities such as Segovia, Toledo, Aranjuez, and El Escorial. The tour will include visits to the Prado Museum and the Museum of Contemporary Art, as well as other museums, and will include visits to several palaces, castles, cathedrals, and performing arts centers to facilitate a live, first-hand encounter with Spanish arts and culture.

HUM 210  The Art of Being Human (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course is an interdisciplinary introduction to the humanities as an overall approach to living. The course involves the student in the philosophies, religions, and arts as avenues of human inquiry and expression.

HUM 212  Mass Media and Popular Culture (3-0) 3 Cr. Hrs.
Prerequisite: ENG 101, ENG 102 recommended.
This course is an introduction into the nature of mass communication and their relationship with the public. The course will analyze, assess, and evaluate popular culture and mass media. Focus will be on the various forms of media, to include radio, television, film, newspaper, and advertising to determine how they influence and manipulate the ways you relate to yourself and others. Examination will include the history, economics, power, and ethical consideration of media outlets.

HUM 215  Humanities Through the Arts (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course represents an exploratory approach to the humanities that focuses on the special role of the arts. The relation of the humanities to values is central to the purpose of the course. This approach provides a self-contained program for studying values as revealed in the arts.

HUM 231  The Humanities in Western Culture—
Antiquity Through the Renaissance (3-0) 3 Cr. Hrs.
Prerequisite: HUM 106 or HUM 150 or permission of instructor.
This course is an introduction to the Integrated Humanities. Culture has sometimes been defined as that which remains after the civilization has vanished. What is left behind amounts to much more than just artifacts; we are left with a legacy of the humanistic spirit. This course takes an in-depth look at culture, civilization, values and qualities inherent in Western art, architecture, music, literature and philosophy. The course is also a study in Western thought and its resultant social and political institutions. The first of a two-semester sequence, this course will cover Ancient River-Valley, Greek, and Roman civilizations, the Middles Ages, and the Renaissance.

HUM 232  The Humanities in Western Culture—
Baroque to the Present (3-0) 3 Cr. Hrs.
Prerequisite: HUM 106 or HUM 150 or permission of instructor.
This course is an introduction to the Integrated Humanities. Culture has sometimes been defined as that which remains after the civilization has vanished. What is left behind amounts to much more than just artifacts; we are left with a legacy of the humanistic spirit. This course takes an in-depth look at culture and civilization; at values and qualities inherent in Western art, architecture, music, literature and philosophy. The course is also a study in Western thought and its resultant social and political institutions. The second of a two-semester sequence, this course will cover the Baroque, Classical and Romantic periods, as well as the major historical, philosophical, and artistic “isms” of the modern and post-modern Western world.

LASR TECHNOLOGY

LASR 103  Laser Concepts (4-0) 4 Cr. Hrs.
Prerequisite: High School Algebra I.
This basic course, designed for laser technicians, covers laser operation and the technical principles and equations needed to understand them and modify their output. The course also deals with optical system construction, including lenses, mirrors, prisms, optical flats, etalons, beam expanders, collimators, optical tables, optical supports, and photographic components. Associated laboratory experiments will allow the technician to get “hands-on” experience with the set-up, operation, and analysis of laser/optic systems.

LASR 104  Laser Optics and Components (5-0) 5 Cr. Hrs.
Prerequisite: High School Algebra 2.
This course applies graphical and mathematical techniques to the reflection/refraction of light at typical optical interfaces. The student analyzes and uses optical components typically found in geometrical optics. Topics covered include ray tracing, imaging with lenses, mirrors prisms, windows optical flats, etalons, beam expander, collimators, optical tables, optical supports, optical systems, and photographic components and supplies. Associated laboratory stresses hands-on experience with setup, operation and analysis of typical optical systems.

LASR 232  Laser Systems and Applications 1 (4-0) 4 Cr. Hrs.
Prerequisite: LASR 103.
A comprehensive examination of ion lasers, molecular lasers and solid-state laser, with particular attention given to argon ion CO2 gaseous and ND: YAG laser systems. Course considers typical power sources for all lasers and flash lamps and power supplies for pulsed laser systems. Course treats applications of the ion and CO2 laser systems to welding, cutting and drilling. Project experiments stress hands-on experience with operation, troubleshooting and evaluations of current laser systems and power sources.
MANUFACTURING

Associate Dean: Bruce Sweet, MA
Instructors: Adjunct Faculty

MFG 102 Manufacturing Processes (2-4) 3 Cr. Hrs.
Prerequisite: None.
This course will cover fundamental manufacturing processes. The student will be exposed to manual machine operator skills. Particular course emphasis will be on machines, tools and measurements to produce an end product. This is a hands on class with two-thirds of the time in the manufacturing lab.

MFG 103 CNC Manufacturing Operations (2-4) 3 Cr. Hrs.
Prerequisite: MFG 102.
Students will be introduced to the operation of the CNC Mill and CNC Lathe through the use of the basic fundamental of G-codes and M-codes. Machine and tool set up will also be covered. As part of the class, students will make several small projects on the CNC machines. These machines are used in today’s industrial manufacturing plants.

MFG 180 Industrial Entrepreneurship (2-0) 2 Cr. Hrs.
Prerequisite: None.
This course is designed to familiarize the technology student with the basic principles of business in order to make them knowledgeable employees or to prepare them for the eventuality of becoming a business owner. The course is intended to provide a comprehensive overview and culminates in the development of a real business plan. The course is not intended to be a substitute for a thorough education in a conventional business curriculum.

MFG 203 CNC Advanced Manufacturing Operations (2-4) 3 Cr. Hrs.
Prerequisite: MFG 102.
This course will cover CNC machining as well as the advanced functions of the controller. All machine-based operational aspects of the CNC machine used in industrial manufacturing plants will be covered. This course will provide a more advanced machining experience.

MFG 241 Quantitative Metrology (1-2) 3 Cr. Hrs.
Prerequisite: MET 102, MATH 113 or consent of department.
Metrology, the foundation for interdisciplinary scientific measurement, serves as the basis for applied dimensional accuracy traceable to national and international standards. Accuracy and precision measurements are required in all facets of science, engineering and technology including product development, production and analysis. Topics covered in the course include systems of measurements, evolution of standards, mandatory traceability, precision measuring equipment, gages and dimensional indicators, calibrations and methods of surface, linear, depth and height measurement.

MFG 243 Manufacturing Systems Analysis (3-0) 3 Cr. Hrs.
Prerequisite: MFG 102.
Students will explore the principles of plant layout, process and flow charts, tools and aids for effective plant layout. Materials handling equipment, systems, and procedures and their relationship to production control will be covered.

MASSAGE THERAPY

Instructors: Adjunct Faculty

MAS 101 Theory and Fundamentals of Massage Therapy (2-0) 2 Cr. Hrs.
Prerequisite: None.
Corequisite: MAS 102 and MAS 103.
This course deals with the professional standards, ethics, and scope of practice for massage therapy. The course introduces students to a clinical reasoning model used for recordkeeping and to determine approaches to care. Independent study is combined with classroom activities.

MAS 102 Basic Massage Applications (4-4) 6 Cr. Hrs.
Prerequisite: None.
Corequisite: MAS 101 and MAS 103.
This class provides a solid base for the preparation and performance of massage in a wellness setting. The tools of the trade, from tables and supplies through massage manipulations and techniques, are presented and practiced, with an emphasis on proper applications and body mechanics.

MAS 103 Fundamentals of Anatomy and Physiology (4-0) 4 Cr. Hrs.
Prerequisite: None.
Corequisite: MAS 101 and MAS 102.
This course provides the foundation for the study of anatomy and physiology as it relates to massage therapists. It is an interactive course that presents Western science concepts and correlations to Eastern philosophies using a common language. Subject matter includes the organization of body structure, the mechanisms of health and disease, pathology, pain, stress management and adaptation. The course introduces medical terminology, especially the language encountered in massage. Systems of control, including both the nervous and endocrine systems, are studied in relationship to how massage and bodywork depends on reflex mechanisms and feedback loops.

MAS 104 Intermediate Massage Applications (2-6) 5 Cr. Hrs.
Prerequisite: MAS 101, MAS 102 and MAS 103.
Corequisite: MAS 105.
This course covers both complementary bodywork systems and applications of massage to special populations. The course also presents business considerations for the practice of massage therapy as an employee or independent contractor. Wellness education will be addressed. Complementary bodywork systems include: hydrotherapy, lymphatic and circulatory massage, hand and foot massage, reflexology, connective tissue approaches, trigger point therapies, meridian work and acupuncture points, shiatsu, polarity therapy, and introduction to spa therapies. Special populations addressed include athletes, elderly, infants, clients with physical or psychological disabilities, applications for chronic illness, working in healthcare facilities and hospice/comfort care.

MAS 105 Systems of Support and Movement (4-4-5) 7 Cr. Hrs.
Prerequisite: MAS 101, MAS 102 and MAS 103.
Corequisite: MAS 104.
The skeleton, joints and muscles make up the majority of structures encountered by massage therapists. This course focuses on the identification of each structure, their functions and actions, and the most common pathological conditions that may be encountered. A portion of this course will include a clinical internship.
MAS 106  Palpatory Skills (1-5) 3.5 Cr. Hrs.  
**Prerequisite:** MAS 101, MAS 102, MAS 103, 
MAS 104 and MAS 105.  
**Corequisite:** MAS 107 and MAS 108.  
This course will provide the massage student with an 
extensive opportunity to explore palpation. Students 
will become more proficient in tissue assessment, 
interpretation, and analysis during massage.

MAS 107  Organ Systems Anatomy and Physiology (4-0) 4 Cr. Hrs.  
**Prerequisite:** MAS 101, MAS 102, MAS 103, 
MAS 104 and MAS 105.  
**Corequisite:** MAS 106 and MAS 108.  
This course addresses those organ systems empha-
sized in standard anatomy courses, and focuses on the 
ability of the student to clinically reason and justify 
the indications and contraindications for massage in 
relation to each of the systems.

MAS 108  Massage Therapy Externship (0-50) 3 Cr. Hrs.  
**Prerequisite:** MAS 101, MAS 102, MAS 103, 
MAS 104 and MAS 105.  
**Corequisite:** MAS 106 and MAS 107.  
This is the cooperative assignment for a Massage 
Therapy student who has completed the prerequisites 
for this course. Students will meet 50-hours during 
the semester for at least three hours per week off-
campus in the massage therapy field. The College and 
the therapy facility will jointly evaluate the student, 
which will then serve as a basis for a final grade.

### MATHEMATICS

Associate Dean: Monica Sullivan, MS
Instructors: Professor Linda Balfour, MA  
Professor Lois Bearden, MA  
Professor Edward Kavagnaugh, MA  
Professor Randy Schwartz, MA  
Professor Larry Williams, MA  
Associate Professor Janet Arsznov, MA 
Associate Professor Sandra Kerr, MA  
Associate Professor Audrone Mingela, MA 
Assistant Professor Katherine Anderson, MA 
Adjunct Faculty

**CALCULATOR REQUIREMENTS:**

MATH 113: A scientific calculator is required. If continuing in 
mathematics, a TI-83 Plus or TI-84 Plus is recommended.

MATH 119, 128 through 151: TI-83 Plus or TI-84 Plus is required.

MATH 122, 230 and 240: TI-83 Plus or TI-84 Plus is recommended.

MATH 252: TI-86 is required.

No devices with computer algebra systems, such as the TI-89 or 
TI-92, are permitted on exams or other graded work in any math 
class. For more details you may wish to consult your instructor.

For appropriate sequence of math courses, consult with a member 
of the Math or Counseling Department.

**MATH 045  Basic Mathematics (4-0) 4 Cr. Hrs.**  
**Prerequisite:** None.  
The topics covered in this course include fundamental 
operations with whole numbers, fractions, decimals, 
percentages, proportions, and integers. In addition, 
several topics from geometry are also included.

**MATH 047  Prealgebra (3-0) 3 Cr. Hrs.**  
**Prerequisite:** MATH 045 or equivalent with grade of 2.0 or better.  
This course is intended for the student who is compet-
tent in arithmetic. Topics covered in the course include 
an introduction to variables, signed numbers, and alge-
braic expressions; a review of the arithmetic operations 
on fractions, decimals, and percents; solving equations 
and applications; ratio and proportions; and applica-
tions using simple geometry measurement formulas.

**MATH 053  Beginning Algebra (4-0) 4 Cr. Hrs.**  
**Prerequisite:** MATH 047 or equivalent with grade of 2.0 or better.  
This course will explore the real number system, 
fundamental operations with real numbers, graph-
ing, linear equations, factoring polynomials, rational 
expressions, exponents, quadratic equations, applica-
tions and introduction to the function concept.

**MATH 055  Plane Geometry (3-0) 3 Cr. Hrs.**  
**Prerequisite:** MATH 053 or equivalent with grade of 2.0 or better.  
This course includes the basic elements of geometry 
including deductive reasoning and formal proofs, and 
elementary construction with straight edge and compass.

**MATH 105  Mathematics for Elementary Teachers 1 (4-0) 4 Cr. Hrs.**  
**Prerequisite:** MATH 053 or equivalent with grade of 2.5 or better.  
This is the first of a two-course sequence designed 
for students who plan to enter elementary school 
teaching. The course covers problem solving, number 
theory, sets, functions, numeration, the real numbers 
and their properties and operations.
MATH 106  Mathematics for Elementary Teachers 2 (4-0) 4 Cr. Hrs.
Prerequisite: MATH 105 or equivalent with grade of 2.0 or better.
This is the second of a two-course sequence designed for students who plan to enter elementary school teaching. The course covers geometry, measurement, statistics, and probability.

MATH 111  Applications—Utility of Math (4-0) 4 Cr. Hrs.
Prerequisite: MATH 045 or equivalent with grade of 2.0 or better.
This course is intended for students who do not wish to pursue the study of mathematics by following the standard sequence of courses, but who need to develop some competency in mathematics for an Associate of Arts degree. This course includes the practical application of mathematics. Topics covered in the course include geometry, managing money, interest, installment buying, credit cards, loans, probability, statistics and graphing.

MATH 113  Intermediate Algebra for College Students
(4-0) 4 Cr. Hrs.
Prerequisite: MATH 053 or equivalent with grade of 2.0 or better. Placement test is available in the Assessment Center.
Review of algebraic operations, problem solving strategies, integer and rational exponents, complex numbers, solving equations, function concept, graphs and applications of linear, quadratic, exponential and logarithmic functions, and systems of equations are the topics covered in this course.

MATH 119  Trigonometry (3-0) 3 Cr. Hrs.
Prerequisite: MATH 055 or equivalent with grade of 2.0 or better and MATH 113 or equivalent with grade of 2.0 or better. Note: Business and social science majors should take MATH 128 instead of MATH 119.
Trigonometric functions and their graphs, identities, equations, and inverse functions, solutions of right and oblique triangles are the topics included in this course.

MATH 122  Elementary Statistics (4-0) 4 Cr. Hrs.
Prerequisite: MATH 113 or equivalent with grade of 2.0 or better. Placement test is available in the Assessment Center. Note: The Math Department recommends that business and social science majors take MATH 122 following MATH 135.
This course includes an introduction to statistics, statistical descriptions, frequency distributions, possibilities and probabilities, probability distributions, sampling and sampling distributions, testing hypotheses based on measurements, count data, and paired data, and use of nonparametric tests.

MATH 128  Precalculus without Trigonometry (4-0) 4 Cr. Hrs.
Prerequisite: MATH 113 or equivalent with grade of 2.0 or better. NOTE: The combination of MATH 119 and MATH 128 is NOT comparable to MATH 129. MATH 128 is a prerequisite for 145 (Business Calculus) but is NOT a prerequisite for Math 150 (Calculus I). Note: Math 128 is recommended for business and social science majors.
The function concept, polynomial, rational, exponential and logarithmic functions, curve sketching, systems of linear equations and inequalities, graphical solutions and business applications are the topics included in this course.

MATH 129  Precalculus with Trigonometry (5-0) 5 Cr. Hrs.
Prerequisite: MATH 113 or equivalent with grade of 2.0 or better and MATH 119 or equivalent with a grade of 2.0 or better. Note: Math 129 is recommended for engineering, science and math majors.
Topics covered in this course include the function concept, polynomial, rational, exponential, logarithmic, rapid review of trigonometric and inverse trigonometric functions, solving equations and systems of equations, curve sketching, complex numbers, coordinate geometry, and conic sections. The prevailing theme is applications and graphical solutions.

MATH 135  Finite Mathematics (4-0) 4 Cr. Hrs.
Prerequisite: MATH 128 or equivalent with grade of 2.0 or better. Note: Math 135 is oriented to business and social science majors. Matrices and their applications to linear equations and linear programming, the simplex method, elementary probability, and mathematics of finance are the topics included in this course.

MATH 145  Calculus for Business and Social Science (4-0) 4 Cr. Hrs.
Prerequisite: MATH 128 or equivalent with grade of 2.0 or better.
The main topics of this course are differentiation of algebraic, exponential and logarithmic functions; curve sketching, optimization, constrained optimization, integration, introduction to functions of several variables and applications.

MATH 150  Calculus with Analytic Geometry 1 (5-0) 5 Cr. Hrs.
Prerequisite: MATH 129 or equivalent with grade of 2.0 or better.
This course is oriented to engineering, science and mathematics majors. Limits and continuity, derivatives and integrals of algebraic and some trigonometric functions, curve sketching with the aid of the graphing calculator, and applications are the topics covered in this course.

MATH 151  Calculus with Analytic Geometry 2 (5-0) 5 Cr. Hrs.
Prerequisite: MATH 150 or equivalent with grade of 2.0 or better.
Note: Math 151 may be taken concurrently with Math 230.
This course includes the study of derivatives and integrals of transcendental functions, techniques of integration, indeterminate forms, improper integrals, infinite series, numerical methods, conics, polar coordinates, and applications.

MATH 230  Linear Algebra (4-0) 4 Cr. Hrs.
Prerequisite: MATH 150 or equivalent with grade of 2.0 or better.
Topics covered in this course include systems of linear equations, matrices, determinants, Euclidean vector spaces, general vector spaces, inner product spaces, eigenvalues and eigenvectors, diagonalization, linear transformations, and applications.

MATH 240  Calculus with Analytic Geometry 3 (5-0) 5 Cr. Hrs.
Prerequisite: MATH 151 or equivalent with grade of 2.0 or better.
Vectors in the plane, vectors in three-space, solid analytic geometry, partial derivatives, line integrals, multiple integrals and applications are the topics covered in this course.

MATH 252  Differential Equations (5-0) 5 Cr. Hrs.
Prerequisite: MATH 240 or equivalent with grade of 2.0 or better.
Topics covered in this course include first order differential equations, second order linear equations, series solutions of second order linear equations, higher order linear equations, and Laplace transform, systems of first order linear equations, numerical methods and qualitative theory of differential equations.
MEDICAL ASSISTING
Associate Dean: Robert F. Pearce, MPA
Coordinator/Instructor: Professor Patricia Rubio, MSA
Instructors: Adjunct Faculty

MA 110  Phlebotomy (4-0) 4 Cr. Hrs.
Prerequisite: BIOL 105 and HIT 104.
This course teaches basic technical skills necessary for a phlebotomist to draw blood in various healthcare settings such as hospital labs, doctors’ offices and clinics. Proper procedures are stressed for the safe collection and handling of clinical specimens obtained by venipuncture or capillary puncture from adults, children and infants. This course also defines the role of the phlebotomist in the healthcare setting.

MA 134  Medical Insurance Coding (3-0) 3 Cr. Hrs.
Prerequisite: None.
Corequisite: HIT 104.
This course introduces the student to insurance coding guidelines developed for use with the International Classification of Diseases, (ICD-9-CM) and Current Procedural Terminology, (CPT-4). The course is designed to develop coding skills to record the services and procedures that are provided for the patient. The importance of accurate coding will be discussed as it is an essential part of reimbursement.

MA 140  Medical Office Procedures (3-0) 3 Cr. Hrs.
Prerequisite: Typing proficiency required.
This course introduces the student to types of medical office practice, telephone procedures, specifics of appointment making, filing, office organization, public relations, mailing and job applications of relevance to the medical profession.

MA 155  Medical Insurance Billing (3-0) 3 Cr. Hrs.
Prerequisite: MA 134 and HIT 104.
This course introduces the student to the various types of medical insurance including Blue Cross/Blue Shield, Medicare, Medicaid, Workers’ Compensation and other third-party payers. The student will perform the tasks necessary to process claim forms for each type of medical insurance. Manual and computerized billing methodologies are included.

MA 174  Medical Laboratory Techniques (4-0) 4 Cr. Hrs.
Prerequisite: BIOL 105, HIT 104, MA 140 and MA 110.
This course will provide an opportunity for the student to practice techniques to perform laboratory procedures. The student will practice preparing the patient for tests, collecting samples, completing the tests, and reporting the results to the physician. The student will practice laboratory procedures such as urinalysis, hematology, bacteriology, chemistry, blood typing, and patient preps.

MA 180  Medical Office Clinical Procedures (3-3) 4 Cr. Hrs.
Prerequisite: BIOL 105, HIT 104 and MA 140.
This course is designed to introduce the student to examination techniques, injections, minor surgery, medications and pharmacology, sterilization procedures, and autoclave.

MA 195  Office Practicum (1-15) 3 Cr. Hrs.
Prerequisite: Successful completion of all academic and medical assisting courses.
The student will participate in a non-paid externship under the direction of a physician and the office manager or supervisor. The externship is structured to provide experience in performing administrative and clinical procedures in a physician office, clinic or ambulatory healthcare setting. The student will interact with other healthcare professionals performing and observing skills of a medical assistant. It is an opportunity that will allow a student to apply theory to practice.

MEDICAL TRANSCRIPTION
Associate Dean: Robert F. Pearce, MPA
Coordinator/Instructor: Professor Patricia Rubio, MSA
Instructors: Associate Professor Jody Scheller, MS

MT 106  Principles of Medical Transcription (2-0) 2 Cr. Hrs.
Prerequisite: Keyboarding skill of 50 words per minute recommended.
This course provides an introduction to the role of the medical transcriptionist in the healthcare setting. The student will acquire knowledge of the types of forms and content utilized and required in medical transcription. The content of the course will also include the legalities and standards that apply to medical transcription.

MT 108  Physician Office Transcription (2-0) 2 Cr. Hrs.
Prerequisite: HIT 104 and BIOL 105.
This course is designed to introduce the student to transcription practices utilized in the physician/medical office setting. The importance of accurate transcription will be an essential aspect for this course. Report format and general transcription guidelines will be explored. The student will gain experience by transcribing office, clinic, and hospital dictation from many medical specialties.

MT 157  Medical Transcription Seminar (1-0) 1 Cr. Hr.
Prerequisite: HIT 104, MT 106, MT 108 and BIOL 105.
This course will provide an overview of the law as it is applied to healthcare professionals and patients. Students will also explore the description of a legally safe working environment. The course will describe management techniques that may be employed by the entry-level and the experienced medical transcriptionist.

MT 158  Hospital Medical Transcription 1 (3-4) 5 Cr. Hrs.
Prerequisite: HIT 104, MT 106, MT 108 and BIOL 105.
This course will provide medical transcription skill building opportunities to strengthen and expand medical terminology. The course will emphasize the technique of developing skill with medical transcription documents for each anatomic system. The student will utilize the English language and communication skills during transcription practice.

MT 159  Hospital Medical Transcription 2 (3-4) 5 Cr. Hrs.
Prerequisite: MT 157.
This course will describe and illustrate various reports that the medical transcriptionist will be expected to transcribe. The student will use production word processing skills in transcribing all of the commonly used medical reports. The student will be expected to format, edit, and transcribe medical reports that require an advanced level of medical terminology.

<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>MET 102</td>
<td>Introduction to Materials Science (2-2)</td>
<td>3 Cr. Hrs.</td>
<td>This course provides students with a basic introduction to Materials Science using the principles of science to study the nature of metallic and non-metallic materials used in most industries. Topics covered in the course include atomic structure, elements, states of matter, bonding, crystallization, mechanical, chemical, and physical properties of metallic, polymeric, ceramic and composite materials.</td>
</tr>
<tr>
<td>MET 114</td>
<td>Engineering Materials (3-0)</td>
<td>3 Cr. Hrs.</td>
<td>This course in materials applications covers ferrous and non-ferrous alloys, powdered metals, ceramics and glass, rubber and polymers. Each material is examined with respect to their advantages and disadvantages, methods of fabrication and joining, and specific industrial applications, both current and future.</td>
</tr>
<tr>
<td>MET 120</td>
<td>Hazardous Materials Management (2-0)</td>
<td>2 Cr. Hrs.</td>
<td>This course provides instruction in the nature of hazardous materials and their interaction with the health and safety of individuals as they relate to industrial metallurgical practices. Topics covered in the course include proper handling of hazardous substances, chemical, physical and biological influences on health, human response to toxins, target organ effects and regulatory controls used in hazard prevention in the laboratory and materials process workplace.</td>
</tr>
<tr>
<td>MET 125</td>
<td>Cooperative Metallurgical Experience (0-40)</td>
<td>4 Cr. Hrs.</td>
<td>The above are minimum requirements for participating in a cooperative learning experience. Additional prerequisites may be required by the employer. Students will receive industrial or laboratory experience under the supervision of the College Coordinator, the cooperating organization and the Department of Metallurgy and Materials Science. A written report and performance appraisal will be required.</td>
</tr>
<tr>
<td>MET 152</td>
<td>Structure and Properties Laboratory (2-2)</td>
<td>3 Cr. Hrs.</td>
<td>An experience oriented course with emphasis on lab techniques and equipment required for the macro and microstructural evaluation of metals produced by industrial processes. Topics covered in the course include optical systems, sectioning and polishing, mounting techniques, etching, specialized measurement technology and photo-microscopy.</td>
</tr>
<tr>
<td>MET 160</td>
<td>Composite Materials (2-2)</td>
<td>3 Cr. Hrs.</td>
<td>An introduction to plastic and composite materials used in industry. Emphasis is placed on chemical, physical and mechanical properties of thermoplastic, thermosetting plastics and matrix reinforced composites. Topics covered in the course include the nature of polymeric materials, reinforcements, coatings and adhesives. Industrial forming techniques and applications are also examined.</td>
</tr>
<tr>
<td>MET 211</td>
<td>Physical Metallurgy Structures (3-1)</td>
<td>3 Cr. Hrs.</td>
<td>An interpretative study incorporating phase equilibria, diffusion, nucleation and growth, solid state transformation, strengthening mechanisms; effects of alloying, deformation, precipitation, and recrystallization and grain growth on microstructure. Microstructural interpretation of ferrous and non-ferrous metal is emphasized.</td>
</tr>
<tr>
<td>MET 215</td>
<td>Mechanical Properties of Metals (3-1)</td>
<td>3 Cr. Hrs.</td>
<td>Students will explore basic elastic and plastic behavior, deformation, dislocations; brittle, ductile and transitional fractures; fatigue, tensile, hardness, impact, and stress testing. Course will include a review of industry methods and testing standards. Mechanical forming processes used in the industry including rolling, forging, drawing, and other forming techniques will be introduced.</td>
</tr>
<tr>
<td>MET 217</td>
<td>Computer Applications in Materials Science (2-2)</td>
<td>3 Cr. Hrs.</td>
<td>An experience-oriented course in data acquisition, specifically designed for students interested in materials laboratory computer applications. Topics covered in the course include an introduction to materials laboratory computer systems, data acquisition, test system integration, hardware-software options, electronic fundamentals, international data bases, image processing, graphics, computerized processing and control, and the fundamentals of basic programming in materials science.</td>
</tr>
<tr>
<td>MET 248</td>
<td>Electron Microscopy and Image Analysis (2-2)</td>
<td>3 Cr. Hrs.</td>
<td>This course introduces the fundamentals of Scanning Electron Microscopy (SEM) and quantitative Image Analysis (IA) currently used in support of effective materials, characterization, and evaluations. Topics covered in the course include microscopy systems and components, applications in fractography and quantifiable measurements used in process and surface failure analysis, materials characterization, and product development studies. The course is recommended for students specifically interested in specialized laboratory practices.</td>
</tr>
<tr>
<td>MET 271</td>
<td>Corrosion and Corrosion Analysis (2-2)</td>
<td>4 Cr. Hrs.</td>
<td>Corrosive processes, including electrochemical reactions in metals and the chemical degradation of polymeric materials are emphasized. Topics covered in the course include basic electrochemical reactions, nature of corrosive environments, types of corrosion, laboratory corrosion testing, data analysis, interaction with mechanical behavior and fabricated dissimilar materials.</td>
</tr>
<tr>
<td>MET 280</td>
<td>Special Problems in Materials Science (3-2)</td>
<td>4 Cr. Hrs.</td>
<td>Students having adequate backgrounds in this discipline and/or catalog specified prerequisites are encouraged to select a topic associated with metallic or non-metallic materials, related processing, new developments or analytical techniques, and conduct investigations to identify problems, analyze data and make decisions. The results of such evaluations will be presented and reported in a systematic, critical scientific format. Scientific methods including literature search, laboratory evaluations and experimentation are encouraged. Likewise, faculty-directed study will be provided.</td>
</tr>

</table>
MUSIC

MUSIC 104 Basic Materials in Music Theory (3-0) 3 Cr. Hrs.
Prerequisite: None.
A step-by-step approach to the fundamentals of music which includes notation, scales, intervals and triads is the format for this course. This course is not recommended for music majors with music theory background.

MUSIC 105 Music Appreciation (3-0) 3 Cr. Hrs.
Prerequisite: None.
An introduction to music, designed especially to increase understanding and enjoyment of music through intelligent listening. No technical knowledge is required but outside listening and attendance at live performances are required.

MUSIC 107 Music for Elementary Teachers (3-2) 4 Cr. Hrs.
Prerequisite: None.
This course will provide functional knowledge and skills to handle music requirements in the elementary grades. The course is recommended for elementary education majors and will require off-campus classroom visitations.

MUSIC 109 The Architecture of Music (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course serves as an introduction to the major forms of Western music. The course will cover the major musical styles from the Baroque through the 20th century. Representative masterpieces from each period will be studied. The course serves to facilitate the transition from the introductory music appreciation course to the music history sequence through the development of critical listening and analytical skills.

MUSIC 114 Voice Class 1 Elements—Beginners (2-0) 2 Cr. Hrs.
Prerequisite: None.
This is a voice class for young or beginning singers, or for singers wishing to refresh their focus on the elements upon which the cultivation of the singing voice is built.

MUSIC 116 Voice Class 2 Cultivation—Intermediate (2-0) 2 Cr. Hrs.
Prerequisite: Consent of instructor.
This is a voice class for singers of intermediate level or for singers wishing to refresh their understanding of the study and cultivation of the singing voice.

MUSIC 117 Choir 1 (2-1) 2 Cr. Hrs.
Prerequisite: Audition.
Students will explore the principles of choral singing and musicianship. Music of all styles and periods will be included. Choir is an elective for all students, regardless of major field.

MUSIC 118 Choir 2 (2-1) 2 Cr. Hrs.
Prerequisite: Audition.
Students will explore the principles of choral singing and musicianship. Music of all styles and periods will be included. Choir is an elective for all students, regardless of major field.

MUSIC 121 Class Piano 1 (2-0) 2 Cr. Hrs.
Prerequisite: None.
Group piano instruction designed for students with little or no formal piano training will be the format of this course. Instruction is given on both electronic and acoustic instruments.

MUSIC 122 Class Piano 2 (2-0) 2 Cr. Hrs.
Prerequisite: MUSIC 121 or equivalent.
This course is a continuation of MUSIC 121. Group piano instruction designed for students with little or no formal piano training will be the format of this course. Instruction is given on both electronic and acoustic instruments.

MUSIC 123 Keyboard Skills for Recording Engineers (1-0) 1 Cr. Hr.
Prerequisite: MUSIC 121.
Students will apply knowledge gained in MUSIC 121 to use with electronic keyboard instruments used in the modern recording studio. Emphasis is on the operation of modern electronic keyboard instruments, MIDI, and developing the fundamental musical skills used in contemporary music production. These skills will be applied to individual projects in the laboratory.

MUSIC 124 Chamber Singers 1 (1-1) 1 Cr. Hr.
Prerequisite: Audition.
A select ensemble that performs madrigals and other chamber music for events on and off campus. Open to all students regardless of major.

MUSIC 127 Chamber Singers 2 (1-1) 1 Cr. Hr.
Prerequisite: Audition.
A select ensemble that performs madrigals and other chamber music for events on and off campus. Open to all students regardless of major.

MUSIC 130 Ear Training for Recording Engineers (2-0) 2 Cr. Hrs.
Prerequisite: MUSIC 173 or consent of the department.
Listening skills particular to the recording engineer are developed through demonstration and ear training exercises. These skills include hearing and discriminating frequencies, levels, processing, phase, distortion, and equalization. Application of these skills to multi-track mixing is emphasized and developed through hands-on assignments using a variety of professional mixing systems.

MUSIC 131 Applied Music—Piano 1 (1-1) 2 Cr. Hrs.
Prerequisite: None.
Private instruction in piano is the format for this course. Six hours minimum weekly practice, one private lesson and one studio class each week are required. Performance examinations will be held at the end of each semester. For music and non-music majors.

MUSIC 132 Applied Music—Piano 2 (1-1) 2 Cr. Hrs.
Prerequisite: MUSIC 131.
Private instruction in piano is the format for this course. Six hours minimum weekly practice, one private lesson and one studio class each week are required. Performance examinations will be held at the end of each semester. For music and non-music majors.

MUSIC 133 Applied Music—Voice 1 (1-1) 2 Cr. Hrs.
Prerequisite: None.
Private instruction in voice will be the format of this course. Six hours minimum weekly practice, one private lesson and one studio class each week are required. Performance examinations will be held at the end of each semester. Course will provide performance opportunities at weekly symposium. Course is for music and non-music majors.

MUSIC 134 Applied Music—Voice 2 (1-1) 2 Cr. Hrs.
Prerequisite: MUSIC 133.
Private instruction in voice will be the format of this course. Six hours minimum weekly practice, one private lesson each week plus weekly symposium are required. Performance examinations will be held at the end of each semester. Course will provide performance opportunities at weekly symposium. Course is for music and non-music majors.
MUSIC 135 Applied Music—Instrumental 1 (1-1) 2 Cr. Hrs.
Prerequisite: None.
Private instruction in all instruments of the band and orchestra, including classical guitar will be the format of this course. Six hours minimum weekly practice, one private lesson each week plus weekly symposium is required. Performance examinations will be held at the end of each semester. Course will provide performance opportunities at weekly symposium. Course is for music and non-music majors.

MUSIC 136 Applied Music—Instrumental 2 (1-1) 2 Cr. Hrs.
Prerequisite: MUSIC 135.
Private instruction in all instruments of the band and orchestra, including classical guitar will be the format of this course. Six hours minimum weekly practice, one private lesson each week plus weekly symposium is required. Performance examinations will be held at the end of each semester. Course will provide performance opportunities at weekly symposium. Course is for music and non-music majors.

MUSIC 137 Sight Singing and Ear Training 1 (2-0) 2 Cr. Hrs.
Prerequisite: None.
Sight singing – melodies outlining the intervals of I and V chords of first and second inversion and non-harmonic tones will be the format of this course and will include simple rhythmic, melodic, and harmonic dictations.

MUSIC 138 Sight Singing and Ear Training 2 (2-0) 2 Cr. Hrs.
Prerequisite: MUSIC 137.
Sight singing—melodies outlining intervals of all triads and dominant seventh chords will be the format for this course. Harmonic, melodic, rhythmic dictation—altered non-harmonic tones, secondary dominants, modulation to closely related keys, borrowed altered harmonies will be explored.

MUSIC 140 Jazz Lab Band—Improvisation 1 (2-1) 2 Cr. Hrs.
Prerequisite: None.
This group is geared to the less experienced jazz player, performing contemporary jazz music in the big band setting, but with some emphasis on improvisation. The Lab Band will perform at concerts during the school year. The class is open to all students, high school and college, and members of the community. An audition at the beginning of each semester is required. Course may be used as an elective credit in humanities.

MUSIC 141 Wind Ensemble 1 (2-1) 2 Cr. Hrs.
Prerequisite: None.
The Schoolcraft Wind Ensemble is one of the most visible and sought-after organizations on campus. This community instrumental ensemble (wind, brass, and percussion only) is open to all student musicians. The Wind Ensemble performs approximately six concerts a year, and also performs at college commencements. All musically talented students are invited to participate regardless of their field. An audition at the beginning of each semester is required. Course may be used as an elective credit in humanities.

MUSIC 142 Jazz Band 1 (2-1) 2 Cr. Hrs.
Prerequisite: None.
This group is known throughout the Detroit Area for its performances at the Michigan Jazz Festival and the Ford Detroit International Jazz Festival at Hart Plaza. The band also has four concerts during the school year, including an invitational Community College Jazz Festival and performs at local malls in the community. All aspiring jazz performers ages 16 through 80+ are invited to participate. An audition at the beginning of each semester is required. Course may be used as elective credit in humanities.

MUSIC 143 Practice Teaching and Practicum in Piano Teaching 1 (1-1) 2 Cr. Hrs.
Prerequisite: Consent of Director of Piano Department.
Piano teachers will learn to create and present effective lesson plans that include repertoire, theory concepts, rhythm, tone, touch, and hand position through the first semester of piano study.

MUSIC 144 Practice Teaching and Practicum in Piano Teaching 2 (1-1) 2 Cr. Hrs.
Prerequisite: MUSIC 143.
Piano teachers will learn to create and present effective lesson plans that include repertoire, theory concepts, rhythm, tone, touch, and hand position through the second semester of piano study.

MUSIC 149 Popular Music Culture in America (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course serves as an introduction to some of the great works of popular music in the United States, from the songs of colonial America to the present. The course will cover the major periods/styles in popular American music history, including but not limited to music of the westward movement, ragtime and blues, the roots and growth of jazz, country music, folk music, music of Broadway and Tin Pan Alley, the roots and development of rock music, and late 20th century developments in popular music, as well as historical, political and sociological background of the United States as pertinent to music history. A background in music is not required.

MUSIC 153 Music Theory 1 (3-0) 3 Cr. Hrs.
Prerequisite: None.
Harmonic progression; chords of 1st and 2nd inversion will be the format of this course. Phrase structure and cadences will be introduced. Technique of harmonization and non-harmonic tones will be explored.

MUSIC 154 Music Theory 2 (3-0) 3 Cr. Hrs.
Prerequisite: MUSIC 153.
Students will be introduced to 7th chords, altered non-harmonic tones, secondary dominants, modulation to closely related keys, borrowed and altered chords; original composition.

MUSIC 155 History of Broadway (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course will look at the history and development of the Broadway musical, from its roots in early American musical entertainment and classical European opera, its heyday in the post-modern era, and its evolution in the late 20th century as a result of the music publishing and recording industry. In addition, the course will take an in-depth look at the music and structure of several Broadway masterpieces and how they affected and were affected by American popular culture.

MUSIC 164 Music History 1 (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course will be a detailed survey of literature, history, and musical materials of the Baroque and Classical eras.

MUSIC 165 Music History 2 (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course is a detailed survey of history and literature of music of the Romantic and 20th Century eras.

MUSIC 168 Synthesizer Ensemble 1 (2-1) 3 Cr. Hrs.
Prerequisite: MUSIC 121 or permission of the instructor.
This group performs original music and transcribed literature of many genres on electronic musical instruments. Regular rehearsals and performances are scheduled.
MUSIC 169 Synthesizer Ensemble 2 (2-1) 3 Cr. Hrs.
Prerequisite: MUSIC 121 or permission of the instructor.
This group performs original music and transcribed literature of many genres on electronic musical instruments. Regular rehearsals and performances are scheduled.

MUSIC 171 Music Technology (3-0) 3 Cr. Hrs.
Prerequisite: MUSIC 104, MUSIC 121 or equivalent.
This course is an introduction to the fundamentals of music-making using MIDI/computer hardware and software. The course will examine the basic functions of the keyboard controller, synthesizer, sound modules, line mixer, effects unit, and computer interface through hands-on experience and experimentation. The course will also introduce the student to current software applications that emphasize music performance and composition with the assistance of MIDI hardware and a desktop computer.

MUSIC 172 Electronic Music Intermediate MIDI—Sampling and Sound Editing (3-0) 3 Cr. Hrs.
Prerequisite: MUSIC 171.
This course will deal with advanced functions of MIDI sequencing with the assistance of MIDI hardware and a desktop computer.

MUSIC 173 Basic Studio Techniques 1 (3-0) 3 Cr. Hrs.
Prerequisite: None.
Fundamentals of the recording arts, including basic audio and acoustical theory, recording consoles, tape recorders, microphone design and technique, speakers, and signal processing will be introduced in this course.

MUSIC 174 Basic Studio Techniques 2 (3-0) 3 Cr. Hrs.
Prerequisite: MUSIC 173.
Multi-track studio production techniques are developed through class discussion, demonstration, and project assignments. Theory of digital audio technology and its integration into music production is emphasized.

MUSIC 201 Keyboard Skills for Piano Teachers 1 (2-0) 2 Cr. Hrs.
Prerequisite: Consent of Director of Piano Department.
This course is designed to give piano teachers the necessary keyboard skills for teaching beginning through early intermediate level students. The course will cover technical exercises, harmonization, transposition, and sight-reading material using the standards of the Michigan Music Teacher’s Association, the National Piano Guild, and other recognized testing organizations.

MUSIC 202 Keyboard Skills for Piano Teachers 2 (2-0) 2 Cr. Hrs.
Prerequisite: MUSIC 201.
This course is designed to give piano teachers the necessary keyboard skills for teaching intermediate through late intermediate level students. The course will cover technical exercises, harmonization, transposition, and sight-reading material using the standards of the Michigan Music Teacher’s Association, the National Piano Guild, and other recognized testing organizations.

MUSIC 214 Voice Class 3 Performance—Advanced (2-0) 2 Cr. Hrs.
Prerequisite: Consent of instructor.
This is a voice class for singers preparing for a career in singing, or for advanced singers wishing to learn the art of performance before an audience.

MUSIC 216 Voice Class 4 Performance—Advanced (2-0) 2 Cr. Hrs.
Prerequisite: Consent of instructor.
This is a voice class for singers preparing for a career in singing, or for advanced singers wishing to learn the art of performance before an audience.

MUSIC 217 Choir 3 (2-1) 2 Cr. Hrs.
Prerequisite: Audition.
Students will explore the principles of choral singing and musicianship. Music of all styles and periods will be included. Choir is an elective for all students, regardless of major field.

MUSIC 218 Choir 4 (2-1) 2 Cr. Hrs.
Prerequisite: Audition.
Students will explore the principles of choral singing and musicianship. Music of all styles and periods will be included. Choir is an elective for all students, regardless of major field.

MUSIC 224 Chamber Singers 3 (1-1) 1 Cr. Hr.
Prerequisite: Audition.
A select ensemble that performs madrigals and other chamber music for events on and off campus. Open to all students regardless of major.

MUSIC 227 Chamber Singers 4 (1-1) 1 Cr. Hr.
Prerequisite: Audition.
A select ensemble that performs madrigals and other chamber music for events on and off campus. Open to all students regardless of major.

MUSIC 228 Sight Singing and Ear Training 3 (0-1) 1 Cr. Hr.
Prerequisite: MUSIC 138.
Corequisite: MUSIC 250.
Sight singing—melodies in all clefs outlining intervals of all triads, ninths, elevenths, thirteenth, melodic chromatici will be the format of this course. Harmonic, melodic, rhythmic dictation-chromatic mediants and modulation to foreign keys will be explored.

MUSIC 231 Applied Music—Piano 3 (1-1) 2 Cr. Hrs.
Prerequisite: MUSIC 132.
Private instruction in piano is the format for this course. Six hours minimum weekly practice, one private lesson and one studio class each week are required. Performance examinations will be held at the end of each semester. Course is for music and non-music majors.

MUSIC 232 Applied Music—Piano 4 (1-1) 2 Cr. Hrs.
Prerequisite: MUSIC 231.
Private instruction in piano is the format for this course. Six hours minimum weekly practice, one private lesson and one studio class each week are required. Performance examinations will be held at the end of each semester. Course is for music and non-music majors.

MUSIC 233 Applied Music—Voice 3 (1-1) 2 Cr. Hrs.
Prerequisite: MUSIC 134.
Private instruction in voice; six hours minimum weekly practice required; one private lesson each week plus weekly symposium; performance examinations held at the end of each semester. Performance opportunities at weekly symposium. For music and non-music majors.

MUSIC 234 Applied Music—Voice 4 (1-1) 2 Cr. Hrs.
Prerequisite: MUSIC 233.
Private instruction in voice will be the format of this course. Six hours minimum weekly practice, one private lesson each week plus weekly symposium is required. Performance examinations will be held at the end of each semester. Course will provide performance opportunities at weekly symposium. Course is for music and non-music majors.
MUSIC 235  Applied Music—Instrumental 3 (1-1) 2 Cr. Hrs.

Prerequisite: MUSIC 136.

Private instruction in all instruments of the band and orchestra, including classical guitar will be the format of this course. Six hours minimum weekly practice, one private lesson each week plus weekly symposium is required. Performance examinations will be held at the end of each semester. Course will provide performance opportunities at weekly symposium. Course is for music and non-music majors.

MUSIC 236  Applied Music—Instrumental 4 (1-1) 2 Cr. Hrs.

Prerequisite: MUSIC 235.

Private instruction in all instruments of the band and orchestra, including classical guitar will be the format of this course. Six hours minimum weekly practice, one private lesson each week plus weekly symposium is required. Performance examinations will be held at the end of each semester. Course will provide performance opportunities at weekly symposium. Course is for music and non-music majors.

MUSIC 240  Jazz Lab Band—Improvisation 2 (2-1) 2 Cr. Hrs.

Prerequisite: None.

This group is geared to the less experienced jazz player, performing contemporary jazz music in the big band setting, but with some emphasis on improvisation. The Lab Band will perform at concerts during the school year. The class is open to all students, high school and college, and members of the community. An audition at the beginning of each semester is required. Course may be used as an elective credit in humanities.

MUSIC 241  Wind Ensemble 2 (2-1) 2 Cr. Hrs.

Prerequisite: None.

The Schoolcraft Wind Ensemble is one of the most visible and sought-after organizations on campus. This community instrumental ensemble (wind, brass, and percussion only) is open to all student musicians. The Wind Ensemble performs approximately six concerts a year, and also performs at all college commencements. All musically talented students are invited to participate regardless of their field. An audition at the beginning of each semester is required. Course may be used as an elective credit in humanities.

MUSIC 242  Jazz Band 2 (2-1) 2 Cr. Hrs.

Prerequisite: None.

This group is known throughout the Detroit area for its performances at the Michigan Jazz Festival and the Ford Detroit International Jazz Festival at Hart Plaza. The band also has four concerts during the school year, including an invitational Community College Jazz Festival and performs at local malls in the community. All aspiring jazz performers ages 16 through 80+ are invited to participate in this band. An audition at the beginning of each semester is required. Course may be used as an elective credit in humanities.

MUSIC 243  Practice Teaching and Practicum in Piano Teaching 3 (1-1) 2 Cr. Hrs.

Prerequisite: MUSIC 144.

Piano teachers will learn to create and present effective lesson plans that include repertoire, theory concepts, rhythm, tone, touch, and hand position through the third semester of piano study.

MUSIC 244  Practice Teaching and Practicum in Piano Teaching 4 (1-1) 2 Cr. Hrs.

Prerequisite: MUSIC 243.

Piano teachers will learn to create and present effective lesson plans that include repertoire, theory concepts, rhythm, tone, touch, and hand position through the fourth semester of piano study.

MUSIC 245  Wind Ensemble 3 (2-1) 2 Cr. Hrs.

Prerequisite: None.

The Schoolcraft Wind Ensemble is one of the most visible and sought-after organizations on campus. This community instrumental ensemble (wind, brass, and percussion only) is open to all student musicians. The Wind Ensemble performs approximately six concerts a year, and also performs at all college commencements. All musically talented students are invited to participate regardless of their field. An audition at the beginning of each semester is required. Course may be used as an elective credit in humanities.

MUSIC 246  Wind Ensemble 4 (2-1) 2 Cr. Hrs.

Prerequisite: None.

The Schoolcraft Wind Ensemble is one of the most visible and sought-after organizations on campus. This community instrumental ensemble (wind, brass, and percussion only) is open to all student musicians. The Wind Ensemble performs approximately six concerts a year, and also performs at all college commencements. All musically talented students are invited to participate regardless of their field. An audition at the beginning of each semester is required. Course may be used as an elective credit in humanities.

MUSIC 247  Piano Teaching Techniques and Materials 1 (3-0) 3 Cr. Hrs.

Prerequisite: Consent of Director of Piano Department.

This course is designed for teachers enrolled in the Piano Teaching Program.

MUSIC 248  Jazz Band 3 (2-1) 2 Cr. Hrs.

Prerequisite: None.

This group is known throughout the Detroit Area for its performances at the Michigan Jazz Festival and the Ford Detroit International Jazz Festival at Hart Plaza. The band also has four concerts during the school year, including an invitational Community College Jazz Festival and performs at local malls in the community. All aspiring jazz performers ages 16 through 80+ are invited to participate in this band. An audition at the beginning of each semester is required. Course may be used as elective credit in humanities.

MUSIC 249  Jazz Band 4 (2-1) 2 Cr. Hrs.

Prerequisite: None.

This group is known throughout the Detroit Area for its performances at the Michigan Jazz Festival and the Ford Detroit International Jazz Festival at Hart Plaza. The band also has four concerts during the school year, including an invitational Community College Jazz Festival and performs at local malls in the community. All aspiring jazz performers ages 16 through 80+ are invited to participate in this band. An audition at the beginning of each semester is required. Course may be used as elective credit in humanities.

MUSIC 250  Music Theory 3 (3-0) 3 Cr. Hrs.

Prerequisite: MUSIC 154.

Chromatic mediant and modulation to foreign keys will be the format of this course. Ninth, 11th, and 13th chords will be explored. In addition, analysis, original compositions in basic homophonic forms and traditional harmony will be covered.

MUSIC 252  Music Theory 4 (4-0) 4 Cr. Hrs.

Prerequisite: MUSIC 250.

Eighteenth century counterpoint - study, analysis, and composition of two-voice invention and three-voice fugue, 20th century forms and harmonic tendencies—study, analysis, and composition of quartal harmony piece, and work utilizing the 12-tone system will be explored.
MUSIC 257  Piano Teaching Techniques and Materials 2  
(3-0) 3 Cr. Hrs.  
Prerequisite: Consent of Director of Piano Department.  
This course is designed for teachers enrolled in the Piano Teaching Program.

MUSIC 258  Jazz Lab Band—Improvisation 3 (2-1) 2 Cr. Hrs.  
Prerequisite: None.  
This group is geared to the less experienced jazz player, performing contemporary jazz music in the big band setting, but with some emphasis on improvisation. The Lab Band will perform at concerts during the school year. The class is open to all students, high school and college, and members of the community. An audition at the beginning of each semester is required. Course may be used as an elective credit in humanities.

MUSIC 259  Jazz Lab Band—Improvisation 4 (2-1) 2 Cr. Hrs.  
Prerequisite: None.  
This group is geared to the less experienced jazz player, performing contemporary jazz music in the big band setting, but with some emphasis on improvisation. The Lab Band will perform at concerts during the school year. The class is open to all students, high school and college, and members of the community. An audition at the beginning of each semester is required. Course may be used as an elective credit in humanities.

MUSIC 268  Synthesizer Ensemble 3 (2-1) 3 Cr. Hrs.  
Prerequisite: MUSIC 121 or permission of the instructor.  
This group performs original music and transcribed literature of many genres on electronic musical instruments. Regular rehearsals and performances are scheduled.

MUSIC 269  Synthesizer Ensemble 4 (2-1) 3 Cr. Hrs.  
Prerequisite: MUSIC 121 or permission of the instructor.  
This group performs original music and transcribed literature of many genres on electronic musical instruments. Regular rehearsals and performances are scheduled.

MUSIC 273  Advanced Studio Techniques 1 (3-0) 3 Cr. Hrs.  
Prerequisite: MUSIC 130 and MUSIC 174.  
This course is a comprehensive examination of the principles and applications of digital audio in today’s recording and interactive media industries. Computer-based recording and editing is emphasized along with musical instrument digital interface (MIDI) technology.

MUSIC 274  Advanced Studio Techniques 2 (3-0) 3 Cr. Hrs.  
Prerequisite: None.  
Corequisite: MUSIC 273.  
This course is a continuation of MUSIC 274 and recording in the digital domain. Areas of focus will include data storage, analog to digital conversion, editing, time code, and synchronization.

MUSIC 282  Applied Music—Piano 5 (1-1) 2 Cr. Hrs.  
Prerequisite: MUSIC 232.  
Private instruction in piano is the format for this course. Six hours minimum weekly practice, one private lesson and one studio class each week are required. Performance examinations will be held at the end of each semester. Course is for music and non-music majors.

MUSIC 283  Applied Music—Piano 6 (1-1) 2 Cr. Hrs.  
Prerequisite: MUSIC 282.  
Private instruction in piano is the format for this course. Six hours minimum weekly practice, one private lesson and one studio class each week are required. Performance examinations will be held at the end of each semester. Course is for music and non-music majors.

MUSIC 284  Applied Music—Piano 7 (1-1) 2 Cr. Hrs.  
Prerequisite: MUSIC 283.  
Private instruction in piano is the format for this course. Six hours minimum weekly practice, one private lesson and one studio class each week are required. Performance examinations will be held at the end of each semester. Course is for music and non-music majors.

MUSIC 288  Applied Music—Piano 8 (1-1) 2 Cr. Hrs.  
Prerequisite: MUSIC 284.  
Private instruction in piano is the format for this course. Six hours minimum weekly practice, one private lesson and one studio class each week are required. Performance examinations will be held at the end of each semester. Course is for music and non-music majors.

MUSIC 289  Applied Music—Voice 8 (1-1) 2 Cr. Hrs.  
Prerequisite: MUSIC 288.  
Private instruction in voice will be the format of this course. Six hours minimum weekly practice, one private lesson and one studio class each week are required. Performance examinations will be held at the end of each semester. Course is for music and non-music majors.
MUSIC 290 Applied Music—Instrumental 5 (1-1) 2 Cr. Hrs.
Prerequisite: MUSIC 236.
Private instruction in all instruments of the band and orchestra, including classical guitar will be the format of this course. Six hours minimum weekly practice, one private lesson each week plus weekly symposium is required. Performance examinations will be held at the end of each semester. Course will provide performance opportunities at weekly symposium. Course is for music and non-music majors.

MUSIC 291 Applied Music—Instrumental 6 (1-1) 2 Cr. Hrs.
Prerequisite: MUSIC 290.
Private instruction in all instruments of the band and orchestra, including classical guitar will be the format of this course. Six hours minimum weekly practice, one private lesson each week plus weekly symposium is required. Performance examinations will be held at the end of each semester. Course will provide performance opportunities at weekly symposium. Course is for music and non-music majors.

MUSIC 292 Applied Music—Instrumental 7 (1-1) 2 Cr. Hrs.
Prerequisite: MUSIC 291.
Private instruction in all instruments of the band and orchestra, including classical guitar will be the format of this course. Six hours minimum weekly practice, one private lesson each week plus weekly symposium is required. Performance examinations will be held at the end of each semester. Course will provide performance opportunities at weekly symposium. Course is for music and non-music majors.

MUSIC 293 Applied Music—Instrumental 8 (1-1) 2 Cr. Hrs.
Prerequisite: MUSIC 292.
Private instruction in all instruments of the band and orchestra, including classical guitar will be the format of this course. Six hours minimum weekly practice, one private lesson each week plus weekly symposium is required. Performance examinations will be held at the end of each semester. Course will provide performance opportunities at weekly symposium. Course is for music and non-music majors.

MUSIC 298 Special Music Projects for Honors Studies—
Performance/Composition/Research 1 (2-0) 2 Cr. Hrs.
Prerequisite: Dean's List status (GPA 3.5), MUSIC 154 and two semesters of Applied Voice or Instrumental Music. Student eligibility will be determined during interviews with the instructor.
An opportunity for the talented student to explore individually, in depth, the under direction of a faculty member, a performance, composition, or research related project. This course provides an opportunity to present traditional musical events such as a recital or a concert, or to learn a new technology.

MUSIC 299 Special Music Projects for Honors Studies—
Performance/Composition/Research 2 (2-0) 2 Cr. Hrs.
Prerequisite: Dean's List status (GPA 3.5), MUSIC 154 and two semesters of Applied Voice or Instrumental Music. Student eligibility will be determined during interviews with the instructor.
An opportunity for the talented student to explore individually, in depth, under the direction of a faculty member, a performance, composition, or research related project. This course provides an opportunity to present traditional musical events such as a recital or a concert, or to learn a new technology.

NURSING
Associate Dean: Monica Sullivan, MS
Coordinator/Assistant: Kathleen Fordyce, MSN
Instructors: Professor Sharon Griffin, MSN
Professor Elizabeth Quell, MSN
Professor Deborah Vendittieli, MSN
Associate Professor Tamara Campbell, MSN
Associate Professor Marlynn Marroso, MSN
Associate Professor Nancy Palmer, MSN
Assistant Professor Cindy Sheppard, MSN
Instructor: Holly Austin, MSN
Adjunct Faculty

NURS 116 Fundamentals of Nursing 1 (2-3) 3 Cr. Hrs.
Prerequisite: BIOL 050 or high school Biology, CHEM 051 or high school Chemistry, MATH 053 or high school Algebra and consent of department, BIOL 236 with grade of 2.5 or better or BIOL 237 with grade of 2.5 or better and BIOL 238 with grade of 2.5 or better. BIOL 115 is also recommended.
This course is an introduction to the theory and practice of nursing. Students will utilize critical thinking, nursing process and psychological principles as a foundation for provision of care for clients experiencing alterations in functional health patterns. The student will apply knowledge of health, nutrition, cultural diversity and gerontological concepts in assessing and diagnosing adult client’s needs in a community setting. Nursing skills related to asepsis, physical assessment, mobility, hygiene, safety and skin integrity will be performed in laboratory and/or clinical settings.

NURS 117 Fundamentals of Nursing 2 (1-6) 3 Cr. Hrs.
Prerequisite: NURS 116 with a grade of 2.0 or better.
This course continues the study of critical thinking, nursing process and psychosocial principles for provision of care for clients experiencing alterations in functional health patterns. Nursing skills will build upon those previously learned. Skills will be practiced during supervised laboratory practice. The student will apply knowledge of health, nutrition, cultural diversity, gerontological concepts, and ethical-legal considerations to provide nursing care to adult clients in an extended care facility/community setting.

NURS 118 Pharmacology 1 (1-0) 1 Cr. Hr.
Prerequisite: BIOL 050 or high school Biology; CHEM 051 or high school Chemistry; MATH 053 or high school Algebra, BIOL 236 or BIOL 237 and 238 with minimum grade of 2.5; consent of the department; acceptance to the ADN program for the current academic year.
This course introduces pharmacological concepts and major drug classifications. Drug information includes mechanism of action, drug effects, therapeutic uses, side effects, adverse effects, toxicity, drug interactions, dosages, example drugs and patient teaching for specified drug classifications. The nursing process will be utilized as related to drug therapy.

NURS 119 Pharmacology 2 (1-0) 1 Cr. Hr.
Prerequisite: NURS 118 with grade of 2.0 or better.
This course is a continuation of NURS 118, Pharmacology 1. This course introduces pharmacological concepts and major drug classifications. Drug information includes mechanism of action, drug effects, therapeutic use, side effects, adverse effects, toxicity, drug interactions, dosages, example drugs and patient teaching for specified drug classifications. The nursing process will be utilized as related to drug therapy.
NURS 121  Adult Medical—Surgical Nursing 2 (2-9) 5 Cr. Hrs.  
**Prerequisite:** NURS 120 with grade of 2.0 or better.  
This course continues application of the nursing process for adult clients experiencing alterations in functional health patterns. The student will utilize critical thinking skills to apply knowledge of infection control; pathophysiology; pharmacology; diagnostic testing; nutrition; and psychosocial, spiritual, cultural and ethical-legal principles in provision of nursing care for adult clients in a medical-surgical/community setting. Theoretical content will focus on care of clients with alterations affecting the respiratory, cardiovascular, musculoskeletal and endocrine systems.

NURS 122  Psychiatric Mental Health Nursing (2-6) 4 Cr. Hrs.  
**Prerequisite:** For students pursuing the ADN program: NURS 121 with grade of 2.0 and PSYCH 209. For students pursuing the LPN to ADN program option: BIOL 050 or high school Biology, CHEM 051 or high school Chemistry, MATH 053 or high school Algebra, BIOL 236 with grade of 2.5 or better or BIOL 237 with grade of 2.5 or better and BIOL 238 with grade of 2.5 or better, PSYCH 201 and PSYCH 209.  
This course applies critical thinking skills, nursing process and psychosocial principles and interventions for mental health clients in acute and community settings.

NURS 130  LPN TO RN Transition Course (3-0) 3 Cr. Hrs.  
**Prerequisite:** NURS 122 with grade of 2.0 or better.  
This course is for Licensed Practical Nurses (LPNs) who are articulating to Registered Nurse (RN) status. The course will be focused on the transition of the LPN to the RN role; the health-illness continuum; biopsychosocial development and human needs; nurse-client interaction; nursing process; clinical skills and patient education.

NURS 211  Nursing Care of Women and Childbearing Families (2-9) 5 Cr. Hrs.  
**Prerequisite:** For students pursuing the ADN program: NURS 119 with grade of 2.0 or better, NURS 122 with grade of 2.0 or better and BIOL 243 with grade of 2.5 or better. For students pursuing the LPN to ADN option: NURS 130 with grade of 2.0 and consent of department and BIOL 243 with grade of 2.5 or better and consent of department.  
This course introduces the student to the theory and practice of nursing care of women and childbearing families. Course content will include care of women and their families during the perinatal experience. Pathophysiology, diagnosis, treatment, preventative measures, and patient teaching strategies for select gynecological disorders will also be covered. Acute and community settings will be utilized for clinical experiences. The student will utilize critical thinking skills and incorporate previously learned content.

NURS 212  Nursing Care of Children and Families (2-9) 5 Cr. Hrs.  
**Prerequisite:** For students pursuing the ADN program: NURS 119 with grade of 2.0 or better, NURS 122 with grade of 2.0 or better and BIOL 243 with grade of 2.5 or better. For students pursuing the LPN to ADN program: NURS 130 with grade of 2.0 or better and consent of department and BIOL 243 with grade of 2.5 or better and consent of department.  
This course is designed to introduce the student to the theory and clinical practice of the acutely ill child and their family. The student will integrate previously learned nursing skills and theory in meeting the needs of acutely ill children and their families. There will also be a focus on the topic of growth and development and how the child’s level of growth and development may impact their illness. The issue of growth and development will also be addressed in considering the needs of the well child and well child care. The student will be expected to demonstrate beginning skills in the management of multiple clients and their families. The student will also be expected to identify the role of the pediatric nurse when acting as an advocate for the child and/or family.

NURS 213  Adult Medical—Surgical Nursing 3 (2-9) 5 Cr. Hrs.  
**Prerequisite:** For students pursuing the ADN program: NURS 119 with grade of 2.0 or better, NURS 122 with grade of 2.0 or better and BIOL 243 with grade of 2.5 or better. For students pursuing the LPN to ADN program: NURS 130 with grade of 2.0 and BIOL 243 with grade of 2.5 or better and consent of department.  
In this course students will utilize critical thinking, nursing process, psychosocial concepts and previously learned principles to provide care for adult clients experiencing complex alterations in functional health patterns. Advanced nursing skills will be utilized during clinical practice in acute care and community settings.

NURS 214  Leadership and Nursing Management of Complex Clients (2-9) 5 Cr. Hrs.  
**Prerequisite:** NURS 211 with grade of 2.0 or better, NURS 212 with grade of 2.0 or better and NURS 213 with grade of 2.0 or better.  
This course includes advanced medical-surgical nursing content and basic principles of leadership and management. Current legal-ethical issues are also included, as well as issues related to nursing practice, standards of conduct, employment, and licensure requirements. Clinical practice provides opportunities for students to be integrated as part of the healthcare team while providing complex care to groups of clients.

### NURSING ASSISTANT TRAINING PROGRAM

**Instructors:** Adjunct Faculty

**NATP 110  Nursing Assistant Preparation (3-7) 10 Cr. Hrs.  
**Prerequisite:** None.**

This course is designed to prepare an individual in the role of the nursing assistant. Students will explore communication and interpersonal skills, infection control, safety/emergency procedures, promotion of resident’s independence/rights, basic nursing skills, personal and restorative care skills, care of mental health and social services needs, care of cognitively impaired residents and documentation. Long term care facilities will be utilized for clinical experience.
OFFICE INFORMATION SYSTEMS

Associate Dean: Bruce Sweet, MA
Instructor: Professor Patricia Partyka, MEd
Adjunct Faculty

OIS 100 Keyboarding 1 (2-0) 2 Cr. Hrs.
Prerequisite: None.
Students will learn how to keyboard using the touch control method. Development of proper keyboarding techniques while building basic accuracy and speed will be emphasized. Today’s technology-driven environment makes keyboarding one of the most widely used skills as we utilize computers for work, school and in our personal lives.

OIS 102 Keyboarding 2 (2-0) 2 Cr. Hrs.
Prerequisite: OIS 100 or equivalent.
This course continues the development of accuracy and speed in keyboarding. Students will enhance their keyboarding skills and incorporate them into the formatting of various business documents, reports and tables.

OIS 105 Office Communication and Editing Skills (3-0) 3 Cr. Hrs.
Prerequisite: A skill level of ENG 050 or higher on the placement test. OIS 102 strongly recommended.
The ability to communicate clearly and accurately has been identified by employers as their number one priority. This course is designed to review and incorporate the principles of grammar, punctuation, vocabulary, and spelling into the writing of or proofreading and editing of business documents.

OIS 165 Microsoft Word for Windows (3-0) 3 Cr. Hrs.
Prerequisite: OIS 105 or equivalent.
This course is designed to provide practical hands-on experience using Microsoft Word for Windows. Students will create, format, and edit business documents. In addition, students will work with tables, charts, graphs, diagrams, templates and wizards, AutoText, web pages and hyperlinks. While manipulating text, students will learn to add visual appeal to documents as well as how to use writing tools and special features.

OIS 185 Business Presentation 1—Fundamental Concepts (3-0) 3 Cr. Hrs.
Prerequisite: OIS 165 or equivalent.
This course will introduce students to the fundamental concepts of business presentations using Microsoft’s PowerPoint software. PowerPoint presentations are one of the most widely used communication tools today’s workplace. Students will create basic business presentations, charts, graphs and flyers. Students will learn to link and embed objects and files as well as work with drawing tools, icons, various fonts and color to create a powerful presentation.

OIS 195 Time and Project Management (1-0) 1 Cr. Hr.
Prerequisite: None.
In today’s busy world, time management is an essential skill needed both professionally and personally. This course will assist students in gaining control of their office activities by showing them how to set and prioritize goals and events around individual values using a Day Planner.

OIS 255 Office Procedures (2-0) 2 Cr. Hrs.
Prerequisite: OIS 100 or equivalent.
This course is designed to enhance the students’ knowledge regarding basic office skills. Students will learn office functions such as reprographics, records management, telephone techniques and etiquette, mailing and shipping services, meeting and conference planning, travel arrangements, as well as the importance of written communication, and public relations.

OIS 260 Office Administration (3-0) 3 Cr. Hrs.
Prerequisite: OIS 255 recommended.
Today’s Administrative Office Manager must be an effective communicator, who possesses strong skills in problem solving, time management, multi-tasking and human relations. This course concentrates on the principles of administrative office management, the importance of managing administrative services and operations, and the skills and attitudes needed to be successful in today’s office.

OIS 265 Advanced Microsoft Word for Windows (3-0) 3 Cr. Hrs.
Prerequisite: OIS 165.
This course is a continuation of OIS 165 and will focus on the advanced functions of Microsoft Word for Windows. Students will create and modify styles, macros, footnotes and endnotes. In addition, students will work with sorting and selecting text, merging and managing documents, preparing forms, applying special features, adding visual effects and using WordArt.

PHILOSOPHY

Associate Dean: Cheryl D. Hawkins, MS
Instructors: Adjunct Faculty

PHIL 243 An Introduction to Philosophy (3-0) 3 Cr. Hrs.
Prerequisite: None.
Designed to familiarize the student with philosophy as a foundation for life, this course provides an introduction to questions in metaphysics, epistemology, ethics, social and political philosophy and the philosophy of religion. Classical and modern philosophers from Western, Asian, African and Native American traditions are presented. Critical thinking and an application of theory to contemporary issues are emphasized.

PHIL 247 Logic (4-0) 4 Cr. Hrs.
Prerequisite: None.
This course is designed to assist the student in distinguishing good and bad reasoning. The course will address both informal logic, which focuses on arguments in everyday language and how to evaluate them, and formal logic, which focuses on symbolic language and the formal methods for determining the validity of arguments. Common logical fallacies will be outlined and attention given to arguments on contemporary issues in the public forum.

PHIL 277 Ethical Problems (3-0) 3 Cr. Hrs.
Prerequisite: PHIL 243 or equivalent.
In this course the student will be introduced to a variety of ethical theories as discussed by classical and contemporary moralists. The course experience also provides for an application of these theories to modern moral questions through a process of critical thinking to explore alternate solutions to present day moral problems.
PHYSICAL EDUCATION, HEALTH AND RECREATION

Associate Dean: Monica Sullivan, MS
Instructors: Adjunct Faculty

PE 104  Physical Fitness and Conditioning (1-1) 2 Cr. Hrs.
Prerequisite: None.
This course stresses vigorous body conditioning through progressive exercises, stretching, weight machine and free weight use. Cardiovascular fitness will be emphasized.

PE 105  Beginning Resistance Training (1-1) 2 Cr. Hr.
Prerequisite: None.
Instruction will stress the development of strong muscle growth and bone health, as well as improvement of cardiovascular function through the use of resistance bands, X-er tubes, stability balls, and free weights.

PE 106  Beginning Swimming (1-1) 2 Cr. Hrs.
Prerequisite: None.
This course is for the student who has little or no skill and knowledge of swimming techniques. Fundamental instruction in the basic swimming strokes, including front crawl, back crawl, elementary back stroke, side stroke, elementary diving and water safety skills will be introduced.

PE 115  Aerobic Dance Fitness (1-1) 2 Cr. Hrs.
Prerequisite: None.
Instruction will stress the development of an individual’s aerobic capacity and cardiovascular endurance through aerobic dance and dance exercise.

PE 116  Intermediate Swimming (1-1) 2 Cr. Hrs.
Prerequisite: None.
For students who can swim two lengths of the pool, stay afloat for three minutes. Designed to increase skill and knowledge in the basic swimming strokes, side stroke, breast stroke, and diving and water safety skills. Some stroke variations and synchronized swimming techniques may be covered.

PE 121  First Aid and Personal Safety (2-2) 2 Cr. Hrs.
Prerequisite: None.
This course uses lecture-demonstration approach on the prevention of accidents and care of victims with emergency-skill training in all procedures. Cardio-pulmonary resuscitation (CPR) for infant, child and adult, plus Automated External Defibrillator (A.E.D.) use will be presented. Certification cards will be awarded to those completing the requirements. Note: Nursing students will need CPR for the Professional Rescuer for the Nursing Program.

PE 131  Golf (1-1) 2 Cr. Hrs.
Prerequisite: None.
This course is geared toward the beginner or advanced beginning golfer. Instruction will be given on fundamental skills, strategy, rules, practice techniques and equipment. An opportunity to play on a course with the instructor will be made available.

PE 132  Beginning Tennis (1-1) 2 Cr. Hrs.
Prerequisite: None.
This course provides students with a basic history of tennis, techniques, fundamental skills, strategy, rules and the opportunity to participate in a competitive situation.

PE 141  Basketball (1-1) 2 Cr. Hrs.
Prerequisite: None.
This course covers the sports’ history, basic techniques, fundamental skills, strategy, rules, and the opportunity to participate in a competitive situation.

PE 142  Skin and Scuba Diving (1-2) 3 Cr. Hrs.
Prerequisite: None.
A physical examination is recommended. This course will introduce the environment, medicine and physics of diving and dive organization. Open water certification may be earned. Some advanced techniques are covered.

PE 153  Volleyball (1-1) 2 Cr. Hrs.
Prerequisite: None.
This course covers the sport’s history, basic techniques, fundamental skills, strategy, rules, and the opportunity to participate in a competitive situation.

PE 157  Paddleball/Racquetball (1-1) 2 Cr. Hrs.
Prerequisite: None.
This course provides instruction in rules, safety practices, etiquette, strategy and skills of paddleball and racquetball. Tournament play in singles, doubles and cut-throat is included.

PE 164  Skin and Scuba Diving (1-2) 3 Cr. Hrs.
Prerequisite: Beginning swimming or equivalent is required.
This course will introduce the skills, techniques, safety factors, mechanics, first aid, marine life and environment, medicine and physics of diving and dive organization. Open water certification may be earned. Some advanced techniques are included.

PE 166  Self Defense (1-1) 2 Cr. Hrs.
Prerequisite: A physical examination is recommended.
This course combines various methods of self-defense with an emphasis on Judo. Related techniques of Jujitsu and Karate will be covered.

PE 194  Weight Training (1-1) 2 Cr. Hrs.
Prerequisite: None.
Various methods of weight training for both men and women are taught. Proper lifting techniques learned. The concept of “total fitness and body awareness” is stressed.

PE 202  Lifestyle Fitness—Wellness (1-1) 2 Cr. Hrs.
Prerequisite: None.
This course will introduce the student, through lecture and exercise, to the various methods and benefits of physical and emotional fitness/wellness activities. A wide variety of topics pertinent to the physical and mental health and well-being of the individual will be presented and practiced, providing the framework for the student to make sound health choices. Pre- and Post-fitness assessments will be taken. Both in-class and outside of class lab projects will be undertaken.

PE 240  Physical Education for Elementary Teachers (3-0) 3 Cr. Hrs.
Prerequisite: None.
Students will receive instruction in the use of basic movement, games, relays, stunts, and organization for the early and later elementary grades. Emphasis is on the organization for P.E. at these levels. Students are required to make arrangements for observation of elementary classes during the latter part of the semester.
PHYSICS

Associate Dean: Monica Sullivan, MS
Instructor: Instructor Paul Holody, PhD
Adjunct Faculty

PHYS 051  Basic Physics (4-1) 4 Cr. Hrs.
Prerequisite: MATH 053 or one year of high school Algebra.
This course is designed for students who have had no previous course in physics or need a review of the subject to prepare for college physics. Basic concepts in mechanics, sound, heat, electricity, light and modern physics are explored through lecture demonstrations, interactive activities and laboratory work.

PHYS 104  Introduction to Astronomy (3-2) 4 Cr. Hrs.
Prerequisite: MATH 053 or one year of high school Algebra.
This course is designed to introduce the subject of astronomy to students in any curriculum, but not for science majors. A historical perspective is used to discuss current scientific thinking on topics ranging from the motion of the night sky and the solar system to stars, galaxies and cosmology.

PHYS 123  Applied Physics (4-2) 5 Cr. Hrs.
Prerequisite: MATH 113.
This course in applied physics is designed for technical, business and applied health programs. Using trigonometry, the traditional topics of kinematics, dynamics, mechanics, heat, acoustics, electricity and magnetism, optics, modern physics and nuclear physics are treated in a practical and applied fashion with emphasis on laboratory work and scientific procedures. (This course may be used in place of PHYS 051.)

PHYS 181  General Physics (4-2) 4 Cr. Hrs.
Prerequisite: PHYS 051 or one year of high school Physics or PHYS 123 and MATH 119.
This first semester course in general physics is designed for pre-professional students. Using algebra and trigonometry, the traditional topics of mechanics, fluids, energy, heat, and sound are explored through lecture demonstrations, interactive activities and laboratory work. This course is not for engineering students or physics majors.

PHYS 182  General Physics (4-2) 4 Cr. Hrs.
Prerequisite: PHYS 181.
This second semester course is a continuation of PHYS 181. Using algebra and trigonometry, the more advanced topics of electricity, magnetism, light and modern physics are explored through lecture demonstrations, interactive activities and laboratory work. This course is not for engineering students or physics majors.

PHYS 211  General Physics (5-2) 5 Cr. Hrs.
Prerequisite: PHYS 051 or high school Physics and MATH 150.
This first semester, calculus-based course is designed for engineering students and science majors. Traditional topics of kinematics, dynamics, energy, fluids, heat, and sound are investigated through lecture demonstrations, simulations and laboratory work.

PHYS 212  General Physics (5-2) 5 Cr. Hrs.
Prerequisite: PHYS 211 with grade of 2.0 or better.
This second semester, calculus-based course is a continuation of PHYS 211. Advanced topics such as electricity, magnetism, light, and modern physics are investigated through lecture demonstration, simulations and laboratory work. This course is designed for engineering students and science majors.

POLITICAL SCIENCE

Associate Dean: Cheryl D. Hawkins, MS
Instructors: Professor Kent Kirkpatrick, MA
Associate Professor Alexander Thomson, PhD

POLS 105  Survey of American Government (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course is an introductory study of the American political system. Emphasis is placed on historical and contemporary political theories and ideologies as well as on political institutions, parties and interest groups. Students will engage in analysis of decision-makers, power and controversial issues.

POLS 109  State and Local Government (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course is an introductory study of America’s state and local governments. Emphasis is placed on the nature of state constitutions, the structure and operation of state executive/legislative/judicial branches, the organization and functioning of local governments. State/federal and state/local relations will also be covered in this course. Students will engage in analysis of decision-makers, power and controversial issues.

POLS 205  Political Parties (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course examines the organization and functions of American political parties. Emphasis is placed on the nature of political campaigns, party conventions, the organization and functioning of political parties, and citizen participation in politics. A historical review of parties and their ideological developments is also included.

POLS 207  Comparative Government (3-0) 3 Cr. Hrs.
Prerequisite: A college course in political science or history or consent of instructor.
The essence of politics including the scientific method and the comparative study of politics; democratic and autocratic political systems; typologies and types of variables; environmental considerations; history and political culture, structures for political participation; governmental structures and processes; system institutionalization and durability will be examined in this course. Major Western European countries will be discussed.

POLS 209  International Relations (3-0) 3 Cr. Hrs.
Prerequisite: POLS 105 and completion of other social science courses recommended.
This course provides an examination of some of the social, economic, and political forces which make for cooperation and conflict between nations. Emphasis will be on political economy. Areas of concentration include the Russian Revolution and the rise of the U.S.S.R., the Chinese Revolution and the emergence of China, and the unfolding relationships between the third world and the industrialized nations. International economics and the international debt will be examined. Recent studies of Chile and Cuba will be presented.
PRACTICAL NURSING
Associate Dean Monica Sullivan, MS
Coordinator/Assistant Kathleen Fordyce, MSN
Instructors: Associate Professor Tamara Campbell, MSN
          Assistant Professor Cindy Sheppard, MSN
Adjunct Faculty
The contact hours listed are based on a full 15 week semester. The number of hours per week increases when courses are offered in a shortened semester format.

PN 111 Fundamentals of Practical Nursing (5-12) 9 Cr. Hrs.
Prerequisite: Consent of Department.
This course includes beginning theory and supervised practice in the fundamental skills necessary to meet the needs of the chronically ill and elderly patient. The student will learn the application of the nursing process with emphasis on assessment and implementation skills necessary to give quality patient care. The study of normal nutrition and math necessary for administration of medications is included.

PN 112 Nursing Dynamics (4-0) 4 Cr. Hrs.
Prerequisite: Consent of Department.
This introductory course in Practical Nursing provides an overview of the profession of practical nursing from a historical perspective to current regulations, practices and responsibilities. Emphasis is placed on professional interactions and the various psychosocial topics included.

PN 124 Nursing Adult Patients (7-15) 12 Cr. Hrs.
Prerequisite: PN 111 with grade of 2.0 or better, PN 112 with grade of 2.0 or better, AHE 101 with grade of 2.0 or better and BIOL 105 with grade of 2.0 or better.
This course is an introduction to the care of adult patients having medical and surgical disorders. The student will focus on the application of critical thinking and the nursing process in providing patient care. The student will also apply knowledge of nursing skills, pathophysiology, nutrition, pharmacology, diagnostic tests, communication, and behavioral principles in the care of selected adults.

PN 125 Mental Health Nursing (3-0) 3 Cr. Hrs.
Prerequisite: PN 111 with grade of 2.0 or better, PN 112 with grade of 2.0 or better, AHE 101 with grade of 2.0 or better and BIOL 105 with grade of 2.0 or better.
The mental health system is overviewed from a brief historical perspective to current trends and practices. Common behavioral and psychiatric disorders are covered utilizing a nursing process approach. Emphasis is placed on the role of the practical nurse as a member of the psychiatric healthcare team.

PN 126 Maternal and Child Nursing (2.5-7.5) 5 Cr. Hrs.
Prerequisite: PN 124 with grade of 2.0 or better and PN 125 with grade of 2.0 or better.
In the maternity-newborn portion of this class, the theory and clinical emphasis is on normal pregnancy, labor, delivery and postpartum. Care and assessment of the newborn is included. The pediatric portion covers normal growth and development from infant to adolescence. Emphasis is placed on care of the well and hospitalized child.

PN 137 Advanced Concepts in Practical Nursing (1.5-4.5) 3 Cr. Hrs.
Prerequisite: PN 126 with grade of 2.0 or better.
This capstone course covers advanced medical-surgical topics as well as issues related to licensure and employment. In clinical practice, emphasis is placed on functioning with greater independence in providing care to groups of patients. Students gain experience as an active member of the nursing team while working with staff personnel.
PSYCHOLOGY

Associate Dean: Cheryl D. Hawkins, MS
Instructors: Assistant Professor Colleen Pilgrim, PhD
Adjunct Faculty

PSYCH 153 Human Relations (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course is designed particularly for students in the Career Curricula. The course focuses upon a better understanding of human behavior as related to interpersonal relations on the job. Foundations of human behavior, strategies for effective human relations, fundamental skills of working as a team leader and team member, and ways of anticipating, preventing, and coping with challenges of human relations are major areas of study.

PSYCH 201 General Psychology (4-0) 4 Cr. Hrs.
Prerequisite: Successful completion of a Political Science course and courses in Biology recommended. Recommended twenty-six hours of transferable credit or consent of department. Principles of human thought and action with emphasis on individuals in their environment; individual differences in intelligence and personality; effects of heredity and environment on the organism; the nervous system, perception, learning, intelligence, motivation and emotion, and social relationships will be explored.

PSYCH 205 Psychology of Adjustment (3-0) 3 Cr. Hrs.
Prerequisite: Twenty-six hours of transferable credit or consent of department.
Factors and processes involved in the adjustment of the individual to personal and social environment are the main focus of this course. Essentials for the development of an effective and mentally healthy individual are emphasized. Foundations for adjustment, personal lifestyle adjustment, interpersonal relationships, adjustment throughout life and coping with maladjustment are major areas of study.

PSYCH 207 Social Psychology (4-0) 4 Cr. Hrs.
Prerequisite: PSYCH 201.
Regarded as a core area in psychology, social psychology examines the influence of social factors on human behavior. Particular topics include aggression, prejudice, group processes, attitude formation, the law, prosocial behavior, interpersonal attraction, and social cognition.

PSYCH 209 Child Psychology (3-0) 3 Cr. Hrs.
Prerequisite: PSYCH 201.
This course examines the general characteristics of development, development of social behavior, feelings, emotions, language, growth of understanding and interests, with emphasis on personality and problems of adjustment.

PSYCH 219 Adult Development (3-0) 3 Cr. Hrs.
Prerequisite: Twenty-six hours of transferable credit or consent of department. Successful completion of PSYCH 201 is highly recommended.
This course studies adult development and aging. It focuses on the developmental changes related to biological, psychological, and social processes. Coping strategies and intervention techniques will be examined.

PSYCH 229 Life-Span Developmental Psychology (4-0) 4 Cr. Hrs.
Prerequisite: PSYCH 201.
Human development from conception through death is examined. Biological, cognitive, and psychosocial development topics are explored with an understanding of the theories and research findings across the life-span.

QUALITY MANAGEMENT

Associate Dean Bruce Sweet, MA
Instructors: Adjunct Faculty

QM 106 Introduction to Quality Systems (3-0) 3 Cr. Hrs.
Prerequisite: None.
This course is an introduction to quality improvement practices in business, technology and service industries. Through the enhancement of knowledge and using basic problem-solving techniques, including Cause and Effect diagrams, Pareto diagrams, Scatter diagrams, and related analytical methods, students develop a better understanding of effective problem-solving techniques applicable to manufacturing and non-manufacturing industries.

QM 107 Quality Planning and Team Building (3-0) 3 Cr. Hrs.
Prerequisite: None.
Planning effective quality systems including error prevention through team building to support both recommended procedures and customer satisfaction is emphasized. Students will be introduced to planning methods, Six Sigma Methods, Quality Function Deployment (QFD), Failure Mode and Effects Analysis (FMEA), and new quality related programs used in process/product development validation. Control plans and teamwork will be used to demonstrate the dynamics of synergism in groups.

QM 108 Quality Statistical Methods (3-0) 3 Cr. Hrs.
Prerequisite: MATH 113.
Analysis related to statistical process control (SPC) and other analytical techniques are directed toward defect prevention, systems improvement and customer satisfaction. Students will be introduced to statistical methods, theory and charting including X-Bar charts, R, P, NP, P, C and U and their application. Topics also include process identification and capability (Cpk) analysis.

QM 112 Six Sigma Methods (3-0) 3 Cr. Hrs.
Prerequisite: QM 108 or consent of department.
Managing and facilitating effective quality systems requires a systematic approach to employee commitment. Topics covered in this course include identifying strengths and weaknesses in current systems, establishing plans, confirming objectives, training for team effectiveness and methods of feedback analysis to support efforts in Six Sigma.
### SOCIOLOGY

- **SOC 201 Principles of Sociology (3-0) 3 Cr. Hrs.**  
  *Prerequisite: None.*  
  This course is a survey of the major theoretical perspectives, concepts and methods of sociology. Topics covered in this course include social organization, culture, socialization, stratification systems, social institutions and social change.

- **SOC 205 Social Problems (3-0) 3 Cr. Hrs.**  
  *Prerequisite: SOC 201.*  
  Consideration of current social problems, such as family stability, racism, sexism, poverty, crime, urbanization and ecological problems using sociological theory and recent empirical studies will be introduced. Analysis of sociocultural factors underlying these problems and possible solutions will be explored.

- **SOC 209 Marriage and Family (3-0) 3 Cr. Hrs.**  
  *Prerequisite: None.*  
  A study of the impact that changes in society have had on gender roles, sexual relationships, marriage and family life. The course considers diversity in family patterns, norms and values. Topics covered in the course include gender roles, sexual behavior, mate selection, problems of marital adjustment, family stability and crisis, divorce and parenting.

- **SOC 210 Cultural Diversity (3-0) 3 Cr. Hrs.**  
  *Prerequisite: None.*  
  This course is an analysis of racial and ethnic diversity in the U.S. in relation to evolving social, economic and cultural factors. Various American minority cultures are studied with an emphasis on education, politics, religion and the resulting cultural effects. Sociological and psychological concepts and theories will be explored. The impact of the current wave of immigrants to the U.S. will be discussed and the incidents of hate crimes will be explored.

- **SOC 220 Urban Sociology (3-0) 3 Cr. Hrs.**  
  *Prerequisite: SOC 201 or ANTH 112 recommended.*  
  This course is a survey of the origin and development of cities and the processes of urbanization. A discussion of the ecology and social organization of urban life will be held. The special problems and realities of urban society will be covered as well as perspectives for the future.

- **SOC 290 The Individual and Community—An Honors Capstone Course (3-0) 3 Cr. Hrs.**  
  *Prerequisite: HUM 190.*  
  A required conclusion to the Schoolcraft Scholars honors program, this capstone course examines individual, social structural, and social institutional relationships through multiple disciplines. Students will identify and analyze social and cultural trends and issues. During the course, students will complete and present results of service-learning projects.

- **SPAN 101 Elementary Spanish 1 (4-0) 4 Cr. Hrs.**  
  *Prerequisite: None.*  
  This course provides the fundamentals of pronunciation, basic grammar structure, and essential vocabulary, with particular emphasis placed on speaking and understanding Spanish. Practice in written Spanish will be given by means of dictation and easy translation.

- **SPAN 102 Elementary Spanish 2 (4-0) 4 Cr. Hrs.**  
  *Prerequisite: SPAN 101 with grade of 2.0 or better or one year of high school Spanish or consent of instructor.*  
  This course is a continuation of SPAN 101 and will continue emphasis on the spoken language and reading of graded materials in Spanish for comprehension without translation. There will be extensive use of Spanish in the classroom.

- **SPAN 201 Intermediate Spanish 1 (4-0) 4 Cr. Hrs.**  
  *Prerequisite: SPAN 102 with grade of 2.0 or better or two years of high school Spanish or consent of instructor.*  
  This course is a continuation of SPAN 102. The course will include the review and application of essential principles of Spanish grammar structure and training in idiomatic usage through oral and written exercises. The course will also include intensive practice of the spoken language; reading of representative Spanish prose for comprehension; development of ability to read rapidly without translation.

- **SPAN 202 Intermediate Spanish 2 (4-0) 4 Cr. Hrs.**  
  *Prerequisite: SPAN 201 with grade of 2.0 or better or three years of high school Spanish or consent of instructor.*  
  This course is a continuation of SPAN 201. The course will place emphasis on oral skill, conversation, and reading without translation.
THEATRE

Associate Dean: Cheryl D. Hawkins, MS
Instructor: Professor James R. Hartman, EdM

Schoolcraft College offers opportunities for students who wish to study drama and perform in the theatre program. Enrollment in classes is open to majors and minors and to any student with a sincere interest in theatre. Students enrolled in the theatre program are able to earn 27 credit hours during a two-year period with all credits transferable to a four-year institution; an example of such a program appears in the program area of the catalog.

Schoolcraft College now grants an academic Theatre scholarship to a current Theatre major.

Since September 1977, the Theatre Department has adopted a dinner-theatre format for production and provides an exciting experience in this popular kind of entertainment; usually two-three plays are produced annually.

THEA 101 Introduction to Theatre (3-0) 3 Cr. Hrs.
Prerequisite: None.
A survey course which examines all the elements of theatre: actor, director, playwright, scenery, costumes, makeup, lighting, sound, audience, theatre publicity, theatre management, and critic.

THEA 120 Theatre Activities 1 (1-0) 1 Cr. Hr.
Prerequisite: None.
Brief introduction to theatre activities, including primarily technical and dramatic production with minimum hours spent working on or in the current production.

THEA 121 Theatre Activities 2 (1-0) 1 Cr. Hr.
Prerequisite: THEA 120.
This course is a continuation of THEA 120 and will continue to explore all the elements of theatre: actor, director, playwright, scenery, costumes, makeup, lighting, sound, audience, theatre publicity, theatre management, and critic.

THEA 204 Stage Makeup (2-0) 2 Cr. Hrs.
Prerequisite: None.
An introductory course in stage makeup application. The course covers basic makeup, character makeup, old-age makeup, and special effects. Discussion on types of makeup and practical student application projects.

THEA 207 Stagecraft and Lighting (3-0) 3 Cr. Hrs.
Prerequisite: None.
This is a course that investigates the stage designs and lighting theories with a practical application through work on the college production. The course teaches the basic knowledge of set construction, lighting and its equipment, costume construction, makeup techniques, and costume maintenance.

THEA 208 Acting 1 (3-0) 3 Cr. Hrs.
Prerequisite: None.
A beginning course in acting to prepare the actor for acting. Training in voice and body development that not only is applicable to the stage, but to daily life. Exercise work in concentration, relaxation, awareness, sensitivity, and body alignment will be introduced. This exercise work is applied to scene work from modern drama.

THEA 209 Acting 2 (3-0) 3 Cr. Hrs.
Prerequisite: THEA 208 or permission of the professor.
An advanced course in the preparation of an actor for acting. Training in voice and body development, with an emphasis on studying and applying the Stanislavski Method and the Alexander Technique of body alignment will be taught. The course includes presentation of scenes from classical and modern plays.

THEA 220 Theatre Activities 3 (1-0) 1 Cr. Hr.
Prerequisite: THEA 121.
This course is a continuation of THEA 121 and will continue to explore all the elements of theatre: actor, director, playwright, scenery, costumes, makeup, lighting, sound, audience, theatre publicity, theatre management, and critic.

THEA 221 Theatre Activities 4 (1-0) 1 Cr. Hr.
Prerequisite: THEA 220.
This course is a continuation of THEA 220 and will continue to explore all the elements of theatre: actor, director, playwright, scenery, costumes, makeup, lighting, sound, audience, theatre publicity, theatre management, and critic.

THEA 231 History of Theatre 1 (3-0) 3 Cr. Hrs.
Prerequisite: None.
The development of dramatic art and practice from ancient times to the end of the 18th century, stressing the evolution of the physical theatre and dramatic forms in relation to contemporaneous production facilities and innovations will be explored.

THEA 232 History of Theatre 2 (3-0) 3 Cr. Hrs.
Prerequisite: None.
The development of dramatic art and practice from the beginning of the 19th century to the present, stressing the evolution of the physical theatre and dramatic forms in relation to contemporaneous production facilities and innovations will be explored.

THEA 241 Oral Interpretation of Literature (3-0) 3 Cr. Hrs.
Prerequisite: THEA 208 and COMA 103.
This course is designed to give students an understanding of Oral Interpretation of Literature through a two-fold technique: one, by practical experience in interpretive readings in various types of literature, and two, by study of techniques used in the textbook. The class emphasizes the performance of literature through the use of the voice and body.

Instructor: Professor James R. Hartman, EdM
Associate Dean: Cheryl D. Hawkins, MS

THEA 209 Acting 2 (3-0) 3 Cr. Hrs.
Prerequisite: THEA 208 or permission of the professor.
An advanced course in the preparation of an actor for acting. Training in voice and body development, with an emphasis on studying and applying the Stanislavski Method and the Alexander Technique of body alignment will be taught. The course includes presentation of scenes from classical and modern plays.

THEA 220 Theatre Activities 3 (1-0) 1 Cr. Hr.
Prerequisite: THEA 121.
This course is a continuation of THEA 121 and will continue to explore all the elements of theatre: actor, director, playwright, scenery, costumes, makeup, lighting, sound, audience, theatre publicity, theatre management, and critic.

THEA 221 Theatre Activities 4 (1-0) 1 Cr. Hr.
Prerequisite: THEA 220.
This course is a continuation of THEA 220 and will continue to explore all the elements of theatre: actor, director, playwright, scenery, costumes, makeup, lighting, sound, audience, theatre publicity, theatre management, and critic.

THEA 231 History of Theatre 1 (3-0) 3 Cr. Hrs.
Prerequisite: None.
The development of dramatic art and practice from ancient times to the end of the 18th century, stressing the evolution of the physical theatre and dramatic forms in relation to contemporaneous production facilities and innovations will be explored.

THEA 232 History of Theatre 2 (3-0) 3 Cr. Hrs.
Prerequisite: None.
The development of dramatic art and practice from the beginning of the 19th century to the present, stressing the evolution of the physical theatre and dramatic forms in relation to contemporaneous production facilities and innovations will be explored.

THEA 241 Oral Interpretation of Literature (3-0) 3 Cr. Hrs.
Prerequisite: THEA 208 and COMA 103.
This course is designed to give students an understanding of Oral Interpretation of Literature through a two-fold technique: one, by practical experience in interpretive readings in various types of literature, and two, by study of techniques used in the textbook. The class emphasizes the performance of literature through the use of the voice and body.
WELDING

Associate Dean: Bruce Sweet, MA
Instructor: Assistant Rodney Johnson, CWE, CAWI, CHMM
Adjunct Faculty

WELD 110  Introduction to Welding—Fabrication Basics
(2-2) 3 Cr. Hrs.
Prerequisite: None.
This class serves as an introduction for individuals that have no welding or fabrication experience in various welding and fabrication processes. Covered in the course will be the set up and safe operation of gas welding and brazing, shielded metallic arc welding, gas metallic arc welding, gas tungsten arc welding, resistance welding, gas cutting and plasma cutting equipment as well as the safe set up and operation of equipment found in a welding fabrication facility. This class produces a good foundation for WELD 113 and is recommended for students interested in art and related metallic sculpture.

WELD 111  Project Mathematics (2-2) 4 Cr. Hrs.
Prerequisite: None.
A mathematics course covering basic skills needed to increase the quantitative literacy of skilled welders in engineering and industrial practice. Welding related problems are designed to increase understanding of basic mathematics as they relate to linear, angular, four sided, triangular and circular measurements. Topics covered in the course also include volumetric measurement of conventional shapes as well as irregular shaped objects, weight calculation and calculations used in bending metals.

WELD 113  Shielded Metallic Arc Welding (S.M.A.W.) (2-2) 3 Cr. Hrs.
Prerequisite: None.
Theory and fundamentals of oxy/fuel cutting, welding, soldering, brazing, chemical bonding, resistance and shielded metallic arc welding, joining and fabricating, and welding metallurgy will be explored. Emphasis will be on basic welding skills and welding metallurgy, and the establishment of sound work habits. The course is designed to provide a foundation for more advanced courses.

WELD 115  Gas Metallic Arc Welding (G.M.A.W. or M.I.G.) (2-2) 3 Cr. Hrs.
Prerequisite: WELD 113 or consent of the department.
Theory and fundamentals of gas metallic arc welding, commonly referred to as M.I.G. welding, will be explored. This method of fusion of metals is widely used and is the fastest growing segment of the metal working industry. Emphasis will be on basic skill development and the establishment of sound work habits. The course is designed to provide entry level employability and a solid foundation for more advanced courses.

WELD 118  Adhesive Joining Technology (1-3) 4 Cr. Hrs.
Prerequisite: WELD 113 and MET 114 or consent of department.
Adhesive joining technology concentrates on the design and assembly of metallic, nonmetallic materials including ceramics. Two major categories, structural and non-structural adhesive bonding as well as adhesives selection, joint design, methods of surface preparation and joint evaluation will be compared to general mechanical joining techniques.

WELD 119  Gas Tungsten Inert Arc Welding (G.T.A.W. or T.I.G.) (2-2) 3 Cr. Hrs.
Prerequisite: WELD 113 or consent of the department.
Theory and fundamentals of gas tungsten arc welding (G.T.A.W.) will be explored. This method of metal fusion is capable of producing very high quality welds in virtually all metals and one of the few methods of welding some of the more difficult to weld metals. The course is designed to provide entry level employability and solid foundation for more advanced courses.

WELD 120  Advanced Processes—Stick Electrode and M.I.G. Welding (2-2) 3 Cr. Hrs.
Prerequisite: WELD 115 or consent of the department.
The student will gain additional knowledge and experience in both shielded metallic and gas metallic arc welding. Welding will be performed in all positions; flat, horizontal, vertical and overhead. The class will introduce the student to pipe cutting, pipe welding on heavy sections. Material will be formed and fabricated using power and hand operated tools and equipment. Student will design, cost estimate, procure materials and fabricate a student project.

WELD 130  Advanced Processes—Gas Tungsten Ceramic and Polymer Welding (2-2) 3 Cr. Hrs.
Prerequisite: WELD 119 or consent of department.
This course consists of gas tungsten arc welding of high carbon steel, tool steels, stainless steel, aluminum, magnesium and copper. Plasma cutting of ferrous and non-ferrous metals will be stressed. Metal surfacing including thermal spraying, bonding ceramic and polymers will be performed on a variety of materials.

WELD 205  Welder’s Print Reading (1-1) 2 Cr. Hrs.
Prerequisite: WELD 120.
Welder’s print reading provides detailed information to help welding students develop skills necessary to interpret working sketches and prints common to the welding/metalworking field. In addition, the welding student will gain knowledge in how to interpret conventional drafting symbology and specialized welding symbols and will have the opportunity to perform welds on test plates that are indicated by the welding symbols.

WELD 206  Welding Inspection and Qualification (1-1) 2 Cr. Hrs.
Prerequisite: WELD 205.
Quality welders are in demand today. It is important that these welders possess a working knowledge of weld test equipment and qualification as well as be able to test and evaluate welds. Proper use of weld test gages and equipment, dye penetrant, fluorescent dye penetrant, magnetic particle and destructive testing equipment and techniques will be covered.

WELD 223  Fabrication (2-4) 4 Cr. Hrs.
Prerequisite: WELD 120 and WELD 130 or consent of department.
Fabrication of student/instructor selected projects will be the format for this course. Emphasis will be on the development of fabrication techniques, including design, material selection, layout, material preparation and use of fixtures. Welding skills developed in WELD 120 and WELD 130 will be applied. There will be an opportunity for students to further investigate other industrial welding processes.
WELD 262  Welding Metallurgy (1-2) 3 Cr. Hrs.
Prerequisite: None.
Welding metallurgy includes the influence of alloy composition, filler materials, fluxes and thermal interactions on the structure and properties of metals. Topics covered in the course will include the chemical, mechanical, and physical properties of metals, mechanical behavior, microstructure and post-weld heat treating.

PREPARATION FOR WELDING CERTIFICATION EXAMINATION(S)
There is a greater need today than ever before for “Certified Welders” who demonstrate their competence by passing performance examinations of their work. Although Schoolcraft College is not in the business of qualifying or certifying welders, we can duplicate these tests, provide instruction in the proper welding procedure and provide the appropriate testing equipment to examine and evaluate the results.

WELD 210  Preparation for Welder Certification in Shielded Metallic Arc Welding (S.M.A.W.) (2-2) 3 Cr. Hrs.
Prerequisite: WELD 113 or extensive welding experience.

WELD 211  Preparation for Welder Certification in Gas Metallic Arc Welding (G.M.A.W./M.I.G.) (2-2) 3 Cr. Hrs.
Prerequisite: WELD 115 or extensive welding experience.

WELD 212  Preparation for Welder Certification in G.T.A.W./T.I.G. (2-2) 3 Cr. Hrs.
Prerequisite: WELD 119 or consent of the department.

WELD 213  Preparation for Welder Certification in S.A.W. (2-2) 3 Cr. Hrs.
Prerequisite: WELD 130 or consent of the department.

WELD 214  Preparation for Welder Certification in Pipe Welding (2-2) 3 Cr. Hrs.
Prerequisite: WELD 130 or consent of the department.

Schoolcraft College assures that the lack of English skills will not be a barrier to admission into instructional programs. Information in the catalog and schedule of classes is available to limited English proficient students. Please contact Dr. D. Daiek, Learning Assistance Center, 734-462-4436, if you have further questions.

For Spanish Speaking Persons:
Si usted quiere recibir esta información en español, favor de llamar a la Dra. D. Daiek, 734-462-4436. El colegio universitario de Schoolcraft asegura que la falta de habilidad en inglés no será impedimento para personas que quieran ingresar.

About this Catalog
Schoolcraft College has published this Catalog for information purposes only and its contents do not constitute a contract between this institution and prospective or enrolled students.

The information contained in this general College Catalog reflects the current curricula, policies and regulations of the College. However, these are subject to change at any time by action of the Board of Trustees or the administration.

It is the policy of Schoolcraft College that no person shall, on the basis of race, color, national origin, gender, age, marital status, or handicap, be excluded from participating in, be denied benefits of, or be subjected to discrimination during any program or activity or in employment.

About the Cover
Front cover images are from Culinary Arts, Bradner Library, Henry’s Food Court, Physical Education Building, McDowell Center, and Bookstore.

Back cover images are from Applied Sciences Building, Bradner Library and Physical Education Building.

Produced by Marketing
In cooperation with Student Services and the Office of Instruction.

*It is the policy of Schoolcraft College that no person shall, on the basis of race, color, national origin, gender, age, marital status, creed or handicap, be excluded from participating in, be denied benefits of, or be subjected to discrimination during any program or activity or in employment.*
New Student Checklist

All the steps that lead to registration take place in the McDowell Center and are listed below:

- Apply for admission. Complete an application for admission and submit it to the Office of Admissions. You can also apply online at www.schoolcraft.edu. Your Student Number is: ____________________________

- Visit our campus. Call 734-462-4426 to schedule a guided campus tour. You also can view a virtual tour of campus at www.schoolcraft.edu.

- Submit transcripts. Send your high school transcripts or GED scores and any official college transcripts to the Office of Admissions.

- Explore financial aid and scholarship opportunities. Apply online at www.fafsa.ed.gov and list the Schoolcraft College code—002315.

- Send in your ACT or SAT scores or take a placement test. If you have taken an ACT or SAT test within the last three years, send your scores to the College. If not, placement testing is available in the Assessment/Testing Center. Call 734-462-4806. Sample placement questions are available at www.schoolcraft.edu/assessment.

- Participate in orientation. Orientation is available on campus or online at www.schoolcraft.edu. Visit or call the Counseling Center at 734-462-4429 to make arrangements.

- Meet with an advisor or counselor. Visit or call the Counseling Center at 734-462-4429.

- Register for classes. Register online, call 734-462-4800, or visit the Registrar’s Office.

- Choose a payment method. Pay for classes online, by phone at 734-462-4449, in person at the Cashier’s Office, or by using FACTS, a tuition management plan. Payment arrangements must be made the same day you register.

- Get a student identification card at the Office of Admissions. Bring picture identification and a copy of your current class schedule.

- Enjoy your classes and have fun!
