Virginia Froehlich

Plants That Will Make You Itch and Make You Twitch... And Maybe Even Kill You!

With the increased popularity of personal and community gardening in today's society comes an increased responsibility to learn about the dangers lurking in the plant kingdom. Virginia Froehlich will take a humorous, yet informative, look at "plant criminals" we may be harboring in our homes and gardens. As a MSU Extension Advanced Master Gardener, she has spoken at Master Gardener conferences and garden clubs throughout southeast Michigan. She has served as a Past District I Director of Michigan Garden Clubs, Inc.; Immediate Past President of Ikebana International, Detroit Chapter 85, and Past President of the Grosse Ile (Michigan) Garden Club. She is also currently certified as a National Garden Clubs, Inc., Gardening Consultant and Landscape Consultant.
