MASTER THE FUTURE OF ROBOTIC WELDING

ARCTOOL OPERATIONS & PROGRAMMING ROBOTIC WELDING TRAINING

Course Highlights:

- Robot setup and calibration
- ARCTool software navigation
- Welding program creation & editing
- Safety procedures and fault recovery
- Real-world robotic welding applications

Why Join?

- Learn to operate FANUC robots with ARCTool software
- Hands-on robotic welding programming & safety
- Industry-standard SACA certification upon completion
- Perfect for beginners & professionals upgrading skills

Location:

Schoolcraft College Manufacturing & Engineering Center
13001 Merriman Road, Livonia, MI 48150

Who Should Attend?

- Welders and fabrication professionals
- Manufacturing & automation technicians
- Engineering students and instructors
- Anyone interested in robotics and automation
