Surgical Technology AAS

Information and Application Packet 2022-23

Program Description

The objective of the Surgical Technology degree is to offer the student an opportunity to become an integral member of the surgical team as well as an allied health professional. This program will utilize a combination of classroom, lab, and clinical experiences to facilitate student learning. Multiple teaching delivery methods will cover concepts such as; the principles of asepsis, application of sterile technique, and surgical pharmacology. Students will demonstrate competency knowledge of perioperative case management prior to entering a clinical internship. The clinical experience will continue the education of the student by offering hands-on surgical patient care through multiple surgical service specialties. Students will work under the auspice of the surgeon as well as the surgical team to gain the scrub experience required for eligibility to sit for the national CST (Certified Surgical Technologist exam) credentialing exam offered through the NBSTSA (National Board of Surgical Technology and Surgical Assisting).

The didactic and clinical learning experiences require *approximately 40 hours of participation per week in the second year of the program*. Educational facilities located within Schoolcraft College include state-of art classroom and clinical training resources designed to promote an exceptional educational experience.

Application Requirements

The Surgical Technology Program requires an application (attached to the end of this packet). To be admitted to the program you must complete the following:

1. Apply to Schoolcraft College	Apply to Schoolcraft College on-line at schoolcraft.edu/apply
2. Transcripts	It is recommended you request official undergraduate transcripts from all colleges and universities previously attended. Transcripts must be sent directly from the issuing college or university to Schoolcraft College. To confirm that transcripts have been received, contact the Answer Center at 734-462-4426.
3. Academic Advising and Assessment	This program requires minimum assessment levels or course work in the areas of math, reading and writing. You need to meet with an academic advisor to develop an academic plan. The advisor can determine if an assessment test is necessary and if foundation courses are needed. Students with prior college level work or a degree may be exempt from placement testing. Students who have submitted SAT or ACT scores that are less than three years old to the Admissions and Welcome Center may also be exempt from assessment testing. Contact the Academic Advising Office at 734-462-4429 to make an appointment.
4. College Prerequisite Coursework	Complete HIT 100 or HIT 104 or equivalent with a grade of 3.0/B or higher. Complete BIOL 243 Microbiology or equivalent with a grade of 3.0/B or higher.
