3-Wheel Basic RiderCourse (3WBRC) | *Can-Am Ryker, Spyder Riders*

Schoolcraft College is pleased to offer 3-Wheel Rider Education in partnership with Bombardier Recreational Products (BRP) Can-Am. This program consists of three-wheel motorcycle education using the Motorcycle Safety Foundation's 3-Wheel Basic RiderCourse (3WBRC) curriculum. BRP Can-Am provides their Ryker and Spyder models for training purposes, and Schoolcraft College provides its MSF-certified RiderCoaches.

This course is designed for someone who has little or no experience operating a three-wheel motorcycle, and it focuses on the development of basic riding skills: clutch and throttle coordination, straight-line riding, braking, turning, and shifting. Can-Am training motorcycles are provided. Privately owned motorcycles are NOT permitted. Sharing may be required.

Instruction consists of approximately 18 total hours – 8 hours of classroom instruction, 8-10 hours of hands-on instruction, and 2 hours of evaluation and testing.
