

MECHATRONICS

Companies are looking to hire people who understand industry machinery, and are able to troubleshoot connected systems to maintain production in fields as diverse as aerospace, robotics, energy, and automotive. The forecast is bright in mechatronics and you can train in as few as **one to two semesters** while earning a credential from Smart Automation Certification Alliance (SACA).

What Time Works for You?

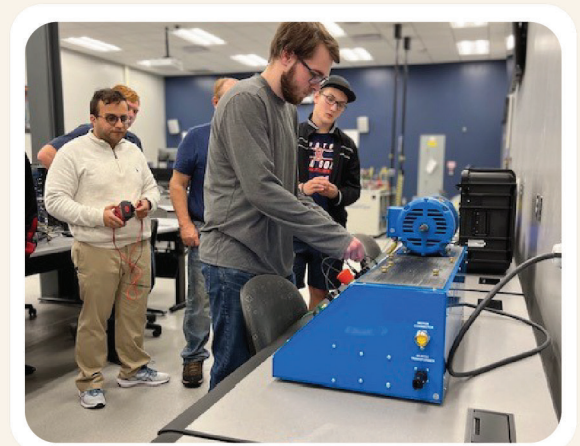

Courses: **MECHATRONICS**

Location: Manufacturing & Engineering Center
13001 Merriman Road Livonia, MI 48150

Times: MECH101 Sat 9:00am - 1:54pm
January 31, 2023 - May 01, 2023

MECH111 Wed 5:30pm - 9:22pm
January 09, 2023 - May 01, 2023

MECH131 Tue 6:00pm - 9:52pm
January 09, 2023 - May 01, 2023

Fall 2022 Mechatronics Students
