

MEDICAL IMAGING

Post-Certificate Programs in Medical Imaging

Why Advance with Schoolcraft College?

Boost your professional credentials in high-demand imaging specialties, including CT, MRI, Musculoskeletal Ultrasound (MSK), Vascular Ultrasound (VU), and Vascular Interventional Radiology (VI).

Gain the **structured, didactic education** required to qualify for post-primary certification exams in your chosen modality.

Enjoy the flexibility of **fully online programs**, designed to support working technologists. MSK and VU programs also include **video-based scanning skills** demonstrations to enhance clinical technique.

Increase your earning potential — imaging professionals can earn **\$88,180+**, depending on specialization and experience.
