

Emergency Medical Technician: Paramedic Program

Information and Application Packet 2020-2021

Program Description

Paramedics are on the front-line of emergency medical care, and Schoolcraft can help students prepare for a career in this fast-paced profession by earning either a certificate or an associate of applied science degree.

- Paramedic courses are offered at the Radcliff Center in Garden City.
- The paramedic certificate prepares students for employment as a pre-hospital emergency medical provider, while the associate in science degree enables students to qualify for a job as an emergency provider. The rigorous programs include a combination of lecture, laboratory, clinical and internship experience to give students a solid foundation in the field of emergency medical technology. Every course is approved by the Michigan Department of Community Health EMS and Trauma Systems Section.
- Students achieving an 80 percent or higher in the required courses will receive a certificate of completion and be eligible to test for state licensure.
- Credits earned in the certificate program will count toward the Paramedic AAS degree and may transfer toward a bachelor's degree at a four-year college or university. Students should work closely with an advisor to ensure best course transferability.

Application Requirements

The Emergency Medical Technician -Paramedic Program requires an application (attached to the end of this packet). To be admitted to the program the student must complete the following:
