Drop Off/Pick Up For Camps on Main Campus

- The map below shows the designated drop off/pick up locations for children attending from 9am-3pm who are not registered for Before & After Care. Drop off time is 8:50 am and pick up time is 3:00 pm. Kids on Campus staff aides will walk children to and from their camps.
- Arrive promptly at the designated drop off/pick up times. The parent/guardian is responsible for walking children to their camp if they arrive after 8:50 am and the group has already left the drop off area. If a parent is late picking up a child, the child will be taken to the Before & After Care room (LA440) and a fee of \$1 per minute will be assessed.
- Drop off/pick-up locations are marked with a Kids on Campus flag at the building where your children's camp is located. The drop-off/pick-up location for camps held in BTC classrooms is at the Forum building. The drop-off/pick-up location for camps held in the PE classrooms is at the Liberal Arts building.
- **Though we recommend that parents of children under 12 years of age escort their children to and from their camps, we offer these drop-off/pick-up locations for grades 3+ for your convenience. Parents of 1st and 2nd graders should always escort their children to and from their camps.**
- In the event of heavy rain or other severe weather conditions, children will either be kept inside the building where their camp is located or be walked to their normal drop off/pick up area and be kept inside the nearest exit door to that building. Parents will need to park and come inside to pick up their children. Please be patient as drop/off and pick/up on these days may take longer than usual.
- Children registered for Before & After Care may be dropped off between 8 and 9am and picked up between 3 and 5:30pm. Parents must escort campers to and from the Before & After Care room (LA440). Campers must check in upon arrival and before departing.
- **Note: Before & After Care is not available for students enrolled in the following: all camps for grades 9-12 (pages 22-23), all Academic Skills Classes (pages 25-28), and camps at the Manufacturing & Engineering Center. Parents must make their own drop off/pick up arrangements for their children enrolled in those camps.**

Online registration is strongly recommended—students will be enrolled immediately depending on class availability.
