

MOBILITY INDUSTRY: MOVING AT THE SPEED OF TECHNOLOGY

Angileri Quality Institute Symposium
Friday, March 6, 2026 ♦ 8:30 a.m.-12 p.m.

The 11 Technologies Transforming Mobility and Advanced Manufacturing

Keynote Speaker
Matt Kirchner, *President of ATS/Lab Midwest*

Mobility and advanced manufacturing are being reshaped by rapid advances in areas like electrification and battery systems, autonomous and perception technologies, smart sensing and vision, advanced materials, and high-performance compute. They are changing how products are designed, how factories run, and what skills are required

across engineering, operations, maintenance, and the broader workforce ecosystem.

Attendees will leave with a clearer picture of what's next for advanced manufacturing and mobility in Michigan, what these technology shifts mean for technical roles, and where talent strategies - short-term training, new credentials, and industry-led partnerships - must evolve to keep pace.

Additional Symposium Topics:

- Industry Response to a Changing Landscape
- Schoolcraft College's Electrified Mobility Program
- AI's Impact on the Mobility Industry

MOBILITY INDUSTRY: MOVING AT THE SPEED OF TECHNOLOGY

Angileri Quality Institute Symposium

Friday, March 6, 2026

Audience: Industry experts, recruiters/HR staff, educators. Current and future students.

Purpose: Strengthen the manufacturing/automotive talent pipeline with a focus on EV.

Goal: Provide Schoolcraft College students with an opportunity to connect to industry.

8:30 a.m. VT 500 & VT 701	Registration, Breakfast & Networking
9:00 a.m. VT 550	Opening of Symposium Dr. Robert Leadley, Chief Workforce & Economic Development Officer, Schoolcraft College (event MC) <ul style="list-style-type: none"> • Introduction of Elected Officials, BOT & Foundation BOG Present • Acknowledgement of Frank Angileri, Founder of the Angileri Quality Institute
9:10 a.m. VT 550	Keynote Speaker – The 11 Technologies Transforming Mobility and Advanced Manufacturing Matt Kirchner, President of ATS/Lab Midwest
10:00 a.m. VT 550	Session 1 – Industry Outlook – Adjusting to a Rapidly Changing Landscape Facilitator: Dr. Lisa Krusemark, Center for Automotive Research (CAR) <ul style="list-style-type: none"> • Mike Johnston, Executive Vice President of Government Affairs and Workforce Development, Michigan Manufacturing Association (MMA) • Justin Allen, Director of Engineering, Bosch LLC • Wayne Uhrick, Director, Global Launch and Supplier Quality Engineering, DAUCH • Dan Radomski, CEO, Centrepolis Accelerator, Lawrence Technical University
11:00 a.m. VT 701	Refreshment & Networking Break
11:15 a.m. VT 550	Session 2 – Schoolcraft College’s Electrified Mobility Program <ul style="list-style-type: none"> • Jessica Krueger-Koupal, Project Coordinator, Schoolcraft College Workforce & Economic Development • University of Michigan Electric Vehicle Center • Lee Smith, Senior Learning & Development Specialist, Roush Industries
11:30 a.m. VT 550	Session 3 – AI’s Impact on the Mobility Industry <ul style="list-style-type: none"> • Rajeev Kalamdani, Director of Manufacturing & IIoT Analytics, Ford Motor Company • Mario Herrera, Senior Manager, Digitalization & AI, Robert Bosch Mexico
12:00 p.m.	Symposium Closing Remarks Dr. Robert Leadley, Chief Workforce & Economic Development Officer, Schoolcraft College
