

Basic RiderCourse (BRC) - Web Enhanced | *Beginning Riders*

This course is designed for someone who has little or no experience operating a motorcycle, and it focuses on the development of basic riding skills: clutch and throttle coordination, straight-line riding, braking, turning, and shifting. **Training motorcycles are provided.** Privately owned motorcycles are **NOT** permitted. The course also provides a fast track to *motorcycle endorsement* (CY); successful completion results in a certificate that waives the written knowledge test and riding-skill test, which would otherwise be administered by the Secretary of State and a third-party testing agency, respectively.

Instruction consists of approximately 17 total hours – 5 hours of online preparation to be completed prior to your class start date and 12 hours of hands-on training, activities, evaluation, and testing. **Standard Weekend students need to be available, but not necessarily on-site, for all of Saturday and Sunday. Students are placed into groups on Friday; Group A rides in the morning, and Group B rides in the afternoon. Please reserve any requests for your instructor on Friday.**

Prerequisites
